CITY HALL GOSSIP.

The Old Smallpox Hospital Set Fire To and Burned.

The old smallpox hospital, which has been a thorn in the side to many for a long time past, is no more. The instruction passed by the City Council on Monday afternoon for the burning of the inflammable portion of the building was carried into effect yesterday morning, and what was once the despised pest house on the east bank of Riverdale Park is now a mass of charred ruins.

At 10.30 laborers belonging to the Street Commissioner's Department saturated the woodwork with kerosene, and an hour later, with Ald. Macdonald, Hewitt, Allen and Stewart, Dr. Sheard and Ephraim Parsons Roden as witnesses, Street Commissioner Jones applied the torch and the structure was immediately in flames. A body of firemen from the Bolton-avenue station stood by to protect the buildings in the neighborhood.

This afternoon the Fire and Light Committee will meet for the purpose of receiving City Engineer Keating's report on the electric light plant tenders.

Ald. Gowanlock and Murray accompanied City Engineer Keating yesterday morning on a trip through the West End to decide upon a street railway route to connect the north with the lines on King and Queen-streets. The Street Railway Company are willing to extend the Dovercourt-road track from College-street to Dundas-street.

FOUNDED 1000 YEARS AGO.

The Convention of the Knights of St. John and Malta.

In the Liederkranz Hall, Richmond-street, the 19th regular convention of the chapter-general of the Knights of St. John and Malta was called to order yesterday morning by the Grand Commander, J. A. Cowan of this city.

The chapter was opened in the form peculiar to the order, and then the Grand Commander delivered his address, in which he spoke of the prosperous condition of the society and of the work that had been done during the year. He also announced the names of those who will compose the standing committees for the ensuing 12 months.

The afternoon session was commenced at 1 o'clock, when Grand Chancelor McElroy, New York, and Grand Almoner Bowne, Brooklyn, read their reports.

At this stage Mayor Kennedy entered the hall amid loud cheering. He extended to the Sir Knights a warm welcome to the city, in which he alluded to the fact that the first encampment of the order in America was organized in Toronto at the hall at the corner of King and Church-streets on St. Andrew's Day, 1870.

Major R. W. Read, Philadelphia, in responding said: "We have come to Toronto to be honored by being in the presence of the men who established the order in America. We are delighted with the kindly reception that has been accorded to us."

Ald. Hewitt, Atkinson and Graham and Dr. Ryerson, M.L.A., the latter of whom the members boarded some 120 carriages as a Sir Knight, also spoke, after which provided by the City Council, and were driven through the business and residential portions of the city.

In the evening the various committees met for the despatch of routine business.

There were about 250 knights in the city yesterday, but more are expected to arrive to-day to be present at the election of officers. There are two candidates for the office of Grand Comander, viz.: Grand Lieut.-Commander J. W. Streeton and District Deputy Grand Prior Buckett, both of Brooklyn.

The order is the fraternal offspring of the Ancient Order of Malta, founded in Jerusalem in 1048.

NOT A HORSE THIEF.

The Charge Against Edward Orr Falls to the Ground.

Edward Orr of Toronto was tried before Judge La Course at Berlin yesterday on a charge of horse stealing. It was shown that he had engaged a rig from a liveryman in Preston for a few days with the object of driving to several towns and villages in the locality and he distributed cards purporting to be a piano tuner from a Toronto establishment. He kept the horse ten days, when he wrote the owner at Preston saying that he was still using it. At the end of another ten days he wrote again and later from Toronto, saying he had deserted the horse and rig in Guelph. The crown decided to drop the prosecution on the charge of horse stealing.

Orr will likely be prosecuted for misrepresentation by the Heintzmans of Toronto.

EMOND MAY BE ACQUITTED.

The Charge Against the Champion Wing Shot Not a Serious One.

At Magistrate Kingsford's court yesterday Wilfrid Emond, extradited from New York State, was charged with the larceny of $126 from the Hamilton Powder Co. Emond was the Toronto agent for this company, and it is alleged he received money from his customers for which he made no return to the head office. Emond's defence is that a portion of the money was deposited in the Imperial Bank to his credit as agent of the company, and the remainder was applied to his expense account, and of which he claims the company was cognizant. The case was remanded until 2 p.m. to-day.

Civil Assize Court.

W. J. Walker, Aylmer, Ont., won his suit against Rice Lewis & Co., before Justice Armour yesterday. The claim was for breach of contract, and the court will decide later as to the appropriate amount of damages.

Mrs. Jane Howland was also successful in her claim for a lien on certain properties now in the hands of the Trusts Corporation Co. of Ontario. These properties belong to the late J. H. Ferguson, who was solicitor for Mrs. Howland and who, according to Mrs. Howland's evidence, illegally invested moneys which had been entrusted to his care by the plaintiff. She asked that she be given a lien on the property or that it be sold to satisfy her claims.

A lady in Syracuse writes: "For about seven years before taking Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, I suffered from a complaint very prevalent with our sex. I was unable to walk any distance, or stand on my feet for more than a few minutes at a time, without feeling exhausted; but now, I am thankful to say, I can walk two miles without feeling the least inconvenience. For female complaints it has no equal." d

HAMILTON CONVICTED.

A Queen-Street Grocer Found Guilty On a Charge of False Pretences.

Robert Hamilton, grocer, was charged at the Sessions yesterday with receiving goods from Eby, Blain & Co. under false pretences. The amount involved was about $1000. Hamilton represented himself as being the owner of an unencumbered property in Berkeley-street worth $4000. He afterwards assigned, when it was found the estate was the property of his wife. Hamilton denied the charge, but the jury thought otherwise and returned a verdict of guilty.

Charles Coke was then put on trial for stealing a horse net from Hotelman Sharp of Sutton. Coke stabled his horse at Sharp's hotel on the night of Aug. 31, and left early next morning. The net was missed some time during the day and afterwards recovered from a place where Sharp alleged Coke left it. A verdict of guilty was given.

George Elliot, convicted of stealing $8 from Milkman Bryce, was allowed to go on suspended sentence.

First Canadian Lumber to Reach Bay City.

Bay City, Mich., Sept. 25.—Four million feet of Canadian lumber was received here yesterday from the Spanish River Lumber Company. This is the first consignment of Canadian lumber that ever came into this port.

A PALE FACE comes from poor blood. Your blood needs to be enriched and vitalized. For this there's nothing in the world so thoroughly effective as Dr. Pierce's Golden Medical Discovery.

Children who are weak, thin, pale, and puny are made strong, plump, rosy, and robust by the "Discovery." It's especially adapted to them, too, from its pleasant taste. It's an appetizing, restorative tonic which builds up needed flesh and strength.

In every blood-taint or disorder, if it doesn't benefit or cure, you have your money back.

DR. R. V. PIERCE: *Dear Sir*—I will say that I used the "Medical Discovery" for my little girl, and she is entirely well. I cannot praise your medicines too highly. You may rest assured that you will always have my support.

Tips From Wall-Street.

The market closed steady.

Earnings of St. Paul for third week of September decreased $64,350.

Northern Pacific earnings for week ended Sept. 21 increased $58,000.

Henry A. King & Co.'s special wire from Ladenburg, Thalman & Co., New York: The bear traders, led by Wheeler and Weil, had up to the afternoon practically complete control of the market all day. The selling on their part and on that of followers they have attracted increases the short interest, but the pertinacity and apparent success with which the attacks are conducted render buyers timid, and delay rally, which would naturally result from such selling. While the market has been irregular in its action, and "spotty" as to the objects of successive movements, its tone and tendencies have been generally weak the features of the day being Grangers, D. C. F. and Sugar. Reading has attracted attention, the publication of the details of the reorganization plan causing renewed selling. The fact remains that even if the plan is accepted and goes through, the position of the stock and junior bonds is as uncertain as can be. Assurances are forthcoming that the usual N. Y. C. dividend will be declared, but the street is still anxious for decision in spite of the strength of the stock. In the early afternoon the bear pressure somewhat relaxed. Towards the close no pressure to be seen.

Henry A. King & Co.'s special wire from Logan & Co., Chicago: The market to-day has been a repetition of yesterday's, selling a little higher in sympathy with corn. The trade is local to a large extent. The feeding question is again a factor, and if this feeding can be successful in midwinter it cannot but bring higher prices. Other exporting countries have as much surplus as will supply England's wants, but we will continue to export until this surplus is harvested, which means January and February. It is on the cards to see prices for wheat much higher than anywhere else, and we think it will be if the feeding said to be going on continues.

Schwartz, Dupee & Co., Chicago, wired Dixon: Wheat opened a shade easier, but worked up slightly under the efforts of local traders and sympathy with a stronger corn market. The advance, however, towards the close was more than lost. The news continues bearish. The world's visible supply increased 2,250,000 bushels. Receipts in the Northwest were again large, with indications that they will so continue for some time to come. Seaboard clearances were pretty nearly 600,000 in wheat and flour. Deliveries of winter wheat at interior points are reported light. The new crop prospects, however, are starting off well, and Argentine wheat is already being offered at low prices for forward deliveries on the other side. England is probably the only European country that will require to import any large amount. Their estimated wants, are 130 million bushels, while the estimated surplus of exporting countries, except Argentine, at least 275 million. Corn opened a shade off, but advanced half a cent on receipts of estimated cars for to-morrow, which started early sellers to covering shorts. The sentiment of the crowd is bullish, and prices would have advanced further but for the weakness in wheat. Provisions inactive but steady early, with fair support by local bulls. Later renewed selling by leading packers and unloading by tired holders caused a weak, sagging market, which continued to the close, which was heavy at lowest prices yet touched on this decline. The tendency is still downward unless changed by a stronger corn market.
