TRIUMPHANT SUCCESS OF

Buchan's Hungarian Balsam of Life,

THE GREAT ENGLISH REMEDY FOR

Colds, Coughs, Asthma, and Consumption.

THE most celebrated and infallible remedy for Colds, Coughs, Asthma, and every form of Pulmonary Consumption, is the HUNGARIAN BALSAM OF LIFE, discovered by that eminent medical chemist, Dr. Buchan, of London, England, and extensively known as the "Great English Remedy."

It has been tested for upwards of seven years in Great Britain and on the continent of Europe, where it is universally considered the great and only remedy for this awful malady, and is now introduced to the public under the immediate superintendence of the inventor. Within three years it has been distributed from Maine to Florida, and from Canada to Wisconsin, and its effects are every where alike ASTONISHING AND TRIUMPHANT.

As a preventive medicine, and an antidote to the consumptive tendencies of the climate, it is invaluable. As a remedy for severe and obstinate coughs, Inflammation of the Lungs, croup, &c. it is unrivaled. But the Proprietor is so confident of the merit of this great remedy, in the worst forms of consumption, that he prefers to have it used by the DYING INVALID, rather than by persons afflicted with some simple and less dangerous disorder of the throat and lungs;—this may seem strong language, but it is the result of experience in thousands of cases, sustained by the most intelligent and unimpeachable testimony. It is not pronounced an infallible remedy in all cases, but it is THE MOST INFALLIBLE remedy known to the civilized world. It is the best preventive of hereditary consumption—it is the best defender against the influences of climate—it is the best remedy for incipient consumption—and it is the great and only remedy for that fearful *softening of the lungs—inflammation of the membrane, and tuberculous decay*, which are the last effects of that dreadful scourge, and which are erroneously supposed to be beyond the reach of medical aid;—the agent or proprietors of other medicines dare not claim for their preparations a power like this; they know that in no case have such effects been produced;—the grand object and purpose of the common remedies is simply to give *relief—not to cure*; this is easily done by an intelligent Physician or Druggist; but while dallying with these delusive compounds, the patient rapidly declines, and every day places him further and farther beyond the reach of hope.

Such is not the case with the Hungarian Balsam It is always salutary in its effects—never injurious. It is not an opiate—it is not a tonic—it is not a mere expectorant. It is not intended to lull the invalid into a fatal security. It is a great remedy—a grand healing and curative compound; the great and only remedy which SCIENCE and skill has yet produced for the treatment of this hitherto unconquerable malady. It is in fact the *best remedy in the world!*

[From the John Bull, newspaper, London.]

There is certainly some mysterious and occult virtue in the famous "Hungarian Balsam of Life," which the medical faculty are unable to discover, or Dr. Buchan would not be permitted for so many years to enjoy the magnificent monopoly of the treatment and cure of Consumption in Great Britain. No satisfactory analysis of this famous compound has ever, to our knowledge, been offered to the public.

REMOVAL.

THE Subscriber has removed his PIANO FORTE MANUFACTORY to the Premises in Prince Wm. street, situate between the Commercial Bank and the Bank of British North America.

The Subscriber, having enlarged his establishment, will shortly have on hand a variety of Instruments, which, for equality and purity of tone, he flatters himself that ladies and gentlemen (*Pianists*) will pronounce satisfactory, and which he can safely *warrant* to stand the climate. He begs, also, to invite the attention of the public to the celebrated IRON FRAMED PIANOS manufactured by him, which he recommends as possessing decided advantages over other Instruments, both for increased durability, and remaining unaffected by the frequent changes of the weather.

The public are respectfully invited to call and examine.

☞ PIANOFORTES Tuned, Repaired, Exchanged and Let on the most reasonable terms.

References given to gentlemen of the highest respectability, by whom he has been patronized.

RILEY'S DENTIFRICE.

As an essential point of beauty the TEETH must ever stand pre-eminent. No regularity of feature no brilliancy of complexion, no sparkling eyes, or silken hair, can render that lady beautiful who, when she opens her lips, (though they be of coral) discloses a set of discoloured Teeth. On the contrary, even homely features and a sallow complexion are embellished and rendered agreeable by a set of white Teeth. On the other hand, the effects of decay, the accumulation of tartar, the black teeth, and tainted breath, which are invariable accompaniments of a bad state of the mouth, will always prove loathsome and disgusting.

Among the various disorders of the mouth, there is none so destructive as scurvy—which on first entering the gums causes them to bleed on the most trifling occasions, and produces the most offensive and putrid breath. *There is more loss of Teeth from this Disease than from all others.*

Could persons afflicted with it see for a moment the state of their mouth, or catch the odour of their own breath, they would rejoice in finding a remedy so cheap and simple, and yet so efficacious, as the one now offered.

To professional men, shop keepers, and tradesmen generally, who have much intercourse with the fashionable world, a good state of the mouth must be of the utmost importance.

Besides, is not an offensive breath, which in nine teen cases out of twenty, proceeds from a bad state of the Teeth and gums, very much calculated to prevent the blessings of matrimony? and how often from inadvertence or neglect is the happiness of the married state grievously interrupted from the same cause.

To insist on the importance of these things must be a waste of words were it not obvious that there are many persons who never give themselves the trouble to think upon the subject—who seem scarcely aware that they possess Teeth at all, while their gross and culpable negligence renders the fact too apparent to their friends and associates.

Another cause of the rapid decay of Teeth, which is remarkable on the whole continent of North America, is a peculiarity in the climate—the rapid and sudden changes from one extreme to another which are of almost daily occurrence.

This source of decay, as well as the scurvy, is annihilated by using

RILEY'S DENTIFRICE,

which makes the Teeth beautifully white, eradicates the scurvy, preserves and restores the enamel where injured, sweetens the breath, preserves the Teeth sound and handsome until the most advanced age, and by constantly using will prevent the toothache. It was used and most highly approved of by his late Majesty GEORGE THE FOURTH, (the most perfect gentleman of the age he lived in,) and by the principal nobility of his Court; and has never failed to give the most unquahified satisfaction. In several instances the inventor has received considerable presents from parties, as a mark of gratitude for the benefit their Teeth had received from the use of it. Mothers may rest assured, that if their children have sound Teeth at present, they will by using this DENTIFRICE never have occasion to employ a Dentist—as their teeth will remain sound and beautiful until the most matured age.

☞ *Observe that* G. RILEY'S *name is signed, in his own hand-writing on the table of each box.*

☞ PRICE—HALF A DOLLAR PER BOX.
