Chronic Biliousness

IN ITS TRAIL FOLLOW HORRIBLE DREAMS, DESPONDENCY, MELANCHOLY AND GENERAL WEAKNESS.

The proper elements needed to promote good digestion, regularity of the bowels, correct action of the kidneys and liver, must be supplied when a bilious condition of the system is once established.

Ferrozone can't help but do this. It gives the stomach perfect rest, and allows you to partake of and enjoy the variety of food that is necessary for maintaining health. One Ferrozone tablet taken after each meal will separate the nutritious portions of the food from the waste, which is carried off, thus preventing and curing constipation and its attendant evil, piles.

Being a potent blood purifier, Ferrozone cleanses the crimson flood of all bile and impurities, and as a result the complexion is restored to a rosy, healthy hue, and the dark circles under the eyes and the deathly pallor of the cheeks go away, never to return.

Taken for disorders of the stomach commencing with biliousness, and ending with derangements of the liver and kidneys, Ferrozone achieves marvelous results. It is at the same time a tonic and stimulant, and a regulator of all bodily functions, and chronic sufferers should not fail to give it a fair trial. It will do them good without doubt, and if the malady is curable it will yield to Ferrozone.

With the use of Ferrozone appetite will be better, the blood made rich and pure, sleep will be dreamless and sound. Your muddy complexion will be cleared and beautified, your eyes will acquire a new brightness, and as your spirits rise and good health returns you will bless the day you learned the secret of Ferrozone's power.

If you think you need Ferrozone go to the nearest drug store and procure a supply. Refuse a substitute and insist on having the genuine Ferrozone, which costs 50 cents per box, or three boxes for $1 25. By mail from N. C. Polson & Co., Kingston, Ont.

Dr. Edwin Seaborne, brother of the bride, was groomsman, and Mr. Will Pope, Mr. George Sippl, Mr. Vivian Seaborne and Dr. Pardee Bucke were ushers.

The ceremony was performed by the Rev. William Seaborne, father of the bride.

Burford, Ont., Sept. 4.—The Barker Lumber Company's mill here was totally destroyed by fire this morning, together with large quantity of lumber. Loss probably $8,000. No insurance.

FORTS TO BE DEMOLISHED

Those at Posen Cost Millions —Never Fired a Gun.

Will Be Replaced by a Ring of 31 Forts, Out From City.

Posen, Prussian Poland, Sept. 3. — The Emperor and Empress reviewed the troops today following the presentation of new colors to the regiments by the Emperor. The police arrangements for keeping the ground clear were very stringent.

The great fortifications that made Posen a generation ago one of the most impregnable strongholds in Europe and second only to Metz in Germany, and which have been ordered by the Emperor to be demolished, as his majesty announced to the burgomaster yesterday in his reply to that official's address, consist of twelve miles of huge earth and masonry ramparts. They were begun in 1828 and were never really finished, because they were continually modified as the art of defense and offense developed. About $50,000,000 has been spent on these fortifications, first and last, and yet a gun was never fired at them, for the place was never beleaguered. The mere work of demolition will cost several more millions, of which the municipality will gladly pay its share.

Although the population of the city, about 115,000, will spread a mile or two in every direction beyond the walls, no brick or stone buildings can be permitted within a half a mile zone, so that no enemy may be able to find cover. The natural growth of the city is thus suffocated. Inhabitants of Posen petitioned Emperor William to cancel the military decree establishing the fortifications and he chose the time of his visit to do so.

The old fortifications will be replaced by a ring of 31 forts well beyond the city limits. This, strategically, is the great fortress looking toward Russia, and it will not by any means be weakened. The defense will simply be modernized. A real estate agent who had lived twelve years in Kansas is already advertising town lots for sale in the old fire zone.

Personal property of incorporated companies to be assessed in same manner as that of individuals. 6. Board of registrars to define polling subdivisions, for Ontario elections; all voters to be registered, and all expenses of such registrations and elections to be borne by the province. 10. Power to appeal from magistrate's decision dismissing complaint for breach of bylaw. 11. Government control over telephone rates. 12. Compulsory arbitration for corporations and employes operating public franchises. 13. Motion of which notice was given to limit the number of aldermen to one for each 1,000 in municipalities of 10,000, where election is by general vote. 14. Any other matters which delegates present may desire to bring before the association.

FRUIT FROM LEAMINGTON

Heavy Shipments Are Being Received Daily.

Dr. W. A. Piper's Peach Crop—What Careful Management Will Do.

Every express train now arriving in this city from the celebarated peach territory around Leamington is loaded with the luscious fruit, and the demand for the peach from the lake shore is becoming heavier every year. The L. E. and D. R. trains are taxed for space, and extra cars are being added to the trains for accommodation. Many of the fruit farms in the Leamington district have at times suffered through the various elements, such as frost, storms, hail and unseasonable weather. The past year has been a very satisfactory one, and many of the fruit farms this year are yielding their first fruit, and if no injury occurs the season of 1905 will be far greater than the present one. One of the best farms in the Leamington district is owned by Dr. W. A. Piper, of this city. While a resident of Leamington Dr. Piper made a practical study of peach-growing, and although his farm has suffered by frosts, the present yield is the most satisfactory of any year. Since moving to London the farm has been under the supervision of Mr. William Copeland, one of the most experienced peach growers and managers of the country. The farm is an example of what careful management will do. From the commencement of the peach bloom until the crop is picked the trees receive his personal attendance, and it is stated that to his care and management the Piper peach farm is one of the best in the district. Almost the entire crop is shipped to this city, Messrs. T. A. Rowat & Co. receiving a daily shipment.

THE PRESIDENT'S NARROW ESCAPE

Street Car Men May Have to Face Manslaughter Charge.

OFFICER CRAIG'S GOOD RECORD

President Going South on Friday—Many Congratulations on His Safety.

Oyster Bay, N. Y., Sept. 4.—Dr. Lung, President Roosevelt's physician, this morning said that he anticipated no serious results to the President from yesterday's accident. The President will leave here tomorrow on the Sylph preparatory to starting from Washington on his short southern trip. He will leave Washington at 7:30 p. m. tomorrow on a special train for Chattanooga, where he will attend the annual convention of the Brotherhood of Locomotive Firemen on Monday.

DRIVER PLATT.

Pittsfield, Mass., Sept. 3. — A dispatch says that the driver of President Roosevelt's carriage, D. J. Pratt, was very badly hurt, and it was reported that he had died. His body was taken into the Stevens House, and it was found that Pratt was unconscious, but not dead. A few minutes later an ambulance from the Pittsfield hospital arrived, and he was delivered to that institution.

The crowd became greatly excited, and pouring into the street surrounded the wrecked carriage and the car, shouting at the motorman and conductor and creating a great disturbance. Almost immediately persons began snatching away the fragments of the carriage in which the President had ridden. Only by their utmost efforts, a force of police, which had been quickly summoned, prevented the entire demolition of the vehicle by souvenir hunters.

A FAITHFUL OFFICER.

Washington, D. C., Sept. 3. — William Craig, the secret service officer who lost his life in the accident which overtook the presidential party, was considered one of the best officers in the service. Since last October he had been stationed at the White House and had accompanied President Roosevelt on all of his journeys out of Washington. During the President's vacation at Oyster Bay, he had charge of the secret service detectives stationed there. He faithfully carried out his instructions in this capacity, keeping near the President night and day. When the President was traveling, Craig always was in his immediate vicinity, in moving through different towns and cities. Craig was 48 years old and was a noted athlete.

BRITISH SYMPATHY.

London, Sept. 4. — The escape of President Roosevelt has universally called out in the London dailies congratulatory and eulogistic editorials and unanimous expressions of England's thunkfulness that the President was spared to his country.

Emperor William at Posen expressed great regret upon hearing of the occurrence, but said he was glad to know that President Roosevelt had been only slightly injured.

GLOOM IN STRIKE REGION

Results From President Baers Latest Declaration.

Anthracite Shipments Last Week Smallest Since Strike Started.

Wilkesbarre, Pa., Sept. 4.—President Baer's declaration that the miners' strike cannot be settled except on the terms heretofore stated by the coal companies has cast a gloom over the entire strike region.

At strike headquarters President Mitchell discussed Mr. Baer's statement with some of his lieutenants, but he declined to say anything for publication. Mr. Mitchell denied the report that he had received a communication from J. Pierpont Morgan asking him to state the best terms upon which he would settle the strike.

Philadelphia, Sept. 4.—While the Pennsylvania Railroad is still transporting weekly thousands of tons of bituminous coal and coke originating on the lines east of Pittsburg and Erie, its anthracite shipment for the week ending Aug. 30, of 513 tons, was the smallest since the strike was inaugurated.

Flying Signals of Distress.

Newport, R. I., Sept. 3.—Word was received here tonight that the cruiser Brooklyn, flagship of Rear Admiral Coghlan, on leaving New Bedford this afternoon, after the attack, ran into a rock not far from Dumpling lighthouse. She came off after a while, but it is thought she is injured.

The Advertiser's New Saturday Serial Story.

The Advertiser has made arrangements with the publishers, whereby it has obtained, at considerable expense, the serial rights for Canada of Mary Hartwell Catherwood's stirring romance, "Lazarre." The story will be published each Saturday, and the first installment will appear in the issue of Saturday next, Sept. 6.

"Lazarre" ranks among the comparatively few successful books of the year. Reports from the chief literary centers of the continent indicate that there is little diminution in the demand for this extraordinary story. Like "Trilby," "The Seats of the Mighty," and other books which have enjoyed a phenomenal run of popularity, "Lazarre" had taken the great reading public by storm almost before the ink was dry. It is an exquisite love story into which a tender vein of pathos is woven. It is the story of two noble characters—Lazarre and the woman he loved. Every line throbs with human interest. The New York Commercial-Advertiser, a journal always most conservative in the expression of its opinions, says of it: "We feel justified in predicting a widespread and prolonged popularity for this latest comer in the ranks of romantic fiction."

"Lazarre" will be published only in the Saturday editions of The Advertiser, but in such generous installments that readers will be able to follow the story closely. The opening chapters will appear next Saturday.
