Miramichi and the North Shore, etc.

WAGGONS—Double and single, a splendid lot—also carts, etc., for sale at Mr. Alex. Robinson's Factory, St. John St., Chatham.

THE POST OFFICE STEP.—Mr. Snowball has been informed by the Department of Public Works, that his request for a new step, in place of the worn-out one at the Chatham Post Office door, will be complied with.

THE FRESHET is rising under the prevailing rain and a serious break in the Southwest boom is probably prevented only by a fortunate jam at the head of the boom. Some 400,000 logs came out of a break there on Tuesday and the renewed rain cannot fail to cause a heavy freshet.

SYNOD MEETING.—The meeting of the Synod of the Maritime Provinces in connection with the Presbyterian Church in Canada, met in St. James' Church, Charlottetown, P. E. I., on Tuesday, the 30th May. The Rev's Jas. Murray and E. Wallace Waits are attending the meeting.

IMPORTANT!—Accounts were sent a fortnight ago from this office—some directly and others through the hands of a collector—to a portion of our subscribers and others in Chatham and vicinity. As the response has not been satisfactory, notice is now given that the several amounts, if not paid or arranged before Saturday evening, will on Monday next be collected with costs. We regret that the treatment our forbearance receives from so many of our debtors renders this course necessary.

DROWNED.—In attempting to cross the river in a canoe from the Bushville wharf to Douglastown, on Tuesday afternoon, Michael Fallon, son of Mr. Patrick Fallon, was drowned. It appears, from what his father tells us, that his head was injured by the ill usage of some companions on Saturday night and it is supposed that in crossing the river he was seized with dizziness and thereby fell out of the canoe. The young man's father is quite well known as the night-watchman at Mr. Morrison's Mill and much symphathy is felt for the family over the sad affair.

A NEW CANDIDATE. — W. A. Park, Esq. publishes his card, offering himself as a candidate for election to the local legislature. Mr. Park is an entirely new man in the political field, and a very large number of electors would doubtless, like to know what his opinion of the government is. At one time it was said he intended to come out in opposition to the policy of the government; now however he is an "independent". Every new candidate ought to declare one way or another. If a man will not tell which side he is on before an election, he cannot be expected to decide honestly afterwards.

THE POLITICAL PROSPECTS in Restigouche County—as in St. John—are of the most cheering description. The Liberal party are united on Mr. Haddow, who has served his County faithfully, while the Conservatives are in a completely demoralized condition. There are several aspirants among the latter party, the names of Messrs. Robert Moffat, John McAllister and Archibald Sinclair being mentioned as probable candidates. Their prospects are not of the brightest kind.

For the Local Legislature, Messrs. Kenny and Barberie will probably form a ticket. Mr. Kenny, at the last session of the House, was friendly to the Government, but he does not view the present Government, as re-constructed, with much favor.—*Globe.*

THE HARBOR had some bamboo adrift in it one day last week and it being ascertained that it came from the S. S. Horden, Harbor Master Johnson preferred a charge against the Master of that vessel before Police Magistrate Blair, Mr. Robt. Murray appearing for the complainant and Mr. R. B. Adams for the defence. The evidence showed that the bamboo was placed on the shore several feet out of the water, by the Captain's orders, and that boys had set a good deal of it adrift. It also appeared to be doubtful whether due care that none of the bamboo should get into the river was observed. It was finally agreed that the charge should be withdrawn, the captain paying costs and agreeing to remove the bamboo from the river. Harbor Master Johnston's promptness in dealing with this matter is very commendable and a great improvement on the policy of ten years ago, when whole edging and slab wharves were allowed to go adrift from certain milling establishments, without hindrance.

ELECTORS' MEETING!

A meeting of electors will be held in Masonic Hall, Chatham, on Monday evening next, for the purpose of giving the several Candidates for the representation of the County of Northumberland, in the House of Assembly, an opportunity to discuss the questions affecting the pending elections for that body.

Electors only will be admitted.

Candidates only,—viz., such as shall have published their election cards—will be expected to address the meeting.

The Chair will be taken at half past eight.

Although the meeting is called under the auspices of the supporters of Messrs. Hutchison, Gillespie, Troy and Burchill—opponents of the Local Government—the other Candidates, who are hereby invited to be present and give their political views, will have equal privileges with the others and the meeting will be conducted with every regard to a fair hearing all round.

By order of the Committee,

D. T. JOHNSTONE, jr., Sec'y.

The S. S. Horden.

The *Horden*, Capt. Fredk, Davies, now at this port loading at Loggie's Mill Wharf, consigned to Messrs. Guy, Bevan & Co., is the first steamship that ever came to Chatham for a deal cargo. Capt. Davies deserves great credit for the manner in which he worked his vessel to the port ahead of other steamers which started before him, some of which do not promise to reach here until after the *Horden* has been loaded and cleared. In fighting the ice the *Horden* received some damage but it is not of a very serious character, repairs being in fair progress and promising completion in a day or two.

Capt. Davies is a very young-looking man, He has, however, won more than ordinary distinction for bravery. He was a Lieutenant in the British Navy at the time of the War in Afghanistan, and was a member of a surveying party of about forty who were seeking a route for the Army, when they were surprised by Afghans. It was a desperate affair, as Capt. Davies' sabre-wound scars and the marks of a pistol shot in one hand shows. The Afghans were routed but Capt. Davies had to be sent to hospital, and for this and other brave services, was afterwards rewarded by the Victoria Cross and placed in the Naval reserve. He certainly, looks none the worse for his experiences and is a fine specimen of the English officer. His cabins show evidences of his fine taste as a decorative artist. He gave a supper on Monday night to a number of gentlemen, the steamer's saloon being occupied quite fully by the guests. The affair was very enjoyable throughout, and the spread one very creditable to the ship's *cuisine*. The usual Loyal and other toasts, brought out the several guests in speeches, some of which were excellent and all conceived in good taste and spirit. Messrs. J. B. Snowball, Capt. Davies, Hon. M. Adams, W. A. Hickson,——Benn, J. L. Stewart, D. G. Smith, R. B. Adams, R. R. Call, G. A. Blair and Dr. Benson, each delivered speeches—some of them being called up two or three times by toasts rendering that course necessary. The party separated at half past twelve with a feeling of the highest appreciation of Capt. Davies, as a host.

As they went away several rockets were sent up from the ship. If all the steamers which come to the port are commanded by such genial and worthy gentlemen as Capt. Davies, the prejudice existing against such tonnage among some of our people will not be long in disappearing

"The Friend of the Tempted."

SIR:—In your issue of the 18th inst. I observed a laudable commeut of yours bearing indirectly on a momentous subject. The contributor at whose instigation the comment was made manifests that pusillanimity, which alone is peculiar to the one whose consummate ignorance of the Scott Act leads him to maliciously attack a *modest person* whose conduct would be a fitting paragon of example for him or his to follow.

Derby, in the past, has always acted her part in the work of reform, but the inference which your remarks lead me to draw from his letter, is that she is to-day in a deplorable condition, and among her resident inhabitants are those, who are so infamously and notoriously bad, that she is fast sinking into the sloughs of wretchedness, drunkenness, misery and woe.

To your many readers, permit me to state, that Derby is still in the ascendency, and as her population increases so does her traffic. Her people are pre-eminently conformable to the laws of the land; and to-day she enjoys that peace and prosperity which are only bestowed upon a Christian land.

In conclusion I would challenge "The Friend of the Tempted" to assume the responsibility of the publication of his letter, and if his remarks present Derby in her true colours, then the writer will retract the statement herein contained,—viz. his being ungentlemanly, pusillanimous and effeminate.

Youre, etc., DERBY.

May 24th, 1882.

Ingersoll's Mistakes of Moses.

SYNOPSIS OF LECTURE BY REV. E. W. WAITS, B. A.

Last Wednesday evening, (May 24th) the Rev. E. Wallace Waits delivered a lecture on the "Mistakes of Ingersoll, on the Mistakes of Moses," to a pretty good audience, in the Hall of St. Andrew's Church. The Chair was occupied by Daniel Ferguson Esq. The following is a mere epitome of the lecture. The lecturer commenced by defining a Free Thinker,—for Robert G. Ingersoll was announced recently as "a Minister of the Gospel of Free Thought. "Can I commit a sin against God by thinking," Ingersoll asks? No, it is not for thinking, but for wrong thinking. As a matter of fact, men have to endure penalties for wrong thinking. Suppose I thought the midnight train going South started at six in the morning, and I required to be in Halifax at noon on very important business; the thought would be attended by consequences. I might suffer seriously for the error in thought. God gave thinking power, but He did not intend you to abuse the power of thought. God gave you feet, but He did not intend you to walk over a precipice. God meant you to help yourself, or He would never have given hands but He did not mean you to help yourself to poison. The lecture under review though nominally on the errors of a particular character, was virtually an assault upon all revealed religion. He contended that whoever attacks the sacred books of the Christian world should treat the subject fairly. He regretted to say that the lecture on Moses did not seem to him to do so; but on the contrary was a conspicuous illustration of prejudice and unfairness. Prof. Goldwin Smith says: "Col. Ingersoll's mode of dealing with the writings of Moses seems to us passionate, unscientific and misleading, to say nothing about the question of taste. Either he has not studied the philosophy of history, in which case he is hardly fitted to come forward as a teacher, or he chooses for the sake of platform effect, to put out of sight what everybody who has studied the philosophy of history must know." Mr. Ingersoll finds fault with the Bible on account of its age. It is the Shibboleth of modern infidels to allude to this book, written 4,000 years ago, as "musty and fusty" and unworthy of credence in this age of railroads, telegraphs and general progress. He holds that a book written in the days of the "ox-cart" and the "dug-out" could not act as a law in these days of steam-ploughs, steamboats and locomotives. An immutable God cannot provide one code of laws for the people of the days of the "dug-out" and another code for those in the days of mechanical progress. A considerable portion of the lecture, said Mr. Waits, seems to be devoted to knocking over a man of straw, for he attributes to Moses language and statements not to be found in any of his writings. With regard to the theory of Evolution, all I insist upon is, that there must have been some omnipotent power at work to produce those primitive atoms, and to set going the work of evolution. You may go back as far as you like, still you will require to supply a missing link, and that is beautifully supplied by Moses, "In the beginning" etc. "You recollect" says Ingersoll, "that the Gods came down and made love to the daughters of men,"—where does Moses say that? Plenty of that kind of talk is Grecian and Roman Mythology, but what has that to do with "the Mistakes of Moses?" He says:—"There is not one word in the old Testament about woman except words of shame and humiliation." All religions but that of the Bible degrade woman. Throughout the glowing East, yes, and throughout the world where the Bible is not, woman is the mere instrument of man's greed and lust. Everywhere she is a slave; and though, as in the more civilized parts of the world, she may be petted and fondled, she is still a slave to man. On the other hand, I assert, without fear of contradiction, that the Bible honors women. It has raised them from their abominable degradation by the other sex, given them their true rank and order in society, and secured them just and equal rights. It has taken woman from the foot of man, placed her at his side, raised her from being his slave to be his companion. In speaking of the flood, Ingersoll gives the impression that all the water that inundated the earth came out of the clouds in the form of rain. He makes merry over what he calls the "Rib story." He looks upon the priests as the champion bird-eaters of the world. The practice did not exist for hundreds of years after the event which he seeks to ridicule; and then the three priests were multiplied into a tribe. Mr. Ingersoll's references to the clergy disappoint me. He speaks of them as if they were a set of fools. In this he is guilty of the same offence which he condemns in others who can see nothing good in the services of the distinguished Infidels of history. Where are the monuments of this free thought? Has it nothing to show in its behalf but slanderous assertions? And has its most distinguished advocate degenerated into a jesting scoffer? Prominent mention is made in the lecture of polygamy in connection with the Jews, and one would infer from what Ingersoll says, that the custom originated with them, and that it was a custom peculiar to them. Now, while the law of Moses did not directly forbid this, it did contain many provisions against its worst abuses, and such as were intended to restrict it within very narrow limits; and as the spirit of the Hebrew religion advanced, the practice more and more fell into disuse, until it finally died out; and in the glimpses of Jewish life which the New Testament gives us, there are no traces of it discernable. Polygamy is no part of the Jewish system else why does not the Jewish Rabbi teach it in these days? Real Judaism is not the Old Testament, but that which has come out of it—the result of its growth and the expansion of its inherent forces. If any man, in an address before this community, should treat the writings of Voltaire as shabbily as Mr. Ingersoll has treated the writings of Moses, he would be styled a bigot and a falsifier.

A hearty vote of thanks was passed to the lecturer at the close.

Mr. Adams Trying to Save Himself.

The *Advocate* said, yesterday, in referring to the local contest:—

It is well known that in the former House the representatives were divided, Messrs. Adams and Davidson supporting, and Messrs. Hutchison and Gillespie opposing the Government. It was rumored a few days ago that the two gentlemen last named had offered to join hands with the Surveyor General in working for the interests of the County, and that that gentleman had fallen in with the proposition, looking upon it as an evidence of their desire to give the Government of which he is a member a fair and reasonable support.

Respecting the above rumor Mr. Hutchison wrote to the *World* and ADVANCE yesterday, and after quoting the above paragraph, added as follows:—

So far as the above refers to myself, I desire to say that the rumor that I made any offer of support to the present local administration has no foundation whatever.

Yours very truly,
E. HUTCHISON.

Mr. Hutchison says it is true that he is willing to join hands with Mr. Adams or any other representative in promoting the interests of the County, but that he is opposed to the present Government, absolutely. As a matter of fact he says that he and Mr. Adams have not met since the prorogation of the Legislature, and he has neither made nor has he contemplated making the offer which the *Advocate* credits to "rumor."

A New Local Deal.

The St. John *Globe* says:—"After a great many failures the gentlemen who are manipulating the Local Government have formed a ticket, which, it would seem, they intend to run in connection with the Conservative ticket, for the Dominion. The gentlemen they have selected have had very little to say about the matter; they have been moved about as pawns on the chess board. The ticket for the City is: E. McLeod, Robert Marshall; for the County: E. Willis, James A. Clarke, John A. Chesley, Jas. Rourke. Every effort was made to get a man in place of Mr. Willis, whom the party desired to set aside, and the names of three or four gentlemen are given as having been approached, but hopelessly. Mr. Willis, during several late sessions, strongly opposed the Local Government, but change is as easy to him as putting on his slippers. Mr. Chesley has canvassed the County considerably against the Local Government, but, no doubt, he will get into line easily. The call will now go out to the Conservatives 'to vote the ticket;' perhaps they will be found in an obedient mood, perhaps not."

Everybody who knows the record of Mr. Willis, and is opposed to the Local Government, will be glad to know that he is again where he belongs. His political course is one that would invite the contempt of a weathercock, while he must have about as much influence in matters political as that useful indicator has on the course of the wind.

Sir Leonard Tilley and his Pensioners.

Whatever else may be said of Sir Leonard Tilley "nobody can deny" that "he's a jolly good fellow" to his relatives as shown by the following from the Ottawa correspondent of the Toronto *Globe*:—

Sir Leonard Tilley, salary as minister, $7,000; Sir Leonard Tilley, indemnity as M. P. $1,000. 2. F. Toller, a brother-in-law, in 1881, paid $1,975, advanced over the heads of older officers in 1882, and appointed to an office created for the purpose, $2,600. 3. F. B. Hanington, another brother-in-law, Census Commissioner, $977. 4. Mr. Bedford, brother in-law in the Inland Revenue Department, salary $1,754. 5. Mr. Street son-in law, in the Customs Department, Fredericton, $1,300. 6. Lewis Burpee, son-in-law, in the office of the Privy Council; $1,100. 7. Mr. Purdy, brother of son's wife, Shipping Master at St. John, $800. 8. Mr. Hanington, uncle, superannuated on an annuity of $615. 9. W. L. C. Hanington, son of the above, appointed in his place, salary $700. 10. Charles Girr, cousin, and Dr. Girr, cousin, officers in the Provincial Hospital New Brunswick. 11. Mr. Carvell, a nephew, promoted to Senate in 1881, $1,000. Total sum drawn by Sir Leonard and family per annum, so far known, $18,495.

Sir Leonard cannot, also, be charged with being backward in promising to provide offices for his political relatives. One of these is Mr. Turgeon, now displaying great energy in assisting Mr. Burns in his attempt to put Hon. Mr. Anglin out of Parliament. Mr. Turgeon states that Sir Leonard made him the offer of an important office if he would retire in favor of Mr. Burns, but as Mr. Turgeon is not a family connection of Sir Leonard, it would be prudent for him to be sure of the office before he leaves the field.

DAISIES—Now-a-days not to use "TEABERRY," the new exquisite for the Teeth and Breath, argues not to be Recherche; take a look at it at your drug store. 5 cent samples. Sold by J. D. B. F. Mackenzie. Chatham.

Election Card.

To the Electors of the County of Northumberland:

GENTLEMEN:—On the 23nd of June next you will be called upon to elect four members to represent you in the Local Assembly.

Having had the honor of being your Representative for eight years, I will again be a Candidate for your suffrages. You can judge by my public acts in and out of the Assembly, if I am worthy of your confidence for another term.

If again returned I will use my best endeavors to abolish the Legislative Council and do away with the expenses of Government House.

I will advocate more economy and efficiency in all the public Departments of the Government and many other reforms much needed in the Province.

I will look after and secure for our bye-roads and bridges their full share of the public monies appropriated for that purpose and will assist with my best efforts the construction of the Miramichi Valley Railroad and a bridge at Nelson. All measures introduced for the good of the Province generally shall (after due consideration) have my support, independent of party.

I will see as many of you as I can before the Election and will then more fully explain my views on public matters.

Hoping I may still merit your support, I am gentlemen,

Your Obedient Servant,
T. F. GILLESPIE.

Chatham, May 27th, 1882.

CARD.

To the Electors of the County of Northumberland:

At the earnest solicitation of a large number of the electors of this County I have consented to allow myself to be put in nomination as a Candidate for your suffrages at the approaching election for the Local Assembly of the Province.

I am strongly opposed to the present Administration and will, if elected, use my best endeavors to replace them with men who will pay more regard to economy and other needed reforms of administration.

Should I be elected, I shall do all in my power to promote the best interests of the Province in general, as well as of the County of Northumberland.

I have the honor to be, faithfully yours.

JOHN P. BURCHILL.

Nelson, May 31st, 1882.

Election Card.

To the Electors of the County of Northumberland:

GENTLEMEN:—At the solicitation of a large number of your body who, like myself, are opposed to the administration of the present Local Government, I have determined to allow myself to be placed in nomination for the representation of the County in the House of Assembly.

I pledge myself, if elected, to assist in removing the present Government from office, in order that it may be replaced by a body of men who shall address themselves more earnestly and honestlp than they have done to needed reforms of administration.

I shall also use my best endeavors to promote, in every way possible, the interests of the Province in general and those of the County of Northumberland in particular.

I have the honor to be, faithfully yours,

THOMAS TROY.

Douglastown, May 31st, 1882.

CARD.

To the Electors of the County of Northumberland:

GENTLEMEN:—At the sppproaching Election I will be a Candidate for the Representation of the County in the House of Assembly.

Should you honor me, by Election, it shall be my aim to advance the interests of the Province and of this County, to the best of my ability.

I am, Gentlemen,
Your Obt. Servt.
W. A. PARK.

Newcastle, 25th May, 1882.

New Advertisements.

CARD.

To the Electors of the County of Northumberland:

GENTLEMEN:

I shall again be a Candidate for election to the representation of the County in the Local Assembly.

My political course shall be as consistent in the future as in the past, and my endeavours shall always be to advance the interests of the Province, and the County of Northumberland in particular.

I have the honor to be,
Gentlemen,
Yours, faithfully,
E. HUTCHISON.

June 1, 1882.

CARD.

To the Electors of the County of Kent:

GENTLEMEN,—The House of Assembly of New Brunswick having run its course, I again offer myself as a candidate to represent you.

During the past Four Years it has been my pleasure to advocate your rights on the floors of the Legislature to the best of my ability, and my record as your Representative during that time is before you.

In all matters of Legislation affecting Provincial interests, I have endeavored to guard and maintain the public rights, and to promote the general welfare of the Province, and in matters especially relating to the County of Kent, I have striven to do my duty faithfully to my constituents.

I opposed the expenditure of so large a sum of money for the erection of Parliament Buildings in the City of Fredericton.

I opposed the sale of our Crown Lands in large blocks to speculators, thereby preventing the settlement of the country by our young men, and as being detrimental to the best interests of the people.

I opposed the establishment of an expensive and comparatively useless Stock Farm, which will be a continued drain upon the revenues of the Province, and giving no adequate return for so large an expenditure of the public money.

I advocated the abolition of the Legislative Council, and the saving thereby of Twelve Thousand Dollars annually to the Province.

I advocated a reduction of the number of the members of the Executive Council, that the Government influence might not preponderate in the House of Assembly.

I advocated a reduction in the number of members in several Counties of the Province, in order to equalise the representation of our County as compared to the others, but having failed in that I have again advocated an increase in the representation of Kent in order that its population and varied interests might be more equally represented in comparison to other Counties, and I am satisfied the same will shortly be secured.

I advocated and assisted in passing a Bill to repeal an odious Attachment Law.

I advocated a re-distribution of the money granted for Bye-Roads in the Province, Kent County not having received, in the past, a fair proportion of the money allotted for that purpose.

I advocated and secured the extension of the Provincial Railway system to our County, and although not able to obtain all I had desired in that direction, I did all that could be done under the circumstances, and I am satisfied the time is not far distant when our County will be joined together by a railway from the north to the south.

These are among the principal measures that have received my attention as your representative during the past four years, and if my political course has met with your approval I respectfully solicit a renewal of your confidence at the approaching election.

I intend visiting the different Parishes of the County before the election, and will address the people on the public affairs of the Province generally, giving a full account of my stewardship as a member for the County of Kent.

I trust that my friends everywhere will be up and doing, and if again elected I pledge myself to continue my efforts to promote the best interests of the people.

Your Obedient Servant,
C. J. SAYRE.

Richibucto, May, 1882.
