THE GERMAN NAVY.

A Wonderfully Developed Body—The Kaiser Anxious for a Rapprochement with Bismarck.

BERLIN, Sept. 6.—Emperor William, Gen. von Moltke, Gen. von Goetz, Count von Waldersee, Archduke Stephen and Admiral Herneck of the Austrian navy to-day watched on board the flagship Baden the maneuvres of the fleet in the Flensburger fiord. Sealed orders given to Admiral Dernhardt outlined the plan of the enemy's fleet. The approach of the attacking squadron was to be through the Great Belt, and the German admiral had to attack the enemy and keep him from entering the fiord. The Austrian fleet witnessed the manœuvres. The opinions of experts, both British and Austrian, concur as to the admirable condition of the German fleet and the wonderful developments of the navy which, although the creation of a recent period, is as perfectly organized as any in the world. Public interest in the manœuvres is slight, but the Emperor has kept attention centered upon his movements by suggestive utterances at official banquets, obviously aiming to proclaim his steadfast adhesion to the Austrian alliance. He seized the occasion of a dinner given at Gravenstein yesterday to the Schleswig authorities to refer to this presence of the Austrain fleet as proof of the intimate friendship and the brotherhood existing between the arms of Germany and Austria. At the Flensberg dinner his words were: "We stand here upon historic soil, whereon our arms united with Austria have gloriously gained blood-stained laurels."

The Reichsanzeiger to-night publishes an official version of the speeches which is calculated to soothe the Austrian jealousies arising over the Peterhof interviews and to prepare the way for conferences with Emperor Francis Joseph during the manœuvres in Silesia.

Emperor William will return to Potsdam at 6 o'clock Wednesday morning. He will remain only two hours with his family and will then start for Breslau to attend the manœuvres there. He will meet Emperor Francis Joseph on Sunday. The interview between Chancellor von Caprivi and Count Kalnoky has been fixed for Sept. 15.

Government circles are agitated over the new project for the reform of the Herrenhaus initiated by the Emperor under the instigation of Herr Miguel. It is the intention of the Government to so reorganize the Herrenhaus as to destroy the Conservative majority in that house hostile to the social reforms proposed by His Majesty.

Bismarck to be Appeased.

Prince Bismarck and the Princess left Homberg to-night on their way to pay a visit to Frau Arnim, the ex-Chancellor's sister, at Krochlendorff. The Prince's stay at Homberg has been one prolonged ovation. A crowd gathered at the station to witness his departure and bade him a hearty farewell.

Last evening local societies held a torch-light procession in Bismarck's honor and the Prince afterwards attended a fete at the Kurgarten and mixed freely with the visitors. During the evening he made a brief speech, concluding by proposing cheers for the Emperor. At the conclusion of his visit to his sister the ex-Chancellor will proceed to Varzin.

Count Herbert Bismarck had a secret meeting with Emperor William at Potsdam just before the Emperor started for Kiel. Count Herbert promised to urge his influence with his father to induce him to cease his revelations and to return to friendly relations with His Majesty. The Emperor declared his readiness to resume friendly intercourse with the ex-Chancellor, but a meeting between the two was postponed until the Emperor's return from Silesia. The Prince, during his stay at Kissingen, often associated with the Duke of Edinburgh, whose admiration went to the length of begging as a present the pipe which Bismarck was accustomed to smoke.

The Socialists.

Herr Herfurth, Minister of the Interior, has issued a circular advising the local authorities to increase the police watch upon the Socialists after the expiration of the anti-Socialist law. This has produced the impression that the Government looks for an outbreak of disorders. Several municipal councils have ignored the circular and some have openly refused to admit the necessity for such measures.

The extremists among the Socialists have gained an accession of strength through the partial adhesion of Herr Vollmar. At their meetings in Berlin they eagerly discuss his proposal that the coming congress shall declare that theological ideas have no place in socialism. The moderates, on the other hand, conscious that a formal declaration against religion will alienate the popular sympathies, persist in excluding the question of religion from the program of the congress.

A LOUISVILLE RIOT.

Railway Track Layers Assaulted by a Mob of Factorymen.

LOUISVILLE, Sept. 6.—Workmen employed by the Louisville & Jeffersonville Bridge Company in laying tracks supposed to be for the use of the Big Four Railroad over the right of way owned by the bridge company in this city, were assaulted last night by a mob of workmen employed at the Denis Long pipe works, who believed the tracks would be laid across Long's property. A desperate fight ensued and a number of the participants were injured, one of them named John Kelly being fatally hurt. A large force of police finally quelled the riot and the track laying was resumed. The Vanderbilt lines will be extended to this city upon the completion of the new bridge.

SWEENEY'S DAY OFF.

A New York Cop Runs Amuck in a Crowded Street.

NEW YORK, Sept. 6.—Bleecker-street was crowded with pedestrians at 1 p.m. to-day when Policeman Edward J. Sweeney, crazy drunk, ran out of the barroom of the Madeira House and sent five bullets in succession into the throng of people. People fled in all directions. D. J. Raugin rushed out of his house at the first shot and was stretched on the sidewalk with a bullet in his side. He was taken to the hospital. A policeman ran up and Sweeney turning hastily to flee collided with the officer. The latter fell and broke his leg and was taken to the hospital. It was Sweeney's day off.

At the Police Court.

William McCullough was fined $2 for acting disorderly at the Toronto Opera House at the Police Court Saturday. Subsequently a spectator told the court that the prosecutor, Theatre Policeman Gordon, had kicked McCullough in the ribs when he was down. The fine was erased and the alleged assault will be investigated. James Armstrong, a professional mendicant from Detroit, was ordered to be locked up until after the fair. Mary E. Bryant was awarded 10 days for the larceny of a shawl.

She Hailed from Pittsburg.

Hugh Kenny, 313 Sumach-street, met on Saturday night in King-street east a woman calling herself Elizabeth Clarke of Pittsburg. Together they visited the Model Lodging House, and when they separated Kenny found that he had been relieved of $5. He complained to the police, and in consequence the lady from Pittsburg was arrested on a charge of larceny.

Fagged Out.—None but those who have become fagged out know what a depressed, miserable feeling it is. All strength is gone, and despondency has taken hold of the sufferers. They feel as though there is nothing to live for. There, however, is a cure—one box of Parmelee's Vegetable Pills will do wonders in restoring health and strength. Mandrake and Dandelion are two of the articles entering into the composition of Parmelee's Pills.

More Tunnels.

MONTREAL, Sept. 7.—The C.P.R. authorities, not to be behind the Grand Trunk, will soon have a tunnel under either the Detroit or the St. Clair rivers. It is also understood that Mr. Hickson intends to recommend the immediate construction of a second Grand Trunk tunnel under the St. Clair.

Fever and Ague and Bilious Derangements are positively cured by the use of Parmelee's Pills. They not only cleanse the stomach and bowels from all bilious matter, but they open the excretory vessels, causing them to pour copious effusions from the blood into the bowels, after which the corrupted mass is thrown out by the natural passage of the body. They are used as a general family medicine with the best results.

THE C.P.R. AND THE ESPLANADE.

Trying to Put the Company in a False Light as to Its Actual Needs.

Editor World: There seems to be a good deal of misapprehension in the minds of many on some points involved in this question. The public have been led to believe that the railway company were trying to monopolize the water front, whereas the site which they have selected, namely between Yonge and York-streets, measures, exclusive of cross-street intersections, about 1388 feet, while the total water front from Dufferin-street to the Don railway bridge measures, exclusive of the cross-street intersections, 20,000 feet. So that the portion taken by the C.P.R. cannot be said to be a monopoly of the whole.

The railway people were charged by their opponents with the design of cutting off the citizens from access to the water front, and in their replying: "Oh! no; we are going to build a fine promenade and docks for the lake steamers and pleasure boats outside of the new esplanade," they were answered: "No, you cannot; your charter does not allow you to go into the wharfage business." I would like to know, sir, what access the public had to the water when Myles, J. B. Smith, Hay & Co. and other city tenants fenced in these very lots for their coal and lumber yards and factories?

The City Council at first were in favor of this site and allowed the railway company to go on at great expense and buy up certain freeholds and the leasehold interests of about a dozen city tenants, the city in every case giving its formal consent, by deed, to the transfer of the leases to the railway company. The tumble down buildings of the former occupants were an eye-sore along this portion of the water front, but now they are swept away, the cribbing has been put down and the waste water is being filled up, and if the railway company are allowed to complete their station a vast improvement will soon be apparent to all. We want the railway works to go on as quickly as possible so that we may get the benefit of the increased facilities for business which will follow the erection of a great railway station on this site. It should have been in operation by this time. It would look as if some enemies of the city and the railway were purposely thwarting every effort of the company to do business in Toronto. What encouragement is there for other railways to seek an entrance into the city when every difficulty appears to be thrown in the way of those who do? PROGRESS.

A $20,000 SITE.

That's Where the Council Propose to Build a Dog Pound.

Mr. Thomas Flynn has applied for an injunction against the city in respect to the dog pound being located in King-street near Fraser-avenue, opposite the Mercer Reformatory, just west of the King-street subway. The city removed the pound from its former site between Wellington-avenue and Garrison Creek, at the city stables, on account of the noise and continued nuisance it was to the neighbors and the locality. Instead of removing it to a more remote locality they have, it is alleged, placed it on property worth over $100 per foot. They have made arrangements to lease the property to the Humane Society at a nominal rent. The property the pound is located on is worth $15,000 to $20,000. The adjacent property is worth a quarter of a million dollars, and this will, it is alleged, be depreciated to the extent of 15 to 20 per cent. if the pound be allowed to remain. It will be an eyesore to the large number of people who will travel through the new subway.

There is the greatest surprise at the action of the council. A five-acre lot, three miles from the city, could have been purchased for $1000 which would have answered every purpose without erecting a nuisance on valuable property in a rapidly improving neighborhood.

WATCH AND CLOTHES CLUBS.

Morality Inspector Archabold Summonses a Number of Merchants.

Morality Inspector Archabold on Saturday summoned several city merchants to appear in the Police Court this morning for alleged breach of the lottery act in disposing of their wares through the medium of "clubs." The scheme is to form a body of say sixty young men, and each pays $1 a week to the merchant for a specified time. Each week they all draw and the one drawing the lucky number gets whatever has been arranged for. The merchants summoned on Saturday were Henry A. Giles, jeweler, 440 Queen-street west; Francis Werster, jeweler, 770 Queen-street west; William Myers, tailor, Berkeley and Queen-streets; Vise Bros., tailors, 326 Queen-street east; M. McVeain, Queen-street east; Porter & Brockwell, tailors, Queen-street east; Charles McMahon, tailor, 422 Queen-street west. The two first disposed of watches after the club fashion and the remainder suits of clothes. The warrants charge them with unlawfully entering into a contract for the disposal of personal property by a mode of chance.

The City Travelers Choose Their Officers.

The City Travelers Association of Toronto held their first regular meeting in Shaftesbury Hall Saturday afternoon. A large number of members were enrolled representing the different branches of the wholesale trade. These officers were chosen:

President—R. Maxwell (by acclamation).
Vice-Presidents—M. C. Lynde, W. Sloan.
Secretary—J. Owen (by acclamation.)
Treasurer—A. M. Piper.
Directors—F. Gallow, F. McDonald, S. Hustwitt, J. A. Mills, J. Mortimer, B. McCan, A. McBean, R. J. Woods, A. H. Lawson, A. A. Graham, F. Blackburn, C. J. Graham.

A committee was appointed to draft a constitution and by-laws. The next meeting will be Sept. 20.

A Child Assaulter Lashed.

William J. McLeod, who indecently assaulted Ellen Porter, the 7-year-old daughter of his landlady, at Hanlan's Point on Aug. 24, received the first half of his sentence of 40 lashes at the Central Prison Saturday. The prisoner, who was strapped to a triangle in the northern corridor, cried for mercy from the outset, but the stalwart guard who wielded the cat laid on with a will and McLeod's back was badly scarified. He will receive the balance of his punishment three months prior to his release. McLeod recently served six months for participating in the Baltic outrage at Owen Sound, when a young sailor was falsely accused of a terrible charge and otherwise persecuted until he jumped off the vessel and was drowned.

A Baker's Close Call.

Alexander Lumsden, baker for Mrs. Durnan at Hanlan's Point, had a close call from drowning yesterday morning. He crossed over to the city late on Saturday night for his laundry and remained somewhat later than he intended. It was about 3 o'clock when he started in a skiff for the Island from the foot of York-street. He thinks he collided with a passing steamer, for the first thing he remembers is his being in the water clinging to the upturned boat and shouting for help for dear life. It was fully twenty minutes, according to his reckoning, before assistance arrived, which it did from one of the yachts moored at the foot of York-street. He was almost insensible when rescued.

No one need fear cholera or any summer complaint if they have a bottle of Dr. J. D. Kellogg's Dysentery Cordial ready for use. It corrects all looseness of the bowels promptly and causes a healthy and natural action. This is a medicine adapted for the young and old, rich and poor, and is rapidly becoming the most popular medicine for cholera, dysentery, etc., in the market.

Forest Took a Tumble.

Harry Levy of No. 20 Widmer-street got into an altercation yesterday morning in York-street with another lad named Harry Dromond. He knocked him down and was kicking him in the latest approved style when Policeman Forest made a dash for him. Levy took to flight and in the pursuit Forest fell, cutting his right knee badly and receiving other injuries. He picked himself up and, renewing the chase, caught Levy in Pearl-street. Levy is at Headquarters.

If you feel languid and bilious try Northrop & Lyman's Vegetable Discovery and you will find it one of the best preparations for such complaints. Mr. S. B. Maginn, Ethel, used Northrop & Lyman's Vegetable Discovery and cured a severe bilious sick headache which troubled him for a long time.

IT WAS THE NIGHT SOIL.

And Not the Break in the Conduit Which Spoilt the Water, Says Superintendent Hamilton.

The following remarks touching the Toronto water supply and the trunk sewer scheme form part of Superintendent Hamilton's report to be presented to-day to the Waterworks Committee:

"In reference to the water supply of the city of Toronto I beg to say that in view of the facts that have lately taken place it behooves the representatives of the city to study very carefully the scheme for the disposal of the sewage submitted lately. If the action of the contractor for the removal of night soil has caused such a difference in the purity of the water supplied by the city, how much more will it do so if the whole sewage of the city is deposited by trunk sewers to the east and west ends of the city on each side of the intake?

"The break in the conduit pipe happened on Friday, Aug. 1, and was repaired on Sunday morning, Aug. 3. On Aug. 9, Prof. Heys reports to the Board of Health that the water is first-class, this is six days after the pipe had been repaired. On Aug. 23 Prof. Heys reports the water impure, organic impurity .56. On Aug. 25 he makes a similar report and on Aug. 27 Prof. Heys reports samples as follows:

	Conduit Pipe.	Bell Buoy.	Engine Ho. well.
Organic impurity....	.63	.43	.45

showing the water in the lake and well about the same. Since that time we have had the water analyzed by Prof. Ellis the result of which shows the water is improving.

"On Sept. 1 Prof. Ellis reported that the water at the intake crib and pumping well was almost identical, being .31 and .29 respectively with respect to organic impurity; and the sample taken from his laboratory .16. On Sept. 5 a report from Prof. Ellis states, upon a sample taken about 500 feet outside the bell buoy, that the water is first-class, possessing .24 of organic impurity, showing clearly in my mind that the action of the excavator in dumping night soil into the lake had something to do with the impurity of the water."

RING DOWN THE CURTAIN.

The Fun at Hanlan's Point Closed for the Season.

This week will see the end of the Island pleasures, that is so far as Hanlan's Point is concerned. The Grenadiers' Band discoursed sweet music on Saturday night. It was the close of the musical program for the year. The carousal hurdy-gurdy tooted its last jingle-jangle at 10 o'clock, and last night the horses, tigers, camels and elephants which have done such yeoman service in the past were lying in the cage preparatory to being transferred to the Exhibition grounds. The big hotel is deserted and all the fakirs all gone. Of all the multitude of tents there are scarcely five standing and these will be struck to-day.

An Island frequenter who has watched the course of business pretty closely during the season whispered his impressions to The World last night, that the Dotys, Mrs. Durnan and Carousal William Davis had all made money, but that John Hanlan in leasing the big hotel had made quite a contract on his hands. As for the ferry company he opined that it had been the best season on record.

The Toronto Ferry Company has withdrawn most of its boats to put them on the exhibition route. The Mascotte will control the Yonge-street business to Centre Island, the John Hanlan will ply from Yonge to the Point and the Luella from York to the Point. There will be no boat running from Brock-street. The Mayflower, Primrose, Sadie and Canadian will do exhibition business from York and Yonge-streets.

WATER AND COAL CONSUMPTION.

Superintendent Hamilton Makes His Departmental Report.

The Waterworks Committee holds its regular meeting this afternoon, when Superintendent Hamilton will present his regular report of the department. According to its figures for the three weeks ending Aug. 30, there were pumped 391,865,700 gals. of water at the main station; coal consumed 818 tons. The high level station for the same period shows a record of 18,533,991 gals. and 21.1950 tons; St. Alban's Ward, 19,241,424 gals. and 72.725 tons. The average pressure at the main station was 95 pounds, at the high level 65 pounds, and at the St. Alban's Ward 99 pounds. There have been 1625 services put in up to date this year.

Last Saturday night saw 1000 feet of the new five-foot conduit pipe laid southerly from Hanlan's Point to the island shore.

New mains are required for College-street, Spadina-road, Withrow-avenue, Hastings-avenue, Shaw-street, Sully-crescent, Sully-street, Eastern-avenue, Cyprus-street, Maystreet, Wallace-avenue, Bernard-avenue, St. George-street in two places. Work on the extension out into the lake has been suspended for the present on account of the stormy weather. The charge made by Ald. Maughan that a meter belonging to the department had been loaned to West Toronto Junction is denied as having no foundation in fact. The superintendent will clean out Rose Hill reservoir as soon as the exhibition closes.

The balance to the credit of the department for the current year is $49,997.

HE SITS ON THE SCHEME.

Superintendent Hamilton and a Waterworks Doctor.

Following is a clause in Waterworks Superintendent Hamilton's report, to be handed to the committee to-day:

In reply to the resolution of Ald. Gowanlock, in reference to the appointment of a permanent medical man who alone could give certificate of ill-health, I beg to say that the appointing of such a person would be an unnecessary tax on most of the employes of this department, as they belong to some organization who have appointed a doctor for their particular lodge or order, and I understand they get the certificate in that case free. I introduced this system some time ago as a guarantee that the man so reported was really sick, and would not pay him unless he produced a certificate, so that although we have had a few serious cases of sickness the majority are trifling and nearly always at work again long before the certificate is read at the meeting. I therefore think it would be hardly worth while to appoint one doctor for this purpose.

Equal to Her Sister.

The palace ferry steamer Primrose, sister to the Mayflower, went out on her trial trip yesterday. She was in charge of Captain Tom Jackman, whose place as skipper on the John Hanlan has been taken by Mate Sam McQuaig. She left the foot of Bathurst-street and steamed out into the lake to the Dufferin-street wharf. Returning through the western channel she made Hanlan's Point in gallant shape. Like her sister her capacity is 1000 and it will be raised to 1200 next season. The Doty Brothers were on board and were thoroughly satisfied with her work.

Four Little Boys From Schools.

Four little boys whom the police claim to be able to prove were participators in the school row of Thursday last will appear in the Police Court this morning to answer a charge of disorderly conduct. They are William Rogers, aged 12, 182 Centre-street; Robert Forsythe, 11, 264 Simcoe-street; Fred Charlton, 12, 248 Simcoe-street; Harry Bennett, 9, 176 Centre-street.

Nearly all infants are more or less subject to diarrhœa and such complaints while teething, and as this period of their lives is the most critical, mothers should not be without a bottle of Dr. J. D. Kellogg's Dysentery Cordial. This medicine is a specific for such complaints and is highly spoken of by those who have used it. The proprietors claim it will cure any case of cholera or summer complaint.

City Hall Small Talk.

The crematory sub-committee, the public lighting sub-committee, the Joint Esplanade Committee, the Waterworks Committee and the Council are called for to-day.

Sixty marriages, 127 births, 90 deaths were registered last week.

Eighty-one cases typhoid fever, 5 diphtheria, 5 of scarlet fever were reported at the Health Office last week.

The water in the reservoir yesterday stood at 10 feet.

O. E. Comstock, Caledonia, Minn., writes: "I was suffering the most excruciating pain from inflammatory rheumatism. One application of *Dr. Thomas' Eclectric Oil* afforded almost instant relief, and two bottles effected a permanent cure.'

Broker Baxter Sues For Libel.

MONTREAL, Sept. 7.—Broker James Baxter is suing The Shareholder for $25,000 damages for statements made in connection with the Central Bank failure.

CHAS. S. BOTSFORD

524 and 526 Queen-street west

We give you credit for knowing everything worth knowing in Dress Goods. Then come here and examine every new weave and quality and figure on the advantages to you by buying in such a store as ours.

A leading Dry Goods Man has signed his name to the great truth that "when you get to a buyer who is big enough to go to the makers and buy in biggish lots you reach the widest assortments with prices pressed down to the lowest notch." We would add that a greater advantage is gained by going to the manufacturer in person as we do, and not by proxy as most every other store does.

The stock for this season is all personally chosen and the challenge isn't too loud that the goods are the best you can buy.

Among the newest are the finest weaves of Silks and Satins, which the most famed makers of the world have turned out. Here's an idea of prices, but the stock should be seen to make you understand its full value thoroughly.

China Silks, all shades, 25c a yard.
Surah Silks, all shades, 45c, 65c and 75c a yard.
Silk Faille, the leading dress silks shown, makes the most durable dress you can buy, has a fine cord finish and the general appearance of Ottoman, but is softer, more durable and will not cut nor bag, glossy, 90c and $1 a yard.
Velvets, Velveteens and Silk Velvets. The heavy demand for such goods has induced us to make extra heavy importations to meet it. The qualities and colorings are the finest to be had and prices range 25c, 37½c, to 50c and 75c a yard. See them. Send for samples.

Every lady should know that our Dress and Mantle Making Department has the name of turning out none but the finest work and gives a guarantee to everything.

CHAS. S. BOTSFORD, TORONTO

The Carpenter and Lumber Dealer.

Editor World: The meeting of the Public School Board on Thursday night revealed a little game too palpable to pass unnoticed by the public eye. The question is, why did Trustee Wilcox offer himself as bond for Elliott for carpenter work? Is not Mr. Elliott a carpenter and Mr. Wilcox a lumber dealer? No doubt Mr. Hastings and other trustees smelt a rat and ignored the little transaction. CITIZEN.

Master Coliner and the Cat.

Michael Coliner, a half-grown lad residing at 111 Richmond-street west, was having great fun on that thoroughfare yesterday afternoon worrying an unfortunate stray cat with his bull-terrier. When the cat was about torn to pieces Inspector Johnston happened along and arrested Coliner on a charge of cruelty to animals.

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK HEADACHE

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD ACHE

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold by druggists everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

BUSINESS CARDS.

A. C. NEFF, CHARTERED ACCOUNTANT, Assignee, Auditor, Adjuster, 60 Yonge-st. Toronto. ed
