dress full of reminiscences of early Methodism in St. John. A short report of the Society's operations was given by Rev. C. Stewart; and short but animated and excellent addresses were afterwards given by the Revs. J. England, W. W. Perkins, D. Chapman, (of Fairville,) W. H. Heartz, J. R. Narraway, A. M., J. B. Strong, and by Messrs. Jas Sullivan, T. Stubbs, Geo E. King, M. P. P., and T. C. Humbert. Some of the oldest members of the congregation affirm that the occasion was never surpassed in the variety and interest of the addresses, or in the hallowed tone of the service, by any similar meeting held in the same place. The collection, was, for these times, good; and it is hoped that the subscriptions will be augmented by the delightful anniversary meeting which has just been held.

This, Thursday, evening, at 7 o'clock, the second public meeting of the series will be held in the Centenary Church, and on Friday evening at the same hour a similar meeting will be held in the Portland Wesleyan Church. The same speakers will be present. A public collection will be made at the close of each service.—*St. John Paper.*

Mr. Theriault has been returned for the seat in the representation of Victoria County in the Local Legislature of N. B., rendered vacant by the death of Mr. Hibbert, beating three opponents.—*News.*

FIRE.—The residence of Mr. Joshua Hillman, together with his farm produce—potatoes, turnips, flour, pork, etc, etc., and most of the furniture, was burned on Wednesday evening, 1st inst. There was no insurance on the property. The loss is estimated at $1,400. Mr. H's friends and neighbors have generously contributed towards repairing his losses.—*Fredericton paper.*

A most miraculous escape from death occurred on the Railway on Thursday week. A man named Hamilton was carrying or handling a keg of gunpowder when it exploded, fearfully shattering him, and injuring very severely a Mr. McKay, who was near by. Strange to relate, both the injured men are now in a fair way of recovery, but the positive amount of lasting injuries cannot yet be known. Hamilton will entirely lose one of his eyes. Dr. Campbell was in attendance, promptly rendering every assistance.—*Sentinel.*

Mr. Moses Austin, a man well known in this town and neighborhood, dropped dead at Mr. James Gallagher's door on Tuesday morning. Cause, disease of the heart. A Coroner's inquest was held by Dr. Connell, and a verdict in accordance with the facts rendered.—*Ib.*

DISCOVERY OF A LEAD MINE.—We were shown yesterday, by Mr. John H. Harding, specimens of ore found a short distance to the west of Quispamsis Station on the railway to Shediac. One of the samples is almost pure Lead—such as is used in the "sheet lead" with which tea chests are lined, and for an hundred other purposes; the other samples were smaller, but scarcely inferior in purity. A quantity of the ore has already been taken out. The seams—four in number—give some eight feet in thickness of the lead. It is not improbable that Silver will be found in the ore.—*Telegraph.*

THE POSTAL BILL (says the Quebec *Chronicle*) "has raised a very pretty hornet's nest in the Lower Provinces. The Antis are calling down the vengeance of the people on the heads of the Union Party—and they are obliged to eat the leak with as good grace as possible. The people down that way believe that the free circulation of the newspaper is one of the best school-masters they can have. Time and again they have defeated every project for taxing the news. Was it worth while to give the Antis party this whip over our Union friends, for such a miserable, contemptible tax as this Postal Bill seeks to impose? We think not."

The new Stamp Act will come into operation on 1st February.

United States.

The Senate has refused to sustain the action of President Johnson in suspending Stanton. The report of the Military Committee, disapproving of Mr. Stanton's suspension, has been followed by a resolution of thanks from the House to Genl. Grant for his protest against the action of the President, and a resolution condemning the President for the removal of General Sherman.

NEW YORK, Jan. 18.—An Havana letter of the 11th says:—"The city is full of startling rumors, which I have been unable to trace to any authentic source. There is a report that the garrison of Puerto Prince, P. R., have revolted because they have not received their pay. Another report is that the Spanish Minister at Washington had sent a telegram to the Captain General, directing that officer to hold the troops in readiness as the American fleet would pass by the island to take possession of St. Thomas, and would try to excite a revolt in Porto Rico, and that the people will vote for annexation to the United States as soon as St. Thomas shall have been transferred."

LONDON, Jan. 16.—It is reported that Lord Bloomfield, British Minister to Austria, and Lord Clarendon, have gone to Rome, to request the Pope to use his influence with the inhabitants of Ireland for the suppression of Fenian agitation.

The preliminary examination of the prisoner Lennox was concluded. Evidence was given to the effect that he was the leader of the attack on the Police at Stephinny last spring. He was held for trial on the charge of high treason.

The aggressive policy of the Russian Government causes much alarm in Turkey. The *Northern Post* of St. Petersburg has a noticeable letter on the subject. The writer declares that Russia does not desire an extension of territory, and her only aim to secure the safety of the subjects of the Porte.

The St. Petersburg Gazette asserts that both England and France have urged the Sultan to make extensive military and naval preparations in the Mediterranean.

The intelligence of the death of Maximilian was for the first time communicated to Carlotta four days ago. The effect of the announcement on the mind and health of the Archduchess is not known.

The remains of Maximilian were landed at Trieste, from the *Novara* this morning, with the most solemn ceremonies and in the presence of immense crowds of silent people gathered on buildings, piers and shipping. The cortege was escorted by a body of cavalry and consisted of the municipal government of Trieste, the Clergy in their vestments, and the hearse decked with flowers. The Dukes of the Empire, Admiral Tegethoff, Ambassadors of Foreign Nations, Austrian officials of high rank, Foreign Consuls, the various Corporations of the City and the people generally. A division of Infantry bringing up the rear. Profound respect was shown everywhere by the vast multitude who lined the streets and thronged the houses along the route of procession.

LONDON, Jan. 16th.—Considerable excitement was occasioned in this city to-day by the announcement that Fenian Deasey, who, with Kelly, was rescued from the custody of the police at Manchester some weeks ago, had been captured, The police late yesterday afternoon overhauled a man near Waterford, Ireland, who answers completely the description of Deasey. There are other strong circumstances with these which warrant the belief that the authorities have not been mistaken. The prisoner, under a strong guard, started for Manchester this morning, where he will be confined with the fellow-prisoners of Deasey for recognition. The Government officials are very vigilant. Yesterday p. m. two Americans, named Barrett and O'Neill, were arrested at Glasgow and imprisoned.—Papers found on their person indicate beyond doubt that they belong to Fenian organizations the motion recently made in the Court of Queens Bench for a change in the place of the trials of the Fenians Burke, Casey, Shaw, and Mulloney from Warwick to London is likely to be granted.

LONDON, Jan. 17th.—Information has been received here that a very violent hurricane recently prevailed at Teneriffe and vicinity. Ships were driven to sea, houses unroofed and blown down, and damage very great, though no mention of loss of life.

FLORENCE, Jan. 17.—The sales of the ecclesiastical estates, requested by the Italian Government, have so far been very productive; the sums realized at these sales show an average proportion of 43 per cent. in the value of the property since it was placed in the market.

LONDON, Jan. 18.—Consols 92 3 8; markets unchanged.

LONDON, Jan. 17th.—The Turkish Government is seeking to raise a loan in the English market, the proceeds of which are to be applied to improving navigation at the mouth of the Danube.

Advices from Hong Kong and Shanghai have been received, which state that another battle had been fought between the rebels and Imperialists at Shangtum. The Imperialist army, which was under the command of Footal, was again defeated.

CORK, Jan. 17.—A viol of explosive fluid known as Greek fire, was thrown yesterday at one of the witnesses for the Government in the Fenian trials; but the material failed to ignite, and no injury was done. No clue has been obtained to the perpetrator.

DUBLIN, Jan. 17, eve'g.—At the examination of Lennon yesterday, sergeant Kelly, the survivor of the two policemen who were shot at Cheapside, and a woman both swore that they fully recognized the prisoner as the man who fired the pistol shot which wounded one policeman and killed another.

LONDON, Jan. 18.—When the Cunard steamer *Scotia*, from New York for Liverpool, entered the port of Queenstown late last night for the usual transfer of the London and Irish passengers and mails, a strong police force quietly went aboard and arrested Messrs. George Francis Train, Grinnell and Gee, three of the passengers who sailed from New York. It is understood that these *gentlemen* were taken into custody on the charge of being active members of the American branch, of the Fenian organization. The proceedings, naturally enough, cause considerable excitement here, and elsewhere throughout the Kingdom, and especially among the American residents.

The Prussian Diet has passed a bill for a railway loan of forty millions.

The party of the left has been defeated in the Italian Parliament on a motion to adjourn the debate on the budget for this year.

A strict search of the person and baggage of George Francis Train disclosed no proofs of complicity with the Fenians, or justifying his arrest by the British police on suspicion. Train asserts that he came over to England as the special correspondent in Ireland of the New York *World*. He has personally protested through the United States Consul against his detention.

LONDON, Jan 19, (evening.)—The police of Limerick have made a seizure of guns and ammunition found in the shops of that city, to put it out of the reach of the Fenians.

Dr. Waters, another editor of the Dublin *Irishman*, has been arrested, but the particular charge is not stated. It is supposed, however, to be complicity in the Fenian movements.

Mike Larratte, who, it is now claimed, is positively known to be the party who fired the fuse at Clerkenwall explosion, has been arrested at Glasgow and brought to London in irons.

A man named Clancy has been arrested in this city charged with firing upon the police.

A Fenian manifesto was found this morning posted on the wall of the Mansion House, where it had been put despite the vigilance of the police, who have no clue to the perpetrators of this daring act.

The boldness and audacity of the Fenians in face of the vigorous measures of repression which have been adopted excites much uneasiness.

VIENNA, Jan. 19.—Kulm has been appointed Austrian Minister of War.

The remains of the late Emperor Maximilian arrived at Vienna on the 18th by special train from Trieste, in charge of a military escort. The train was met upon its arrival by the Austrian officials, a large body of troops, and a large crowd of people, who had assembled to give expression to their respect for the dead and their sympathy with the living. The remains were formally received by the Imperial family at the palace. The manifestation of popular feeling was intense.

A NEW AND GRAND EPOCH IN MEDICINE.

Dr. Maggiel is the founder of a new Medical System! The quantitarians, whose vast internal doses enfeeble the stomach, and paralyze the bowels, must give precedence to the man who restores health and appetite with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of wonderful and all-healing Salve.

These two great specifics of the Doctor are fast superceding all the sterotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so-called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dose, and of which every box full taken creates an absolute necesity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits lights and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected its functions are restored and if the nervous system Is feeble it is invigoratitg. This last quality makes tne medicine very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfecting power of Maggiel's Salve. In fact, it is here announced that Eaggiel's Billious, Dyapetic and Diarrhœa Pills cure when all others fail. Waile for burns, sealds, Chilblains, Cuts, and all Abrasions of the skin, Maggiel's Salve is infallible. Sold by J. Haydock, 11 Pine street, New York, and all druggists, at 25 cents per box.

HONOR TO WHOM HONOR IS DUE.—It has been said by a few unfortunate mortals, who have striven in vain to gain a position of honor and distinction, that they were not sufficiently appreciated. While such may sometimes be the case, it is generally to be observed that *true* deserving worth is cordially accepted and honored, whether applied to religion, politics, the arts, or invention. Next to religion, invention or discovery has the highest position, for it wields a mighty influence; through its channels nations have overleaped, as if by magic, the bonds of separation, and, united by electric wires, can converse together at momentary will.

Indeed, the diversified efforts of man's genius in these respects are a soruce of admiration and gratitude to the whole human race. In medicine, science has revealed during the last quarter of a century, many hidden truths, which had before been considered to be impossibilities. The malignity of pestilential disease is now in a great measure beref- of its terror, and even the "invisible archer," consumption, is arrested in its satadly march, and oftentimes overthrown. Undoubtedly the great rallying power in the treatment of this and other pulmonary disease, is the WISTAR'S BALSAM OF WILD CHERRY; and the ongoregoing allusions are applicable to the merit and of its illustrious discoverer. The proof of the efficacy of this great remedy is in its undying reputation. It has stood the test of time, and its fame is a curative of Throat and Lung, Complaints has extended to all climes.—*Canada Christian Advocate.*

Sarsaparilla in itself, it is generally conceded does not possess that power over disease which at one time it was credited with, but combined with other and more powerful remedial agents its use is often followed by astonishing results.—It is acknowledged by the medical faculty that Dr. Larookah's Sarsaparilla Compound is not only the best but the cheapest combination of Sarsaparilla ever made available to the public. As a remedial for Scrofula and kindred complaints we *know* one bottle of this to equal two of any rival preparation in the market.—*Monthly Journal of Science.*

AN EFFECTUAL WORM MEDICINE.

Brown's Vermifuge Comfits,

OR WORM LOZENGES. MUCH SICKNESS, undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worm, so hurtful to children.

Children having Worms require immediate attention, as neglect of the trouble often causes prolonged sickness.

Symptoms of Worms in Children are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making BROWN'S "VERMIFUGE COMFITS" is such as to give the best possible effect with safety.

Letter from Hon. D. W. Gooch, Member o Congress from Massachusetts.

Melrose, July 19th, 1865.

Dr. E. R. KNIGHTS—Dear Sir:

I have used Dr. Larookah's Syrup in my family for six years, and have found in an excellent remedy for Coughs, Colds, Sore Throats, and all consumptive complaints, &c. I have recommended it to several friends, who have received great benefit from its use.

Dec. 25. 1m.

A spoonful of Blood's Rheumatic Compound mixed with half a cup of molasses makes an excellent cough syrup. Try it.

They do not cramp or rack the delicate frame or weak constitution, but will be found particularly useful in stimulating the weakened and distempered parts into healthy action. Use Parson's Purgative Pills.

A FUNNY INCIDENT.—The other day a man running at a break neck speed through the streets was mistaken for a thief, and arrested by the police. Explanations followed, and it appeared that he was after a box of Grace's Salve, to use on a burned child. Moral: always keep Grace's Salve in the family, that it may be at hand for immediate use.

His funeral was very large, attended by a number of Masonic bretnren, who interred him with all the honors of that Order. The funeral sermon was preached by the resident Methodist Minister from Matt. xxiv. 44—"Therefore be ye also ready," &c.

MRS. S. A. ALLEN'S

WORLD'S Hair Restorer is suited to both old and young. It strengthens the Hair, prevents it falling or turning grey, and imparts to it a beautiful glossy appearance. It never fails to RESTORE GREY HAIR

TO ITS ORIGINAL YOUTHFUL COLOR.

It is not a Dye, but acts directly upon the roots of the hair, giving them the natural nourishment required, producing the same vitality and luxurious quantity as in youth. It will restore it on bald places, requires no previous preparation of the hair and is easily applied by one's self. One bottle will usually last for a year, as after the hair is once restored, occasional applications once in three months will insure against grey hairs to the most advanced age.

MRS. S. A. ALLEN'S

WORLD'S Hair Dressing, or Zylobalsamum, is essential to use with the Restorer, but the Hair Dressing alone often restores and never fails to invigorate, beautify and refresh the Hair, rendering it soft, silky and glossy, and disposing it to remain in any desired position.
