Established 1844.
OUR ENGINES are made with Circular Valves, and furnished with Cut-off Valves, by means of which the Steam is worked expansively, and ONE THIRD LESS FUEL used than in full stroke engine. We have lately adopted a governor entirely different from our old one, and equal to any of the most improved kinds made, which will control the engine and keep it at a regular speed. It is easily adjusted to a greater or less speed by a movable ball and lever. We have added of late. Our piston rods and crank pins are of steel, and all valve spindles and engine bolts are made of Low's iron. PORTABLE SAW MILLS OUR SPECIALTY.

Only One Dollar. 10,000 Sold.
IT IS SAFE TO SAY THAT OF ALL the inventions of the present day none have received more commendation than the London Repeating Watch. The idea of having a Watch for the small sum of $1, seems an utter impossibility, but it has been accomplished. This most perfect time indicator produced only has ever been, besides their celebrated Compass and Sun Dial, without extra cost. The London Repeating Watch is got up in the most elegant style, with a handsome case of Gold Metal, which is an exact imitation of gold, glass crystal, strong and metallic works, and a white enameled dial, and is of the size of an ordinary watch. Each one is warranted to keep CORRECT TIME and to KEEP IN ORDER FOR TWO YEARS. Enclosed in the same case is a Sun Dial and a perfectly accurate COMPASS, which of itself twice the amount charged for the whole watch. Every one want one; every boy can now have a Watch. We offer Agents, Pedlers, &c., such a big 200 per cent profit, that they will make from $5 to $10 a day selling them.
