MIDDLESEX COUNTY COUNCIL.

Reports of the Educational and House of Refuge Committees.

Fee for County Pupils in the Collegiate Institute 75 Cents Per Month—The Disposal of the City's Poor.

FOURTH DAY—FRIDAY.

The report of the Special Committee to deal with the city of London re amalgamation of London South, submitted by Chairman A. P. McDougall, stated that all matters affecting the question had been examined by County Auditor W. D. Stanley, and that the county's claim was prepared, awaiting the action of the city. The committee further recommended that they be continued with their former powers until the January session; also that Auditor Stanley receive $2 per day and milage. Adopted.

The second report of the Finance Committee recommended among other things that the claim of James Wright et al. for alleged infringement on patent for heating and ventilating be referred to R. Boston, James Gilmour and Chairman A. P. McDougall with power; that the Treasurer's report be printed in the minutes; that the Council pay $83 87 towards the expenses of Joseph Fulkeson, of Dorchester, who was sent to New York for rabies treatment; that the hospital account be referred to James Gilmour; and that the accounts of Bowman & Co. and Wm. Spence be paid. Adopted.

Chairman James Rosser's committee to look into the matter of building a bridge over the River Thames, between Caradoc and Delaware, reported it not advisable to erect one. A wooden bridge would cost $5,000 and an iron and stone one $18,000, beside the difficulty of building at that point. Adopted.

The Educational Committee approved of the report of the joint committee of the city and county to make provision for the admission of county of Middlesex pupils into the London Collegiate Institute. The report provides that a fee of 75 cents per month be charged each county of Middlesex pupil, except to the extent that the taxes paid the city by the parent or guardian of the pupil meet such fee, and the excess of such taxes over such fee be credited on the balance to be paid by the County Council on behalf of such pupils severally; also that the amount to be paid by the county shall not exceed in any one year $800, unless approved by the County Council. The report was adopted with Mr. A. P. McDougall's resolution that the London Board of Education be notified of the agreement and be requested to submit annually to the County Council a certified statement of all the data upon which the city's claim as per the agreement is based.

The first report of the House of Refuge Committee for December session (F. L. Harrison, chairman), informed the Council that the new fire escapes had been examined and had not been constructed according to the specifications, and recommended that the County Engineer settle for same as soon as finished to his satisfaction. As regarded the admission of the city poor to the House of Refuge, it was deemed inadvisable to do so at present as the accommodation was rather limited. In regard to the fire escape the report was amended to leave the matter to the Engineer with power. The information was volunteered that the House of Refuge had at present room for only four females and about eight males, while the city wished to transfer about twenty paupers.

Mr. M. Scarrow thought the Council should deal liberally with the city and admit as many as convenient.

Speaking on the clause relating to the removal of London's poor to the House of Refuge, Mr. James Gilmour said the city and county had many interests in common, such as the hospital and the jail. Of course, the city had previously taken its poor from the county care; some philanthropic persons imagined in their kind feelings that they could attend to them better if the poor were nearer them so they could pat the dear creatures on the back once in a while. The hospital sufficed for both county and city, and the same should apply to the poorhouse, even if it were necessary to enlarge the building.

Mr. S. McLeod did not think the county had received fair exchange in civilities with the city. It had its little benevolent institutions and the county did not wish any of its boarders who were bad enough. The case was entirely different regarding the hospital.

Mr. D. G. McKenzie had no doubt there was plenty of room in the house, but in case of additional inmates the provision of beds, bedclothing and other articles would be considerable.

Mr. McLeod's query as to whether the city, in case of its paupers dying in the House of Refuge, would incur all the funeral expenses, was answered in the affirmative.

Mr. T. E. Robson moved in amendment that the matter be left with the Inspector, Chairman of the House of Refuge Committee, and the Warden to prepare such terms as they deemed best for the county's interest. The amendment was carried and the report as amended was adopted.

Moved by W. S. Calvert, seconded by A. P. McDougall, that the clerk be instructed to notify the Lieutenant-Governor of Ontario that the county has erected a house of refuge and industry, and own 45 acres of land in connection therewith, and that the Warden and Treasurer make application to the Lieutenant-Governor for $4,000 under the conditions provided by 53 Victoria, chapter 78. Carried.

Moved by R. Augustine, that the Clerk be instructed to prepare a bylaw assuming and building all bridges over streams in Middlesex county that are necessary, 100 feet in length and over. Lost. Council adjourned.

THE FINANCIERS.

The Registrar's Bill—A Fixed Assessment Wanted by a Furniture Firm—Leave to Lease the L. and P. S. R.

When the account of $222 for books supplied to the registry office in connection with the amalgamation of South London, was presented at the meeting of the Finance Committee of the City Council last evening it was rejected on the ground that the Council had not been consulted in their purchase. Mr. J. H. Flock appeared in behalf of Registrar Gill and explained that Mr. Gill had but followed out the procedure of twenty years. The matter was referred to the City Solicitor.

Mr. George Elliott's claim for a sidewalk on Quebec street or the refunding of the amount he spent on the original sidewalk, removed by the corporation, was laid over. Ald. Anderson stated that the members of the ward were investigating the matter. The claimant was represented by Mr. T. H. Luscombe. The amount of the claim is $20 30.

The $9 account from "D" Company, I. S. C., Band for carting their instruments to and from Victoria Park during the summer, was passed. Mayor Taylor moved in connection that the Council tender the band a vote of thanks for their excellent music.

The application of Messrs. John Ferguson & Sons for a fixed assessment of $18,000 was laid over. The change would mean a reduction of about $7,000 in the assessment.

The petitions of Mr. L. Lawless and Alex. Drummond, re dog tax and street watering assessment were referred respectively to the Assessment Commissioner and City Engineer.

Mr. A. Mountjoy's application for a renewal of his lease in the City Hall building was favorably recommended to the Council. Mayor Taylor and Ald. Glass opposed the granting of the petition, as the rent was too low. Aldermen Skinner and Anderson contended that the rent at $450, with $40 additional for heating purposes was, if anything, too high.

The application of the East End Social Club for a stove in the public hall of the ward was referred to the Chairman, Treasurer and the Mayor.

Ald. Anderson's proposal to apply to the Legislature for power to lease, sell or manage the L. and P. S. R. in connection with the act to consolidate the city debt, was agreed to.

The statement of the London Trust was received and ordered to be printed with the audited city accounts. On the suggestion of the Mayor, it was agreed that the police and fire departments, Water Commissioners and Hospital Trust Board should be printed in one volume, together with salaries and other information.

Mayor Taylor reported that he had written to President Van Horne, of the C. P. R. respecting the contention on divisional shops, but had up to date received no reply.

The Chairman and Treasurer were instructed to inquire into the liability of the city respecting the McKenna claim for the support of the boy Drummond. Those who performed the evening's work were Aldermen Moule (chairman), Skinner, Anderson, Glass and Taylor, Mayor Taylor and Treasurer Pope.

VOICES OF THE PEOPLE.

Police!

To the Editor of the ADVERTISER:

The assistance of your well-known paper is respectfully requested to ascertain the whereabouts of our worthy Chief of Police during the present season of burlesque lithographs. DUNDAS STREET.

"Protection."

To the Editor of the ADVERTISER:

As we are at present situated, every day convinces me more and more that Canada is a good country from which to emigrate. I will relate a little experience in proof of this contention. A few days ago I received a small parcel from Detroit. The actual value of the goods is 15 cents. On this I paid 25 cents for express, 25 cents for entry charges and 40 cents duty—90 cents in all to release goods worth 15 cents. The duty is levied not by value but by measurement. A short time previous to this transaction I received $8 worth of goods from Syracuse. After paying express charges and duty (25 per cent.) I found my profits would be exactly 20 cents. Those goods cannot be obtained in Canada. The only crumb of comfort I see on the horizon is the approach of a general election and the prospect that the gentlemen who meet in the red parlor of the Queen's Hotel, Toronto, will then case to be the rulers of the country.

RECIPROCITY.

Emancipation For the Boys.

To the Editor of the ADVERTISER:

In these days we are very much horrified at the slave traffic, but I wonder if people ever think of the close analogy between it and the liquor traffic as carried on here at home. In the one case the children are caught and sold, directly for ivory, in the other we indifferently permit our boys to be caught and ruined for money. We will not interfere to save our boys, because, you know, "it might injure our business." The Africans are so accustomed to the slave traffic that they have become comparatively stolid and indifferent to it. We have become so accustomed to the liquor traffic that we are blind to the destruction of our youth that it is causing. Many persons engaged in the slave trade abhor it, but it pays. So many of our liquor dealers would like to be out of it, but want to wait till they make a little more money.

Finally we have had emancipation of the serf and the slave, let us work and pray for the emancipation of the drunkard.

FACTS.

TORONTO LETTER.

Trinity Mods. at Dinner—The City Treasury Out of Funds.

TORONTO, Saturday, Dec. 6.

The fourteenth annual banquet at Trinity Medical College, held last night in Harry Webb's dining hall, was unanimously voted to be the best in the history of the college. The students and their friends in the medical profession turned out to the number of nearly 300, and throughout the evening the greatest harmony and enthusiasm prevailed.

At a meeting of the Executive Committee yesterday the chairman announced that the city treasury was exhausted and funds were needed. He told of steps taken by himself and the City Treasurer to endeavor to raise money from the Bank of Montreal. The efforts had been in vain, and then the Toronto Bank had been tried with similar results. Toronto banks, too, expressed annoyance because the business of the city had been given to the Bank of Montreal. It was now necessary to make provision not only till January, but until July 1, and about $2,000,000 will be needed. Toronto bankers had finally suggested that if the Bank of Montreal would advance $1,000,000, they would advance the other $1,000,000. This was arranged, so that the Bank of Commerce would advance $500,000, and the Imperial and Toronto $250,000 each. The Bank of Montreal could not at the time, owing to the situation caused by the Baring Brothers' failure, advance actual money, but it was finally arranged that the city should get $300,000 cash, and credit for the remainder of the amount. The Mayor remarked that the interest paid would probably be 5 per cent. The chairman closed by saying that the advances could be paid back by May 1, if the first installment of taxes were collected by that time, but he said: "One thing I have to say, and the bankers one and all said it. These outrageous local improvements all over the city must cease. No bank can carry you if these wild-cat schemes go on." The committee authorized the chairman to complete the negotiations with the banks.

The citizens will get water through the new conduit after Monday. On Sunday the city will be supplied from the reservoir while the conduit is pumped out and all the dirty water in it turned into the bay. Then a test will be made and if successful water will be delivered through it.

There was placed upon the grave of the late Hon. George Brown in the Necropolis yesterday a chaste ledger tomb of gray granite. It is after the severe English style, being only about two feet high and consisting of one polished slab of granite resting upon a somewhat large piece. On the upper face is this simple inscription:

GEORGE BROWN.
Nov. 29, 1819. May 9, 1880.

This monument is the choice of Mrs. Brown and the family of the deceased. Mr. F. B. Guillett is the sculptor.

The street railway arbitrators resumed yesterday morning with Accountant Cross in the box. Mr. Blake cross-examined him on the figures given on Thursday, and showed that taking the company's figures of the value of their plant their profits amounted to less than 6 per cent. Mr. Speight, of Speight & Dixon, a New York firm, gave evidence as to the value of the rolling stock. His valuation totaled $290,075.

Sewing machines repaired and guaranteed to work as good as new by Wm. Smith, practical repairer, 286 Dundas street, next to Fulcher's livery. ywt

Ask for them.
Ask for what?
Granby Rubbers.
Why?
Because they are the best.
They fit well.
They wear like iron.
Everybody wears them.

FARMER'S PATENT ELECTRIC CONDUCTOR for rubber boots and shoes can be furnished with the Granby Rubbers when so desired. This ingenious device re-establishes the electric current between the body and the earth and entirely does away with the constant drawing on the feet, which renders rubber shoes so uncomfortable when worn for any length of time. This is the way they talk:

G. B. FARMER, Esq.— PERTH, Feb. 19, 1890.

Being one of the many who have experienced much discomfort in the wearing of rubbers, I was induced in the face of strong doubt, to try your ELECTRIC CONDUCTOR on a pair of rubbers. The fact that I will not now wear rubbers without them is sufficient evidence of my appreciation of the comfort derived from them. I am yours respectfully,
4u tx J. R. McLAREN.
