DEAD MAN HER HUSBAND?

LONDON WOMAN SUSPECTS SHE HAS FOUND MISSING MAN.

London Free Press: Last January a man was found dead in a slaughter house at Woodstock and no clue to his exact identity was secured.

An elderly woman residing in London asked a Free Press reporter for information regarding the case, and later on decided to go to Woodstock to make an investigation.

From the description which she obtained she thinks that the man was her husband who had not been living with her for several years.

He was residing somewhere near Woodstock and the police at Woodstock believe that his name was the same as the one which the woman says he went under.

She will go to Woodstock today to try and secure information in regard to the case.

HOW TO KILL A COLD.

No easier or more pleasant way than to inhale "Catarrhozone" — it stops the cold instantly, clears the nostrils and cuts out the phlegm. Try Catarrhozone yourself.

TWO LINERS ASHORE

Allan's Royal Mail Victorian and Leyland's Virginian.

WEST AND EAST OF QUEBEC

Davis Wrecking Steamer Has Gone to Assistance of Virginian — The Turbiner Victorian Lies in a Nasty Position and Is Partly Blocking the Main Ship Channel—Help Sent From Montreal.

Montreal, Sept. 2.—The Allan Line royal mail steamship Victorian, one of the new turbiners, with 350 passengers, general cargo and the mails for Great Britain, ran aground at Cape Charles, 120 miles below here and about 30 miles above Quebec at noon yesterday. The liner had been steaming slowly in a thick fog, rendered thicker by dense smoke from forest fires on shore. The Allans here have been informed that there is 19 feet of water in the forward hold of the steamer, and that she is hard aground forward, with her stern protruding at an angle into the ship channel.

All available wrecking appliances at Quebec had been despatched earlier in the day to Crane Island, fifty miles below Quebec, to the assistance of the Leyland Liner Virginian, which went aground there at 3 o'clock yesterday morning, while bound for this port with 3,000 tons of general cargo from Antwerp. This necessitated the sending of wreckers from this port. Tugs and lighters left here at 4 o'clock yesterady and were due at the steamer's side about midnight.

The Allans have announced that the transfer of the mails will be left entirely to the postoffice department, and officials there have not yet decided upon what action to take. The passengers of the stranded liner are quite comfortable and in no danger. They will be given the option of remaining over at the line's expense until the Allan Liner Bavarian sails from here next Friday, or having their passage money refunded. Strenuous efforts will be made to have the liner off as soon as possible. She will be lightered considerably and will as soon as she floats be taken to dry dock at Quebec.

Word has been received here that the Victorian is blocking the ship channel. The Dominion liner Kensington, for Liverpool, is sailing this morning, and there are a number of freight steamers to leave. The Government tug Frontenac will proceed to the scene of the grounding and wire directions to outgoing liners. Meantime all outward bound vessels will anchor at Batiscan, above Cape Charles.

SMALLPOX IN DAIRY BUILDING.

Serious Outbreak of Scourge in North Hastings.

Belleville, Sept. 2.—Reports from the northern portion of the country say that there are several cases of smallpox there.

Another report says that at Howard's Station, near Campbellford, there are several cases of smallpox in a cheese factory there. The provincial authorities visited the place Thursday, and stringent measures are to be taken to stamp out the scourge. There are said to be 1,500 cheese in the factory, and the patrons will also be debarred from sending milk there, and, perhaps, to any other factory.

Calls For Investigation.

Peterboro, Sept. 2.—The Examiner last evening called for an investigation as to the construction of the concrete work on the Trent Valley Canal at Kirkfield. It claims that a million gallons an hour is the leakage through the concrete, and that the bridge company who have the contract for the iron work are unable to satisfactorily use the hydraulic power necessary for the construction of their work. The Examiner asks who is responsible.

Banquet to Prince Louis.

Quebec, Sept. 2.—The festivities in honor of His Serene Highness Prince Louis of Battenberg were crowned last evening by the finest banquet ever given in Quebec. It was held at the Garrison Club and presided over by Hon. Mr. Parent, mayor of Quebec. About one hundred guests were present.

Drug Trust Now a Fact.

Montreal, Sept. 2.—The Canada Drug Trust is evidently an accomplished fact, for out of 35 wholesale concerns about three-quarters of that number have given the adhesion to the $8,000,000 merger as it is called by the trade.

SADIE ROBINSON.

Pretty Girl Suffered From Nervousness and Pelvic Catarrh—Found Quick Relief in a Few Days.

NERVOUSNESS AND WEAKNESS CURED BY PE-RU-NA.

Miss Sadie Robinson, 4 Rand street, Malden, Mass., writes:

"Peruna was recommended to me about a year ago as an excellent remedy for the troubles peculiar to our sex, and as I found that all that was said of this medicine was true, I am pleased to endorse it.

"I began to use it about seven months ago for weakness and nervousness, caused from overwork and sleeplessness, and found that in a few days I began to grow strong, my appetite increased and I began to sleep better, consequently my nervousness passed away and the weakness in the pelvic organs soon disappeared and I have been well and strong ever since."

Address Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus, O., for free medical advice. All correspondence strictly confidential.

A SUCCESSFUL HORSEMAN.

Never allows his horse to suffer pain. He always uses Nerviline which is noted for curing stiffness, rheumatism, swellings and strains. Nerviline is just as good inside as outside. For cramps, colic, and internal pain it is a perfect marvel. In the good racing stables Nerviline is always used—because it makes better horses and smaller veterinary bills. Twenty-five cents buys a large bottle of Nerviline; try it.

STRATFORD MURDER 'QUEST.

Horace Corfield and Caleb Poyner Held on Murder Charge.

Stratford, Sept. 2.—Horace Corfield and Caleb Poyner, the two survivors of the tragedy which occurred in this city Thursday, August 24, when John Gamble and Adam Seneca were murdered, are in jail awaiting trial for murder.

The jury returned a verdict last evening that John Gamble met his death as the result of injuries inflicted by an instrument in the hands of either Adam Seneca, Caleb Poyner or Harold Corfield.

Dock Laborers Strike.

Montreal, Sept. 2.—About 200 deck laborers employed by the Dominion Transport Co. on the C. P. R. docks handling freight, went on strike yesterday morning. They have been getting $1.50 per day and want $1.75.

PERSONAL.—Men should know that the only perfect and safe Vacuum Appliance is manufactured and controlled by the Erie Medical Co., 94 Mohawk street, Buffalo, N. Y., who administer in connection with it interior and exterior remedies having a world-wide reputation for weak men. Write today for sealed circulars and proofs.

ALBERTA PROVINCE

Great Inauguration At Edmonton On September 1, 1905.

YOUNG GIANT OF THE WEST

Earl Grey's Reply to the Address of Welcome — Sir Wilfrid Laurier's Counsel to His New Western Fellow-Citizens—Swearing In the New Lieutenant-Governor — Most Memorable Day.

Edmonton, N. W. T., Sept. 2.—The great Canadian sisterhood of Provinces received an addition yesterday by the admission of the promising young maiden Province of Alberta. The prayers of years having been at last answered by the Canadian Parliament in July, the duty of preparation remained with the western people themselves, and nobly have they performed it. An easterner cannot come west without learning that here they never do things by halves. That tradition was fully sustained yesterday, when Alberta became a Province under the most impressive and auspicious conditions that could be desired.

A Monster Procession.

Early in the morning the magnificent procession paraded through the streets, which spoke loyalty with their miles of bunting and hundreds of flags, and

THE GOVERNOR-GENERAL.

pride by their half dozen great arches. Over 1,500 school children, the youngest of them on floats, crowded the lines and cheered with an energy that will yet make the desert blossom. The old-timers were there, too, but how young they seemed for men who were fathers of a country like this! Then there were local trades unions and hundreds of citizens in carriages. At the Exhibition grounds, where the exercises took place, the hundred mounted policemen gave a series of evolutions which won the warmest admiration of everyone. Earl Grey received the force before the platform ceremonies began.

Earl Grey's Reply.

Earl Grey's reply to the address of welcome by Mayor Mackenzie was very apt. He said in part:—"It is due to the aid of the Federal Government and to the energy of your own stout arms that you have now proved to the satisfaction of the entire civilized world that you enjoy in this new Province of Alberta perhaps in a greater degree than is to be found in any equal extent of land in any portion of the world outside the Dominion—that you enjoy the opportunity which is within the reach of all, so they can pay their own way—the opportunity of making for themselves happy and comfortable homes out of the cultivation of the soil, amid pleasant surroundings, with the inspiring feeling of independence which comes from full ownership of the soil, tilled in the healthiest of climates, and under the justice and freedom of the British Government."

The Lieutenant-Governor was sworn in by Mr. J. J. McGee, Clerk of the

LIEUT-GOVERNOR BULYEA.

Privy Council, Ottawa, after he had modestly responded to the addresses of congratulation given by Sir Wilfrid Laurier, Hon. William Paterson and Sir Gilbert Parker.

Laurier to the Albertans.

In the course of his speech at Edmonton yesterday at the inauguration of the Province of Alberta, Sir Wilfrid Laurier said in part:—

"When I look about me on this vast sea of upturned faces, I see the determination of the new Province. I see everywhere hope. I see everywhere calm resolution, courage, enthusiasm to face all difficulties, to settle all problems. If it is true everywhere, it must be more true here in this new Province, in this bracing atmosphere of the prairie, that 'Hope springs eternal in the human breast.' (Cheers.)

"Gentlemen, in order to bring the new Province to the standard we have set for it, it is necessary that we should have the hearty co-operation of all the people, of all the citizens, of Alberta. We must have the co-operation of the old settlers and pioneers, the men of the old Provinces, chiefly of the Province of Ontario, who came here when the land was a desert, and made the desert smile. We must have the co-operation also of the new citizens who have come here from all parts of the world, I may say, to give to Canada, to give to Alberta, the benefit of their individuality, of their energy, of their enterprise.

"And since it happens that I have the honor of occupying the post of the first servant of the Crown in this country, let me say, on behalf of the Crown, with the concurrence of His Excellency the Governor-General, that to these new fellow-countrymen, to these new subjects of the King, I offer the most cordial of all welcomes, cordial to one, cordial to all, a welcome in the first place to those of our own kin who have come from the lands beyond the sea, a welcome also to those who have come from the neighboring republic on the other side. (Cheers.)

"Let me say to one and all of our new fellow-countrymen, that the Dominion of Canada is in one respect like the kingdom of Heaven. Those who come at the eleventh hour will receive as fair treatment as those who have been in the fold for a long time. (Laughter and cheers.) What we have we want to share with them, our land, our laws, our civilization. Let them be Britain's subjects, let them take their share of the life of this country, whether it be municipal, provincial or national. Let them be electors as well as citizens. We do not anticipate, and we do not want, that any individuals should forget the land of their origin or their ancestors. Let them look to the past, but let them look also to the future; let them look to the land of their ancestors, but let them look also to the land of their children. Let them become Canadians, British subjects, and give their heart and soul, their energy, their vows to Canada, to its institutions, to its King, who, like his illustrious mother, is a model constitutional Sovereign." (Loud cheers.)

Sports and Amusements.

The afternoon was given over to popular amusements. Thousands crowded the arena and watched baseball, lacrosse and polo games, and a musical ride by the police, while bands in the grounds and uptown blared forth splendid music, and a general holiday prevailed.

The festivities closed last night with a grand State ball, attended by Earl Grey and the Parliamentary party, who leave for Regina to-day.

Dr. John Potts of Toronto delivered a patriotic oration at Alberta College last night in connection with the inauguration.

The number of deaths in Ontario during July, from all causes, was 1,871, compared with 1,840 last year. The details are as follows: Smallpox, 8 cases, no deaths; scarlet fever, 48 cases, 2 deaths; diphtheria, 128 cases, 12 deaths; measles, 85 cases, 3 deaths; whooping cough, 80 cases, 21 deaths; typhoid, 89 cases, 19 deaths; consumption, 164 cases, 144 deaths.

How Big Is Two Cents?

The average consumption of flour, per year, by each person in Canada, is about one barrel (196 lbs.).

Suppose you use an inferior flour at a saving of say 75 cents over the cost of a barrel of Royal Household Flour, that is just 6½ cents a month —less than two cents per week.

But an inferior flour can yield only a portion of the nutriment you get out of "Royal Household" because cheap flours are poorly milled, contain a greater proportion of bran and shorts —the granules are not uniform—the bread is heavy—the texture is coarse —the flavor is tasteless or poor—the nutriment is not in it.

ROYAL HOUSEHOLD FLOUR, being perfectly milled, is uniform in texture—makes bread that is light and waferlike—white as snow—finely flavored—highest in nutriment

"Royal Household" is electrically purified and sterilized—backed up and guaranteed by its makers' reputation.

Ogilvie's Royal Household Flour.

Slater Shoe Advertising

Wearer's Satisfaction

Short talks by the Slater Shoe ad. man. No. 4.

—Because the "Slater Shoe" is widely advertised;

'because a hundred thousand dollars has been spent in making it known,

'the makers could not afford to risk the entire loss of this expensive reputation by turning out shoes which do not in every particular back up the makers' advertised claims.

So that the wearer secures through "Slater Shoe" advertising assurance that the shoe is not skimped in the hidden parts, that wear-worthy materials are used throughout, that the shoe must give entire satisfaction,

'because an advertised shoe which does not satisfy, is subject to ten times as much criticism as a shoe which merely wears but does not make distinctive claims of superiority, such as those made for the "Slater Shoe."

And this large advertising expenditure, besides forcing the makers to maintain the quality of the "Slater Shoe," reduces selling cost, increases factory output—permits specializing, with all that means in economy of making.

The Slater Shoe

Made in Canada 40 years. Goodyear welted. $3.50 and $5.00—for men and women.

Good Casters ON Ives' Brass Beds

The caster on a metal or brass bed is important.

An imperfect caster is liable to injure carpets or rugs while on polished floors it always leaves marks.

Ives' Brass Beds have a double wheel ball bearing caster. The double wheel divides the weight and its wide face does not mark the floor, while it turns so easily to the motion of the bed that it never injures carpets.

It is attention to important small things that makes Ives' beds the finest in America.

Ask to see an Ives Brass Bed and examine it closely.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

Entry may be made personally at the local land office for the district in which the land is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent receive authority for some one to make entry for him.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of Interior.
