YOUNG MEN who contemplate engaging in business pursuits should be thoroughly and practically educated. The advantage of this cannot be over estimated. It has been demonstrated by long observation, that the young man who spends six months or a year in the BRITISH AMERICAN Business College, will have saved more money, say at the end of three years, than he could have had he been clerking all the time Besides, he has that thorough training which is indispensable to the successful business man. Students may enter the school at any time. Address THE SECRETARY.
