January 12.

Distressing Catastrophe.—Eight Persons Drowned.—With feelings of the deepest commiseration, we have to record the melancholy loss, by Drowning, of the following persons:—Capt. Thomas Lamb, aged 60; leaving a widow and two children. Capt. Thomas Linley, aged 47; leaving a widow and three children; Capt. Joseph Nelmes Frith, aged 35; leaving a widow and six children; and Mr. Thomas Nash, aged 35; leaving a widow; Peter James, aged 50; Jack Bassett, aged 50; Joe Fubler, aged 35; Isaac Todd, aged 13;—persons of color.

The unfortunate individuals, above named, proceeded in a sail-boat, belonging to Mr. W. P. Darrell at Port Royal, on Sunday evening last, to the aid of the Brig *Nehemiah*, from St. Stephens, N. B., bound to Jamaica, which vessel was lying among the reefs to the West end of these Islands. They gained the vessel and succeeded in saving many articles, which were taken on board the boat, with the intention of conveying them to the shore, but, alas! that shore they never reached. The boat has been found sunk between the wrecked Brig and the shore, which leaves no doubt, that they all have found one common grave beneath the same billow.

Jan. 15.—Arrived on Sunday, H. M. Brigantine Charybdis, Lt. Comr. the Hon. Robert Gore, from Jamaica.—By this arrival we learn, that Vice-Admiral the Hon. Sir Charles Paget, had arrived there, but that his health had not improved by the change of climate; Sir Charles, consequently, for the present, remains at Jamaica. Commodore Douglas has hoisted his red pennant on board the Cornwallis; Commander Watkins is appointed acting Captain, and Lt. Hay, acting Commander. Sir Richd. Grant remains at Port Royal in the Magnificent.

The Squadron sailed from Jamaica on the 15th Dec., for Vera Cruz; it consisted of the Cornwallis, 74, the Edinburgh, 74, Vestal, 28, Rover, 18, Modeste, 18, Snake, 16, Ringdove, 16.—The Pique, 36, with Mr. Fakenham on board, and the Racehorse, 18, sailed three days previously, for Mexico.—The Madagascar, 46, will join the squadron at Vera Cruz. The Sarsenpieu, 46, was hourly expected at Jamaica from Barbados.—The Andromache, hence, at Jamaica, 17th ult.

Promotion and Appointment.—Mr. William H. Kennedy, Mate of H. M. S. Cornwallis, is promoted to the rank of Lieutenant, and appointed to the command of the Hornet, 6, vice Lt. Baillie, deceased.

We understand that H. M. Brig Pilot, will sail to-day for Jamaica, and the Alban steamer, about Thursday. The Charybdis will also sail in about a week.

H. M. Steam Frigate Medea, Capt. Nott, in four days from St. John, N. B., anchored at Ireland Island, last evening.

The Schr. Watchman, Capt. Whitney, in 20 days from Jamaica, arrived yesterday. By this vessel, and H. M. Brig Charybdis, we have Kingston papers to the 21st ult. The House of Assembly met on the 18th. The House has again stated it as "its determination to make a stand—in support of the Constitution, and to adhere to the Resolutions of the last House."

Saint Vincent.—The Brig *Eliza Boating* arrived yesterday from Newfoundland with 200 puncheons of blubber for the Hon. Dr. Choppin. Dr. Choppin holds that blubber may be used as manure without any ill effects to the inhabitants. Others *know* that it causes fever and is highly injurious. Dr. Choppin is a medical practitioner of high repute a man of family and property, and unquestionably a well wisher to the Island,—but Dr. Choppin may be mistaken in his theory, and may unintentionally introduce a pestilence among the inhabitants. It is the duty of our public authorities to prevent this, and we therefore call upon His Excellency the Lieut. Governor, the Town Wardens for Carleton, and all others in authority, to prohibit the landing of this blubber.—*Royal Gazette Nov. 8.*

We most respectfully, but at the same time most earnestly, call His Excellency's attention to the state of the negro grounds throughout the Island. We have it from unquestionable authority, and from all quarters, that the negroes are taking every thing out of their grounds and putting nothing in, so that if this system is pursued much longer there will be a famine in the land in the course of a few months. We differ essentially, it is true, with His Excellency in most matters, but believing him to have the interest of the Island at heart, we hope that he will not disregard the call now made merely because it proceeds from us.—*Ib.*

From the Jamaica Times.

It is difficult for us to determine precisely the actual state of the Island. We cannot take upon ourselves to say that there is much improvement in our people. That, in some parishes and on some estates they are doing pretty well is most certainly true—that in others, it is quite the reverse, is also too true. Upon the whole, we do not think there is any real improvement. High wages will command good work when it is good weather, but no power will get them to labor at any other time. Next, the same disinclination to work more than half a day, remains. And we understand that no entreaties will prevail upon them to labor more than four days continuously. There are also estates on which they cannot by any means, obtain the labor required for the cultivation.

It is a lamentable fact that these things are so, yet it is nevertheless true, and now that the three months are almost gone, about which there could be any quibble, whether or not the proprietor could claim rent from his laborers, he will hereafter have that power in his own hands, and if the people will not work, he will be able to dispossess them of houses and lands they have hitherto occupied. The state of the Island at this moment is still far from being encouraging, and many, have no hesitation in saying that the bright star of Jamaica is set for ever, and although we are anxious to behold that star in all its renovated brightness, we are compelled to say, a cloud hangs over it, which dims its lustre and throws a gloom not easily dispelled. Others there are who entertain a better opinion of our prospects, and conceive that Jamaica will yet flourish as a sugar colony.

The time allowed, however, for the excitement which was to be expected would take place on so great a change in the condition of so large a proportion of our fellow creatures, is now past, and it would afford us and every well wisher of Jamaica the sincerest pleasure, could we say, that confidence had been restored, that the laboring population had resumed their avocations in a satisfactory manner, and that the prospects of the country were encouraging—we trust, that another month will not pass away without being able to say this—but at present it is out of our power.

House of Assembly, Monday, 4th February.

Mr. Partelow, by leave presented a Petition from the Justices of the Peace for the City and County of Saint John, praying that an Act may pass to authorize the General Sessions of the Peace for the said City and County to remunerate the Assessors of Parish and County Rates for their services as such; which he read. *Ordered*, That the said Petition be received and lie on the Table.

Mr. Partelow moved for leave to bring in a Bill, to authorize the Justices of the Peace in and for the City and County of Saint John to make compensation to the Assessors of Taxes for the City of Saint John for the year 1838. Leave granted. The said Bill being brought in, was read a first time.

Mr. Hannington, by leave, presented a Petition from Silas Crane Charters, Charles Tibbido, and 60 others, of Dorchester, in the County of Westmorland, praying that no alteration may be made in the Road leading across the Tantamar Marsh, and that the Road leading from Charters in Dorchester, to the cross road at Woodworth's in Sackville, may be established as a Great Road; which he read.

Ordered, That the said Petition be received, and referred to the Committee appointed on the 18th January, to take under consideration such parts of His Excellency's Speech, as relate to the improvement of Roads and facilities of Communication.

Read a second time, A Bill to authorize the President and Directors of the Public Grammar School in the city of Saint John, to grant Leases with covenants for renewal.

The Hon Mr. Johnston, by command of His Excellency the Lieutenant Governor, laid before the House—A statement shewing the names and denomination of Ministers or Teachers licenced to solemnize Marriage, and the amount of fees paid thereon; the same having been furnished in compliance with an Address of the House to His Excellency of the 30th January last.

The Hon. Mr. Johnston, Chairman of the General Committee on Roads, submitted a Report, which he read, and handed the same in at the Clerk's Table, where it was again read, and is as follows:

"The Committee appointed to inquire into the state of all the Roads of communication in the Province, and to report what sums it may be necessary to grant for repairing and improving as well the Great as Bye Roads, have had under their consideration the subject of the Bye Roads, and recommend that the sum of £15,500 be granted for the Bye Roads in the several Counties, and apportioned as follows, viz:—

Mr. Partelow, from the Committee appointed on the 28th February, 1838, to carry into effect the recommendation from a Select Committee at the last session, relative to the inspection of Flour and Meal with directions to report at this Session by Bill or otherwise, reported, that they had taken the subject under their consideration during the recess, and prepared a Bill, under the title of "A Bill to regulate the inspection of Flour and Meal," which the was directed to submit to the House.

Ordered, that the Report be accepted.

The Bill as reported by the Committee being then handed in, was read a first time.

HOUSE OF ASSEMBLY.

We understand from a private source, that the House of Assembly during this week have been deliberating with *closed doors*, the result of which was, that a young Mr. Rainsford, of Fredericton, student at Law, has been COMMITTED TO PRISON for a breach of the *Privileges of that august Body*. It is reported that the head and front of his offending is, the *handing of a letter to Mr. Beardsley, the member for Carleton, which letter contained the copy of a Common Process.*

We thought that the House had got enough of this wanton exercise of a power which has been questioned by high Judicial Authority, in the matter of Mr. Pierce. We are quite surprised to find this sort of Star Chamber proceeding again resorted to on so trifling and ridiculous an occasion. It is very evident that there are other tyrannies besides those arising from despotic Governments.

The inhabitants of Fredericton are exceedingly enraged at this high-handed proceeding, and we should not be surprised if the next advices from that quarter brought accounts of a second Harrisburg affair.

UNION HARMONY,

OR

British America's Sacred Vocal Music.

FOURTH EDITION,

ENLARGED AND GREATLY IMPROVED.

Will be published and ready *for sale early in the* ensuing summer.

PROSPECTUS.

THE encouraging reception of the three former editions of this work, and the frequent applications to the publisher for a continuance has induced him to offer a Fourth Edition, upon an enlarged and improved plan.

The progressing improvement in Sacred Music within the British Provinces, which received its early stimulus from the publication of the UNION HARMONY, &c. requires at this time a more comprehensive work, comprising greater variety in style and manner, to meet the requirements of elementary instruction, the practice of schools, singing societies, and devotional music on public occasions.

It is intended to comprehend fully the above objects in this edition: the work will be executed on fine paper, splendid typography, and substantially bound in boards; and will consist of 250 pages—two-thirds of which will comprise a proportion of standard Church Music, adapted to the various metres in general use among the respective denominations of Christian worshippers; other Music of easy acquirement to young beginners in the art of Vocal Music; and also of such music for the use of schools and singing parties as is calculated to raise the admiration and excite the genius of the lovers of sacred harmony. The remaining third part will comprise original music, Anthems on various occasions, and other select pieces from the most celebrated composers, both European and American.

The rules of music necessary for the learner will be simplified, both in matter and arrangement, throwing off all superfluous musical characters, arbitrary terms, and useless technicalities; every allowable deviation from the fixed principles in the science of music, will be expressed in plain English without the unnecessary introduction of Latin *lingo*, which in itself needs interpretation before it can be understood.

In short, the publisher intends that every single page of this work shall be of lasting utility, and the whole book be a permanent family companion.
