MEETING OF THE P. E. ISLAND ASSOCIATION FOR PROMOTING CHRISTIANITY AMONG THE JEWS.

The Seventh Anniversary of the above Society was held on Friday evening last in the Temperance Hall, agreeably to announcement.

We have frequently taken occasion to speak of the growing interest of this Association, "and still it grows;" for we venture to say, that on no occasion since its formation by a few individuals in this town—who set about the work in fear and trembling, sustained only by their trust in God—has a deeper interest been taken by the inhabitants of Charlottetown in the fate of the outcast Jew, than was manifested on this anniversary.

The Meeting was opened by singing; after which, the Scripture was read by the Rev. Mr. Fitz Gerald, followed by prayer by the Rev. Mr. Meek. Hon. C. Hentley then opened the business of the evening, in an elegant and masterly address; and concluded by calling on the Secretary, Mr. Jas. Moore, to read the Report.

After which the following resolutions, were moved and adopted:

Moved by the Rev. D. Fitzgerald, and seconded by Lieut. Hancock.

1. That the report now read be adopted and printed.

Moved by Capt. Orfeur, seconded by Mr. John Bowyer.

2d. That this Meeting encouraged by the success of the Parent Society, feels it a duty to express their thankfulness to the Great Head of the Church—and to pray that he will continue to vouchsafe the dew of His Blessing.

Moved by the Rev. Dr. Evans, seconded by Rev. Mr. Meek.

3d. That this meeting is deeply impressed with the goodness of God, in inclining the hearts of so many to care for His ancient people, and trusts that the spirit of Love and union thus displayed by the churches in this Island, may abound yet more and more.

The Meeting throughout was of a tone and character highly gratifying to the very numerous and respectable audience; the business being interspersed with some excellent singing, by the united Choirs.

The Collection amounted to £7 14s.

ENGLISH and COLONIAL MAILS—PROVINCIAL RAILWAYS.—The Courier, with an English Mail, latest date 5th inst., and the Colonial Mails, latest date 16th inst., arrived in Town, on Monday night, about 9 o'clock. The European news are not of much interest. From the Provinces, the notices concerning the projected Railways are the most important. In Nova Scotia, Mr. Howe's Railway Resolutions have been carried in the Assembly, by a majority of two. The Council, it is supposed will concur in the scheme; and Nova Scotia will then, no doubt, speedily commence her Railway enterprise. In New Brunswick, we learn that the contractors, Messrs Jackson and Co. will be ready to commence as soon as the season will permit. They have the material ready, are engaging men and procuring ships to transport it to the place; and it is calculated that, before the end of the year, they will have effected a union between the Gulf of St Lawrence and the Bay of Fundy. To the Railway enterprise in both Provinces we sincerely wish the fullest success. This wish, however, cannot be said to be quite disinterested; for, not only do we expect that this Colony will be immediately much benefited by the great increased demand for her agricultural produce, which will be occasioned by the great influx of artisans and labourers, into these Provinces, for the constructing of the railways; but also, in the ultimate benefits which will result to these Provinces, from the completion of these great works, we confidently expect the people of P. E. Island will be no inconsiderable participators. Success then to their great undertakings, we heartily say, on every account.

THE ASSOCIATION FOR MUTUAL IMPROVEMENT.—On Friday the 11th inst., Mr. W. C. Trowan, delivered a very interesting and instructive lecture, as announced, on "William Tindal, and the English Bible", before a numerous audience.

On Friday evening next, the 25th inst., the Rev. S. T. Rand will lecture before the Association on *Language*, in the usual place of meeting, the new Wesleyan School Room, Grafton Street, to commence at eight o'clock precisely, when the public generally are invited to attend.

MECHANICS' INSTITUTE—Heath Haviland, Esq. will lecture, on Thursday evening. The subject is—*An outline of the early settlements of the English in North America.*

TO THE EDITOR OF HASZARD'S GAZETTE.

SIR,—The annual meeting of the Charlottetown Horticultural Society took place this day, (Tuesday,) in the lower room of the Temperance Hall; but was postponed until Tuesday next, at the same place, at *four* o'clock. His Excellency and Lady Bannerman, who have always evinced a desire to forward any developement of the resources of the Island attended, but there was so small an audience, and the alarm of fire taking place at the same time, it was considered better to postpone the election of officers till the day above named. Would it be taxing your kindness too much to ask of you to recommend some little attention to the furtherance of the views of a Society which has for its object, the increase and amelioration of the fruits, flowers, and vegetables of a country which is so eminently qualified from soil and climate, to raise all of the best kinds, but which has, by many, been supposed to be inferior to the surrounding Colonies, a supposition which the last Autumnal exhibition has completely proved to be founded in error. It will gratify you to know that the report of the Committee is highly favourable, both as respects funds and otherwise.

I am Sir, your obedt. servt.

JOHN LAWSON, Sec'y.

Astonishing efficacy of the Oxygenated Bitters,

IN A CASE OF EIGHTEEN YEARS' STANDING.

From Fitchburg Homer, Esq., of Boston, Mass.

Boston, September 28, 1848.

DEAR SIR—It is now eighteen years since I was first troubled with the water-brash and derangement of the stomach. I have taken advice of the best Physicians in this city and New York, in London, Paris, Germany, and Italy, followed their prescriptions, and visited the several sulphur and other springs in this country, the watering places of Germany, and elsewhere in Europe, and had found no relief. Since taking the Bitters I have never had a return of the Water-brash, which daily troubled me of late years to a very great degree. My appetite has returned; the extreme flatulence, severe constipation of the bowels, general debility, and sleepless nights under which I suffered, have entirely left me. Having found so great relief from this most discouraging disorder. I have recommended a trial of your medicine to many of my friends, who are now using it to great advantage. And I cannot refrain from writing to you in its favour and praise, for the good you have bestowed upon the community; and trust that what little is in my scope to offer in extending the circulation of your "Oxygenated Bitters," will be done with grateful pleasure at all times.

Yours very respectfully,

FITZHENRY HOMER.

EMIGRATION TO AUSTRALIA!
Shares in the Emigrating Company of P. E. Island.

THE Committee of Management of the "Emigrating Company of Prince Edward Island," having, in accordance with the power and authority vested in them, concluded an agreement with an able and experienced Ship-builder, (Mr. Francis Auld of Rustico,) in virtue of which Agreement he is bound to build, for the said Company, a good, substantial, and sufficient vessel, of about 200 tons burthen, to be launched on, or before the 1st September, 1853, and which vessel, it is calculated, will be ready to sail from P. E. Island, for a Port in Australia, on or before the 1st OCTOBER, 1853; and all the SHARES in the said Company not having yet been subscribed for, or taken up, Do hereby give notice, that *Copies of the Articles of Agreement* are left with Mr. STEPHEN BOYER, of Charlottetown, Mr. WM. MCKAY, of Cavendish, and Mr. O. CURTIS, of Curtisdale, who will, each, afford all necessary information concerning the objects of the said Company; and who have power, individually, to dispose of Shares in the said Company, to a certain limited extent, to such individuals as may apply for them, and are, at the same time, prepared to comply with, and abide by, the Rules and Articles of the said Company.

N. B.—It is expected that all who may wish to take any part of the unappropriated SHARES, will perceive the propriety of securing them without delay; for the sooner the Subscription List of the Company shall be filled up, the sooner will it be practicable to expedite and complete all the arrangements necessary to ensure the departure of the Company's Vessel from P. E. Island at the appointed time in the Fall.

PROSPECTUS
OF THE
Charlottetown Gas Company.

PROVISIONAL COMMITTEE:

Hon. DANIEL BRENAN, Chairman;

Hon. Charles Young,	Hon. W. W. Lord,
Hon. Charles Hensley,	Hon. Joseph Pope,
Francis Longworth, Esq.,	James Walkinshaw, Esq.,
Mr. James Anderson,	Henry Haszard, Esq.,
Hon. George Birnie,	Mr. George Beer,
James D. Hazzard, Esq.,	George DeBlois, Esq.

THE superiority and advantages of Gas over every other method yet discovered for lighting Towns are so self-evident and so universally acknowledged, that it would be superfluous to dilate on the subject; and it is only surprising that, while every Town and considerable Village in Great Britain, as also many Towns in the neighbouring Provinces, are lighted by Gas, this, the Capital of Prince Edward Island, should be still in darkness.

To supply this desideratum, it is now proposed to form a Joint Stock Company—to be Incorporated by an Act of the Legislature—with a subscribed Capital of £6000, in 1200 Shares, of £5 each, to be managed by a body of Directors, annually chosen by the Shareholders.

As many of the inhabitants of Charlottetown may be comparatively unacquainted with the practical results of Gas Companies, it may be proper to observe, that a Joint Stock Company for the purpose of lighting the Town with Gas, can hardly be called a *speculation*; because it is now ascertained, by reference to the annual Reports and Dividends of the Gas Companies of Great Britain, and some of the neighbouring Colonies, that wherever they have been managed with ordinary prudence and economy, they have yielded a certain and steady return of annual interest on the capital invested.

Previous to bringing the scheme before the public, the Provisional Committee had been in correspondence with competent parties, both in the neighboring Provinces and in Great Britain, and from the information thus obtained, and the estimates they have received, they are of opinion that the Land, Buildings, Apparatus, Machinery and Pipes requisite to enable the Company to go fully into operation, may be acquired and completed for and with the proposed capital.

To enable the Company to commence operations at once, and on the most advantageous terms, it has been resolved that a deposit of £1 5s. per share be paid on the allocation of shares, and that no further call be made, till the Act of Incorporation be obtained; and that such further calls shall be payable by such instalments, and at such intervals, as the Directors may judge most convenient for the Shareholders and the requirements of the Company.

Although certain spirited individuals were prepared to subscribe the whole of the requisite Capital, it is deemed but fair to give the public an opportunity of participating in the advantages of the undertaking; and for this purpose the Subscription List will remain open at the Office of Mr. LAWSON, Interim Secretary to the Committee,—more than one-half of the Shares being already subscribed.

JOHN LAWSON, In. Secretary.

In addition to its greater economy, Gas Light may also be pronounced safer than any other ordinary Light. It produces no sparks—it cannot be carelessly placed in contact with bed curtains, or substances easily ignited, and it requires scarcely any attention. It may be turned down in an instant to the most minute speck of flame, ready to be restored to full brilliancy when necessary, by the simple turning of the stop cock; and even when it escapes by the carelessness of an attendant, or a defect in the fittings, it at once indicates the accident to the whole household, by the disagreeable smell which it occasions.

From the large quantity which must be mixed with atmospheric air before it becomes explosive, it is scarcely possible that this accident should occur, in any ordinary apartment, even if the Gas were allowed to escape for the purpose. And as its smell so instantly indicates its presence in cellars, or other confined situations, where it may have escaped in quantity from the accidental breaking, or leakage of a pipe, it is only by the greatest carelessness, or ignorance, that a light will be approached to it, before it has been allowed to escape by the free admission of air. There is no such thing as the bursting of a pipe, or the blowing up of a Gasometer.

RELATIVE EXPENSE.—The relative cost of Gas has been generally considered not to exceed one-third to one-half the cost of tallow candles.

HOLLOWAY'S OINTMENT.

A CRIPPLE SETS ASIDE HIS CRUTCHES AFTER TEN YEARS SUFFERING.

Copy of a Letter from Mr. Thompson, Chemist, Liverpool, dated August 20, 1852.

To Professor HOLLOWAY,

DEAR SIR—I am enabled to furnish you with a most extraordinary cure effected by your invaluable Ointment and Pills which has astonished every person acquainted with the sufferer. About 10 years ago, Mr. W. Cummins, of Saltney Street, in this town, was thrown from his horse, whereby he received very serious injuries; he had the best medical advice at the time, and was afterwards an inmate of different infirmaries, yet he grew worse, and at length a malignant running ulcer settled in his hip, which so completely crippled him, that he could not move without crutches for nearly 10 years; recently he began to use your Ointment and Pills, which have now healed the wound, strengthened his limb, and enabled him to dispense with his crutches, so that he can walk with the greatest ease, and with renewed health and vigor. (Signed) J. THOMPSON.

A MOST EXTRAORDINARY CURE OF A DREADFUL SKIN DISEASE, WHEN ALL MEDICAL AID HAD FAILED.

Copy of a Letter from Mr. Hird, Draper, of Keady, near Gainsbro', dated March 1st, 1852.

To Professor HOLLOWAY,

SIR—Some time since, one of my children was afflicted with dreadful eruptions over the body and limbs. I obtained the advice of several eminent Surgeons and Physicians, by all of whom the case was considered hopeless. At length I tried your Ointment and Pills, and without exaggeration, the effect was miraculous, for by persevering in their use, all the eruptions quickly disappeared, and the child was restored to perfect health.

I previously lost a child from a similar complaint, and I firmly believe, had I in her case adopted your medicines, she would have been saved also. I shall be happy to testify the truth of this to any enquirer.

(Signed) J. HIRD, Draper.

ANOTHER SURPRISING CURE OF ULCERATED BAD LEGS, DEBILITY, AND GENERAL ILL HEALTH.

Copy of a Letter, from Mr. J. M. Clennell, of Newcastle-on-Tyne, dated September 30th, 1852.

To Professor HOLLOWAY,

DEAR SIR—I am authorised by Mrs. Gibbon, of 31, Bailey Street, in this town, to inform you, that for a considerable period she had been a sufferer from debility, and general ill health, accompanied by a disordered stomach, and great derangement of the system. In addition to this, she was terribly afflicted with ulcerated wounds, or running sores, in both her legs, so that she was totally incapable of doing her usual work. In this distressing condition she adopted the use of your Pills and Ointment, and she states that in a wonderful short time, they effected a perfect cure of her legs, and restored her constitution to health and strength; and that she is now enabled to walk about with ease and comfort. Several other persons in this neighbourhood have also received extraordinary benefit from the use of your invaluable medicines.

I remain dear Sir, yours faithfully,

(Signed) JOHN MORTON CLENNELL.

CERTAIN REMEDY FOR SCORBUTIC HUMOURS—AND AN ASTONISHING CURE OF AN OLD LADY SEVENTY YEARS OF AGE OF A BAD LEG.

Copy of a Letter from Messrs. Walker and Co., Chemists, Bath.

To Professor HOLLOWAY,

DEAR SIR—Among the numerous cures effected by the use of your valuable medicines in this neighbourhood, we may mention that of an old lady living in the Village of Preston, about five miles from this City. She had ulcerated wounds in her leg for many years, and latterly they increased to such an alarming extent as to defy all the usual remedies; her health rapidly giving way under the suffering she endured. In this distressing condition she had recourse to your Ointment and Pills, and by the assistance of her friends, was enabled to persevere in their use, until she received a perfect cure. We have ourselves been greatly astonished at the effect upon so old a person, she being above 70 years of age. We shall be happy to satisfy any enquiries as to the authenticity of this really wonderful case, either personally or by letter.

A private in the Bath Police Force, also, has been perfectly cured of an old scorbutic affection in the face, after all other means had failed. He states that it is entirely by the use of your Ointment, and speaks loudly in its praise. We remain, Dear Sir,

Your's faithfully,

(Signed) WALKER & Co.
