LONDON, Jan. 17.—10:15 p.m.—A Petrograd dispatch to the Central News says:

"An official communication issued at 6 o'clock this evening says the Eleventh Turkish Army Corps has been exterminated near Kara-Urgan."

THOUSANDS EXPECTED AT GOOD ROADS MEET

Second Canadian Convention To Be Held In March At Toronto.

[Special to The Advertiser.]

TORONTO, Jan. 16.—War conditions will not be permitted to interfere with the holding of the second Canadian and International Good Roads Convention, which is announced to take place in Toronto, probably in Convocation Hall, between March 22 to 26. The "official call" for the convention is being issued in a few days from the Good Roads Association in Toronto and Montreal, signed by W. A. McLean, president of the Dominion Good Roads Association, and George A. McNamee, secretary-treasurer.

The Good Roads Convention held last spring in Montreal was an unqualified success, being attended by more than 600 delegates, and visited by thousands of Montreal citizens during the week the show was in progress at the arena. The propaganda, which has been carried on for years in behalf of the construction and maintenance of first-class roads, has been such a success that little further argument is necessary to prove their value. For that reason the second convention, in Toronto, will differ materially from any previous meeting for a similar purpose held either in Canada or the United States. Actual cost figures in relation to the depth, width, durability and substance of various sorts of city and country roads will be placed before the assembled delegates, so that they can return to their various constituencies with useful and concrete data and statistics at their finger ends.

Ontario's Interests.

An especial effort is being made to arouse keen interest amongst the manufacturers, motorists and agriculturists of Ontario, and from present indications it is expected that from 1,500 to 2,000 delegates will gather at Convocation Hall during the week of March 22 to 26. One material feature in the success of this movement during 1914 and 1915 is the Ontario Good Roads Association, which has joined forces with the Dominion body. One "booster," who has been doing good work to further the cause in this province, is J. A. Sanderson, of Oxford station, Ontario, the president of the Ontario Good Roads Association, who is also vice-president of the Dominion organization. Other officers in addition to those above mentioned are: B. Michaud, deputy minister of roads, province of Quebec, Quebec City; Chas. S. Henry, M.P.P., secretary-treasurer Ontario Good Roads Association, Todmordan, Ontario; S. L. Squire, first vice-president Ontario Good Roads Association, Waterford, Ontario; O. Hezzelwood, president Canadian Automobile Federation, Toronto, Ontario.

Organizations Interested.

The following organizations have already announced their participation in the affairs of the convention: Dominion Good Roads Association, Ontario Good Roads Association, American Road Builders' Association, American Highway Association, Automobile Club of Canada, York County Highway Commission, Manitoba Good Roads Association, Canadian Automobile Federation, Maritime Good Roads Association, Quebec-Miami International Highway Association, Saskatchewan Highway Association, Toronto-Hamilton Highway Commission.

IS HE A LUNATIC ?

NEW WESTMINSTER, B.C., Jan. 17.—Predicting that in a little while the German flag would wave over the court house here, and declaring that he was about to start an insurrection among the Germans, a German, bearing the Irish name of Steven Burke, was taken in charge by the police Saturday. Twitching of the Nerves Broken-Down System

Now Entirely Cured — Never Used Any Medicine With Such Benefit as Dr. Chase's Nerve Food.

Headaches, sleeplessness and nervousness are often very disagreeable, but when your nervous system gets into such a condition that the nerves twitch and jerk, and you have peculiar nervous sensations come over you there is cause for grave alarm.

Everyone dreads the thought of paralysis or locomotor ataxia. Nothing is worse to look forward to than helplessness. Sometimes it is helplessness of body and at other times the mind is affected, which is far worse.

MRS. McKELLAR

The writer of this letter did not know what to expect, but fortunately began the use of Dr. Chase's Nerve Food in time to head off danger, and writes that she was entirely cured of the old trouble. The last paragraph proves that the cure was lasting.

Mrs. John McKellar, 11 Burton street east, Hamilton, Ont., writes: "I was injured some years ago, and that left me with a broken-down nervous system. I could not sleep, and suffered from twitching of the nerves and disagreeable nervous sensations.

"I then began using Dr. Chase's Nerve Food, and can say that I never used any medicine that did me so much good; in fact, I am entirely cured of my old trouble. The Nerve Food not only strengthened the nerves, but also built up my system in every way."

Under more recent date Mrs. McKellar writes confirming her cure, and states that she has had inquiries from many people who had heard of the great benefits she obtained from Dr. Chase's Nerve Food.

KAISER DECORATES OFFICERS ON FIELD

Generals Honored As Result of French Retirement Across Aisne.

CALL VICTORY IMPORTANT

Claim Allies Were Completely Surprised on Right and Centre.

[Canadian Press.]

AMSTERDAM, via London, Jan. 17.—9:09 p.m.—Emperor William, who witnessed the battle north of Soissons, in which the French were driven back across the River Aisne, decorated on the field General Von Lochnow and Lieut.-General Wishura, who commanded the victorious troops. On General Von Lochow he bestowed the Order of Merit, and upon Lieut.-General Wishura a commandership of the Order of the House of Hohenzollern.

According to the German accounts of the fighting the French had during the last month occupied in the region of Soissons a network of trenches on the right bank of the Aisne, which extended away to the north. On January 7 the French commenced a heavy bombardment, in which the Germans suffered severely, some of their trenches being wrecked and their machine guns buried.

Heavy Fighting.

The following day the French attacked and penetrated into the German trenches, from which they could not be driven. Heavy fighting, man against man, followed day and night until January 11, the Turcos battling bravely with rifle, bayonet and knife. On the 12th the Germans began a counter-attack, and the French soon were driven from the trenches, and also their own, and were chased from the heights. Then they occupied fresh positions half way down the slope.

The French, expecting further German attacks on their left, sent reinforcements to that wing. The Germans, however, attacked on the centre and right, the French being taken completely by surprise. Within three minutes the Germans captured the first line of French trenches, and after that the entire border of the plateau was in the German hands. The position of the French troops advancing against the German right became desperate, and they surrendered on the 14th, when the German right commenced an enveloping movement.

UNIMPORTANT, SAY THE FRENCH.

WASHINGTON, Jan. 17.—Foreign office dispatches to the French embassy here tonight discounted the importance of the recent German advance at Soissons, declaring that the French troops still covered the town and had merely withdrawn to the left bank of the River Aisne because the rising of the stream had made it impossible for reinforcements to come up.

The cablegram said:

"The recent German communique throws into relief the attack which they delivered last week to the north of Soissons. The French troops engaged about Soissons did not reach the number of three brigades and they had been withdrawn to the left bank of the River Aisne because of the flood which had broken several bridges. We thus no longer had the means of sending them reinforcements and they withdrew without being pursued, continuing to cover the town. This is the truth of the affair. As for the situation of the French army it is a question of a retreat of some 1,800 metres on a front of five kilometres, caused by the floods of a river."

The German Chancellor replied as follows:

"Your excellency may be assured of my most confidential co-operation and unreserved assistance in the solution of your serious and responsible task. PERSIA DEPENDS ON FOREIGN ARMY

Intends To Adhere To Declaration of Neutrality—Few Turks In Country.

PETROGRAD, Russia, Jan. 18.—Via London, 3:15 a.m.—That Persia should not be held accountable for her inability to prevent the Turkish troops from menacing Russia through violation of Persian neutrality, was the assertion made today by Isaac Kahn, Persian Minister to Russia. He declared his country had placed her dependence on foreign troops for protection. The minister explained the Persian situation as follows:

"We solemnly declared our neutrality and intended to adhere to that declaration. The integrity of our country was guaranteed to us by England and Russia. Last Monday Emperor Nicholas, reiterating that promise, said: 'I wish to tell your Government that we shall not take a single foot of your territory.'

Will Continue to Protest.

"We have protested against Turkish violation of our territory, and if Turkey continues its violation we shall continue to protest. At present the Turkish garrison at Tabriz consists of little more than two regiments, but it is possible, even probable, that Turkey will send through our province of Azerbaijan numbers of troops to the Caucasus, because our Russian frontier is fortified. The Russian Government knows, however, that we are not culpable. Nearly all the Kurds joined the invading army, but again we were not blameworthy, since we were helpless, because we lacked an army.

"Certain Russian papers have demand that we expel from Teheran the diplomatic representatives of Germany, Austria and Turkey. This we shall not do, because it would constitute a breach of neutrality, and would justify the Turks in treating us as a hostile country, whereas now we are perfectly sure no matter what the result of the war, that Persia will remain independent."

Minister Kahn said Persia hoped soon to succeed in forming an army which it has been endeavoring to do since 1908, but hitherto unsuccessfully, because of the country's poverty and lack of united action by the various tribes.

HAD DYSPEPSIA

So Bad Could Not Take a Drink of Water Without Suffering.

Dyspepsia is one of the most difficult diseases of the stomach there is to cure. You eat too much. Drink too much. Use too much tobacco. You make the stomach work overtime. You make it perform more than it should be called on to do. The natural result is that it is going to rebel against the amount of work put on it. It is only a matter of a short time before dyspepsia follows.

That old, 40-year-old remedy, Burdock Blood Bitters, will cure the dyspepsia and will cure it to stay cured as we can prove by the thousands of testimonials we have received from time to time.

Miss Sarah McRae, Newfield, Ont., writes: "I write to say that I have used your Burdock Blood Bitters, and have found it the best remedy I have ever used for dyspepsia. Two years ago I had stomach trouble so bad that I could not even take a drink of water without suffering. I took six bottles of B.B.B. and have been entirely cured, and can now eat anything without any bad after effects.

Burdock Blood Bitters is an old and well-tried remedy, but on account of the many substitutes we would ask you to make sure that our name appears on both the label and wrapper, as this preparation is manufactured only by the T. Milburn Co., Limited, Toronto, Ont.

There is a general belief among the natives, still according to the missionary, that Emperor William has been converted to Islam and will undertake a pilgrimage to Mecca.

HUNGARY IS SPLIT BY TWO FACTIONS

Both Aim Against Austrian Domination—Extremists Want Independence.

LONDON, Jan. 18.—2:51 a.m.—The Morning Post prints a long article from its Hungarian correspondent in Budapest, who points out that there are two distinct and almost parallel political movements in Hungary which are striving for public support.

The first movement, according to the correspondent, is led by Count Tisza, the Hungarian Premier, who is desirous of counterbalancing the aims of the extreme independent party and building up the party to take advantage of the present situation to secure predominance in the dual monarchy for Hungary. Count Tisza is endeavoring to push his ideas throughout the dual monarchy and the correspondent believes Austria will have to side with him as, should Count Tisza join the extreme independents the situation for Austria would be grave.

The second situation, the correspondent continues, aims at realizing the views of Louis Kossuth for a completely independent Hungary, which is also supported by many influential men.

"But," the correspondent concludes, "it should not be forgotten that such well known politicians as Count Andrassy, Koloman, Szell, and Count Apponyi are convinced of the righteousness of the Germanic cause and desire to see Hungary fighting it out to a victorious end."

This Invention for Rupture Sent On 60 Days' Trial

WON'T COST YOU A CENT IF THE TWO MONTHS' TEST DOESN'T PROVE ALL OUR CLAIMS.

AWAY WITH WORTHLESS TRUSSES LIKE THESE.

You can make a thorough prove-it-to-you test of this guaranteed rupture holder without having to risk a single cent.

We'll send it to you for sixty days' trial—practically lend it to you that long—just to let you see for yourself how it takes all the misery out of being ruptured.

If it doesn't keep your rupture from coming out or bothering you in any way—in spite of any work you do or any other strains—then it won't cost you a penny.

The Only Thing Good Enough to Stand Such a Test.

A mere try-on—like at a drug store—can't possibly prove whether a truss or anything else for rupture is going to do any good.

Neither is just a few days' trial a safe test. A truss may seem all right the first week or so and then prove utterly worthless.

But you can't possibly make a mistake after sixty days' trial.

And there is only one thing of any kind for rupture that you can get on such a long trial—

Only one thing good enough to stand such a long and thorough test—

That is our guaranteed rupture holder—the famous Cluthe Automatic Massaging Truss.

Made On New Principles.

The Cluthe Truss is so radically different from everything else for rupture that it has received eighteen separate patents. Made on an absolutely new principle—far more than just a truss.

It has so thoroughly proved its merits in nearly 300,000 cases that surgeons in the U. S. army and navy and physicians in all parts of the world now recommend it instead of advising operation.

Will Save You From Operation.

A rupture can't possibly be relieved—can't even be kept from growing worse—unless protected against all strains and constantly kept from coming out. Just as a broken bone can't "knit" unless constantly held together.

And that is the curse of wearing elastic or spring trusses—not one in twenty ever holds successfully—they sooner or later make operation absolutely necessary instead of preventing it.

But remember, the Cluthe Truss is guaranteed to hold—and won't cost you a cent if it doesn't. And in addition, it provides the only way ever discovered for overcoming the weakness which is the real cause of rupture.

It does that entirely automatically—without any attention whatever from you—and has thus brought complete recovery in thousands of cases that seemed almost hopeless, and has saved thousands of people from having to risk their lives under the surgeon's knife.

No Belt, No Leg-Straps; No Springs.

The Cluthe Truss does away entirely with the curse of wearing belts, leg-straps and springs. People who have tried it say it is as comfortable as their clothing. And it is waterproof—will hold in the bath. Also perspiration-proof. Easily kept clean.
