ELLISON'S
DAGURREOTYPE, AMBROTYPE,
AND
CHRYSTOLOTYPE ROOMS.
Barlow's Corner, King's Street.

THE Proprietor would most respectfully select a call from the Ladies and Gentlemen of this City, to his Rooms, and examine the beautiful and excellent specimens of these new style of PICTURES, called the AMBROTYPES. This new method of taking pictures resembles a *Mezzotint*, and has a life-like roundness and softness, which is not attainable in a Daguerrotype; and being taken on Glass instead of a metallic surface, is not subject to change or corrode. A further advantage it has, is that the face of the setter is not reversed, nor is the view of the picture affected by the position in which it receives the light.—Whoever wants a bold life-like LIKENESS, with none of that inanimate chalky flatness so inseparable from a Daguerreotype, and to all respect far superior, would do well to visit my Rooms, (as I am the only Artist who can take Ambrotypes in this City.) THOS. H. ELLISON.

NOTICE.

THE Subscriber has recently erected and put in operation a Steam Mill for the manufacture of CHOCOLATE, BROMA, and other COCOA preparations, and he assures the public that the character of the various productions from the Cocoa which have borne his name for the last ten years will be fully sustained. To the list of the preparations heretofore made by him, he has added Soluble Cocoa; an article, which from its agreeable and nutritious qualities, the facility with which it may be prepared, and its cheapness, will, he flatters himself on trial, recommend itself to consumers.

Purchasers of any of the preparations bearing his own brand or label may confidently rely on their being fully equal in quality to similar articles either of English or America manufacture; and if found unequal to the recommendation may be returned to his agents or himself, who will refund the money.

Saint John Duagerreotyp Rooms.
BARLOW'S CORNER, KING STREET.
NEW AND VALUABLE IMPROVEMENTS IN PHOTOGRAPHIC PICTURES.
Likenesses taken on Glass.

THE Proprietors of the ST. JOHN DUAGERREOTYPE ROOMS, would respectfully intimate to the public, that being desirous of availing himself with the latest improvements in the *Art*, he has at a great expense, procured the services of an Artist from Boston, who has been in the employ of the inventor of the Photographic system; and is now prepared to make these beautiful and never changing Pictures at his Rooms, *Barlow's Corner, King Street.*
The Photographic or Ambotype is taken upon plate glass, over which is placed a corresponding glass, the two being united by an indestructable gum, enabling the Likeness to retain its brilliancy for ages, it will not corrode at sea, or change in any climate; is beautiful in tone, bold and clear in effect, and can be seen in any light. Pictures can be taken by this process of any size, and are well adapted to set in frames, thus combining the useful and ornamental.
The Ambotype is universally admired by all who see it, and is rapidly taking the place of the Duagerreotypes wherever they are made.
The Ambotypes is patented in the United States, England and France.
The public are requested to call and see specimens, and judge for themselves.
THOS. H. ELLISON.

Portrait of His Lordship Bishop Connolly.

THE Subscribers, having made arrangements with an eminent artist of Paris, to prepare from an excellant Daguerrotype a LIKENESS of his Lordship Bishop Connolly, have the pleasure of informing their customers that they have just received by the Royal Mail Steamer *Canada*, via Boston, a few copies each of PLAIN, TINTED and COLOURED HEADS of His Lordship, executed in the best style of French Lithographic Art, which been pronounced by all who have seen them, to be most excellent likenesses.
As but a limited number of impressions can be obtained from the plate, an early application is necessary to secure a copy of this fine print.
August 8 1855. POTTER & CO.

New Prints, Splendid Engravings, &c.

POTTER & CO. beg to inform their customers and the public generally, that they have just opened, at their Store in Germain-street, a splendid lot of new PRINTS and ENGRAVINGS, among which will be found some of the best Prints published in Europe. They would particularly call attention to a few fine Pictures in the new style of Chromo-Lithography, comprising fac-similies of the works of the most celebrated masters of English Land-scape Painting together with a number of smaller subjects, perfect gems of art. The public are respectfully invited to call and spend a pleasant half-hour in examining these beautiful pictures.
