DEVONSHIRE'S NEW MOVE HEADS FREE FOOD LEAGUE

Late Lord President of the Privy Council Swings Away Around.

London, Oct. 16—The Duke of Devonshire, late Lord President of the Council, has conditionally accepted the presidency of the Free Food League, which is organizing a campaign against the fiscal policy of Mr. Chamberlain and Mr. Balfour.

This important move in the fiscal contest developed to-night at the meeting of the Parliamentary Committee of the league, when a letter from the Duke of Devonshire to Sir Michael Hicks-Beachh, Mr. Ritchie's predecessor as Chancellor of the Exchequer, accepting the proffered presidency of the league upon certain conditions was read. The committee passed a resolution unanimously accepting the condition, and the action was communicated immediately to the Duke of Devonshire. The substance of the Duke's letter follows:

To Oppose New Departure.

"You informed me when we last met, that the wish had been expressed that I join the league and take a leading part in its operations. I understand that the principal object of the league is to oppose the new departure in the fiscal policy, which now has been definitely announced, and which includes the taxation of food imports from foreign countries and preferential treatment for the colonies, as well as a general tariff on imported manufactured goods. I understand that these objects do not involve opposition to the policy of the government in so far as that policy is limited to reserving to the government the right of proposing to parliament a tariff legislation for the purpose of negotiating commercial treaties and the mitigation of hostile tariffs."

Continuing the Duke of Devonshire refers to the desirability of restraining "the strongly protectionist tendencies manifested at the recent conference at Sheffield," and says the duty of combating before the country the doctrines of the tariff reform league should not be left entirely to radicals and members of the Cobden Club.

Accepts Conditionally.

The Duke says he cannot reject the invitation of the Free Food League to become its president, altho he must accept the office conditionally.

"I understand the body I am asked to join," he continued, "altho bearing the name of the league is substantially a parliamentary committee, I anticipate that you will seek to broaden its constitution with the object of extending its operations. If this is done and I am invited to accept the presidency I must ask to be consulted as to the nature of such extension, that I may have the opportunity of determining how far I feel myself in unison with the new constitution. I also ask that it be made clear that the views I have above expressed as to its attitude towards the government are fully shared by the league. It must be also understood that such services as I could render can only be limited in character.

Not an Active Part.

"It is 17 years since I took an active part in the campaign against home rule. It is not in my power to take the same active part now that I took then. I must be regarded rather as an adviser than a combatant. It is with some reluctance that I consent to take even a limited part in the controversy, but I feel that many Unionist members of parliament whose ideas I believe agree with mine are making great sacrifices in order to maintain their opinions, and I am unwilling that they should regard me as indifferent to their political interests."

Mr. Ritchie, the late Chancellor of the Exchequer, and Lord George Hamilton, late Secretary of State for India, also have joined the league.

The Edinburgh Review, which is edited by the Hon. Arthur Elliott, today makes a strong appeal for a reorganized Liberal Unionist party, under the leadership of the Duke of Devonshire and to include men of all parties devoted to free trade, like Mr. Ritchie and John Burns. It invites the assistance of the Independent Labor party also.

ENGLAND MUST CHANGE HER POLICY

Australian Statesman Says Colonies Should Not Demand a Price for Aid.

(Canadian Cable).

London, Oct. 17.—The Mail publishes a talk with Hon. Mr. Reid of Australia. He says: "England has done enough for the colonies without our demanding a price for our aid when the day of her necessity arrives. England can only maintain her trade by the same artificial, preferential, business tariffs of other nations which are around her, but they are in the very last ditch and will be defeated and driven back by this nation when she attempts to defend herself against her conquering foes. England gained her supreme commercial position by superior technical skill and business enterprise."

Canadian Cable.

London, Oct. 17.—The Times observes: "The Duke of Devonshire's speech places him in an intermediate position between Mr. Balfour and the free importers, and he only regrets that he cannot see his way to go a little further with the application of the principle he accepts, for the removal of the mischief he clearly recognizes. He is not going to use the question in such a way as to wreck the Unionist government."

TRIED TO FIRE ROSSLAND.

Rossland, B. C., Oct. 17.—An atrocious attempt was made here last night by unknown incendiaries to destroy the city. No fewer than four empty buildings were fired within five hours. The Fire Department was on hand in all cases and the fires were confined to the buildings in which they originally started. Great excitement was caused and the incendiaries will receive short shrift if they are ever caught. The entire force of eight police officers is employed on the case, but the fire fiends have covered their tracks well.

Macedonia Leader No More

Report of Death of Boris Sarafoff is Confirmed—Life of Insurrection.

Salonica, Oct. 16.—The report of the death of Boris Sarafoff, the famous Macedonian leader, is confirmed.

A despatch from Salonica yesterday said that it was reported that Boris Sarafoff was killed Oct. 12 in a skirmish at Pruva, near Florina.

Boris Sarafoff was the life and soul of the insurgent operations in Macedonia.

He was popularly believed to be the real instigator of the abduction of Miss Ellen Stone, the American missionary, in September, 1901, in order to procure thru her ransom funds to enable the Macedonian Revolutionary Committee to organize the insurrection.

In 1895 Sarafoff formed a band of desperadoes to raid Turkish territory. Since then he headed nearly 400 daring raids into Turkey.

PROMOTER OF SHIP TRUST WAS AN EXPERT INFLATER

Kenneth K. McLaren Was Also an Incorporator of 520 Per Cent. Swindle.

New York, Oct. 16.—Kenneth K. McLaren, one of the incorporators of the United States Shipbuilding Company, who was a star witness yesterday in the wrecked Trust hearing before Special Commissioner Henry D. Gilphant, was also an incorporator of the notorious 520 per cent Miller-Franklin syndicate—the most barefaced and criminal shell game ever operated in this country.

Link by link the chain of facts has been welded, showing that the colossal watered corporations promoted within the last three years have paralleled the methods of Miller and Ammon.

Get Rich Quick.

You pump water into a worthless corporation and float it on the public just as you form a 520 per cent. get-rich-quick scheme.

Indeed, it now looks as if the "captains of finance" have stolen Ammon's and Miller's scheme of separating the people from their money.

Miller is in Sing Sing; so is Ammon.

Yesterday it was calmly stated by a young man that he was an incorporator of the Shipbuilding Company, and that he did not know whether its plants were in Patagonia or Honolulu. He did not know whether the promoters intended to make bootjacks or battleships, gambling paraphernalia or church furniture.

In all the testimony showing the ruin of Dresser, the crushing hand of Schwab, the millions that went to J. P. Morgan's syndicate of steel underwriters, there was nothing so startling as the admissions made yesterday.

Dummie Did It.

Dummy incorporators ran up the ship yard stock from thousands to millions. They bought the Bethlehem Steel plant, and did not know where it was. It was the stock issued by the corporations which they formed that Schwab and Morgan's syndicate got. It was this stock that Harris, Gates & Co. signed an agreement to work off on the public for Schwab and for J. P. Morgan & Co., managers for the United States Steel Underwriting syndicate ahead of other stock.

If any other evidence were needed to show up the daring scheme conceived and executed by the promoters, it could hardly be proven with more emphasis.

Scene by scene his bewildering Shipbuilding drama has been unfolded to the growing astonishment of two hemispheres. Wheeling from romance to tragedy and from tragedy to comedy, with the amusing picture of five boys sweating on the stand that they juggled with millions, that they held the fortunes of thousand of men and women in their hands, and swelled a $3000 concern to one with a capitalization and bonded indebtedness exceeding $79,000,000, the strange play now becomes terrifying with the entrance yesterday of a former actor in the brazen Miller-Franklin syndicate swindle.

Davey Accidentally Drowned.

Lindsay, Oct. 16.—The coroner's inquest into the death of Albert Davey, the hermit of Emily Creek, who was drowned in Sturgeon Lake on Monday last, returned a finding of accidentally drowned. Mrs. Walkey, a storekeeper at Sturgeon Point, said that Davey had about $200 in bills on his person when he left for home, and that they were not found on the body. Members of the Rathbun Camp, near Fenelon Falls, said that they heard him singing for a long time after he had left the camp.

ABERDEEN NOT FOR JOSEPH FEARS INJURY TO COLONIES

Would Rather Remove the Embargo Against Canadian Cattle, He Tells Liberals.

(Canadian Cable).

London, Oct. 16.—Lord Aberdeen told the Liberal meeting at Skipton that Chamberlain's scheme would seriously impair the fraternity and friendliness of the colonies. He would rather remove the embargo against Canadian cattle, which really was a kind of protection. "The available supply of wheat from the United States cannot be increased without increasing the price, and we have reached a critical situation and one full of peril, unless it be dealt with boldly and judiciously."

DECLINES NOMINATION.

E. Chandler Walker Will Not Run Against M. K. Cowan, M.P.

Windsor, Oct. 16.—(Special.)—A delegation consisting of Dr. J. W. Brien of Essex, Louis Wigle, ex-M.P., Kingsville; Dr. Hiller, Leamington, and A. B. Herring, waited upon E. Chandler Walker of the firm of Hiram Walker & Sons, Walkerville, this afternoon, in connection with the nomination of a candidate to contest the riding of South Essex against M. K. Cowan, M.P. At the Conservative convention held at Kingsville a few weeks ago, Mr. Walker was the unanimous choice, he being a staunch Conservative and a man of influence, tho not a resident of the riding. Mr. Walker, however, declined the nomination to-day, his reasons for doing so being purely personal.

KAISER SEEKS COLONIES.

Sees in South America Field for Surplus Endeavors.

New York, Oct. 16.—The Herald has the following from Washington: "In Germany the word has gone forth that the Fatherland must have a navy as strong as any other power, and that colonies must be founded to drain off the surplus population without denationalization," said Representative Alston G. Dayton of West Virginia tonight, who has just returned from an extended study of home affairs in Germany, England and France. "My impression is that Germany is looking to South America for the establishment of these colonies, and will not permit the Monroe doctrine to stand in the way, if it comes to the test."

AGAINST CANADIAN STEEL.

U.S. Treasury Department Asked to Enforce Countervailing Duty.

Washington, Oct. 16.—Complaint has been made to the United States Treasury Department that the Dominion Iron and Steel Company of Canada has been exporting bounty paid steel into the United States. It is claimed that the Australian government pays a bounty of $2 per ton on pig iron and $2 more on steel produced from this iron, making a total bounty of $4, and that this steel is brought to Canada and then to the United States. It is asserted by those making the complaint that the countervailing duty against bounty-paid products should be applied to this steel.

BURNED TO DEATH.

Victoria, B.C., Oct. 16.—A despatch from Port Renfrew, on the Vancouver Island coast, says: Edward Hunter, a settler, has been burned to death in a fire which destroyed his cabin. Settlers found the cabin in ruins and the charred body of the occupant among the debris.

ENGLISH COMPANY TO HANDLE FOOD.

London, Oct. 17.—A syndicate has been formed with a registered capital of half a million pounds to facilitate the distribution of food products thruout all parts of the empire. Sir Gilbert Parker writes: "The possibilities of the scheme are enormous, and whatever benefits the company may reap, the empire will reap them in greater proportion."

WEAPON'S LOCK DEFECTIVE EXETER LAD MEETS DEATH

Hunter Preparing to Go Home Discharges His Shotgun, Killing a Boy.

Exeter, Oct. 16.—A sad shooting fatality occurred near Sodam about four miles from Exeter. Silas Stanlake, jr., and others were out rabbit hunting. Mr. Stanlake had shot a rabbit and was going to start for home. He cocked both barrels to take out the remaining cartridge. One of the locks was defective. The hammer went down and the gun was discharged. The contents went into the abdomen of John H. Smith, son of John Smith of Sodam, who died almost instantly. Mr. Stanlake did not see the boy, he having come thru a thicket unobserved. He is heart broken over the accident.

FOUND DEAD IN QUARRY.

Guelph, Oct. 16.—The body of a man named John Stein, a resident on Waterloo-avenue, was found this morning about 7 o'clock in Kennedy's quarry. It is evident that the deceased, while returning home from a friend's about 10.30 on Thursday night, fell over the precipice into the quarry, a distance of 25 feet. His back was broken and the skull badly injured. Mr. Stein was about 70 years of age, and is a shoemaker by trade. He had lived here for about 12 years.

MAN FOUND DEAD.

Orillia, Oct. 16.—The body of Hiram Haight of Victoria-road was found in eight feet of water alongside the town wharf this morning, where it had apparently lain for five or ten days. At a coroner's inquest, held this afternoon, little information was elicited, except that Haight was on his way home, suffering from a cut in his foot. The investigation was adjourned till Monday to permit of a post-mortem examination.

KILLED BY LIVE WIRE.

St. Catharines, Oct. 16.—Albert Marcle, superintendent of the Lincoln Electric Light Company, while doing repairs on St. Paul-street this morning, came in contact with live wires, and was almost instantly killed. The body was taken to Dr. Hooper's office, but medical aid was of no avail, as death had taken place.

HOUSE ON ESTIMATES.

Dr. Reid Brings Locomotive Rumor to Mr. Fielding's Notice.

Ottawa, Oct. 16.—(Special.)—Supplementary estimates to the amount of nearly two and a half millions for the Intercolonial and Prince Edward railways occupied the attention of the House during the afternoon and most of the evening session.

In connection with a vote of $500,000 for rolling stock Dr. Reid of Grenville called the attention of Hon. Mr. Fielding to a rumor that the promoters of the new Locomotive Works expected to make sufficient profit out of government contracts to pay the whole cost of the works in two or three years.

Dr. Reid told the acting Minister of Railways that he intended to carefully watch the locomotive contracts in the future.

Mr. Barker protested against charging a number of the expenditures on capital account. He claimed that under a proper system of accounting not more than $100,000 out of a vote of $580,000 for rails should be charged to capital account.

The House continued in supply until adjournment at midnight. Votes passed included $10,000 to provide for expenses in connection with investigations into railway accidents in Canada, which Hon. Mr. Fielding said would eventually come under the control of the Railway Commission.

DOWIE NOW IN NEW YORK FIRST ASSAULT TO-DAY

Thief Steals $1500 Diamond and Pearl Brooch From Mrs. Dowie's Room.

New York, Oct. 16.—The "Restoration Host," under the leadership of John Alexander Dowie, garrisoned Madison Square Garden to-day and completed preparations to sally to-morrow on the works of the enemy.

The first detachment, numbering about 400, arrived early in the morning, and the remaining trains followed during the day and evening. Leaving the ferry boats, the crusaders boarded special cars, which were in waiting, and proceeded direct to the Garden to the music of their bands and the singing of hymns. The general overseer himself, accompanied by his family and staff, arrived in his special train at the Grand Central Station, where, owing to a misunderstanding, his private carriage failed to meet him, and he was compelled to go to the Plaza Hotel in a hack.

During the confusion of leaving the train, a thief slipped into Mrs. Dowie's reception room on the car and made off with a $1500 diamond and pearl brooch.

From the Plaza, Dr. Dowie went to the Garden, where he restored order out of general confusion that prevailed and outlined his plans in an interview with the newspaper men. He denied that he intended to raise a fund of $50,000,000 while here, and declined to say whether he was going to found another Zion City here.

It is intended to begin the house to house visitations to-morrow, and the first public service will be held in the Garden on Sunday.

WILL INVITE TARTE

To Address Meeting Along With Messrs. Borden and Monk.

Montreal, Oct. 16.—(Special.)—Leader Borden put in a very busy day here following his arrival from Kingston, all of his time being spent with Mr. Monk and the members of the Jacques Cartier and the Lafontaine clubs. At the first named place the leader of the opposition, Mr. Monk and Mr. Bergeron addressed workers from all over the province, and the utmost enthusiasm prevailed. It is further understood that Messrs. Borden and Monk will address a mass meeting in Montreal in the near future, and that Hon. Mr. Tarte will be officially invited, thus paving the way for joint action between them in the future.

BEYOND HIS CRITICS.

Canadian Cable.

London, Oct. 17.—The Morning Post says in regard to Mr. Goschen's address: "We appreciate his disposition towards political economy, but see no trace of any insight with the real issues involved in the trade relations between the United Kingdom, the United States and Canada. In this respect the fact that Mr. Chamberlain is so incomparably superior to his critics is established beyond all doubt."

Broke Open Till.

Galt, Oct. 16.—Skipton's bookstore was robbed last night or early last night by some expert thieves, who left no trace of how they got into or out of the premises. A skeleton key was probably used, for the windows were all closed and locked. Money was taken from the till amounting to $9.60, comprised of $2 bills, $5 in silver and 60 cents in coppers. Nothing else was taken whatever, as probably nothing was portable or saleable enough for their purpose. The chief was notified late last night of five suspicious-looking characters being at Ziemann's, but by the time he arrived the troupe had dispersed.

CZAR STANDING FOR WAR TO MAINTAIN PRESTIGE

Great Britain Sending Two Additional Warships to China—Both Sides Preparing.

London, Oct. 16.—The Berlin correspondent of The Times says the Czar is reported to have sent the following telegram to Admiral Alexieff, the Russian Viceroy in the Far East, at Port Arthur: "I GIVE YOU FULL POWER TO MAINTAIN, IF NECESSARY, RUSSIA'S PRESTIGE BY FORCE OF ARMS."

It is, however, says the correspondent, understood that neither Russia nor Japan considers her military preparations complete.

The correspondent says attempts are being made in Berlin to represent the attitude of the Japanese government, and British public opinion, as directed by a wholesome appreciation of Russia's military and naval strength in the Far East.

WARSHIPS TO CHINA.

London, Oct. 16.—Great Britain is sending two additional warships to China. The first-class cruiser Europa has been ordered into commission at Portsmouth for despatch to the Chinese station, and a battleship will be sent there from the Mediterranean squadron.

FEAR AN ATTACK.

Yokohama, Oct. 16.—The Russian squadron has returned to Port Arthur. Correspondents there report that preparations have been made against an apprehended attack on the ninety-three war vessels in port. The entrance is protected by a boom of heavy logs. The negotiations at Tokio, the critical, are proceeding peacefully. America and Europe are cautioned by the officials against alarmist reports.

Ferry Co. Directors Decide on New Structure for the Island.

Manager Solman and three of the Ferry Co. directors, Messrs. Osler, Hammond and Hendrie (Hamilton), braved the elements yesterday, and made the trip across the bay. They looked over the charred remains of the grand stand and decided to erect a new structure upon the ashes of the old. It will not be as high as the original one, but will be of the same length. It was felt that the public would be more convenient if the main entrance were placed on the south side, and this will be done, while on the western side there will be another entrance. It is likely that the old gample room site will be kept, and the billiard room will probably be run in conjunction.

FIRST CARNEGIE LIBRARY IN THIS PROVINCE OPENED

Minister of Education Delivers an Address on Literature and Its Relation to Life.

Windsor, Oct. 16.—(Special.)—The new Carnegie library was formally opened this evening. Windsor possesses the distinction of being the first city in the Dominion to receive the gift of a library from Andrew Carnegie, his offer having been received on Feb. 15, 1901. The building was erected at a cost of $27,000. It is in classic style of architecture, finished in shades of brick. It possesses an auditorium which has a seating capacity of 300.

Representatives were present from Sarnia and Chatham, two other western cities which have also partaken of Mr. Carnegie's generosity. Among those who addressed the audience besides the Hon. Richard Harcourt, who was the speaker of the evening, were Senator Casgrain, R. F. Sutherland, M.P., Dr. Resume, M.L.A., and Mayor Drake.

Mr. Harcourt spoke for about an hour, during which time he reviewed the field of literature and its relation to life. Books were an antidote to present day haste, inasmuch as they afforded opportunity for repose and converse with the great minds of the past. The speaker strongly emphasized the advantages of reading the thoughtful books of the past rather than those of the present, upon which less care and gray matter had been bestowed. Biography and history had a strong claim upon one's consideration.

The address was embellished by quotations from the world's best writers. Apropos of the subject of books, Mr. Harcourt warned his readers against the habit of skimming over books. A few well-read were far more wholesome than a score perused hastily.

Reference was made to the public library movement in this province, the libraries of which contained 1,100,000 volumes. Half of this number were to be found in private libraries. During the past ten years free libraries have been added to the province at the rate of one a month. The Minister of Education went on to state that it was his desire to have a library in connection with every school in Ontario.

He had asked the legislature to set apart $10 to each school for library purposes on condition that the Trustee Board would add as much more to it. During the first year after which the offer was made $6700 had been spent for books by the schools. In conclusion, Mr. Harcourt congratulated the architects, the Library Board and the citizens on the splendid building in which the library was housed.

ASSASSIN AT BRUSSELS.

Socialist Member Stabbed in the Back and Will Die.

Brussels, Oct. 16.—M. Peppin, a Socialist member of the Chamber of Deputies, was stabbed to-night at Mons, while walking on the street with some friends. There are slight hopes of his recovery. The assassin struck M. Peppin from behind and succeeded in making his escape.

LARGEST PHOTO ON EARTH.

Chicago, Oct. 16.—A photograph 8 feet high by 25 feet long has been finished in this city for use at Madison Square Garden, New York. The picture, which is said to be the largest photograph on record, shows Zion City, presenting every house, street and tree in the radius of two square miles. It required a specially constructed tower 161 feet high to take the photograph.
