"I have Catarrh," says almost every one we meet in these days. Well, it will soon lead to consumption and then death if you don't purchase some of Heder's German Snuff, a medicine that always cures the most difficult of cases.

All who handle money must occasionally get hold of counterfeit bills, for the Note Printing Bureau at Washington makes the startling admission that seven o it of the nine denominations of the national bank notes have been counterfeited. Nor is this the worst yet. It is further asserted that the makers of spurious notes are getting more expert every day.

"You have a pleasant home and a bright fireside, with happy children sitting around it, haven't you?" said the Judge. "Yes, sir," said Mr. Thompson, who thought he saw a way out of the difficulty. "Well," said the Judge, "if the happy children sit around the cheerful fireside until you return, they will stay there just forty-three days, as I shall have to send you up for that time."

A singular religious community in England has lately attracted attention there. About two years ago an English woman named Mrs. Girling settled near Lymington and drew around her a colony of about 150 persons. In singing, dancing, and abstaining from marriage their faith resembled that of the Shakers, by which name they were commonly called. Mother Girling had visions, and declared that she and her followers would never die. Through neglect of work the community fell into debt, and after a number of kindly notices, the county sheriff seized the entire property Dec. 15. For a day and night they remained in the road during a frightful storm, singing and praying. They refused to move until the Lord moved them, although offered shelter. Since then a large number have taken shelter in a barn, and the authorities are endeavoring to disperse the whole band.

Dr. Sweet's Medical Parlor, First Hotel, Opposite King's Square, St. John, N. B.

DR. SWEET, OF NEW YORK, Magnetic Physician, whose wonderful success in the treatment of Nervous Debility and Chronic Diseases has enlisted the attention of the inhabitants of the Maritime Provinces during the past eighteen months, returns to St. John, according to appointment late July, and may be consulted on all forms of Nervous Weakness, Premature Decay, Epilepsy or Falling Fits, Paralysis, Nervous Deafness and Blindness, Paraphonia or Loss of Voice, Spasmodic Asthma, Strabismus or Squinting, Nervous Headache, Neuralgia, Rheumatism, Dyspepsia, (treated as a Nervous Weakness with success), &c., &c. Dr. Sweet's lengthened stay in the city will enable invalids from abroad to visit St. John and avail themselves of the present arrangements. Twelve years' experience in the treatment of nervous affections arising after from youthful indiscretion, sedentary habits over study, or the presence of some insidious disease, coupled with a wide and varied practice in the principal cities in the United States, together with the employment of our new system enable him to cope successfully with disease in its most aggravated form. Apply at once. Office hours from 9 a. m. to 9 p. m. Parlors No. 11 Park Hotel. Consultation, examination and advice, free of charge. An invitation is cordially extended to all of Dr. Sweet's former patients to call upon him.

However quickly a patient may recover and approach towards robust health, by the use of Follows' Hypophosphites he must abolish the habits of life which induced the disease; the effect of the greatest triumph in medicine can only be transitory, while man persists in the gratification of vicious or pernicious habits.

Sale of H. R. Ramsay's Note.

A large crowd gathered at Chubb's Corner, at noon to-day, to witness the sale of Mr. Ramsay's note in favor of Christian Alexander Robertson for $150. AM. Lockhart was the auctioneer, and he appeared in a new grey Ulster coat. It was a handsome coat, with pearl buttons and a belt. Recognizing the importance of the occasion he elevated himself accordingly. When selling property, his ordinary stool, like Bank of New Brunswick, he stands on the sidewalk, but to-day a four legged stool was there, and on it he stood, thus towering high above the crowd. In a short speech he announced that the banks had refused to discount, and he intended giving a printer's order on Chubb's Corner. This was his first essay, and he wanted full value for the paper. Bidding then commenced, and was quite lively. It started at $100, was raised to $125, then to $130, and then by degrees worked up to $147.50, when it was knocked down to Samuel McKean, Esq., Railway contractor. The note is drawn for 3 months, without interest, and the amount paid is twenty one cents more than its bank value. Dr. Earle was the bet under which the note was sold.

The Basle Missionary Society has been engaged in mission work on the Gold Coast of Africa for over 30 years. The Church Missionary Society of England has decided not to attempt any separate Ashantee missions, but to pass over the money received for such object to the Basle Society. The latter has 2,500 native Christians in the various stations on the Gold Coast, of which number 1 100 are communicants. In its schools are 1,660 native children.

The *London Daily Telegraph*, a penny quarto, has the largest circulation of any newspaper in the world. From the 1st of January to the 31st of October, 1874, inclusive, forty-five million nine hundred and eighty-one thousand four hundred and five copies of the sheet were issued, showing a daily average of 176,176. The patrons of the paper are increasing so rapidly that Messrs. Hoe, of New York, are making printing machinery for the proprietors of the *Telegraph* capable of turning off upwards of one hundred thousand issues an hour.

A NEW THING AND A GOOD THING

THE invention of the paper collar was of a positive benefit to the world, furnishing as it did, a neat, clean, and most economical article of apparel. But it never did answer all the purposes for which it was designed, owing to the frail nature of the material. The problem has been to make a cloth collar as cheap as paper that would last longer and could be made always fresh and bright. The new "44" collar, now upon the market, fills these requirements perfectly. It is made entirely of cloth, three thicknesses being used; it so closely resembles the finest linen that it might be sold anywhere for linen; and, no matter how much it may be soiled, it can be cleaned and made as bright as ever by the application of a damp sponge or cloth.
