THUNDER STORM IN CAPE BRETON—LOSS OF LIFE.—A correspondent of the *Recorder*, writing from Sydney, communicates the following particulars of a tremendous thunder storm which occurred in Cape Breton on Sunday night last:

"Sunday was delightfully fine, and the weather extremely warm. Towards evening the heavens became darkened, and gave appearance of a heavy storm brewing. At about 8 o'clock the storm commenced, and was without doubt the most frightful, but yet most grand, convulsion of the heavens I have ever witnessed, and which I hope never to behold again. The lightning flashed, the thunder roared continuously all night, presenting the idea of two mighty armies in deadly conflict. At intervals the entire heavens would be illuminated with the brilliancy of the lightning. Scarcely any rain fell. The fearful effects of the storm were felt throughout the whole island. At Cow Bay, Mrs. Quible, who had retired to rest, and her daughter who was standing by the bedside, no doubt fearfully alarmed at the violence of the storm, were struck by a thunder bolt and both killed instantly. The bodies were fearfully mutilated.

"At Mira, a man named Kenneth Morrison, who had also retired for the night, was instantly killed in the same way; his wife and child who were sleeping beside him were seriously injured. It is stated that a man was killed at Little Bras d'Or. The greatest consternation prevailed throughout the Island, a large number imagining that the last Great Day had arrived. Monday was very cold, and the sea running mountains high."

MONTREAL, July 8 — Great destruction to property is caused by fires raging in the woods between Montreal and Quebec.

On Sunday night about ten o'clock a serious accident occurred on the Grand Trunk Railway, about a mile west of Shannonville, by which nine freight cars were thrown from the track and seriously damaged. The accident was caused by a rail having been taken out, and from what has transpired there is too much reason to believe that it was wilfully done by some fiend, for what purpose, Heaven only knows. The rail was discovered about five feet from the track, and from the position in which it was found it was the opinion of those who were on the ground that it must have been removed by hand, as it could not have been displaced by a train passing over it. Immediately after the train was stopped, a man was found concealed in the long grass near the scene of the accident. He was taken into custody and brought before the Police Magistrate of this town, who after an examination remanded him until Saturday next. He gives his name as James Scott, and says he lives in Peterboro'. In accounting for his presence in the vicinity of the accident, it may be stated that his stories are very conflicting. The examination was postponed to enable the Company to procure witnesses, and to furnish the accused an opportunity of communicating with his relatives. If the supposition that the rail was displaced by hand is correct, it was evidently intended to throw off the Night Express going east, as that was the next train due, the train which was thrown off being an extra freight. We can hardly conceive of any man being guilty of such a fiendish crime as that of imperiling the lives of a hundred or more innocent people for the purpose of plunder, and circumstances are such that we can scarcely hope that the occurrence was merely accidental. —*Belleville Intelligencer.*

A company called the "Brunswick Gold Mining Company" has been formed in this city to operate at the Mount Uniacke Mines.

A melancholy accident occurred at Paynter's Vale, Bermuda, on the 17th ult. Two men of the Royal Engineers were employed in clearing a boring by repeating small charges of powder. One of the men was in the act of re-charging the hole when a can of powder, containing *over thirty pounds*, became ignited, it is supposed by a spark from the former load—blew the unfortunate man some fifty feet into the air, killing him instantaneously, mangling the body in a dreadful manner, and throwing his companion into the quarry. The latter is fearfully injured and, we understand, no hopes are entertained of his recovery.

The Bridgetown, Barbadoes, *West Indian*, of the 23rd ult. says: "The crop time has been remarkably favorable for reaping. Never, perhaps, before has so much sugar been got off the ground before the end of June, and that too with reaping commencing in March to be general."

Meetings are being held in Bermuda to make arrangements for securing steam communication with New York.

NEWFOUNDLAND.—The Newfoundland Government steamer *Ariel* arrived yesterday from St. John's. The following items are from the Harbor Grace *Standard*:

We learn by an arrival yesterday from the Labrador that the prospect of the fishery there up to the 1st of this month is anything but flattering. There was little or no fish and but few saltings taken owing to the large quantities of ice which lined the coast. Caplin had just made its appearance.

We also learn that a large amount of the past seasons' voyage, which was left here last fall in consequence of the heavy gale of wind, had been stolen during the winter, and that the brig *Trinity* belonging to Captain H. Thomey, had been burnt either by some residents on the Labrador or by parties who visited the place for the sake of plunder. Probably we shall soon hear who are the guilty parties, and sincerely hope that if captured they will be visited with the utmost rigor of the law, as a warning to all.

There has been a little improvement in the fishery in this Bay during the past week. The news from the South and Western parts of the Island still continue favorable, large quantities being taken daily.

United States.

NEW YORK, July 9.—The National Democratic Convention to-day, on the 22nd ballot, nominated Horatio Seymour, of New York, as the democratic candidate for the Presidential chair. After taking a recess, the Convention re-assembled, and nominated Frank P. Blair, jr., of Missouri, for the Vice Presidency. The greatest excitement and wildest enthusiasm prevailed both in convention and on the streets.

NEW YORK, July 9.—The interest in the Democratic Convention continues unabated. The various candidates have a great number of friends here, and the excitement is intense. It is impossible to say who will be the candidate, but Hancock's chances now look best.

SAN FRANCISCO, July 3.—Advices from Mazatlan to the 22d ult., state that great excitement prevailed there owing to the action of the commander of the British war steamer *Chanticleer*.

The authorities had arrested one of the officers of the steamer on a charge of smuggling specie aboard the vessel. The captain went ashore, and became so violent over the matter, that he was also arrested, and searched for specie. He then went aboard his vessel, and threatened to bombard the town, but was prevailed upon by the United States Consul and others to submit his alleged insult to the commander of the British squadron, and in the meantime the captain had declared the port blockaded to all Mexican vessels.

The United States Steamer *Swanee* had gone to Mazatlan to protect American interests. The United States steamer *Resaca* was at La Paz on the 21st. The captain of the British steamer subsequently demanded that the officer who had perpetrated the insult should be sent aboard his vessel, to be dealt with as he saw fit; but the Mexican General replied that he would sooner allow the town to be bombarded.

HAVANA, July 5.—The laying of the new cable has proved a partial failure.

Senor Paez, ex-President of Venezuela, arrived at St. Thomas on the 30th ult. on his way to Buenos Ayres, his future place of residence.

Floods have lately taken place in Jamaica which have been very destructive to roads, houses and crops, and several lives are reported to have been lost.

President Baez of St. Domingo has issued a proclamation declaring all persons who have left the country since his arrival outlaws. The leaders of the reaction at Puerto Plata are becoming bold, and the refugee adherents of Cabral are returning from their hiding places.

VIENNA, July 9.—Prime Minister Von Beust, has written a sharp note in reply to recent Allocution on the state of religion in Austria, and says the intermeddling with the domestic Legislation of Austria, is a violation of the independence and dignity of the empire.

NEW YORK July 11.—A grand ratification meeting of the Democrats, took place in Tammany Hall, last evening. Addresses were made by Seymour, Blair and others.

NEW YORK, July 13.—A letter from Shanghai, of May 26, states that the frigate *Shenandoah*, which had been on a cruise along the coast of Corea, in search of survivors of the American schr. *Gen. Sherman*, had ascertained the fact that the schooner had been attacked, had returned the fire, was then assailed and blown up, every one on board being killed.

SAN FRANCISCO, July 11.—Admiral Hastings, commanding the English squadron of the Pacific, disapproves of the proceeding of Commander Bridge, of the *Chanticler*, in the affair at Matatzlan, and has ordered him to re-open that port immediately, and proceed to Panama.

LONDON, July 9.—The *Daily News* has a very severe criticism upon Secretary Seward, in reference to his recent dispatch concerning the Fenians.

John Bright is on a visit to George Peabody at Dublin.

Political troubles of a serious nature have developed themselves in Spain. The Queen's brother-in-law has been discovered in an intrigue to obtain control of the Government.

LONDON, July 10 h.—The Irish Reform Bill was passed by the House of Lords last evening.

LONDON, July 8.—In the House of Lords last night, the Boundary Bill and the Scotch Reform Bills were read for the third time, and the Irish Reform bill was passed in committee.

AN EFFECTUAL WORM MEDICINE.

Brown's Vermifuge Comfits,

OR WORM LOZENGES. MUCH SICKNESS, undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worm, so hurtful to children.

Children having Worms require immediate attention, as neglect of the trouble often causes prolonged sickness.

Symptoms of Worms in Children are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making BROWN'S "VERMIFUGE COMFITS" is such as to give the best possible effect with safety.

A CYNICAL EXPRESSION.—Speaking of a widower who was about to marry, Dr. Johnson said it was a triumph of hope over experience." The triumph of Grace's Salve, however would have led Dr. Johnson, were he now living, to have extolled its virtues in a long dissertation. This Salve is an old remedy; and a few applications of it cure, to entire satisfaction.

A NEW AND GRAND EPOCH IN MEDICINE.

Dr. Maggiel is the founder of a new Medica System! The quantitarians, whose vast internal doses enfeeble the stomach, and paralyze the bowels, must give precedene to the man who restores health and appetite with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of wonderful and all-healing Salve.

These two great specifics of the Doctor are fast superceding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dose, and in which every box full taken creates an absolute necesity for another. One or two of Maggiuo. Pills suffices to place the bowels in perfect order tone the stomach, create an appetite, and render the spirits lights and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected its functions are restored and if the nervous system is feeble it is invigoratitg. This last quality makes the medicine very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfecting power of Maggiel's Salve. In fact, it is here announced that Eaggiel's Billious, Dyspetic and Diarrhœa Pille cure when all others fail. While for burns, scalds, Chilblains, Cuts, and all Abrasions of the skin, Maggiel's Salve is infallible. Sold by J. Haydock, 11 Pine street, New York, and all druggists, at 25 cents per box.

Among the many restoratives which nature has supplied to relieve the afflictions of humanity, there is no more favorite one for a certain class of diseases than the "medical gum" of the Wild Cherry Tree; but however valuable it is to heal, to soothe, to relieve and to cure, is enhanced tenfold by scientific and judicious combination with other ingredients, in themselves of equal worth. This happy mingling exists to a remarkable degree in

DR. WISTAR'S BALSAM OF WILD CHERRY,

whose value in curing Coughs, Colds, Bronchitis Whooping Cough, Croup, Asthma, Pulmonary Affection, and Incipient Consumption is inestimable.

FROM ALFRED HOOKER, ESQ., OF PRESCOTT, C.W.

"I with pleasure assert that WISTAR'S BALSAM OF WILD CHERRY is, in my belief, the best remedy before the public for Coughs and Pulmonary Complaints. Having tested the article with myself and family, in cases of severe Coughs and Colds, for years, with uniform and unexceptionable success, I unhesitatingly recommend it with full confidence in its merits."

FROM JOSEPH TANNER, ESQ., OF CORNWALL, C.W.

"Having experienced the beneficial results of DR. WISTAR'S BALSAM OF WILD CHERRY, in my own person and with other members of my family, in cases of severe Coughs and Colds, I unhesitatingly give you my testimony, believing it to be the remedy "par excellence" for all diseases of the throat and chest, and I would sincerely recommend it as such."

MOOSEWOOD BITTERS.

MILITARY NOTICE.

1.—The Secretary of State for war has decided that the indulgence under which the Wives of all Soldiers, serving in Canada, have hitherto been provided with Free Passage with their husbands, upon their embarkation for the United Kingdom, or for another Station, is to be restricted in future to the Wives and Families of Soldiers on the Married Establishment, as regulated by clause 50, of the Army Circulars of 1867, viz:—

"All Regimental Staff Sergeants,
3 out of 4 or 5 } Sergeants of each Troop, Battery or Company.
4 do 6 or 7
5 do 8 or 9
6 do 10 or upwards

Seven per cent of Trumpeters, Drummers and Rank and File, calculated upon the Establishment."

2.—In order, however to prevent the infliction of hardship, the Secretary of State has further been pleased to direct that the Wives and Families of all Soldiers who are not on the Married Establishment and who were actually serving in the Dominion of Canada on the 20th March, 1868, may, provided they were married prior to that date, be granted free passage to the United Kingdom, on the departure of the Soldier from Canada.

3.—The Lieut. General Commanding, desires to give this decision the greatest possible publicity, as it will very much increase the unavoidable distress already resulting in marriages in the Army without leave.

4.—No Soldier's wife, married without leave, after the 20th March 1868, can, under any circumstances, whatever, hope to be provided with a Passage when her husband leaves Canada, nor to derive any advantage arising from the service; nor if she should find her own way to the United Kingdom, can she establish and claim to maintenance there.

5.—The Lieutenant General takes this opportunity of pointing out that the Regulations for Married Soldiers (Clause 50, Army Circular, 1867) strictly limit the number allowed to each corps, and that no Commanding Officer, has the power under any circumstances of authorizing an excess of the Married Establishment so limited.

6.—The Lieut. General therefore repeats the warning that has been so often given against the wretchedness that must result from marrying a Soldier withous leave.

Cumberland Salt Works!

ON the great railway survey, in sixteen shares, the subscriber will offer for sale twelve shares in the Cumberland Salt Works, for the sum of $100 per share, if bargained for within 6 months. If any person will purchase one or more shares, and pay $25 per share over and above the purchase money, for the purpose of enlarging the work, I will take the management and profit of the work, and pay to each share seven per cent. on the money, for one or five years, if they are not satisfied. The object is to get a large work, as the demand is great and increasing, as its superior quality is made known; for the world cannot produce a better butter preserver. The inhabitants of Windsor, Horton, Annapolis, Pictou, Truro, and any other place where butter is manufactured, should take hold and help the enterprise. A sample of the Salt can be seen at the Halifax Reading Room, and at Hewson's Hotel, at River Philip. The above is a good speculation, as the railway is surveyed near to the work leading from Halifax to New Brunswick, and no doubt will be built some time in the next generation. Any persons wanting information can address the subscriber at River Philip. JAMES H. HEWSON.

MOOSEWOOD BITTERS.

Your Children will not suffer with Worms if you use

Woodill's Worm Lozenges!

THEY are perfectly safe. They act immediately without physic. They are palatable, and are eagerly taken by children, thereby possessing every advantage over the vermifuges now in use, which are so nauseous and troublesome to administer to children. They are warranted to contain nothing that would injure in the slightest degree the youngest or most delicate infant; so *simple is their composition*, that they can be used as a simple *purgative*, instead of *Castor Oil or Powders*, &c.

They are made with great care from the purest Medicines, and are especially recommended for their safe and speedy action, and

Freedom from all Mercurial Agents.

which so often prove injurious to children. They are prepared without regard to economy, and contain the purest and best vegetable Medicines known. Worms cause nearly all the ills that children are subject to, and the symptoms are too often mistaken for those of other complaints,—but with very little attention, the mother cannot mistake. Amongst the many symptoms of

WORMS IN CHILDREN

are the following; a pale and occasionally flushed countenance; dull heavy eyes; irritated swelled, and often bleeding nose; headache, slim and furred tongue, foul breath; variable, andsometimes almost voracious appetite; vomiting costiveness, uneasiness and disturbed sleep, and many others; but whenever the above are noticed in children the cause invariably is worms, and the remedy——WOODILL'S WORM LOZENGES.

A cure is certain in every case when a faithful trial is given.

Were it necessary certificates from prominent medical men could be published, and thousands from those who have used them personally We however prefer to offer them on their own merit, feeling confident that to those who use them they will give ent re satisfaction.

They can be had of most dealers in medicines throughout the provinces Should the one you deal with not have them, by sending one dollar to address as below, 5 boxes will be forwarded to any address, free of postage Made only by

PUBLIC BENEFACTRESS.

Mrs. S. A. Allen,

A LADY OF WORLDWIDE REPUTATION.

MRS. S. A. ALLEN'S

WORLD'S HAIR RESTORER is suited to both old and young. It strengthens the Hair, prevents it falling or turning grey, and imparts to it a beautiful glossy appearance. It never fails to RESTORE GREY HAIR

TO ITS ORIGINAL YOUTHFUL COLOR.

It is not a Dye, but acts directly upon the roots of the hair, giving them the natural nourishment required, producing the same vitality and luxurious quantity as in youth. It will restore it on bald places, requires no previous preparation of the hair and is easily applied by one's self. One bottle will usually last for a year, as after the hair is once restored, occasional applications once in three months will insure against grey hairs to the most advanced age.

MRS. S. A. ALLEN'S

WORLD'S Hair Dressing, or Zylobalsamum, is essential to use with the Restorer, but the Hair Dressing alone often restores, and never fails to invigorate, beautify and refresh the Hair, rendering it soft, silky and glossy, and delightful to remain in any desired position.

FOR LADIES AND CHILDREN.

whose hair requires frequent dressing, it has no equal. No lady's toilet is complete without it. The rich glossy appearance imparted is truly wonderful. It cleanses the hair, removes all dandruff and imparts to it a most delightful fragrance. It will prevent the hair from falling out, and is the most economical and valuable Hair Dressing known. Millions of bottles sold every year.

THE RESTORER REPRODUCES AND THE HAIR DRESSING CULTIVATES AND BEAUTIFIES.

Sold by all Druggists throughout the World.
