TWELVE INNINGS CONTEST

Torontos Won the First Game From Providence—The Second a Tie After Extra Innings.

NEWARK TRIMMED IN THE ELEVENTH

Buffalo and Jersey City Broke Even as Did Montreal and Worcester —The Record.

Torontos distinguished themselves on Friday at Providence, when they fought hard for a double-header. The first game was won by a single run, Bruce pitching Barrow's men to victory. In the second game both teams fought for 12 innings to decide the contest, which was finally declared a tie, neither team scoring. Briggs and eGorge Sullivan were the opposing pitchers, the Toronto man having slightly the better of the argument. "Toronto is winning its games by playing ball and not in bullying the umpire, as is the case with Stallings of Buffalo," says The Newark News, and this fact was demonstrated clearly in the two games, as the Canadians played magnificent ball in both contests. Aft the day's play will be almost a record, as 21 innings were played and only a single run was tallied. Newark played an eleven-innings game with Rochester, the latter finally winning out. Buffalo played their usual double-header with Jersey City, but could only break even, while Montreal at Worcester won and lost a game. The record:

Clubs.	Won.	Lost.	Pct.
Toronto	64	33	.659
Buffalo	65	40	.619
Worcester	55	46	.544
Providence	54	48	.529
Jersey City	54	53	.504
Rochester	44	55	.444
Montreal	43	62	.409
Newark	31	73	.298

Games to-day—Toronto at Providence, Montreal at Worcester, Buffalo at Jersey City Rochester at Newark.

Golf in Montreal.

C. R. Murray, professional of the Westmount Golf Club, Montreal, and formerly of the Toronto Hunt Golf Club, recently defeated Mr. Percy Taylor, who is admittedly the best amateur player in Montreal, and possibly in Canada, by two holes in an 18-hole match on the links of the Westmount Club. Later in the afternoon Mr. Taylor, in 18 holes more, succeeded in cutting one hole off Murray's lead.

A fairly large gallery, composed of members of both clubs, followed the players and saw some of the prettiest golf that has been played in Montreal this year. A strong wind was blowing across the course, but it did not materially affect the play. At the end of the first nine holes, Murray was one hole up. He added another hole to this the second round, and a third the third round. On the last nine holes, however, Mr. Taylor was able to gain two holes. As an evidence of the excellence of the play, it may be mentioned that the ninth hole, 490 yards, was twice halved in five, and that the fourth and fifth holes were taken in two each.

Rosedale Golf Club.

The final match in the Rosedale Golf Club handicap tournament was played on Wednesday. Out of 50 competitors the semi-finals brought together C. E. Robin (4) v. Frank Cochran (10) and George S. Lyon (scratch) v. R. S. Strath (2), Cochran winning from Robin and Lyon from Strath. In the deciding match, Lyon, allowing Cochran 10, won in an excellent round, which he, however, bettered on the following day in a four-ball match with Mr. A. E. Peterson against Messrs. Ritchie and Strath, curling a stroke off the amateur record of the links, made by D. W. Baxter in August of last year. The following is the score for the round:

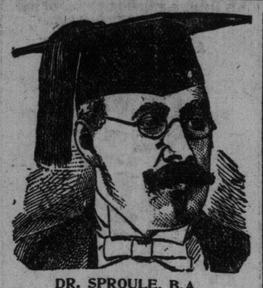
Dr. SPROULE ON CATARRH

The Gateway of Consumption.



DR. SPROULE, B.A.,
English Specialist in Catarrh and Chronic Diseases.

Twenty years ago Catarrh was comparatively unknown. Now no age, sex or condition is exempt from it, and no climate or locality is a cure for it. Catarrh is to be more dreaded than all the yellow fever, cholera, smallpox, diphtheria and all other epidemic diseases—as it is more fatal. It is in the large majority of cases the forerunner of consumption, and vital statistics show that deaths from consumption in this country have increased more than 200 per cent. in the last five years, nearly all of these cases having been traced back to catarrh as their starting point, and many physicians now contend that catarrh is only incipient consumption. I make the treatment of catarrh a specialty. I do cure catarrh. Catarrh has never been cured by nasal douches, washes or snuffs. Catarrh is a disease of the mucous membrane and is curable only through the blood, and by medicines peculiarly adapted to each particular case. Medicine that will cure one will not cure another.

It has been determined by microscopists that catarrh has as distinct a germ as any of the noted epidemical diseases, and again and again has it been shown that a patient had been treated for some other disease when catarrhal germs have been present.

A remedy for catarrh must be used constitutionally, and it must possess a direct affinity for the mucous membrane, and of being absorbed by the purulent mucus wherever located. It must be homogeneous and each individual case requires treatment adapted to its conditions. My treatment is based upon these plain theories, and has proved to be infallible. It not only relieves, but it cures catarrh at any stage speedily and surely.

CATARRH OF THE HEAD AND THROAT.

The most prevalent form of catarrh results from neglected colds.

1. Do you spit up slime?
2. Are your eyes watery?
3. Does your nose feel full?
4. Does your nose discharge?
5. Do you sneeze a good deal?
6. Do crusts form in the nose?
7. Do you have pain across the eyes?
8. Does your breath smell offensive?
9. Is your hearing beginning to fail?
10. Are you losing your sense of smell?
11. Do you hawk up phlegm in the morning?
12. Are there buzzing noises in your ears?
13. Do you have pains across the front of your forehead?
14. Do you feel dropping in back part of throat?

If you have some of the above symptoms your disease is catarrh of the head and throat.

DISEASES OF BRONCHIAL TUBES.

When catarrh of the head and throat is left unchecked it extends down the windpipe into the bronchial tubes, and in time attacks the lungs and develops into catarrhal consumption.

1. Do you take cold easily?
2. Is your breathing too quick?
3. Do you raise frothy material?
4. Is your voice hoarse and husky?
5. Have you a dry, hacking cough?
6. Do you feel worn out on rising?
7. Do you feel all stuffed up inside?
8. Are you gradually losing strength?
9. Have you a disgust for fatty food?
10. Have you a sense of weight on chest?
11. Have you a scratchy feeling in throat?
12. Do you cough worse night and morning?
13. Do you get short of breath when walking?

If you have some of these symptoms you have catarrh of the bronchial tubes.

If you have catarrh, answer the above questions, cut them out of the paper and send them to me, with any other information you may think would help me in forming a diagnosis, and I will answer your letter carefully, explaining your case thoroughly, and tell you what is necessary to do in order to get well.

DR. SPROULE, B.A. (formerly Surgeon British Royal Naval Service) English Catarrh Specialist, 7 to 13 Doane-street, Boston.

Jiminez Beat Rolling Boer.

Chicago, Aug. 22.—Interest in the racing at Hawthorne to-day centred in the second race, in which Argregor, Jiminez and Rolling Boer were entered. Rolling Boer went to the post an even-money favorite, but was beaten a scant neck by Jiminez, who led all the way. Argregor, who was played heavily by the public, was in poor condition, and finished eight lengths behind Rolling Boer. Fa Bradley's filly, Ahola, at 4 to 1, added another race to her credit, when she galloped home an easy winner in the second race over Au Revoir, the favorite.
