READ THIS.

Since the days of the harpsichord the piano has stood in innumerable homes, closed and mute, a silent witness to the lack of skilled hands to coax forth its melodies—a locked treasure chest to a multitude of music lovers. But at last a key to unlock its treasures has been found, —a wondrous piano-player that, with fingers almost human, plays any piano perfectly.

This device, the Chase & Baker Piano-Player, has a complete mastery over the piano, and plays any composition under the guiding hand of the operator with faultless accuracy. It is, in fact, a skilled musician without a soul, affording to anyone the power to render a piece with the precision of a practiced pianist. And the greater the operator's skill and taste, the more beautiful will be the interpretation.

The Chase & Baker Piano-Player is pre-eminently perfect in construction and in operation. It cannot play a false note, it never slurs, but plays always with absolute precision and certainty of rhythm.

FOR SALE ONLY AT
NORDHEIMER'S, 188 Dundas St.
62 Years Established.

Executor's Sale

Of Real Estate in the City of London

There will be offered for sale by public auction at the auction rooms of Mr. John W. Jones, auctioneer, 242 Dundas street, ni the City of London, on Thursday, the 27th day of November, 1902, at 2 p.m.:

1st.—Dwelling house, No. 371 Princess avenue, the lot having a frontage on the south side of Princess avenue of 42 feet, by a depth of 198 feet. There is erected on this property a two-story brick dwelling house.

2nd.—Store No. 489 Richmond street, having a frontage on the west side of Richmond street of about 20 feet, by a depth of 100 feet, together with a right of way in rear thereof. There is erected on the property a three-story brick store, occupied at present by J. H. Wilkins, tailor, and E. E. Smith, gents' furnisher.

3rd.—House No. 191 Bruce street, South London, being composed of the east half of lot No. 1 on the east side of Henry street, according to plan made by John H. Caddy for James Hamilton, and registered as Plan No. 1. On this property there is erected a brick cottage, frame stable and a driving shed.

4th.—Three vacant lots in Woodview Survey, South London, being lots Nos. 4 and 18 on the south side of Tecumseh avenue, Block "K," and lot No. 12 on the south side of Duchess avenue, Block "D." These lots contain one-half an acre each, and are good building lots, in a choice part of the survey.

5th.—Six acres of land in the Township of Westminster, being part of lot No. 25, in the first concession. This is a choice piece of land, a little south of the city limits, fronting on High street.

6th.—House No. 659 Marshall street, being lot No. 32, on the south side of Marshall street, according to registered Plan No. 229. On the premises are a good bakery and a frame cottage.

7th.—Lot No. 9, on the east side of Adelaide street, according to registered Plan of lot No.12, in concession "C" of the Township of London (now in the City of London), made by William McMillan, P.L.S., for the Rev. Benjamin Cronyn, containing one acre, more or less. Upon this property there is erected a frame building known as the Orange Hall.

For further particulars and conditions of sale apply to PURDOM & PURDOM, solicitors for executors, London, Ont., or to J. W. JONES, auctioneer, London. 42k-15,19,22,25

STUDENTS VS. POLICEMEN

Toronto Constables Must Pay Their Fines Themselves.

Wm. Stewart, Counterfeiter, Sent to Penitentiary for Four Years.

Toronto, Nov. 19.—At police headquarters it is said that the well-meant efforts of the 'Varsity medical students to shoulder the financial burden imposed upon Constables Ide, Ward and Guthrie for using their whips on Hallowe'en, will not be countenaced by the commissioners, even if the constables take kindly to the idea. The fining is a departmental matter. At the next meeting the commission will consider the appeal of the mounted men, that recent fining do not effect their good conduct pay and standing for promotion.

William Stewart, who pleaded guilty to issuing counterfeit Dominion Government $1 bills, and also to having in his possession tools for this purpose, was yesterday sentenced to two terms of four years in the penitentiary, the terms to run concurrently.

CRIMINAL CASES AT SARNIA.

Sarnia, Ont., Nov. 18.—George Bessey, George Fralick and Grant Vanvalkenburg, charged with bringing stolen goods into Canada, were committed for trial today by Police Magistrate Gorman.

Edward Oliver, the Hamilton man, convicted of stealing a horse and rig belonging to Charles McFee, was today sentenced by Judge McWatt to four months in the central prison at Toronto.

William Calvert, who was arrested in Hamilton a few weeks ago and brought to Sarnia to answer a charge of theft from a Port Huron resident, and for whose extradition, proceedings had been taken, was brought before Judge McWatt this afternoon; the case was dismissed, and extradition denied. Calvert left this evening for London.

THE KENT SHORTAGE.

Toronto, Nov. 19.—Mr. Laing, provincial auditor of municipal accounts, has returned from Chatham, where he was looking into the accounts of the county treasurer of Kent, who has recently gone away. The audit will take a couple of months to complete, and Mr. F. H. Macpherson, of Windsor, is going on with it. "How much is the shortage," Mr. Laing was asked, "$12,000, as stated?" "I would not be surprised if it was more than that," he said; "but, of course, we can't tell yet."

SUPREME COURT JUDGMENTS.

Ottawa, Nov. 19. — In the supreme court yesterday judgments were handed down in the Yukon appeals heard at the present term as follows: D'Angnon vs. Jones, dismissed with costs. The King vs. Chapelle, allowed. The King vs. Carmack and the King vs. Tweed allowed with costs, and the petition of right dismissed with costs. Sir Henry Strong, who was not on the bench today, concurred in these judgments.

A Pioneer Dead.

Stratford, Nov. 19. — John Fleischawer, sen., a pioneer of North Easthope, died on Monday at the home of his son in Nithburg, Perth County. He was born in Hesse, Darmstadt, in 1818, and came to Canada in 1843. His widow and eight children survive.

CARNEGIE GIVEN POISONED FOOD

Noted Capitalist Was Worse on Monday—Ailment Not of a Serious Nature.

London, Nov. 19.—The Carnegies were at Caux, Switzerland, when they were served with food which was in some way contaminated. The ill effects seemed to promise to pass off, and had done so in the cases of Mrs. Carnegie and her daughter by Sunday, when the party arrived in London. Mr. Carnegie, however, felt worse on Monday evening and summoned a physician, who assured him that the poisoning was not of a serious character, and that he would be up again in a day or two.

TO BUILD THIRTY LOCOMOTIVES.

The Messrs. Dubs, Glasgow engineers, have secured the contract for building 30 locomotives for the Japanese Government railways. The bidding was open to firms in the United States, Great Britain and Germany.

YERKES' TUBES.

Royal assent was given yesterday to all the bills relating to Charles T. Yerkes' "tube" railroad plans for London. The bills providing for the construction of the roads cover an aggregate of 100 miles of underground and surface tracks.

LABBY WON.

The libel suit of Mr. Cowen, secretary of a club, against Henry Labouchere, the editor, and Mr. Voules, the publisher, of Truth, after a trial which lasted eleven days, resulted in a verdict in favor of the defendants, and assessed costs on Mr. Cowen. Mr. Cowen was the organizer and secretary of the Article Club. Merchants could obtain membership in this club by paying a certain amount of money, and having their wares advertised in a paper called Commerce. Mr. Labouchere denounced the affair as a swindle. During the first trial of the suit, when the jury failed to reach an agreement, a member of a firm of china and glass manufacturers testified that Cowen told him that he could get contracts for furnishing supplies to the White House at Washington if he joined the club.

EARTHQUAKES IN MORMONLAND

Heavy Shocks in the Southern Part of Utah.

PANIC-STRICKEN CHILDREN HURT

Many Buildings Damaged, Chimneys Thrown Down and Springs Became Geysers.

Salt Lake, Utah, Nov. 19.—An earthquake shook the State of Utah shortly after noon on Monday, doing damage all over the state. The shocks were comparatively light in Salt Lake, but in the southern part of the state buildings were ruined and other serious damage done.

In St. George, a place of 3,000 inhabitants, in the southwestern part of the state, nine distinct shocks were felt, beginning at 12:47 o'clock and lasting until 1:30. The school building was shaken so violently that the ceilings were shattered. The falling plaster caused a panic and the children rushed from the building, the teachers losing all control.

Several children were hurt in the crush on the stairs, and one girl was carried out unconscious. Houses were shaken so badly that dishes were broken and pictures swung violently on the walls. Chimneys were demolished and several brick buildings were cracked. Clouds of dust rose from the mountains which could be seen to move. Rocks rolled down the hills, adding to the damage.

The tower of the Mormon temple in St. George, oscillated ten inches at its top, and the spire of the tabernacle was shaken out of perpendicular so that it may have to be taken down. The streets were filled with panic-stricken people all afternoon.

Reports from Santa Clara, near St. George, say that not a chimney was left standing.

The shocks seemed to travel from the southwest toward the northeast. In Pine Valley part of a large brick store building collapsed, while a brick dwelling was torn apart to such an extent that it is unsafe for occupation. A spring near the center of the town which always furnished a steady supply of cold water sprouted up like a geyser. First it rose only a dozen feet in the air. Then came another shock, and a hissing, steaming column of water rose to a height of fully 100 feet. After the shocks subsided the flow remained strong, although there was no more sprouting.

In Beaver County, where extensive copper, silver, gold and lead mines are situated, there was confusion in a number of mines. The miners underground left the shocks, and in several places loose rock began to fall. In Salt Lake the shocks were felt on the upper floors of the high buildings. In the office of the United States weather bureau on the top floor of the Dooly block, the clock was stopped by the stock.

AFGHAN AFFAIRS CREATING ALARM

The British Expedition Against Waziris Meets a Check—Details Suppressed.

London, Nov. 19.—The news of the British check in the Waziri country has created alarm here, as it is feared that the full details of the casualties are being withheld.

A dispatch from Peshawar, India, says: "The British expedition to put down the uprising of the Waziris tribesmen on the Afghan frontier is meeting with a determined opposition. Col. Tonnochy, in command of the fourth column, has been mortally wounded in an engagement with the insurgents, and Major Beresford, the next in command, has asked for reinforcements."

Madrid, Nov. 18.—The latest news from Tetuan, Morocco, is that the Sultan has ordered the Pasha not to engage in hostilities against the rebellious Kabyles, who recently attacked the inhabitants of Tetuan, after having plundered caravans, provided the rebels ceased blockading the roads, gave up the goods they had stolen, and liberated the prisoners.

Rats and Matches Cause Fire.

Woodstock, Nov. 18. — Word has reached the city of the total destruction by fire of D. C. Beattie's sawmill in Norwich Sunday night.

Windsor, Ont., Nov. 18. — Rats and parlor matches are supposed to have been the cause of a fire in the residence of W. Bradley about 10 o'clock last evening. Damage about $500 to house; covered by insurance, and $300 to furniture.

WHOLE ISLAND IN DANGER RANGE

Bad Outlook for Inhabitants of St. Vincent—Georgetown To Be Abandoned.

London, Nov. 19.—The Governor of the Windward Islands has sent a dispatch to Colonial Secretary Chamberlain, in which he says the prospects of the inhabitants of the Island of St. Vincent are blacker than they have ever been. He believes that Georgetown will have to be abandoned, while it is doubtful if any part of the island is out of range of danger of La Soufriere.

30,000 EARTHQUAKES IN A YEAR.

Prof. John Milne, the seismologist, in a paper on world-shaking earthquakes, read before the Royal Geographical Society Saturday, gave the latest information which science can furnish about the phenomena which, during the past year more than ever before, has occupied popular interest. It is now known that about 30,000 earthquakes occur annually. These are divided into two groups—continental, which usually disturb the whole globe, and local, which usually have a radius of only a few miles. The former are the result of sudden accelerations in the process of rock-folding. The latter are settlements and adjustments along lines of primary fractures. The relationship of the two groups is that of parents and children. Every large earthquake could probably be recorded with proper appliances anywhere on land on the surface of the globe. Important earthquakes seem to propagate a series of waves through the world in all directions. The first movement passes through the diameter of the earth in about 22 minutes, at an average velocity of about six miles a second. These movements are compressional in character. The second phase of the motion which forms the principal part of the seismogram is larger waves. Their average period varies from 15 to 30 seconds, but periods of 60 seconds have been observed.

HARDEST WINTER IN FIFTY YEARS

Snow in France, Frost in Austria and Germany, and Skating in Switzerland.

London, Nov. 19.—Severe cold weather is prevailing in Europe. There has been a heavy snowfall in Central and Southern France, and a cold storm has suddenly followed the summer-like weather on the Riviera. Bitter winds and frost prevail in Germany and Austria.

In Switzerland there is skating. Premature snows on the mountains have destroyed a number of cattle.

German meteorologists prophesy the hardest winter for half a century. A cutting east wind is blowing in Great Britain.

AUTO RECORD BROKEN.

Paris, Nov. 18.—On the Dourdan road yesterday, Augieres, driving a French motor car, covered a kilometer (sixty-two hundredths of a mile) in 29 seconds. This beats Fournier's record, made on Nov. 6, by one-fifth of a second. It represents a speed of 77 miles per hour.

Smallpox at Plantaganet.

Ottawa, Nov. 19. — Dr. Bryce, provincial health officer, was in the city last night on his way to Toronto from Prescott County. While there Dr. Bryce discovered that smallpox was very prevalent in Plantagenet Township. He was greatly surprised at not having been informed of it, and will send a man to look after the stamping out of the disease. Winter is approaching, and there is no disguising the fact that Ottawa City is menaced with smallpox from various quarters, although at present the city is free of it.

CHINESE REBELS ARE AGGRESSIVE

Shen Fu and Several District Cities Captured—Number of Officers Slain.

Victoria, B. C., Nov. 19.—Advices have been received from Canton to the effect that Kwang Si rebels have captured the prefectoral city of Shen Fu, and also several district cities in the same prefecture. A number of the officials of the captured cities either committed suicide or were killed by the rebels. It is said on good authority that the rebels recently received a large amount of provisions, rifles and ammunition, which caused the rebellion (dormant for some months) to be renewed.

Two battalions of troops raised in Hunan have reached Canton, en route to fight the rebels.

A Pekin correspondent of the North China Herald says the Chinese Government is secretly planning another upheaval. He points out that the Empress Dowager has received secret reports from all the viceroys regarding the number of soldiers and amount of war munitions that could be raised, and that instructions have been given to instruct the Manchus in the use of the rifle and the western drill.

PIRATES CAUSE UNEASINESS.

The frequent acts of piracy between Hong Kong and Canton are causing much uneasiness. Last Wednesday the constable of the British consulate was wounded while traveling in a junk to Hong Kong, and has since died from his injuries. It is desirable, the correspondent declares, for the British, by establishing a rigorous patrol of the delta, to restore security and prevent the French from assuming control of that region.

KENTUCKY MOB HANGED MURDERER

Execution of John Truck at the Albany Prison.

SLAYER OF JOHN COLE MUST DIE

Executive Refuses to Interfere in the Case of H. Rose, the Arrow Lake Murderer.

Nelson, B.C., Nov. 19.—Official word has been received from Ottawa that the law will take its course in the case of H. Rose, who murdered John Cole last June at Arrow Lake. Rose received the information without a word of comment. He has repeatedly declared, however, that he would never be hanged.

HANGED BY A MOB.

Elizabethtown, Ky., Nov. 19.—Harlan Buckles, who was sentenced to life imprisonment for the murder of Robert L. Reid, was hanged by a mob shortly after 2 o'clock yesterday morning.

The mob included from 50 to 75 men, some of whom are supposed to have come from Larne County. On account of their number, they had little difficulty in getting Buckles from the jail. He was taken to the court house yard and hanged to a tree, after which the mob dispersed. Reid was deputy marshal here at the time he was killed.

IN THE DEATH CHAIR.

Auburn, N. Y., Nov. 19.—John Truck was put to death in the electric chair in the state prison here yesterday.

Truck's crime was committed in the town of Virgil, Cortland County, on the night of March 14, 1899. Neighbors discovered the house of Frank W. Miller, who lived alone, in flames. Before the burning dwelling had been entirely consumed they made out the body of a man in the ruins. Water was thrown upon the body to prevent cremation, and it was afterwards identified as Miller's. The autopsy showed that death had occurred before fire had touched the body, the skull having been crushed by a blunt instrument. It was known that Truck had spent the night before with Miller, and had been in the neighborhood for several days. The next day Miller's wagon was discovered in Truck's barn in Homer, and when arrested Truck was wearing Miller's clothes, and had his watch and horse and wagon. He claimed to have bought the latter, but told several conflicting stories. He was convicted and sentenced to the chair.

Sugar From Wallaceburg.

Toronto, Nov. 19.—Mr. D. A. Gordon, president of the Wallaceburg Sugar Company, brought to Premier Ross yesterday a sample of granulated sugar which had been turned out from this new beet-sugar plant. Mr. Gordon says his company began barreling granulated beet-sugar on Nov. 3. Their plant, he says, has operated perfectly from the first. The percentage of sugar in the beets is very high, averaging about 13.6 so far, though some have gone to 15 and 16, and he thinks the average at the end of the season will be up to 14. The longer the beets lie in the ground, he says, the more sugar do they accumulate. Mr. Gordon stated that the Dresden sugar factory had also started.

Bailey's Rubber Massage Roller

Makes, keeps and restores beauty in nature's own way.

The cup-shaped teeth have a suction effect on the skin that smoothes out wrinkles, rounds out the beauty muscles and gives perfect circulation of the blood.

It is so constructed that it treats every portion of the face and neck perfectly, even in the "crows' feet" in the corners of the eyes.

A jar of Skin Food given with every roller. Price, 50 cents. For sale by

CAIRNCROSS & LAWRENCE,
Chemists and Perfumers,
216 Dundas St., London. Corner Park Ave.

REV. DR. PARKER ON HIS DEATHBED

Sent a Farewell Message to His Church Sunday.

MR. CARNEGIE IS RECOVERING

Another Daughter Born to the King and Queen of Italy—Immense Oil Fire.

London, Nov. 19.—The condition of Rev. Dr. Joseph Parker, minister of the City Temple, is now considered hopeless. Dropsy set in Friday, since when oxygen has been administered to him. Dr. Parker himself wrote a bulletin, which was read in the City Temple Sunday, remarking that it was the last thing he would ever write.

MR. CARNEGIE DOING WELL.

London, Nov. 19.—Andrew Carnegie, who was affected by something he ate while on the continent, is rapidly recovering. The doctor says there is no cause whatever for anxiety, and that he only needs a few days' rest.

GREAT OIL BLAZE.

Odessa, Russia, Nov. 19.—Nearly 3,000,000 gallons of petroleum stored in reservoirs on the outskirts of this city have been destroyed by fire.

ANOTHER PRINCESS.

Rome, Nov. 19.—Queen Helena was accouched of a daughter this morning. The mother and child are announced to be doing well. The new princess will be named Mafalda.

The child born to the King and Queen of Italy today is the second daughter, the first, Princess Yolande Margherita, having been born at Rome on June 1, 1901. Had a male child and heir to the throne been born he would have been proclaimed Prince of Rome.

The incident occurred a month earlier than expected. The King yesterday was shooting on the Island of Monte Christo, when he was suddenly summoned home. He immediately boarded a yacht and was landed on the beach in the neighborhood of Rome. As there were no debarkation conveniences his majesty's companions had him carried ashore on the backs of sailors. A motor car was in waiting and the King soon reached the palace.

The birth of another princess instead of an heir to the throne is a great public disappointment.

HAS SLEPT 23 DAYS

Servant Girl Blew Out the Gas—Parallel Case to Nellie Corcoran's.

New York, Nov. 19.—Dila Milligan, who came from Ireland in October and secured work as a servant here, has lain in a state of coma at the J. Wood Wright Hospital for the past 23 days. Her case is almost as puzzling and interesting to the doctors as that of Nellie Corcoran, who died after her three weeks' trance in St. Vincent's Hospital.

Only twice in the whole period has the girl spoken, and then it was to mutter a few words, which showed that she was delirious. The girl was taken to the hospital suffering from partial asphyxiation, due to blowing out the gas. The usual means of resuscitation were used. The only effect was to restore the patient's appetite. Her pulse and temperature became normal. The state of coma has, however, resisted the doctors' best efforts, and they have given up hope of restoring her to consciousness.

Brooklyn Eagle's New Nest.

New York, Nov. 19.—The cornerstone of the new nine-story building of the Brooklyn Daily Eagle was laid today. It adjoins the present home of the Eagle, and adds more than double the space of the present building. When completed it will give to the Eagle one of the largest newspaper plants in the country.

Three Pink Candles

in an oxidized wrought iron candlestick, 9 inches high, is one of the many artistic and inexpensive Christmas gifts we are showing.

Two dollars is the price. We have many other styles in iron, porcelain, bronze and silverplate. All are examples of good taste and good value in their class.
