Shipping Notes.

Captain Nickerson of the bark Charles Gumm of Yarmouth, N. S., while on the passage from Port Morant, Ja., for Liverpool, died of fever, on the 14th inst., and was buried at sea; on the 20th, the mate, H. M. Gosan, a native of Hamburg, died of the same disease and was buried at sea. Having no one on board to navigate the vessel they bore away for New York arriving at that port on the 26th inst. Captain Nickerson was a native of Yarmouth.

Captain Denchars, of the British ship Mogul, was accidently killed at Macabi Island, on the 8th of September.

Shipbuilding in the city and vicinity still goes on with unceasing activity. Messrs. Nevins and Fraser have on the stocks at their yard, March Bridge, two large ships, one of them about 1,500 tons, the other something over that. The frames of both these vessels are up and the planking is being rapidly put on.

Mr. Dunlop has on the stocks in his yard, nearly completed, a ship of 1,500 tons, which he purposes launching next week. She has been built for Messrs. W. & R. Wright of Liverpool.

Mr. Mahoney has on a bark of about 700 tons which he will launch next month.

Messrs. Cruikshank and Pitfield are building a 1 600 ton ship which is well advanced.

Mr. Charles F. Dow is building a fine bark for a firm in Wales and Captain McDonald who will have charge of her. She is being constructed of oak, black spruce and pitch pine. She will probably be launched in January next.

The brig Katie, of Cascumpec, P. E. I., from Miramichi for Great Britain with lumber, has gone on shore near Cape Tormentine and will probably be a total loss. The Katie is about 300 tons register and is owned by the Hon. G. W. Howlan.

Two new schooners are lying at Indiantown. One of them was built at Washademoak and the other at Long Reach.

The ship A. Marshall which arrived at this port to-day was built at Bear River, N. S., by Alpheus Marsf all, Esq., of that place. She is about 900 tons register, is owned by the builder, her captain and Henry & Parker of New York. She was built above the bridge at the head of Bear River, and before she vessel could be brought through, the bridge had to be taken down. The ship is consigned to Messrs. Troop & Son. She will load deals for the Bristol Channel.

Intellectual cultivation tends to increase industry by exciting a people to exertion, and by directing that exertion in a proper channel it must tend to a profitable end. Ignorant men are indolent because they neither know the results that may be accomplished, nor the benefits that may be secured by industry. The merchant will be successful in proportion as he is able to select the most profitable places and times for exchange, to foresee the probable alterations of the market, to avail himself of the fluctuations of capital which are taking place in various parts of the civilized world, and a thorough understanding of accounts, commercial forms and usages together with bookkeeping which is essential to every calling, trade or profession and should form a part of every man's education, as it teaches order, system and management, lessens litigation, and shows at all times the financial condition of one's business. Books kept on proper principles are the very same to a merchant that the compass and chart are to a navigator. The compass neither drives the ship nor steers it, but it tells the captain where he is, and in what direction to steer to reach his destination. An institution which has for its object the training of young men for the responsible duties of every day life (such as Eaton's Commercial College) deserves the hearty support of the people of the Provinces. 21

Sudden Death and Inquest.

About half-past six last evening Capt. Edward R. Robinson, a boarder at the International Hotel, died very suddenly under the following circumstances:—Captain Robinson, who was an elderly man, had been at the hotel since the early part of November, and had, to all appearance, enjoyed good health. A few days since, he complained of having a pain in his left breast and experiencing a shortness of breath after any unusual exertion. At one time he remarked to the waiter that he feared his lung was affected, but as nothing unusual showed itself but little importance was attached to the circumstance. Last evening, about ten minutes after seven, Capt. Robinson entered the dining room and took a seat an unoccupied table. He had been seated but a short time when he arose and attempted to reach the door, but on the way he stopped and leaned his head upon a table. The head waiter fearing he was ill went to him and asked what was the matter. "I do not know," was the reply; but when Mr. Hyke arrived shortly after, the man was unable to articulate. Various simple remedies were used, and in the meantime Capt. Robinson was carried to his room and Dr. E. Bayard called. On his arrival he found Capt. Robinson in a dying condition, living only about twenty minutes. An inquest was held by Coroner Earle this morning, and after hearing the evidence of Mr. Hyke and Dr. Bayard, the jury returned a verdict of death from heart disease. Capt. Robinson formerly belonged to Salem, Mass., but has of late been engaged in lumber operations at Shulee, N. S. He was at one time a member of the Massachusetts House of Representatives, and was a man of much ability and possessed of a kind and generous nature. His wife, who resides in Wolfville, has been sent for by telegraph.

Keeping a Bawdy House.

Maria Clark, of Queen street, who was charged at the police office yesterday with keeping a bawdy house, appeared after recess this morning. Mr. John Kerr appeared for the prisoner. The complaint was made by John Dickers, who, however, consented to withdraw his action if Mrs. Clark left the house within twenty-four hour. She consented to do this and was released on giving security to appear again to-morrow morning to satisfy the court.

Chivalric Masonry.

The annual conclave of the Union De Molay Encampment of K. T. and K. M. was held last night at the Masonic Hall, Princess street, for the purpose of installing the officers elect for the ensuing year. The following were installed in the En campment:

Goodwin, Registrar.

Union De Molay Encampment with its appendant orders under the registry of England, is probably the best equipped in the Dominion, and having at very great expense procured magnificent pharaphernalia may easily vie with other branches of the same body in the United States. The armory, fitted up with much taste, makes a brilliant appearance and apparently lacks in nothing necessary to carry out the workings of the Order. It will be observed by being chosen for the second year to fill the highest position in each of the orders in recognition of his untiring zeal in forwarding the interests of all relating to the institution of Freemasonry. The other officers are all men of excellent standing in the city, and it is probable that to the judicious selection of such individuals the Encampment owes its present success.

City Police Court.

Mary Hamilton, 23, N. B., who was found drunk in a yard of Union street was the only prisoner arrested without a warrant last night. This morning she was let go.

In the absence of Justice Gilmore, who is slightly indisposed the bench at the Court was occupied this morning by Justice McAvity.

Youthful Fighters.

Thomas Murray and Michael Welsh charged with fighting on a wharf at York Point were brought before the Police Court and fined $6. Both of the parties are lads of about twenty years.

Circuit Court.

Yesterday afternoon the Counsel addressed the Jury in the case of The Queen vs. McElory. The speech of the Attorney General was brief, but contained a general review of the evidence brought forward to substantiate the case for the Crown. Mr. Jordan then spoke in behalf of the prisoner for a short time, pointing out the absurdity of supposing that McElory had intended any assault, from the admitted fact of his having been an old friend of the prosecutor. The judge then charged the jury, who after a short absence returned with a verdict of "guilty of an assault without any intention of committing robbery."

This establishment since its first opening here has become very popular; its artists are not to be beat in the Dominion.

Practical Business Education.
DAY and EVENING SESSIONS.
Eaton's Commercial College,
KITCHEN'S BUILDING, St. John, N. B.
OUR course of study is comprehensive, and adapted not only to such as have enjoyed the best educational advantages, but also to those whose education is deficient, from want of opportunity or other causes. Those who desire to engage in mercantile pursuits will receive that which is invaluable to them in the safety and dispatch with which they will be able to conduct their own business or that of others. It gives the Mechanic an opportunity to take a front rank, by reason of superior ability to transact with correctness the business of his calling. To those engaging in Agricultural life it gives a practical knowledge and experience in business, which will enable them to meet the shrewd business man with confidence. And to that large class who are uncertain what course to pursue, it is not only the best stepping stone to lucrative and permanent business of their own, but also a ready means of commanding regular employment.
