made on the American force at that place, numbering about 300, by an advance of the Mexican cavalry—nearly seven thousand strong. The American forces opened their park artillery on them, when they speedily fled.

Rumoured Defeat of General Worth, and Recapture of Saltillo.—The New York Sun, of Thursday last, contains the following important rumour:—A very exciting rumour was circulated yesterday in Wall street, soon after the stock boards adjourned, to the effect that a telegraphic despatch from Washington had announced the arrival of a Government Express with disastrous intelligence from the army—that Santa Ana had attacked Saltillo with fifteen thousand men, and cut up General Worth and the fifteen hundred Americans at that post.

LEXINGTON, Dec. 8, 1846.—Information is from Sen Louis Potosi up to the 15th ult. The anticipated approach of our troops had induced Santa Ana to send out between 4000 and 5000 cavalry, for the double purpose of reconnoitering the country and driving in the herds of cattle on the road.

Tribute to the Brave and Humane.—It is stated in the New Orleans Bee that a subscription has been set on foot among the citizens of New Orleans for medals to be presented to the French and English officers who so nobly exerted themselves in the face of imminent danger to save the crew of the U. S. brig Somers, capsized in a sudden squall off Vera Cruz. The officers to be honoured are Mr. Wood, first Lieutenant of the British frigate Endymion, and Midshipman Salles, of the French brig Pylade.

The citizens of New Orleans are ever prompt to give tokens of their admiration of heroic deeds.—We are glad to see that Mr. Wescott of the U. S. Senate has taken steps to procure a national acknowledgement of the noble conduct of the English and French officers in the affair of the Somers. Let it be as prompt as was the gallant act which claims the national recognition; let it be adequate, as becomes the character of a great Republic.

AMERICAN FORCE IN THE FIELD.—The Washington Union of Saturday night publishes the report of the Adjutant General of the United States army, Gen. R. Jones, from which it appears that the Regulars in the field, including officers and men, number 6,613. Troops at sea and under orders to join the army 1,098. Recruits *en route* for the seat of war 762. Aggregate of Regulars 8,473. Volunteers in the field 15,745; at sea for California 766. Aggregate of Volunteers 16,511—amounting in all to an army of 24,984 men. Of this number there are under the orders of Major Gen. Taylor 18,332; of whom 7,406 are Regulars and 10,926 Volunteers. Under the orders of Brigadier Gen. Wool, charged with the conduct of a separate division, 2,660, of whom 621 are Regulars and and 2,039 Volunteers. Under Brigadier Gen. Kearney, also charged with the conduct of a separate division in New Mexico, 3,992, of whom 446 are Regulars and 3,546 are Volunteers.

ROCKET AND MOUNTAIN HOWITZER BATTERY.—A new species of force which promises to be very effective is to be organised in the United States military service.

The armament of one of these Batteries is composed of four 12 pounder Mountain Howitzers, weighing only 220 lbs. and caisson complete; two Rocket carriages, with the necessary stores and caissons complete; two 12 pound Mortars, weighing eighty-four pounds each, with mortar beds, also complete, the travelling Forge and one Battery wagon, in charge of the artificers. The travelling Forge and Battery wagons to be at such a distant in the rear as convenience and necessity may require, as also the Mortars, which being required for special cases only, would not accompany the Batteries in its manœuvres on the field, although habitually in readiness to be made available when called for. The officers and men are to be armed as follows:—For the officers swords and pistols; for the non commissioned officers and men, musquetoons, slung: the non-commissioned officers carrying if necessary, a light sword. Every man of the company to be an expert marksman. The ammunition required for this battery would be—*For the Howitzers*, Shells with the improved fuzes and canister shot. *For the Rocket carriages*, the usual Congreve or War Rocket, the greater portion to consist of the smaller kind, with a few, however, of the larger size for special purposes. A mode is devised for packing rockets in the ordinary ammunition boxes, like those for the howitzers and caissons of the guns, instead of long waggons—thus affording more uniformity among the carriages of this Battery and also greater facilities for manœuvring the pieces and transporting the ammunition.

"MY DEAR" GEN. SCOTT.—This distinguished officer goes, we understand, to Mexico, with full powers to control the operations of our army there. If negotiations are opened with Santa Anna, the hero of Lundy's Lane will undertake the more difficult duties of the diplomatists. We trust that in this latter sphere he will be more successful than our previous negotiators, all of whom have been most famously bamboozled by the one-legged Mexican. Gen. Scott will proceed to Camargo and organize the forces there, and about the 15th of January he will depart for Tampico, with such forces as can be drawn from the Rio Grade, and with such of the new levies as can reach him by that time. From Tampico he will take up the line of march to San Luis, and effecting a junction with Taylor's force, he will commence the siege of San Luis with a force of fifteen or twenty thousand men.—[New Orleans Delta.

The Baltimore Patriot contains a report of the loss of the United States frigate Congress, of 44 guns in the Pacific Ocean, and all on board of her.

Revolt on Shipboard—Captain Hoffman, of the steaming Suffolk, reports that on Friday he towed down the ship Eliza Warwick, bound to Liverpool. On the way down, the crew of the ship refused to do duty, alleging that the ship was not full manned and declaring that they would not proceed to sea. The Suffolk towed the ship down as far as the tail of the West Bank, where the rug left her. Soon after, a noise, as of a scuffle, was heard, and pistols were fired, on board the ship, and her anchor was let go. [New York Commercial Advertiser.]

THE UNIVERSAL GAS BURNER.—We have had an opportunity of inspecting the principle of this invention; and we confess it appears to us superior in brilliancy, and freedom from the great evil of most of the burners commonly used—allowing quantities of unconsumed carbon to pass through the flame to the great injury of delicate fabrics, furniture, gilding, plate, jewelry, &c. To those who are aware of the cause of gas colours in the flame of the gas burner, it will be a convincing proof of the success of this application of the best principles of combustion, to say that the flame is quite white down to the orifices from which the gas escapes, showing, whatever minute particles of unconsumed carbon may be carried through the burner, they are here entirely consumed; and the only gaseous products evolved are carbonic acid, and the vapour of water, going injurious to furniture or ornamental work. From experiments which have been made with Professor Wheatstone's photometer, the results range far more brilliant light, and a consumption of only two thirds the quantity of gas required by other concentric ring burners. The principle on which this burner is constructed is truly scientific, and, we doubt not, it will meet with that demand to which its economy and advantages so justly entitle it. The depot for inspection and sales of the Universal Gas Burner is at 60, St. Martin's Lane, Charing Cross.—*London paper.*

There is, perhaps, no disease with which our country is affected, which sweeps off annually so many victims, as that fell destroyer of the human race—Consumption. Day after day, year after year, the insatiate monster hurries to the portals of the cold and silent tomb, fresh added victims to its conquest. No walk of life is sacred from its blighting influence.—No age is exempt from its death-dealing shafts. The old, the middle-aged and the young, all alike, are food for this common enemy of mankind. The white haired patriarch, whose life of temperance has rendered his system impervious to the attacks of other ills, and whose good deeds prepared him for the enjoyment of life's calm evening, finds consumption fastening its fangs upon his vitals, and tearing him from a world, ever bright to minds which look complacently on days well spent.

Is there no help for the afflicted? No preventive of the dangers which beset us in our changeable and fickle clime? We think there may be. And if the allegations of those who are at least entitled to veracity, may be believed, there is a preventive and a remedy.

Wistar's Balsam of Wild Cherry is offered to a suffering world as such. It needs not the "adventitious aid" of a long string of fictitious certificates to give it notoriety. Its true value and intrinsic excellence are sufficient to entitle it to the confidence of the public, and

"Waft on to fame"

the name of its inventor, as a benefactor of his species. For sale by Peters & Tilley, King's Street, St. John N.B.

MARRIED.

On the 11th inst. at St. Luke's Church, Portland, by the Rev. W. N. Boyer, Mr. John Carvill, to Miss Hannah H. Rupert, all of the Parish of Portland.

At Wickham, Queen's County, on the 6th inst. after a lingering illness which he bore with Christian resignation to the Divine Will, Mr. John McConnell, aged 78 years, leaving a wife and numerous family to mourn their loss.—Mr. McConnell was formerly a native of Tullenadall, in the County Tyrone, Ireland, who emigrated to St. John, in 1833.

MARINE LIST.

PORT OF SAINT JOHN—ARRIVED.

Saturday—Schooner Brothers, Fitzgerald, Boston, 6—Master, assorted cargo.

Kate, Kinney, Boston, 7—Master, assorted cargo.

Sunday—Schr. Emily, Wood, Boston, 2—tallow, &c.

Jason, Perkor, Eastport—rum.

Wednesday—Brig Fellowship, Armstrong, Newfoundland, 18—George Thomas, ballast.

CLEARED.

8th—Barque Bethel, Card, London, deals—S. Reynolds & Son.

9th—Barque Euphemia, Pickence, Liverpool, deals—John Wishart; Zanoni, Simm, Liverpool, timber and deals—Allison & Sporr; Brig Napoleon, Lawrenson, Belfast, deals—Adams & Ketchum.

11th—Ship Britannia, Coulthart, London, deals, &c; Maranham, Jamieson, London, deals; Schr. Louisa Willard, Sharp, Boston, coals and fish.

12th—Barque Princess, Murphy, Boston, coals; Schr. Defiance, Harper, Boston, coals.

13th—Barque Atalanta, Clark, Dublin, timber, and deals; Evergreen, Vasey, London, do; Brig Caroline, Ward, Bristol, railway sleepers; John Wilson, Mackie, Liverpool, timber and deals; Esther Eliza, Clarke, Eastport—assorted cargo, I. D. Andrews.

Brig Westmorland, at this port, passed on the 3d Dec. in lat 47 15, lon 26 16, W. a large ship apparently waterlogged—had no head—16 ports of a side.

The ship Monticello, at New York, reports that on Dec. 12th, lat 43, lon 43 33, spoke brig Exile, of Windsor, from Pictou, bound to Norwich, 27 days out—had been blown off in the late gales—split sails, and short of provisions; supplied them—she bore away for Fayal.

The Perthshire spoke on the 25th, barque Quebec, from Bristol, for St. John.

The ship Chieftain, hence for Cork, returned to port on Monday last, having sprung aleak.

The Beaver, at New-York, from Gibraltar, spoke, Nov. 22d, lat 42, long 56, brig Bruce, from Cork for St. John, with loss of main-topmast and most of her sails.

Cleared at New Orleans, Dec. 19th, ship Harmony, Jamieson, Liverpool.

LOSS OF THE BRIG BALTIC.—the brig Baltic, Capt. Henry, which left this port on the 28th ult. for New-York, with a cargo of coals, was lost on Monday night, 4th inst. near Little River, during a S. E. gale and heavy sea. Crew saved.—The Baltic was owned by Messrs. L. H. Waterhouse and James Clark, of this City, and was insured for £1100.—Most of the spars, anchors and chains saved. What remained of her cargo was to be sold on Wednesday, as it would all wash away with the tide in a day or two.

LOSS OF BARQUE CHAMPLAIN.—This vessel, which left St. John on the 26th ult. for London, was driven ashore at Liverpool, N. S. on the 4th instant, and became a total wreck. Crew saved.

Another Wreck.—We learn that a Schr. said to be the 'Star,' from Nova-Scotia, for this port, with a cargo of oats, beef, &c. went ashore at Vaughan's Breakwater, Gasco, in the gale on Friday afternoon. There were six grown persons, and a boy six years old on board, who were all saved by the exertions of Mr. D. Vaughan and others.

Brig Flirt, of Yarmouth, (N S) was totally wrecked on Black Rock Ledges, off Port LeBoat, on the morning of the 26th ult.—The crew saved their lives with great difficulty, after being on the wreck six hours.

The new brigantine Leveret, Captain Russell, of and from this port, which had been ashore at Sandy Hook, has been condemned at New-York.

MONITOR VESSELS.—The fine new brig Nutfice, of St. John, owned by William Hughson, Esquire, and commanded by Captain Joseph Hughson, left St. John in July last, to load at the Bay, where she took in her cargo and sailed for London. She was spoken at sea, by the barque Corinthian, two days previous to the gale of the 19th Sept: she was seen, we understand, several times after the gale—apparently drifting, with no person on board.—The crew we believe, has not since been heard of. Mr. Augustus Hughson was also on board.

The brig *Zephyr*, of Yarmouth, Capt. Hilton, sailed from Antigua, 26th June, for Turk's Island, and has not since been heard of.—*Herald.*

Diocesan Church Society of New Brunswick.

Dec. 11. JOHN KINNEAR

"Tempus temperatur terrum."

NEW GOODS.

THE Subscriber has just received and has for sale, an extensive and varied Assortment of Gold and Silver WATCHES of every description, fitted up in the most approved style; also a quantity of rich and fashionable JEWELLERY, Silver PLATE, Nautical Instruments, &c.—which, together with a large Stock on hand, are offered for sale low for Cash, or approved Paper at three or six months.

He would take this method of returning his sincere thanks to his friends for the liberal support that he has received during the last fourteen years in business, as well as to inform them that having visited London last winter, and Boston and New-York this summer, he has entered into new arrangements, by which he will be regularly supplied with every description of WATCHES, CHRONOMETERS, and all other Goods in his line, which will be sold lower than at any other establishment in this City.

Having purchased, when last in London, a splendid ASTRONOMICAL CLOCK, and one of Dent's DIPLIEDESCOPES, and other Apparatus suitable for correcting and rating Marine Chronometers and completing and adjusting Nautical Instruments, and having expended a large sum to make his establishment efficient and accommodating to the Public; he would now cherish the hope of receiving a continuance of that patronage and support which the nature of his enterprize would warrant him to expect. He is aware of the opposition that the plain honest trader sometimes meets with from unprincipled and designing men; but the same principle which has guided him through evil report and good report, will govern him in his future efforts to serve the Public and himself conjointly.

☞ Chronometers and every description of Watches and Clocks, Jewellery, &c. repaired on moderate terms. JAMES AGNEW.

Watchmaker, &c. King-street.

N. B.—Shipmasters are respectfully invited to an examination of the above named CLOCK and Apparatus for rating Chronometers; and their patronage and support are solicited.

Dec. 18. JARVIS & CO.

MAIL CONTRACT.

TENDERS addressed to the Deputy Post Master General, St. John, will be received until 12 o'clock at noon, on Monday, the 8th day of March next, from such persons as may be willing to enter into a Contract for conveying Her Majesty's MAILS, twice a week each way, between SAINT JOHN, N. B. and AMHERST, N. S. commencing on and from the 6th day of July, 1847. The sum per annum to be stated in Halifax currency, for which they would be willing to perform the service.

The Particulars of the Contract are, that the Mails shall be conveyed on such days and at such hours as the Deputy Post Master General may from time to time appoint, in a Waggon of suitable size, (to be approved of by an Officer of the Department,) to be drawn by not less than two Horses. The Mails to be carried at a rate of speed of not less than Seven Miles per Hour, including stoppages. The Contract will be entered into for Three Years, after which period, either party shall have power to annul the same, by giving a Notice of Three Months. The Contractor will be bound to afford perfect Security to the Mails, and means to protect them against the Weather.

Tenders will also be received, addressed as above, from such persons as may be willing to carry the Mails upon the above conditions, with permission to carry Six Passengers. Security will be required for the faithful performance of the service.

Tenders will be received for both Services on the 8th of March next, after which time none will be noticed. A. WOODGATE, D. P. M. G.
