Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills*, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings**, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression**, a large dose should be taken, as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

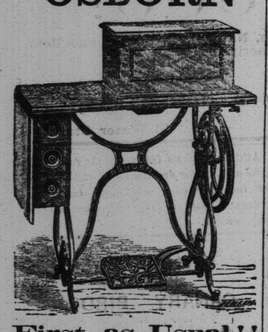
OSBORN



First, as Usual!!

THREE years in succession. The Osborn was awarded at the Great Central Exhibition Guelph, 1874, the first prize for Family Sewing Machine, and second prize as Manufacturing Machine. The new patent shuttle makes the Osborn unrivalled. In this Shuttle there is not the annoyance that is experienced in all other Shuttles; there are no holes in the Osborn Shuttle, and the thread can be put in its place in an instant. The Tension is self-regulating, which cannot be approached for smoothness.

No Attachment

The case of Smith vs. Brogan, before described, in which the plaintiff sought to imprison the defendant for contempt, under the Attachment Law, has at last been decided. At the City Court this morning Judge Peters dismissed the application with costs, but without entering into the reasons for so doing.

Prepared for Fire

Until the resignation of No. 3 firemen is accepted by the Fire Committee, they are liable to serve as usual, but in order that no difficulty may arise, in case of fire, arrangements have been made with the Hook and Ladder Company to man the hose cart, while the engine will be looked after by men from other companies.

A New Thing at Fires.

Chief Engineer Marter will probably go to Bangor to witness a trial of an improved chemical engine, by which it is claimed a great saving of property may be effected without a deluge of water. The engine is on the principle of the ordinary charged extinguisher. If the test proves satisfactory, the Chief will probably endeavor to have one procured for this city.

Portland Police Court.

Wm. Anderson, drunk and disorderly in his house was fined $8. with the alternative of two months Jail. This prisoner was before the Court only a few days ago, hence the heavy fine.

Timothy Quinn, John Collins and John Dromen, charged with annoying and insulting Caleb Fairweather in his house at Lancaster, were fined $4 each. Only one of the defendants appeared, and judgment by default was entered against the others.

The Portland Robbery.

The examination of the boys James White and James E. Ross was resumed by Justice Tapley this morning and will be continued this afternoon. The witnesses examined were Mrs. Tay, from whom the jewelry was stolen, and a boy named John Alcoin. The former identified the jewelry found as that which had been stolen from her, and the boy testified as to seeing the persons lurking in the vicinity of the house on the afternoon of the robbery. Mr. Gregory appeared for the prisoners, and raised several objections as to the formality of the proceedings.

Resigned.

The firemen belonging to No. 3 handed in their written resignation yesterday afternoon, and a meeting of the Fire Committee will be held this afternoon to take the matter into consideration. It is thought that the resignations will be accepted, and that the company will be reorganized with a number of the best of the late members, and without some of the ones whose character has been called in question. The best men are hurt at being classed with the worst, although Chief Engineer Marter disclaims any intention on his part to so place them in the opinion of the public. The reasons assigned by the men for their resignation are the odium thrown upon them, as a body, by the Magistrate, the press, the Chief Engineer and the public.

A NEW THING AND A GOOD THING.

THE invention of the paper collar was of a positive benefit to the world, furnishing as it did, a neat, clean, and most economical article of apparel. But it never did answer all the purposes for which it was designed, owing to the frail nature of the material. The problem has been to make a cloth collar as cheap as paper that would last longer and could be made always fresh and bright. The new "44" collar, now upon the market, fills these requirements perfectly. It is made entirely of cloth, three thicknesses linen, and is so closely resembles the finest linen that it might be sold anywhere for linen; and, no matter how much it may be soiled, it can be cleansed and made as bright as ever by the application of a damp sponge or cloth.
