MIRAMICHI ADVANCE.

VOL. 14—No. 33. CHATHAM NEW BRUNSWICK, JUNE 14, 1888.

D G. SMITH, EDITOR & PROPRIETOR.
TERMS—$1,50 a Year, in Advance

BUSINESS NOTICE.

The "MIRAMICHI ADVANCE" is published at Chatham, Miramichi, N. B. every THURSDAY morning in time for despatch by the earliest mails of that day.

It is sent to any address in Canada, the United States or Great Britain (Postage prepaid by the Publisher) at the following rates:

One year, in advance $1.50
If not paid until after 6 months $2.00

Advertisements are placed under classified headings.

Advertisements, other than yearly or by the season are inserted at ten cents per line nonpareil, (or sixty cents per inch) for 1st insertion, and five cents per line (or twenty cents per inch) for each continuation.

Yearly or season advertisements are taken at the rate of $5 75 an inch per year. The matter, if space secured by the year, or season, MAY be changed under arrangement made therefor with the publisher.

The "MIRAMICHI ADVANCE" having its large circulation distributed principally in the Counties of Kent, Northumberland, Gloucester and Restigouche (New Brunswick), and in Bonaventure and Gaspe, Quebec, among communities engaged in Lumbering, Fishing and Agricultural pursuits, offers superior inducements to advertisers. Address,

Editor Miramichi Advance, Chatham, N. B.

Miramichi Advance,

CHATHAM, N. B. - - JUNE 14, 1888

Wood Fiber for Paper.

The extent of the manufacture of ground and chemical wood fiber for paper makers' use is not appreciated by those who have not investigated this industry. Certainly the Democratic members of the ways and means committee who have put this manufactured product on the free list, in the face of the fact that the duty now is only 10 per cent—less than it ought to be to protect the industry from Canadian and Norwegian competition—could not have fully understood the justice of such a step.

From a statement presented to the House by Congressman Dingley, it appears that wood fiber is manufactured in 21 States. The capital employed is about $20,000,000, number of men employed 22,000, tons of fiber made 225,000 ground wood and 112,500 chemical wood, value $12,375,000, cost of wood on the stump $1,235,000, and the remainder of the cost largely labor.

In Maine alone there are 84,000 pounds of ground fiber made daily. The ground wood fiber is made as follows:—

Androscoggin Pulp Co., Brunswick	10,000
Industrial Fiber Co., North Gorham	12,000
Alvin Record & Sons, Livermore Falls	10,000
W. R. Sharpleff & Co., Skowhegan	4,000
J. S. Clapp, Snow Falls	4,000
Sebago Co., South Windham	18,000
Kennebec Fiber Co., Waterville	20,000
Total ..... Pounds,	84,000

The daily production of chemical wood fiber in Maine is as follows:

Poland Pulp and Paper Co., Canton	20,000
Somerset Fiber Co., Fairfield	20,000
Penobscot Chemical Fiber Co., West Great Works	40,000
Lincoln Pulp and Paper Co., Lincoln	14,000
S. D. Warren & Co., Cumberland	40,000
S. D. Warren & Co., Farmouthville	40,000
Poland Pulp and Paper Co., Mechanic Falls	14,000
Total ..... Pounds,	188,000

The production and use of mechanical wood fiber began about 1868, and within a few years has rapidly increased. All the patents have expired except those on a recent process known as sulphite. The fiber has been greatly reduced in value ground wood now bringing only 1½ cents per pound, and chemical 3½ cents. The cost of paper has been reduced from nine cents before the war to about 4½ cents, in consequence of the development of the manufacture of wood fiber.

Before 1883, the duty on imported wood fiber, which is made in Canada, Norway, Sweden, and Finland, as well as in this country, was 20 per cent. In 1883 the duty was reduced to 10 per cent., and since that date foreign competition has increased. In 1886 there were imported 18,000 tons, in 1887 the importations were 32,000 tons, and this year about 53,000 tons will be imported. If wood fiber should be placed on the free list, as proposed by the Mills bill, our wood pulp mills would be speedily swamped by Canadian and Norwegian competition, as the labor costs only half as much in those countries.—*Lewiston Journal.*

Gold in Sea Water.

One of the vessels which arrived in this week has a bar of iron on board which weighs five or six pounds, which was towed astern five or six weeks at sea as an experiment to test the statement that gold exists in sea water. The bar was cleaned and polished when it was placed in the wake of the vessel, but when taken on board it was literally covered with a film of silver, copper and gold precipitated on it. This is a fact corroborated by scientific investigation. Late research has shown that gold exists in appreciable quantities in the waters of the ocean. A ton of sea water yields by a simple process a grain of gold, so that the total quantity held in solution must be vastly greater than all the gold ever yet extracted from the earth. Copper and silver are, however, found in larger quantities than gold. Silver is found in combination with the old and worn copperings of ships to such an extent as to make it worth while to extract it. It has been computed from some analyses of such copper, compared with the total distance run through by the ship and the time of its remaining attached, that at least 2,000,000 tons of silver are thus held in solution in the whole ocean.—*Astoria Pioneer.*

Plucky, able Mr. Gibson.

(From the Montreal Trade Bulletin.)

"Mr. Gibson has been running the cotton combine so hard that it has been forced to give the St Croix mills *carte blanche* to meet him on his own grounds, but as those grounds extend from the Maritime Provinces to London, Ont., it is feared that this action is going to play havoc with the combine proper. The St. Croix mills have received permission to compete with Mr. Gibson as they see fit by selling at their own prices regardless of monopoly regulations. A fight may commence that will knock the combine into "smithereens." The public, however, should not lose sight of the fact that they owe a debt of gratitude to Mr. Gibson, who so pluckily withstood the action of the combine.

Fly-Casting.

The annual Fly-casting Tournament at Harlem Mere in Central Park, New York, began on the morning of the 23rd ult., under favorable conditions of wind and weather, there being comparatively little of the former and none of the latter worth mentioning—a cloud-clad sky with an occasional "spit" of rain, an unruffled water surface and a soft spring air, neither too warm nor too cold, forming a combination to which no objection could be made even by the most captious. Two "records" were badly broken Mr. Hawes in the salmon fly-casting class scoring 138 feet as against R. C Leonard's record of last year of 132 feet, and in the single-handed fly-casting, "expert class," Mr. R. C. Leonard scoring 102½ feet as against his own record of last year of 97 feet. This latter cast also beats the best record ever made in single-handed casting, including the 102 feet seventeen inch cast made by Mr. Hawes in 1887.—*Ex.*

Looking to New Brunswick for Sport.

One of the vice presidents of one of the fishing clubs at Albany, New York, is inquiring for fishing chances in New Brunswick. He says that he has fished on the St. Lawrence for some years past, but wishes now to try one of the rivers of New Brunswick, of which he has received most favorable accounts.

In a private letter to one of our citizens, the editor of Forest and Stream says that he is overwhelmed with inquiries respecting the fishing grounds of New Brunswick

GENERAL NOTES AND NEWS

If your child is suffering from worms, we would recommend you to give at once Dr. McLean's Vegetable Worm Syrup, it is not only a safe and effectual remedy, but an exceedingly pleasant one.

The new C. P. R. bonds are now quoted at four per cent. premium.

Be on Your Guard

Against sudden Colds, irritating Coughs and Soreness of the Throat. Keep Hagyard's Pectoral Balsam at hand for these prevalent troubles of Winter and Spring. It is the best safeguard.

It is stated that England has signed the modified Suez Canal convention.

BAIRD'S FRENCH OINTMENT cures Itching of the Scalp, or any Eruptions thereon, it stimulates the growth of the Hair, a small quantity applied to the heads of children keep them in a clean and healthy condition.

The clause adding salt to the free list was passed through committee in the United States House of Representatives last Friday.

How it Works.

The mode of operating of Burdock Blood Bitters is that it works at one and the same time upon the Stomach, Liver, Bowls and Blood, to cleanse, regulate and strengthen. Hence its almost universal value in chronic complaints.

Father is Getting Well.

My daughters say:
"How much better Father is since he used Hop Bitters."
"He is getting well after his long suffering from a disease declared incurable."
And we are so glad that he used your Bitters."—A LADY of Utica, N. Y.

The Colonial Under-Secretary of State declined in the Commons on Friday last, to institute an inquiry into the rights of the Hudson Bay Company on the Labrador coast.

The Deaf Hear.

After eight years suffering from Deafness, so bad that I was unable to attend to my business, I was cured by the use of Hagyard's Yellow Oil. With gratitude I make this known for the benefit of others afflicted. Harry Ricardo, Toronto, Ont.

A Good Offer

is made by the proprietors of Hagyard's Yellow Oil, who have long offered to refund every cent expended for that remedy if it fails to give satisfaction on fair trial for Rheumatism, Neuralgia, Sore Throat and all painful complaints for which it is recommended.

Lord Stanley, the new Governor General, arrived at Ottawa on Sunday, and will be sworn in to-day.

United Power.

Burdock Blood Bitters unites in one combination remarkable powers as a tonic, blood-purifying, system-regulating and cleansing medicine. It has no equal in its power of curing all Diseases of the Stomach, Liver, Kidneys, Bowels and Blood.

Perfect Health

Can only be attained by carefully attending to the laws of nature as expressed in the wants of the system. To do this successfully requires the use of Burdock Blood Bitters occasionally, to secure the regulating and strengthening effect of this splendid medicine.

Doull & Miller, Halifax, are about to dissolve, after 40 years' partnership. It is reported that Mr. Miller is to continue the dry goods department, and will open a branch in St. John.

Did She Die.

"No!
"She lingered and suffered long, pining away all the time for years."
"The doctors doing her no good;"
"And at last was cured by this Hop Bitters the papers say so much about."
"Indeed! Indeed!"
"How thankful we should be for that medicine."

For Delicate, Sickly Children

Scott's Emulsion is unequalled. See what Dr. C. A. Black, of Amherst, N. S., says: "I have been acquainted with Scott's Emulsion of Cod Liver Oil, with hypophosphites, for years, and consider it one of the finest preparations now before the public. Its pleasant flavor makes it the great favorite for children, and I do highly recommend it for all wasting diseases of children and adults. Put up in 50c. and $1 size.

At Saturday's session of the Niagara Methodist conference, Rev. John Stonehouse, of Adelaide, Scott Act informer, whose name figured so prominently recently as being accused of blackmailing hotel keepers, was deposed from the ministry and expelled from the church.

A Daughter's Misery.

"Eleven years our daughter suffered on a bed of misery."
From a complication of the kidney, liver, rheumatic trouble and Nervous debility.
Under the care of the best physicians,
Who gave her disease various names,
"But no relief",
And now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had shunned for years before using it."—THE PARENTS.

Tin, Copper and
SHEET IRON WORK
The subscriber, having been absent from Chatham for a few years, has returned, and taken the Fitzpatrick building, opposite the Golden Ball, where he will carry on his business as a
Tin, Copper and Sheet Iron Worker,
and do a general jobbing business All who patronize him may depend upon getting their work done punctually, in the best manner and on reasonable terms A few creamers on hand are offered at $1 each—a first class article
The subscriber will make Tin gutter and drop-spouts at the rate of 10 cents per foot. If galvanized iron is required it will cost 15 cents per foot, ready for putting up.
Parties wanting their ovens lined can have them done at my shop while they are waiting for them.
JOHN DUFF,
Chatham, May 5, 1888
