LOSS WILL BE SMALL.

MONTREAL, July 18.—The damage to the Canada Steamship liner Rapids King, which ran on the rocks in the St. Lawrence River about ten miles above Cornwall Saturday, is trivial, and repairs will not cost more than $1,000, W. E. Burke, operating manager of the company, stated today. Arrangements were being made to float the steamer this afternoon, he added.

ICE PRICES SOAR AT BRANTFORD

Up Three Dollars Per Ton Since July 1, and Still Climbing.

BRANTFORD, July 18.—Artificial ice in Brantford has gone up from $6 to $9 a ton since July 1, and prospects are that it will go still higher. Ice is very scarce here, and two or three carloads are imported every day for private consumption. There is little change in the price of ice cream.

The Six Nations Indians have accepted the invitation of the Penetanguishene Historical Society to be represented at the tercentenary celebration of the appearance of the first white men on the shores of Georgian Bay. Several costly monuments will be unveiled during the first week in August. It is expected that the acting prime minister, as well as the premiers of Ontario and Quebec will be in attendance.

Brant County farmers are not worried over the appearance of the European corn borer in neighboring districts. As yet no sign of the corn borer has been seen in the county. In many districts the young corn was flattened by storms a week ago, but it has come up again and little of it is broken.

When asked to give an opinion on the recent arrangement made by the C. P. R. to include a smoking car for ladies on their trains, Mrs. John R. Kerr, former president of the W. C. T. U., did not express any great regret that such a measure had been taken in Canada. She thought it would at least give the men and women a chance to travel together on the trains, and they would be safer that way.

STABLE DESTROYED IN FIRE AT HENSALL

Flames For a Time Threatened the Frame Buildings Adjoining.

[Special to The Advertiser.]

HENSALL, July 18. — The business section of Hensall was threatened by another serious fire shortly after 9 o'clock tonight, when the stables of Drummond & Son, in the rear of their butcher shop on Main street, were completely destroyed.

Only the splendid work of the fire department, assisted by a large number of citizens, prevented the flames from spreading to a number of frame buildings adjoining. The heat was intense, but the workers stuck to their fight, and only the stable was destroyed.

The Methodist garden party was in progress just across the street when the flames suddenly shot up, and before anyone could reach the building the whole top was ablaze. The firm's auto and horse were gotten out safely, but by that time it was so hot that nothing more could be saved.

There was abundance of water, and this was a great help. Drummond & Son have their loss partly covered by insurance. The stable was owned by G. C. Petty, who has no insurance on it.

NO TRUTH IN RUMOR.

LONDON, July 18.—Mr. Lloyd George declared today there was no truth in the report that King George had stepped in to untangle a complication between Great Britain and the United States over the proposed Pacific conference.

AN IDEAL VACATION.

When the breathless days and glaring heat of summer makes life in the city a burden, Algonquin Park, Ontario, is a place of refuge and enchantment. Here the tired businessman—and his wife and daughter, too—can get out into the big open spaces, brush away the mental cobwebs, and feel the red blood course through his veins once more. The Government Reserve is on the very ridge of the "Highlands of Ontario," its altitude above sea level averaging 1,700 feet, while some of the elevations in the park are 2,000 feet above the sea. A handsome publication, telling you all about it, with list of hotels, rates, etc., will be sent free on application to any Canadian National-Grand Trunk agent, or to C. E. Horning, D. P. A., Toronto, Ont. b

WILL ASK GOVT. TO REOPEN THE GAS QUESTION

Windsor Council Not Satisfied With Findings of the Referee.

[Special to The Advertiser.]

WINDSOR, July 18.—Dissatisfied with the decision of G. F. Henderson, natural gas referee, which granted the Union Gas Company of Chatham an increase in gas rates, which in Windsor amounts to 60 per cent, the city council tonight voted to request the Provincial Government to reopen the question.

Several aldermen claimed that the investigation recently held into the gas situation was unfair to the municipalities, and Ald. A. E. Hooper, a representative of Labor, expressed the opinion that there was no use appealing to the minister of mines, Hon. Harry Mills, as he had shown that he had not the courage to tackle the problem.

Afraid To Attend.

"He sat out in the gas fields and was afraid to attend one of the meetings at Chatham on one occasion," said Ald. Hooper in referring to the minister. Ald. Hooper suggested that the appeal be forwarded to Premier E. C. Drury for cabinet consideration.

"Mayor Wilson will press for a further investigation of the company's affairs," he said.

"We asked for a thorough investigation of the company's affairs," he stated, "and I feel that it has been nothing but a sham. One or two experts came to look over the situation, but went away before they had time to accomplish anything that would give them an intelligent estimate of the problem."

Would Use Hydro.

At tonight's meeting Ald. Frank J. Mitchell introduced a resolution calling on ratepayers to avail themselves of hydro power until such time as gas prices decline.

This will be economical, provided the Ontario Hydro-Electric Commission will provide electric stoves at a low price. A request to this effect is contained in the resolution.

MURDERED AFTER VISITING FIANCEE

Farrellton Youth Found Dead in Road With Head Smashed In.

OTTAWA, July 18.—Thomas Eugene Farrell, 26, son of William Farrell, J. P., and Mrs. Farrell of Farrellton, Quebec, was brutally murdered Sunday night at Wills Hill, three-quarters of a mile from his home. The murderer or murderers are still at large in the district, about 30 miles from Ottawa.

Arrests are confidently expected by the authorities within a short time.

Coroner T. B. Davies, who was called to the scene today, and who investigated the circumstances of Farrell's death, tells the following story:

"Farrell left home Sunday evening to take his fiancee, Miss M. Wills of Wills Hill, for a drive in his motor car. After taking her home, about 10:15 p. m., he started for his own home in Farrellton. This was the last seen of him until early this morning when his brother, James Farrell, started over the road between the Farrell home and that of Miss Wills, to make inquiries regarding his brother's absence.

About one-quarter of a mile from the Wills home he found the body of his brother lying in a ditch beside the road in a pool of blood. He had been hit on the right side of the head evidently with some heavy instrument, and death must have been practically instantaneous. Across the road a seven strand wire fence was tretched, completely blocking it."

Dr. Davies believes that Farrell was struck over the head from behind when he stepped out to investigate. When Mr. Farrell and Miss Wills passed the spot twenty minutes earlier there was no obstruction.

PROTESTING AGAINST HIGH-HANDED ACTION

[Special to The Advertiser.]

WINDSOR, July 18.—Claiming that the Detroit and Windsor Ferry Company is demanding American money of Canadian patrons while on the Bobio boats in Canadian waters and at Bois Blanc Island, Ald. F. J. Mitchell suggests that the city council at its meeting tonight send a protest to the Dominion Government. The clerk was instructed to draw up a communication calling attention to the alleged action of the ferry company and asking Federal authorities to move to have the practice discontinued. Bois Blanc Island is Canadian territory, having been leased by the ferry company.

FARMERS' ASSOCIATION ELECTS NEW OFFICERS

WINDSOR, July 18.—The annual meeting of Amherstburg Farmers' Co-Operative Association, held at Malden Town Hall Monday night, was largely attended. The annual statement of the auditors was received favorably. H. J. Golden was elected to the directorate, replacing John Beaudoin, and Charles Brush was elected president. William D. Atkinson, on the retirement of Robert Dorsey was appointed local manager for a year.

MONTREAL BOY IS DROWNED AT GUELPH

Thomas Sharp Seized With Cramps While Swimming in Deep Water.

[Special to The Advertiser.]

GUELPH, July 18.—The Speed River claimed another victim this afternoon, when shortly after one o'clock, Thomas Sharp, 12-year-old son of Mr. and Mrs. Thomas Sharp, 214 Bishop street, Montreal, who had been visiting in Guelph with his mother, lost his life while in swimming just above Goldie's dam. The lad was in bathing with three comrades and after going out beyond his depth he was seized with cramps and sank to the bottom without even uttering a cry for help.

The body was removed from the water about five minutes after the drowning by Fireman Wm. Sharpe, who had been summoned to the scene with the lung motor. Three doctors worked over the lad for more than two hours, but all efforts to bring him around proved fruitless.

Coroner Orton decided that an inquest was unnecessary. Deceased had been staying at the home of his grandmother, Mrs. Thurtell, 9 Emma street, for the past two weeks.

ARCTIC PARTY BRINGS BACK 33 SKELETONS

HALIFAX, July 18.—Thirty-three Eskimo skeletons arrived in Halifax from the far north recently for examination and measurement on behalf of the Canadian Government by Dr. John Cameron, professor of anatomy at Dalhousie University. The skeletons have been brought from the land of snows by the Canadian Arctic exploration party, which has spent five years in Canada's frigid zone studying the customs, languages and characteristics of the Esquimo race. They were found in the region north of the MacKenzie River.

Dr. Cameron estimates that upwards of three years will be required to complete the study of the skeletons and make the thousands of measurements necessary. The greater part of the work will be devoted to the skulls and the peculiarities of their formation. When completed the information obtained from the examinations will be included in a book to be published by Dr. Cameron. The book will be a standard work of reference on the physical characteristics of the Eskimo race.

A special study of the teeth of the skeletons will be made by Dr. S. G. Ritchie of Halifax.

BODY NOT FOUND YET.

[Special to The Advertiser.]

WINDSOR, July 18.—Search for the body of Ella Kane, Windsor girl, drowned in the Detroit River at Petit Cote, yesterday, conducted by the Windsor and Detroit police, proved fruitless up to a late hour tonight. There is a swift current at this point in the river.

TILBURY BYLAW CARRIED.

[Special to The Advertiser.]

TILBURY, July 18.—The ratepayers of Tilbury today indorsed a bylaw to issue debentures to the extent of $30,000 to extend and improve the waterworks system and fire protection. There was a small vote polled, only eighty-two ratepayers going to the polls. The vote was 64 for and 18 against the bylaw.
