ON SELF-PRESERVATION.

Price, with Engravings and Cases. 25 cents; by post thirty cents.

SELF-PRESERVATION; a popular Essay on Nervous and Physical Debility, resulting from injurious habits contracted in youth, or excesses in maturity, which, by prematurely exhausting the functions of Manhood, destroy the happiness of Married Life, or prevent the fulfilment of engagement that constitute the most cherished objects of existence.

By Dr. LA'MERT, 37 Bedford square, London, Licentiate of the Royal College of Physicians of Edinburgh;
Member of the Royal College of Surgeons, England, &c.

The above work contains most useful and interesting information on the physiological changes which occur in the Reproductive System during the periods of youth, puberty, and manhood; and on the due attainment of that degree of functional vigour upon which the hopes of posterity depend. It also points out how all the attributes of Manhood can be preserved to advance period of life how they are lost, and how they can be recovered. It is free from the gross exaggerations, alarming descriptions, and dangerous remedies so generally resorted to by persons, who, practising with false medical qualifications, inflict most serious injuries, and render judicious treatment frequently abortive.

The Author is the only legally qualified practitioner whose name stands on the 'Medical Register' (the sole test of medical qualification), who has been exclusively engaged for a series of years in the treatment of the various functional disorders of the nervous and reproductive system, which, owing to the great discoveries of modern science, are rendered subservient to a rational, simple, and easy mode of treatment.

At home for consultation daily from ten till two, and from six till eight, either personally or by letter,—37 Bedford Square, London, England.

Patients residing in the colonies can be successfully treated by correspondence, and remedies can be forwarded in secrecy and safety to any address

This remedy is just what it purports to be,—a "remedy for Dyspepsia." Though containing no alcohol, yet it will retain its virtues in any climate. It is highly concentrated,—a teaspoonful in half a tumbler of water constitutes a dose. Among all the remedies ever discovered for those prevailing and obstinate complaints, there is none which ever wrought such great and permanent cures, or whose can produce so many and unexceptionable certificates from the recipients of its benefits. A single dose often will relieve the distress, and a permanent cure speedily follows.

From a highly respected Physician in Maine.

SOUTH PARIS, Me., Dec. 12, 1861.

Messrs. S. W. FOWLE & CO.,—Gentlemen: For several years past I have had a knowledge of the operation of the OXYGENATED BITTERS in some cases of *Dyspepsia* and *General Debility*. They have generally given satisfaction, and sometimes have effected a permanent cure where other remedies had been used without benefit. I do not hesitate to recommend them.

Respectfully yours,

Letter from Stearns Foster, Esq.

STODDARD, N. H., Sept. 20, 1862.

Messrs. SETH W. FOWLE & CO.,—Gents.: I was for many years, a great sufferer from DYSPEPSIA or WATERBRASH, and tried almost everything within my reach, but to no benefit, until I was induced by the recommendation of my physician, Dr. Hazelton, to make use of the OXYGENATED BITTERS. The first bottle produced but a slight alteration in the disease, and had it not been for the urgent request of my physician I should then have discontinued their use, thinking them to be of no avail; but his confidence inspired me to persevere, and after using to the extent of half a dozen bottles, I had entirely regained my health. I hope the dyspeptic persons will be induced to give them a fair trial, being confident that this remedy is the best patent, for the various forms of DYSPEPSIA, that has been produced. Yours,
