ICE! ICE!!

THE Subscriber possesses a Receipt to enable any person to make ICE, in any climate, with but little expense or trouble. The process is simple, and can be accomplished by the most limited understanding, so as to produce from even warm water, in the hottest climate, a pure ice, equal in every essential to that formed by natural causes. The luxury of always having at one's will, in the heat of summer, a pure and delicious ice, will readily be conceded; and its advantages, in cases of sickness, cannot be too greatly prized. By this same process warm water can be rendered delightfully cold in about five minutes, and ice creams, with many other luxuries, can be made in from ten to twenty minutes.

The following notice of this great discovery is taken from the *New York Sun*:—

ICE AT WILL LUXURY.—Dr. James R. Wilmington produces by an artificial process pure and solid ice from warm water, in the heat of summer, in less than half hour. And he can render a barrel of water as cold as ice itself in a very few minutes. The discovery must be of immense value to all living south."

THE—This Receipt, which contains full instructions for making ice and ice creams, cooling water, and numerous other useful matters, will be forwarded to order for Two DOLLARS, by addressing

DR. JAS. R. WILMINGTON,
122, Nassau Street, New York.

One Agent only will be appointed in each County, and those desiring the Agency must forward $50, for which they will receive 37 copies of the pamphlet, containing full instructions.

BUTCHART'S RESTORATIVE BALSAM.

THIS invaluable Medicine has been sixteen years before the public, and has invariably been attended with unparalleled success,—indeed it may be justly considered INFALLIBLE in the cure of Bloody Flux or Dysentery, and all looseness of the Bowels, in old or young. Its effects are palpable. Within a few minutes after a full dose has been taken complete relief is obtained. This Medicine is the invention of the late Doctor Butchart, Dundee, who, from long experience and extensive practice, has brought it to its present state of perfection in the cure of the above diseases. The ingredients of which this Medicine is composed are most salutary and beneficial to the human system. A single trial will satisfy any one as to the truth of this statement, and we can with the greatest confidence recommend it to the public as a sure and safe remedy.

To be had only of WM. LYMAN & Co., Montreal, and JOS. BOWLES, Quebec.

PRICES OF BOARD FOR THE SEASON OF 1851:—
FIVE SHILLINGS PER DAY, or FIVE POUNDS PER MONTH.
Caledonia Springs, 2nd June, 1851.

[EXTRACT of a letter from P. J. LORRIN, Esq., of Montreal.]

I beg to state that in July, 1840, I went to the Springs for the purpose of testing their efficacy in a case of the most violent Rheumatism, under which I had been suffering for several years previous. After remaining at the Springs for about three weeks, and making free use of the Waters, my limbs were entirely relieved from all pain, and my health greatly restored. Several of my friends, to whom I have recommended the Springs, assure me that they have experienced immediate relief from their use. I consider the Waters of the Caledonia Springs to be most efficacious in cases of Rheumatism.

To the proprietor of the Caledonia Springs.

MONTREAL, 4th June, 1851.

DEAR SIR,—In compliance with your request, I have much pleasure in giving you my opinion of the extraordinary efficacy of the Waters of the Caledonia Springs, so long and highly appreciated by the Public, based upon the observations of some twenty-five years' experience, and tested as they have been by a great many patients of mine and others, labouring under Rheumatic affections and the different forms of disease to which the human frame is liable, I consider them invaluable. Few persons, except those who have suffered from this dreadful malady, can justly appreciate their wonderful salutary effects. I have often seen persons martyrs to this disease, (myself for one during ten years,) which baffled all medical skill, both in England and on this Continent, resort to the Caledonia Springs walking on crutches, and others that could not walk at all, wrung out by protracted sufferings, and their general health disordered and broken down by confinement and want of exercise, return to their homes free from pain, leaving behind (with unspeakable joy) their crutches, and with health, strength, appetite, and activity perfectly restored. Striking as such results are, the curative action of these Waters, the intermittent and remittent fevers in particular, have been almost as efficacious in other diseases, such as Lepra, generally called *Soft Rheum*, and other affections of the skin; in a variety of Dyspeptic Complaints, Chronic Affections of the Liver and Kidneys; and I am sure that a great number of those cases that leave the Springs greatly benefitted, but not completely restored, would have been cured by a more extended use of the spa. That these Waters have acted in many diseases as a specific, seems to be generally admitted, and so much respectable testimony to this effect has already been laid before the Public that it is my more would be superfluous.

Member of Royal College of Surgeons, London.
To John L. Whitehead, Esq.,
Proprietor of the Caledonia Springs.

MONTREAL, 13th December, 1848.

DEAR SIR,—I have to state that I consider the use of the Caledonia Waters a very valuable curative agent in the treatment of many forms of disease. Circumstances enable me to grant you a favorable Certificate with more than usual propriety, many of my own Patients tested the efficacy, and derived great benefit from the use, of the Waters. Of all diseases that have come under my notice, in which a persevering use of the Baths and Waters promises the most beneficial results, Chronic Rheumatism ranks the first. Many of the cures so this disease have been truly astonishing. I met with a case just summer, where the individual, a delicate female, had been suffering severely for more than nine months; she had completely lost the use of her hands, and could only walk a few steps with great pain and difficulty. After a residence of six weeks at the springs, she returned free from pain, and strong enough to walk a considerable distance without fatigue. I have also found the Waters useful in Dyspeptic and Urinary Complaints, in Chlorosis, Secondary Syphilis, and some of the forms of Cutaneous Disease.

In conclusion, allow me to add, from a personal visit to your Establishment, that (independently of the arrangements during their Academical Course, or in other walks of life. Not to mention the attainment of various other College honors by many of them, from twelve to fifteen obtained fellowships at the University; among whom were Dr. Brasse, author of a Greek Grammar, &c., &c., Dr. Peacock, Dean of Ely, Archdeacon Thorpe and Musgrave, and the Archbishop of York.

THRASHING MACHINES.

LETTERS PATENT.

TIME AND LABOR SAVED IN MONEY EARNED.

THE subscribers having obtained the number the ensuing night, of manufacturing and selling to others to use within the territory of Upper and Lower Canada,

SEVERANCE'S CELEBRATED IMPROVED HORSE POWER & THRASHING MACHINE,

one of the most valuable thrift and labor saving Machines ever devised by human ingenuity, respectfully inform the public, that they have just completed a new and extensive Factory on Wellington Street, extending from Prince to George Street, which gives them above four double the accommodations they had in the old shops, which will hereafter, they trust, enable them to supply the whole morning community of the United Provinces with a machine that will thrash and clean more grain in a day, with less expense and with greater steadiness, than any other known invention, usually requiring two horses.

We beg leave to say to our customers and friends, that we are again prepared to furnish them in want of Thrashing Machines with an article superior even to those heretofore manufactured by us.

Our long experience in making, and the very liberal patronage we have enjoyed in the sale of our Machines, has, together with a constant determination to produce an article that will never fail to stand all others, caused us to watch carefully all the improvements that could be made from time to time, until now we feel confident in saying, that for durability, ease of work, and amount of it they can do, our Thrashing Machines are unequalled by any in use. And while the grain is thrashed clean, and none of it broken or wasted, it is, at the same time, perfectly cleaned, fit for the Mill or any Market.

All orders addressed to us, or our Agents, Wm. Johnson, will be promptly attended to.

Machines shipped to any part in Canada, and every one warranted to be as good as recommended.

Liberal terms of payment allowed.
B. P. PAIGE & CO.

Whereas, Letters Patent were obtained, bearing date March 5, 1849, on said Machine, the public are cautioned against purchasing, using, or manufacturing any imitation article, as all infringements will be dealt with according to the law of the land.

All genuine Machines will be accompanied by a Deed signed by B. P. PAIGE, the owner of the right, giving the purchaser the right to use or transfer the same. Without such a Deed, no person will be safe in purchasing or using and Machines.
B. P. PAIGE.

EDUCATION.

THE central position of Three Rivers in Eastern Canada, its quietude and healthfulness, and its possession of the advantages of ready communication with other parts of the Province by means of Telegraph, Stage and Steamboat, seem to point it out as a place well suited for the establishment of Seminaries for the education of youth.

The undersigned, a Graduate of Corpus College, Cambridge, who enjoyed the happiness and advantage of being one of the pupils of that distinguished scholar, and very admirable teacher, the late Rev. James Tate,* A. M., Master of the Grammar School of Richmond upon Swale, Yorkshire,—has been engaged for several years in the tuition of his own sons, and now proposes to undertake the instruction of a few additional pupils.

The charges, which are payable each Term in advance, are as follows:—

	Per Term.
Tuition for Boys under 12 years of age	£ 2 0 0
Do. do. above 12 do	2 10 0
Tuition, Board, &c., &c., for Boys under 12 years of age	9 0 0
Do. do. do. above 12	10 0 0

No extra standing charges.

Commencement of Terms: January 13, March 30, July 22, October 6.

Vacations: from December 22 to January 12, and from June 16 to July 21.

School Hours: from 7 to 8, A. M., 9 to 12, and 1 to 2, P. M.

Evening: Exercises and partial preparation for the next day.

Some additional time would be devoted to youths who may be desirous of studying the higher Classics, and the Rudiments of Mathematics, in preparation for a College or University Course.

For such pupils, ordinary charge per Term in full.....£12 10 0
Do. with single room..... 17 10 0

Rectory, Three Rivers, May 12, 1851. 364

* The Rev. James Tate, latterly Canon Residentiary of St. Paul's Cathedral, in addition to many other contributions to the cause of literature, was the author of Horatius Restitutus, of an Introduction to Greek Metres, and of a Continuous History of St. Paul, works all favorably known to men of letters.

One of a small number of pupils, compared with that which annually issues from the great public schools of England, a large proportion distinguished and advanced themselves during their Academical Course, or in other walks of life. Not to mention the attainment of various other College honors by many of them, from twelve to fifteen obtained fellowships at the University; among whom were Dr. Brasse, author of a Greek Grammar, &c., &c., Dr. Peacock, Dean of Ely, Archdeacon Thorpe and Musgrave, and the Archbishop of York.
