BITTER BATTLE IN WALL STREET RESUMED

BEARS BATTER PRICES AFTER PART RECOVERY

Gain One To 9 Points, Then Resume Recessions

SELLING STOPS IT

Back-Log of Orders Appears To Make Decline Orderly One

NEW YORK, March 5 — Another battle between opposing speculative forces developed in today's stock market. After prices had been marked up one to nearly nine points in the first half hour on the execution of a large volume of overnight buying orders, presumably attracted by yesterday's brisk recovery, bear traders launched a series of savage attacks against popular industrial issues. General Electric was driven down from 330 to 323; American Can, which opened 8¾ points higher at 317¾, was hammered down to 311, and Hudson Motors dropped from 114¾ to 110½.

The force of the selling checked the advance in other quarters, profit-taking on stocks "bought for a turn" swelling the volume of liquidation. While bids for many stocks were lowered there appeared to be a large back-log of orders for the high grade issues, the decline in which was an orderly one.

GAINS ARE LOST.

Ward Baking "B" was pushed back 8 points under yesterday's final quotation, and Dupont, American Radiator and Baldwin showed early losses of two points or more. American Waterworks concelled all its early gain of 3 3-4 points before the end of the first hour and Woolworth lost most of an initial rise of 4½ points. U. S. Steel common dropped from 125 3-8 to 124, where it met good support.

National Tea, ordinarily inactive, opened 25¼ points higher at 175. Pere Marquette forfeited most of its early five point gain, but there was no early pressure on Nickel Plate, which opened five points higher.

Maritimes Not Seeking Fight, Says Sexton

Canadian Press

MONTREAL, March 5 — Residents of the Maritimes do not go around constantly with chips on their shoulders, looking for a fight, nor are they a disgruntled clan, as might be supposed from impressions prevailing in the provinces west of them. This was the thought emphasized by Dr. F. H. GREAT PROSPERITY FOR CANADA SEEN

Speaker Refuses to Homing Instincts of Native Sons of United States

Canadian Press

NEW YORK, March 5—A prediction that "Canada's greatest economical problem—the division of the east and the west by a wilderness 2,000 miles wide," would within half a century be a solid belt of prosperops territory, was made by Hector Charlesworth, prominent critic of Toronto, in an address to the Canadian Club here. He looked for mineral developments to affect the change.

Taking as his subject "The migratory Canadian," Mr. Charlesworth said the exiled Canadian was like the migratory bird whose home instinct was always calling his back. No country in the world was so much loved by her absent sons, as Canada, he declared.

The Dominion was pictured by the speaker as the greatest contributor to the intellectual progress of the United States.

Liquor Mysteriously Replaces Laths On Nova Scotia Vessel

Canadian Press

LIVERPOOL, N. S., March 5.—Something new in the technique of bootlegging was said to have been uncovered here last evening when customs officers seized 2,000 cases of assorted liquors from the schooner Wapiti and placed the ship's watchman under arrest.

The Wapiti, a 75 ton schooner, owned by Abraham Thornhill of Halifax, left here Monday with a "bona fide cargo of laths" ostensibly for New York. Late yesterday she reappeared and anchored in the harbor with the explanation that she had encountered heavy weather and would wait until it had abated. Their suspicions aroused, customs men boarded her and found that her cargo consisted of liquor. There was not a lath in sight.

The matter was reported to Ottawa and further action against the schooner, customs officers said, would depend on instructions from the capital.

PROGRESSIVES NOT TO OPPOSE DUNNING

Regina Executive Decides no Good Purpose Could Be Thus Accomplished

Canadian Press

REGINA, Sask., March 5 — Hon. Charles A. Dunning, Federal Minister of Railways and Canals, will not be opposed by a Progressive candidate.

This was definitely decided at a meeting of the Regina constituency executive last night. An official statement was issued at the close of the meeting in part as follows.

"In view of the important position of the Progressive group in the present House of Commons, and of the large portion of the Progressive platform emboided in the speech from the throne, which foreshadows the early completion of the Hudson's Bay Railway, the establishment of rural credits and of old age pensions, the executive considers that no good purpose would be served at this time by opposing the new Minister of Railways, who, by his acceptance of this portfolio, is pledged to the fulfillment of these policies."

PRINCE IS SUED BY FORMER WIFE FOR DAMAGES

Morganatic Mate Asks 10,000 Francs From Carol

SAYS DESERTION

Declares Letter From Rumanian Royal Son Admits Relationship

Canadian Press

PARIS, March 5—The seclusion of former Crown Prince Carol of Rumania, who came here recently from Italy accompanied by Mme. Lupescu, the auburn-haired woman from Jassy, has been rudely invaded by a process-server. He handed Carol notice of a 10,000,000-franc damage suit instituted in the civil tribunal of the Seine by his former morganatic wife, Jean Marie Valentina Lambrino, better known to the general public by her nickname, "Zizi."

Carol, when he came to France from Italy to seek a haven of refuge from emissaries of the Rumanian Royal household, who were endeavoring to separate him from his blue eyed enamorata, aparently forgot that Mme. Lambrino has a residence in Neuilly, a fashionable suburb of Paris, and would be able to see him in France.

CLAIMS DESERTION.

The morganatic wife bases her claim for damages on the allegation that "Mr. Charles De Hohenzollern," as Carol appears in the papers to the suit, having abandoned his Royal wife, the former Princess Helen of Greece, and given up his right to succession to the Rumanian throne, has broken the special patriotic and dynastic reasons for which she agreed to an annulment of her marriage at Odessa and that she now is in the position of a deserted spouse.

Consequently, she declares, the annuity of 110,000 francs, settled on her by way of compensation and guaranteed by a sum deposited in the general Bank of Rumania, but which will only become her property after 20 years, is insufficient reparation for the injury she has suffered.

PRESENTS LETTER.

Among the various documents produced to support her case is a letter from Carol, recognizing her as his wife and the child born of their union as his son. The letter was written at Bucharest, August 1, 1919. It says:

"Dearest Zizi:

"Being obliged to leave to take command of my regiment at the front, one never knows what may happen. I wish this letter to be to you recognition on my part that I am the father of the child you are about to have, and that I have never ceased, despite the annulment of our marriage, to consider myself as your husband. I embrace you."

(Signed) "CAROL OF RUMANIA"
