CAPTURED STEAMER AT CHEFOO NEUTRALITY BREACH IS FEARED

Apprehension Is Being Felt Whether Japanese Indifference to International Law Will Spread to Land Operations.

Washington, Aug. 19.—The state department has received a cablegram from Chefoo, dated to-day, the substance of which is as follows: This morning seven Japanese destroyers entered the harbor and met an unknown steamer, which they captured. Two Japanese cruisers are outside the harbor.

The despatch is so worded as to leave in doubt one of the most important points connected with the seizure, namely, the exact spot at which it took place, and whether within or without the three-mile limit. The impression here is that the seizure took place within the Chinese territorial waters. The incident is regarded as an evidence of the determination of the Japanese naval officers to attack and cut out any Russian ships that lie in Chefoo harbor, provided they are not dismantled to the absolute satisfaction of the Japanese naval officers.

Won't Extend to Land.

Some apprehension has been expressed in other capitals that these apparent breaches of Chinese neutrality by Japan may extend to the land operations of the hostile army. This feeling is not shared in Washington, and altho the officials will not make public the sources of their information on this point there is reason to believe that they have been assured by both Japan and Russia that there will be no extension of the war field beyond Manchuria and, perhaps, Korea.

The danger of a breach of neutrality so far as land operations are concerned is said to centre at a point on the border between Manchuria and Chinese Mongolia, which would naturally be the place where Gen. Kuropatkin would seek to make his escape with his army in the event that the Japanese under Kuroki succeed in executing the plan which is now afoot, of surrounding him on the north, east and south, thus cutting him off from the Siberian Railroad and his line of communication.

Chinese Army Lined Up.

Apprehensive of this movement, Yuenshikai and Ma, the famous Chinese generals, with their foreign drilled troops, have concentrated a force of about 40,000 men in Mongolia, near the border, and it is feared that there may be a clash between these men and the Russian troops in the event of the retreat of the latter across the line.

Too Delicate for Publicity.

Washington, Aug. 19.—At a cabinet meeting to-day, Secretary of State Hay called attention again to the complications which have grown out of Japan's seizure of the Russian destroyer Ryeshitelni. No decision was reached concerning the attitude the government will assume. Members of the cabinet were extremely reticent regarding the matter, it being regarded as of too great delicacy for public discussion at this time.

Their Stay is Limited.

Washington, Aug. 19.— U. S. Consul-General Goodnow has cabled the American state department from Shanghai that the Chinese taotai there has reported against the claim of the Russian consul-general, and decided that the torpedo boat destroyer now at that port must go out or disarm by the 20th inst., and that the cruiser must do likewise by the 21st inst.

China Held Responsible.

Paris, Aug. 19.—The report that the Japanese consul at Shanghai has been ordered to inform China that she will be held responsible for the disarmament of the Askold and Grozovoi is officially confirmed. Well-informed circles have no doubt that China will fulfil her obligations and then consider that the presence of numerous warships of various nationalities at Shanghai is sufficient guarantee that Japan will not attempt to violate the neutrality of that port.

PALLADA SAFE AT PORT ARTHUR.

But Unknown Gunboat Reported Demolished by Mine.

Tokio, Aug. 19.—A Rusian gunboat of the Otvajni type struck a mine and sank off Laoti Promontory, the extreme southerly point of the Kwangtung Peninsula, on which Port Arthur is situated, at 8 o'clock on Thursday night.

The Otvajni is an armed gunboat of 1500 tons displacement. She carries one 9-inch gun, one 6-inch gun and ten quick-firing guns. She has two torpedo tubes, has a speed of 15 knots and carries a crew of 142 men.

Gloom at St. Petersburg.

zSt. Petersburg, Aug. 19.—A feeling almost akin to despair reigns in the much-tried admiralty. So far as the immediate future is concerned, the admiralty does not disguise the fact that the Vladivostock squadron is destroyed. The effect upon the public is also most depressing. The only consolation found is in the words of praise bestowed on the officers and men and the unequal character of the fight. Russian naval experts, by the system of coefficients, figuring that the inferiority of the Vladivostock squadron in armor and guns was 69 to 200.

The chief mystery at the admiralty here is why Vice-Admiral Kamimura drew off when Admiral Jeseen's ships were at his mercy. The only explanation is that his squadron must have sufferede such frightful damage that it could not continue the battle.

Pallada at Port Arthur.

The idea of accomplishing the cherished plan of the admiralty of uniting the two Rusisan far eastern squadrons to await the coming of the Baltic fleet seems now almost hopeless. Nevertheless, the admiralty expects that the battleships, if they returned to Port Arthur, will sally forth again, even to certain destruction. The admiralty has received official information that Vice-Admiral Prince Ouktomsky's five battleships and the protected cruiser Pallada are at Port Arthur. A telegram received here from the Russian consul at Chefoo does not mention whether the vessels are damaged and makes no reference to the report from Tokio that a gunboat of the type of Otvajni has been sunk.

MIDWAY AT THE FAIR TO BE VERY VARIED

And Exceptionally Clean and Interesting—Cat, Poultry and Pet Stock Entries Close To-Day.

The process of manufacturers building at the Exhibition this year will be of even more interest than last year. Upwards of a score of processes will be seen in active operation, including carpet-weaving, silk-spinning, making boots from the raw material to the finished article, making shingle nails, spinning wire mattresses, lithographing and printing in colors, etc. Only a comparatively few of the six-for-a-dollar tickets remain unsold in the hands of the agents. Early application is necessary, as no more will be printed, and after the coming week they will be withdrawn from sale.

The Midway or Avenue of Amusement will be on an exceptionally large scale. It will comprise 22 features as follows: Roman-avenue, Darkness and Dawn, Trained Animal Show, Old Plantation, Congress of All Nations, Ferris Wheel, Dog and Cat Show, Illusions, Gay "Paree," Creation, Little World, Major Cricket, Corita, Deep Sea Divers and Mount Pelee, The Volcano (Electric Theatre), Glass Blowing, Train Robbery (Moving Pictures), Living Canada (Moving Pictures), and Katzenjammers (House of Trouble).

Director H. Frankland will meet the Black Watch Band at Quebec and conduct the aggregation to this city. Come next month, it will be just 17 years since Jesse Brown in Lucknow heard the welcome skirl of the Black Watch Pipers.

Entries for cats, poultry, pet stock and the saddling and unsaddling competition close to-day. Two classes for children's cats are provided for in the cat prize list.

Capt. R. K. Barker has consented to command the British troops in the great military spectacle that is to be given nightly, "The Siege and Relief of Lucknow."

The representatives of the various Scottish societies in Toronto have arranged with the directors of the Industrial Exhibition for the holding of Scottish games on the Exhibition grounds on Scotland's Day, Thursday, Sept. 1. The prize list asgregates $1200, and will be the finest series of prizes ever offered at a similar gathering on this continent. There will be foot races, tossing caber, standing jump, running jump, hop, step and jump, vaulting with pole, hurdle races, both for professionals and amateurs, with pipe music, dress and dancing competitions, and the prizes for all these are on a scale never before offered in Canada or the States. Many of the best known athletes, pipers, dancers and other competitors from all over Canada and the States will take part.

Entries close on Saturday, Aug. 27, with the secretary, room 37, Home Life Building, Toronto.

The exhibit of pioneer and Indian relics, spinning, weaving, etc., will be interesting this year. No one can fully appreciate our industrial progress without seeing the old tools, implements and household utensils used by the early settlers of our country. Persons who have relics of any description and who would like to lend them to add interest to this exhibit can communicate with Mr. Moyer, 408 Spadina-avenue, Toronto.

St. Margaret's College.

In the rapid progress of education in Canada, institutes, such as St. Margaret's College, have come to fill an important and necessary place. St. Margaret's, which is a residential collegiate school for girls, has just issued a neatly printed booklet, replete with information regarding the school. The academic department gives instruction as far as the complete preparation for university honor matriculation, and each department in this course is in charge of a university honor graduate of the highest standing, the teachers of modern languages having taken post-graduate courses in France and Germany. Music, drawing, painting, needlework, scripture, history, domestic science and physical culture are also most efficiently taught. The different instructors in music and art have studied under eminent teachers of Europe, in Berlin, Vienna, Leipsic, Paris, London and New York.

The college is attractively situated in the residential part of the city, on the corner of Bloor-street and Spadina-avenue. The class-rooms of St. Margaret's were especially designed for a residential college, and thus, as fully as is possible, it combines the features of both home and college life.

Forest Fires Raging.

Portland, Oregon, Aug. 19.—Fires are still raging in the great forests of Washington, doing incalculable damage. At fourth plant, not far from Vancouver, Washington, fire is still burning fiercely, and seven houses have been destroyed, together with the mill of the Homestead Lumber Company, and large quantities of cut wood and many valuable trees. A detachment from the Vancouver barracks has been sent to the scene.

Sale of Draught Horses.

The regular sale will be held at the Repository, corner Simcoe and Nelson streets, Toronto, on Tuesday next, at 11 o'clock. About one hundred horses are entered, including over sixty of the finest heavy draught horses that have been offered in Toronto. All are direct from Ontario breeders, and weigh 1450 lbs. to 1800 lbs. There are several well matched pairs, weighing 2900 lbs. to 3400 lbs. Also general purposes horses and drivers.

$30.00 to Colorado and Return.

via Chicago, Union Pacific & North Western line, Chicago to Denver, Colorado Springs and Pueblo, daily throughout the summer. Correspondingly low rates from all points east. Only one night to Denver from Chicago. Two fast trains daily. Send four cents in stamps for illustrated booklet to B. H. Bennett, 2 East King-street, Toronto, Ont. 6363

Kola Purifies Water.

Dr. Nachtigall, who writes from personal experience, gives some interesting information regarding Kola in his book on the Soudan. The doctor states that the usefulness of Kola, when water frequently contains the germs of various diseases, should be great, as a small quantity added purifies and changes foul water that would be dangerous to drink, unless it was first boiled or treated in this way.

The combination of Kola, Celery and Pepsin is pronounced to be the greatest tonic known. It is a positive cure for indigestion and dypepsia and nervous troubles, and can be highly recommended for constipation, sleeplessness, asthma, liver and kidney complaint, hay fever and rheumatism. It purifies the blood and restores you to perfect health. Sold all over the Dominion, and manufactured only by the Hygiene Kola Company, 84 Church-street, Toronto, Ont. Call at the office for free samples. 'Phone Main 3560.

SUMMONS FOR CALLING FIREMEN.

Man Ignored Policeman's Prerogative, Tho Scare Was False.

When is a man justified in calling out the fire department?

Is it a crime to unwittingly turn in a false alarm?

These are two questions which the magistrate may be called upon to give answer to, if two constables make good an intimation last evening tendered to Richard Shortt, 121 Sydenham-street.

Shortt saw smoke issuing from the windows and eaves of a building in the lane in rear of the Albany Club at 6.30 last evening. He ran and telephoned to the fire department.

When the hose and truck companies from Lombard-street arrived, they found that the vapor came from the process of rendering lard.

Two policemen had Shortt.

"Why did you call the firemen when it wasn't a fire?" they wanted to know.

"'Ow was h'I to know it wasn't?" was the reply.

"But weren't we here? Why didn't you tell us? Give us your name. There'll be a summons coming to you for this."

What the theatres purpose doing to amuse their patrons next week. See The Toronto Sunday World.

India Orphan Work.

Miss Caroline Macklem, "Sylvan Towers," Rosedale, acknowledges the following contributions: Miss O. H., $1; Anon, $1; Miss Hilton, Peterboro, $2; Francis W. Reid, Peterboro, $1; Mrs. George Henderson, Collingwood, $2. Further contributions will still be welcome. The number of these little orphans is very large, and we must bear them in mind a few months longer.

EXPLOSIVES TO FREE CONVICTS.

Accidental Discovery of Daring Plot to Wreck Ohio Penitentiary.

Columbus, O., Aug. 19.—Evidence was discovered in the penitentiary yesterday of a daring attempt to blow up part of that institution and liberate hundreds of prisoners. A quart of nitro-glycerine, a stick of dynamite nearly a foot long, two dynamite fuses, a half dozen dynamite caps, a key, 15 cartridges, and a 38 calibre revolver is an invoice of the stuff which told of the plot, which also meant a wholesale destruction of human life.

The discovery was a mere accident, which happened to Foreman Griever of the annex hoe shop. About 9.45 the foreman entered the boiler-room of the shop to secure a wrench. In one corner of the room is a rudely constructed box about 8 feet high, almost upon the level of a window, which had been boarded up.

Above the window casement a Board had been nailed, forming a pocket. By holding to the board the guard attempted to draw himself up, and his weight caused the fastenings to give way.

In the little pocket, carefully placed, was the stuff, which could not but snuff out many lives when its use was applied. Had care not been used in depositing the nitro-glycerine where it was found it must have fallen to the floor and exploded.

The Toronto Sunday World contains within its thirty-two pages something to interest every one. For sale by all newsdealers or newsboys. Delivered or mailed to any address three months or fifty cents.

Steamers Collided.

Thru a misunderstanding of signals, the Garden City and Primrose bumped together in the bay yesterday afternoon. There was no damage.

MAKES HEART BEAT AGAIN IN WOMAN'S BODY

RESCUED FROM THE GRAVE

Felt Dead and Lifeless, But Blood Made to Flow Through Veins Once More by Strange Man's Mysterious Control Over Disease and Death.

DOES HE POSSESS SUPERNATURAL POWER

Performs Seeming Miracles Without Useless Drugs and Medicines and Threatens to Upset Mode in Medical Practice by Healing Hopeless Invalids of Diseases pronounced Incurable by Physicians.

Says There is No Disease He May Not Cure and Offers Free Services and Home Treatment to the Sick and Afflicted to Prove to All Mankind the Marvels of His Power—Distance Does Not Hinder Nor Doctors' Verdicts Discourage.

New York, Aug. 17.—(Special Correspondence.)—By his mysterious control over disease and death, Dr. Wallace Hadley, the eminent thaumaturgic panopathist of this city, has made the human heart beat again in the body of a woman rescued from the grave. And, as a result of his successful experiments, he makes the startling statement that no disease should cause death. He claims to have discovered the vital principle of life itself, the dynamic force that creates and maintains existence.

Since making this discovery, the cures made by this man of science have been so remarkable, the restorations to life and health that he has brought about have been so mavelous, that he is credited with possessing some power over disease and death not given to ordinary mortals. He seems to have absolute control over human life and the diseases that attack it. Time and again he has taken men and women pronounced hopelessly incurable and on the verge of the grave and restored them to life and health in the face of such apparent impossibilities that he is credited with working miracles. The wonder is increased by the fact that he performs these cures without the useless drugs dispensed by doctors, and that he gives freely of his services without charge to all who are sick and afflicted, saying, during a recent interview:

"I believe that it is my duty to God and man to help all who are in need. I am not a millionaire, but I am well able to afford to do my share toward relieving the sufferings of mankind and driving disease from the earth. And since it is in my power to cure and drive out disease I feel that I must not use this gift wrongfully. I have no right to deny a poor man the boon of health, neither do I believe in making him waste his money on useless drugs. It is not only that medicines often do more harm than good, but I have found something as much superior to them as the sun is to a candle. As evidence of this, my experience has proved that there is no disease I may not cure since making this discovery. I do not care how severe the case may be, how chronic, how long standing, what other men have said or failed to do, or whether the patient has been pronounced incurable or not. I am just as ready to cure consumption, cancer, paralysis, Bright's disease, organic weakness and other so-called incurable diseases as I am to cure stomach and bowel troubles, rheumatism, nervous prostration, blood disorders, catarrh, or any of the other ills that human flesh is heir to. I have done so many times over. Without intending to boast, I may safely say that I treat more patients in a year than the average physician does in a lifetime, and among these are numbered cases that are probably among the worst in the country. And I cure, because I have at my command a power over disease so great that its extent can hardly be realized. For instance, read this letter from one of my patients, Mrs. J. G. Whitfield of Norfolk, Va., who writes: 'I was so near crossing the Great Valley that my body felt dead and lifeless; but you made my heart beat again and my blood flow through my veins once more. I was very despondent when you came to my rescue. My stomach, liver and kidneys were in such a bad state I was afraid I couldn't ever be cured, and in addition I was afflicted with Varicose Veins and Ulcers, that I thought I could not be cured. I was in despair when I wrote to you, feeling that it was a chance for life and health. I suffered untold misery, but now I can shout for joy over my restoration to life and health. I don't feel like the same person. I do feel so thankful to you. May God bless you.' And this from Mr. E. C. Bess of El Campo, Tex., who says: 'I was as good as dead when you came to my rescue with your most wonderful discovery. I was suffering the torment of the damned from rheumatism, liver and kidney diseases and dropsy. It is hard to tell which was the worst, as they all set me almost crazy with pain. I did not know a comfortable moment free from pain. It was like having toothache all over my body, and all going at once. Doctor after doctor had given me up to die, left me dead, and could do nothing to relieve me. But you brought me back to life. I suppose you know how you did it, but I don't—and I don't much care about the how, as long as you did it so quickly and permanently.'

"These are only random examples, but you see that all tell the same story of restoration to health in the face of what seemed certain death. But these and the other so-called 'miracles' that I have been credited with working are not miracles in the same way as those described in the Bible. They may seem just as wonderful to the witnesses, but they are in truth simply scientific phenomena that demonstrate and prove the great value of the discovery I have made, a discovery that bids fair to upset modern medical practice, since now no case may be considered incurable."

"What is this discovery?" was asked.

"I have discovered what creates life. I have found what causes disease and death and how they may be prevented. A case of disease is no longer a mystery to me, whatever it may be to others. I can see through it as through clear glass. I see the cause, and I know the cure. Cases have come to me that have baffled some of the best physicians in the country; where one doctor has said the trouble was with the stomach, another said heart, still another diagnosed kidney disease or something else. But in each case I was able to see the real cause, and by removing it I restored the patient to perfect health. I have known stomach trouble to be diagnosed as heart disease, and heart disease as rheumatism, and countless other similar instances. When these mistakes are made and the patient is treated for the wrong disease, how can the sufferers hope to get well? It is as if you tried to cure deafness by wearing eyeglasses. One is just about as sensible as the other. But I make a careful diagnosis of each case that comes to me and treat the real cause."

"You spoke of giving your services free?"

"Yes, that is right. Anyone who is ill in any way and wants to be cured, merely has to write me, addressing Wallace Hadley, M.D., Office 1219 K, 708 Madison-avenue, New York City, telling me their greatest pain or trouble, their principal symptoms, age and sex, and I will diagnose their case and send them a course of home treatment absolutely free of charge."

"Do you mean that anyone who is sick can write to you to be cured without paying you any money?"

"Yes, I mean just that. Both my services and the treatment I send are free. I want to prove to the whole world the value of my discovery, and, as I said before, I feel that it is my duty to give health to all the poor sufferers that I can. And I am especially anxious to cure those who have been told that their case is incurable, that there is no hope for them to regain their lost health and strength. If they will write to me and let me treat them, there is not only hope, but an almost absolute certainty that they need be sick no longer. And it makes no difference where they live. A letter does just as much good as a personal visit. I can cure them in their own homes as easily and surely as if they came to me or I went to them."

TREASURER'S SALE OF LANDS

In Arrear For Taxes in the Town of North Toronto.

Town of North Toronto,
County of York,
To Wit:

By virtue of a warrant, issued as subjoined, by the Mayor of the Town of North Toronto, dated the 26th day of July, 1904, and to me directed, for the collection of the arrears of taxes due upon the undermentioned lands in the said town, together with the fees and expenses thereon, all such lands being patented lands:

I give notice that unless the said arrears of taxes and costs be sooner paid, I shall, on Monday, the 7th day of November, 1904, at the hour of 2 o'clock in the afternoon, and upon the following day or days, until the sale is completed, at the hall of the municipality, in the Town of North Toronto, proceed to sell by public auction, the said lands, or such portions thereof as shall be necessary to pay such arrears, together with all charges thereon.

Treasurer's Office, Hall of the Municipality, North Toronto, 28th July, 1904.

W. J. DOUGLAS,
Town Treasurer.

To William J. Douglas,
Of the Town of North Toronto, in the County of York, and Province of Ontario, Treasurer of the said Town of North Toronto:

Town of North Toronto,
County of York,
To Wit:

By virtue of the authority given me under chapter 224, sections 173 and 224, of the Revised Statutes of Ontario, 1897, I, John Fisher, of the Town of North Toronto, Mayor of the said town, do hereby authorize you to levy upon the lands described in the return of lands liable to be sold for arrears of taxes, made by you in duplicate to me, bearing even date herewith, attested by my official signature and the seal of the said town, one being returned to you with this my warrant attached thereto, to sell the said lands or so much thereof as may be sufficient to pay the taxes, thereon, together with the fees and expenses chargeable under the aforesaid Act.

As witness my hand and the Seal of the Corporation of the Town of North Toronto, this 26th day of July, one thousand nine hundred and four.

(Seal.) JOHN FISHER,
Mayor.

The Canada North-West Land Co., Limited.

DIVIDEND NOTICE.

Notice is hereby given that a dividend of 2 per cent. for the half-year, ending 30th June, 1904, has this day been declared upon the Preferred Capital Stock of the Company, payable on the 1st day of October next to holders of the Preferred Shares of record on the closing of the books at the close of business on 31st August, 1904.

RETURN OF PREFERRED CAPITAL

Notice is also given that, in conformity with the Company's Acts, and under authority of a resolution of the Directors, a pari passu return of 20 per cent. of the Preferred Capital of the Company—being $20.00 per share—will be made as of 1st July, 1904, to the holders of the Preferred Stock of record on 31st August, 1904, as above, on the 10th day of October, 1904, upon the surrender (for endorsement of such repayment) of their certificates of Preferred Stock, if on the London Register, to Harry Moody, registrar, at the office of the London secretary of the Canadian Pacific Railway Company, and if on the Canadian Register, to the Secretary-Treasurer, at the Company's Head Office, 18 King-street West, Toronto, on and after (but not before) said 10th day of October.

Note.—Together with the return of 20 per cent. of Preferred Capital, as above, will be paid 1½ per cent. interest on such instalment representing interest thereon at the rate of 6 per cent. per annum from the 1st July to 30th September, 1904.

The Transfer Books of the Company will be closed from 1st September to 10th October, both days inclusive.

By order,
S. B. SYKES,
Secretary-Treasurer.

Toronto, 25th July, 1904.

Would Deport a Canadian Now.

Montreal, Aug. 19.—The activity of those in Canada who are desirous that all American engineers now employed in this country should be deported, is spreading. The suggestion has now been made by the Canadian Amalgamated Association of Engineers that William F. Tye, the chief engineer of the C.P.R., should be included in the list of those who should be deported.

It is true that Mr. Tye practically came to the C.P.R. from an American road, but it is equally true that he is a Canadian born, educated at Ottawa College.

KAY'S "CANADA'S GREATEST CARPET HOUSE." KAY'S

Rug Talk

You have noticed how largely rugs have become popular as floor coverings. Thousands of yards of carpets continue to be sold every year. At the same time it must be admitted that in many homes the carpet is supplanted by the rug. This store can claim to be responsible for much of this change because of the large and very beautiful range of rugs and parquet squares it has for years offered shoppers. At the present time our rug stock is unprecedentedly large—altogether too large—a reason for the further talk that follows.

Oriental Rugs

20 Per Cent Discount.

In a word let us say this special discount applies to all Oriental rugs on exhibition—and these are being added to almost daily by new shipments. But let this be said very plainly that this special discount off prices already low holds good during August only. Some particulars are:

120 Carabagh Oriental Rugs, marked $7.50
50 Hamadan Oriental Rugs, marked at $6
150 Shirvan Oriental Rugs, marked at $10.50 to $35.
200 Kazach Oriental Rugs, marked at $12.50 to $40
75 Moussouls Oriental Rugs, marked at $16.50
75 Guendjes Oriental Rugs, marked at $17.50
200 Anatolian Oriental Rugs, marked at $25 to $35
40 Beloochistan Oriental Rugs, marked at $8 to $12
50 Hamdahs Oriental Rugs, marked at $5 to $17.50

Axminster Squares

These are new goods, and are marked at very unusual prices. There is no discount off the marked price. You find them in very beautiful colors and shadings and most attractive designs. A few particulars:

SIZE.	PRICE.	SIZE.	PRICE.
9.0x6.0	$15.00 to $18 00	10.6x9.0	$22.75 $30.00
7.6x9.0	16.50	12.0x9.0	26 50 35.00
9.9x6.9	15.75	13.6x10.6	$40.00 50.00 75.00 46.00

Every satisfaction is given shoppers ordering rugs by mail. You will get just what you order.

From Infancy to Old Age.

There is no better friend than

NEAVE'S FOOD

The most delicate stomach can take it, and in a very short time a thoroughly healthy condition of body is established, the tissues easily absorb its life-giving particles, and where weakness and discomfort previously existed there is strength and vigour.

Mrs. BLACKMORE, of 1 Marine Parade, Clevedon, writes:—"I have forwarded by this post a photo of our little girl, age eight months, who has been brought up entirely on Neave's Food, which we found suited her in every respect. . . . We have tried other foods, which ends in restless nights for her and us. We do with pleasure recommend your Food to all our friends."

Collecting Forest Seed.

E. J. Zavitz of the Ontario Agricultural College forestry department yesterday had a conference with Hon. John Dryden. He has just completed a tour in the province to investigate forestry and farm conditions, and found Simcoe County especially favored. He will go out at once on a seed collecting expedition and hopes to make a big collection of white pine seed.
