Miramichi and the North Shore, etc.

S. MARY'S AND S. PAUL'S :—There will be the usual services in S. Paul's and S. Mary's churches on Sunday next.

WANTED—Old postage stamps used before 1870, worth most on the envelope, good prices paid; address W. A. Kain, 116 and 120 Germain St., St. John, N. B. *9-22.

KINDERGARTEN :—Miss Swanson of Newcastle, N. B., a graduate of the Normal school, kindergarten department, is making an effort to start a kindergarten in New Glasgow.—Enterprise.

ST. PETER'S, DERBY :—The Rev. A. I. A. Gollmer, Rector of Cambridge, will preach (D.V.) in Saint Peter's church, Derby, on Sunday, Oct. 2nd, at 11 a.m. and 7 p. m. All are cordially invited to attend.

MR. WYSE RESIGNS :—His Honor, the Lieutenant Governor has been pleased to accept the resignation of William Wyse, as chairman of the Local Board of Health for the town of Chatham, in the county of Northumberland.

FIVE KILLED :—By a collision on the Picton Branch railway yesterday morning between a special passenger train for the Halifax Exhibition, and the regular coal train, the engineers and firemen on both trains and a passenger were killed and a number of others injured.

BONUS TO A SHOE COMPANY :—The plebiscite of Fredericton, taken on the 19th inst., on the question of granting the new shoe company a bonus of ten thousand dollars, and tax and water exemption, was carried. Of 662 ballots cast only forty were marked no. The company will be organized at once and the building be erected this year.

NOON DAY BELL :—Beginning to-morrow, the Chatham Town Hall bell will daily, hereafter, strike the hour of twelve o'clock, solar time. It will be satisfactory to the local public that this arrangement is made, as it will, no doubt, tend to correct some of the anomalies in time-keeping which are characteristic of the Miramichi.

DIED IN ENGLAND :—The sudden death of Richard Fairey, of rapid consumption, will be heard with surprise by his many friends in the province. Deceased, who leaves a widow and five children, was engaged in the lumber business in London, Eng., and was formerly in the employ of Guy, Bevan & Co. Mrs. J. A. Killam of this city is a sister of deceased.—Moncton Times.

PERSONAL:— Rev. William Lawson of Richibucto, occupied the pulpit in St. Luke's Church on Sunday last, in the absence of Rev. Geo. M. Young who was at Richibucto preaching the educational sermons there.

Rev. D. Henderson, of St. Andrew's, left yesterday morning for Pictou, N.S. where he dispenses communion to his former congregation on Sabbath first. He will be present at Synod of his church, which meets in Halifax next week. We wish the rev. gentleman a pleasant trip.

GREAT INGENUITY and enterprise have been shown during the last year or two in providing practical courses of study for business college students. The latest systems endeavor, with varying degrees of success, to give the student just the same kind of work that is performed in the most up to date business office. Messrs. Kerr & Son have secured for exclusive use in the Saint John Business College the latest and best of these systems, and their students will by it be drilled in every detail and routine of the most modern business office Every kind of paper in common use, from the way bill to the coupon bond, will be handled by the student, and he will graduate proficient in just the work that will be required of him when he begins office work. This system, in addition to their former work, and the Isaac Pitman shorthand, will give Messrs. Kerr & Son stronger claims than ever on public favor. [Sun, Sept. 10.

Wedding Bells.

MR. EDITOR :—St. Michael's pro-cathedral was the scene of a very pretty wedding on Thursday morning at 7 o'clock, the contracting parties being Mr. James J. Whitty and Miss Mary A. O'Reilly, daughter of the late Peter O'Reilly and adopted daughter of R. Flanagan, Esq., merchant, of Chatham. The nuptial Mass was celebrated by the Rev. Father Joyner, P.P. The bride was assisted by her sister, Miss Josephine O'Reilly, while Mr. Thomas Whitty, brother of the groom, acted as groomsman. The bride looked charming in a suit of cream cashmere, with honeycomb silk trimming and lace, with white silk velvet hat trimmed with cream ribbon and white plumes, and carrying a bouquet of cream asters. The bridesmaid wore a very pretty suit of cream serge, with green trimmings, hat to match, carrying a handsome bouquet of cream asters and green sprays. Miss Maggie Synott ably presided at the organ, and the beautiful strains of the wedding march burst forth as they left the altar. The party drove to the residence of Mr. Bryan Moran, uncle of the bride, where a number of friends had assembled. Congratulations were then extended to Mr. and Mrs. Whitty and a bumptious breakfast was served. The party then drove to the Hotel Dieu to pay a visit to Sister O'Reilly, sister of the bride; then to Ald. R. Flanagan's, where they partook of a wedding dinner. The afternoon was spent in congratulations and music. They then repaired to the residence of Mr. Thomas Whitty, father of the groom, where an elaborate wedding supper was served. The Rev. Father Joyner graced the occasion by his presence. About seventy guests attended. Music and games combined to make the evening one of the most enjoyable in the experience of those present. The number of costly and useful presents made showed the high esteem in which the bride and groom are held. Mr. Whitty is a member of Branch No. 202 of the C.M.B.A.

Kirmess and Delsarte Entertainment.

The entertainment given in Masonic Hall on Tuesday evening under the management of Miss Aimee Cecil Jones was a very interesting and attractive one. The prevailing rain no doubt deterred many from attending, but notwithstanding this drawback there was a large audience. The programme consisted of spectacular effects, in which various movements were executed by young ladies, gentlemen and misses in rich and appropriate costumes, interspersed with vocal and instrumental music, allegorical grouping, emotional representations etc. The names of those who assisted Miss Jones were as follows :—

Misses Laura Snowball, Nora Benson, Helen DesBrisay, May DesBrisay, Bertie MacDonald, Alice Lawlor, Maude Lounsbury, Nellie Goggin, Irene Harris, Addie Johnson, Linda Pallen, Mabel Gould, Norma Smith, Marguerite Flanagan, Olive Stothart, Vera Wilson, Francis Benson, Helen Mackenzie, Helen Loggie, Gladys Purdy, Florence Noonan, Dearie Winslow, Annie Lawlor, Elsie Gunn, Gracie Morrison, Annie Flanagan, Annie Loudoun, Bertie Edgar and Messrs. Harry Muirhead, Stanley Morrison, Allan Kerr, Harry Irvine, Clyde Johnston, George Russell, Pelham Winslow, Vincent Flanagan.

There was a violin dust, "Dream of the Shepherdess," by Miss Bertie and Mr. Herbert MacDonald, which was well executed and received a deserved encore. Miss Jones recited "The Low Back Car', "Attempted Suicide," "The Raggedy Man" and a lullaby admirably. The orchestral music was well executed and frequently applauded, especially in the numbers in which Mr. Warren's piccolo efforts were conspicuous. The accompanists, Misses. Edgar, Bertie MacDonald, Maude Lounsbury and Linda Pallen also acquitted themselves with credit.

Miss Jones is to be congratulated on her success in training the young ladies and gentlemen for so satisfactory, efficient and graceful a performance as that of Tuesday evening.

Town Council Meeting.

The Town Council met in special session on Monday evening last, Mayor Winslow in the chair.

The Mayor stated that the meeting was called for the purpose of receiving the tenders for building an addition to and otherwise improving the public wharf property.

After the minutes of the previous meeting had been read the clerk read the following communications :—

From J. R. Inch, Supt. of Education, stating the school grievance of the ratepayers in Duke's Ward would be brought before the next meeting of the Board of Education;

From Miles Chipman of Toronto in reference to the putting in of a water works system in the town at a reasonable figure.

Both communications were laid on the table.

A. Edward Loggie addressed a letter to council complaining of an over-flowing ocss-poll near his residence, exposing the inhabitants to typhoid fever and other contagious diseases, and requesting the council to have the evil remedied.

On account of the Board of Health not having a chairman, Mr. Wyse's resignation being accepted by the government, nothing could be done by the Board until a new chairman was appointed. The Provincial Secretary had informed some of our citizens that Mr. E. A. Strang would be a probable successor to that office. In the meantime the matter was referred to the public works committee to act in conjunction with the Board of Health and report at next meeting.

A letter of thanks for the use of the Town Hall for one session of the Teachers' Institute was received from the secretary, Mr. J. Howard Crocker.

Ald. Snowball, chairman public works committee reported as follows :—

CHATHAM, N. B., 26th Sept., 1898.

To His Worship the Mayor and Town Council.

We would report in reference to the street through from Wellington to Duke or Lydia St. that we have seen Miss Kelley, but she could not give us any decision without first seeing her nephews, the Whites. This she promised to do and report to ald. Loggie. Not having heard from her up to to-day, we interviewed Mr. White and he says they cannot come to any arrangement between themselves in the meantime. We interviewed Mr. Thos. Murray and he will sell his portion for $1.50 per foot street frontage.

We have notified the several companies having poles erected in town that they must not erect any more without the permission of the road commissioner and that those now up must be placed so as not to interfere with either the usefulness or appearance of the streets. We have also asked them not to allow advertising matter to be placed on the poles and also requested them to paint the poles in the town limits.

We report that Mr. W. E. Fish is making a preliminary survey of the Morrison Brook for Mr. Coffin, our water expert. We have had some further correspondence with Mr. Coffin which is most encouraging. I will read his last letter on the subject.

With reference to the Henderson property we would recommend to this council offering $600.00 for the portion necessary to widen Duke street, they to remove buildings, &c., at their own cost.

We have instructed surveyor Fish to survey the lower portion of Water St. from St. Andrew's to the town line eastward.

We have opened the tenders for wharf repairs and have concluded to allow the matter to drop in the meantime as it is now too late in the season to do this work.

We would recommend that tenders be asked forthwith for this work to be completed not later than 1st August 1899.

W. B. SNOWBALL, Chairman.

A long letter was received from Mr. Coffin in reference to the proposed water works system, giving every encouragement for the establishment of a system in Chatham.

The report was adopted on motion of ald. Maher.

Ald. Loggie, from the finance committee, reported recommending that the $32.16 still due on the flagstaff be paid. Carried.

The fire committee reported, recommending that the town purchase a ladder truck with ladders, hooks, etc.; also that the janitor strike 12 strokes of the fire bell every day at noon (12 o'clock) except Sundays, on and after Oct. 1st prox.

The report was adopted.

It was ordered that tenders be invited for the old hand engines, up to 6 o'clock on Oct. 3rd.

Ald. Robinson moved that Dr. Baxter receive a vote of thanks for donation of cannon balls presented by him for the public square. Carried.

Permission was granted Haviland Bros. ferrymen, to land 60 tons of coal on the public wharf.

Ald. Coleman, McIntosh and Groat made a vigorous demand for the improving of the streets in the lower part of the town and not appropriate all the money in making a paradise of the park and water street. Money was alloted for the different streets in that part of the town in the estimate made out last spring and there had not been much done there yet. They claimed it was not alone the duty of the aldermen from these wards to look after this but that of the whole council.

The Mayor said Mr. Tweedie was present in the interest of the Maritime Sulphite Fibre Co. who desired the council to grant them certain concessions for the building of a tramway near their mill, and wished him to be given permission to be heard.

After permission had been given, Mr. Tweedie said it was a mistake for the Mayor to say the Company were looking for concessions. It was only a matter of etiquette that they decided to bring the matter before the council, for the company had the right to build these tramways by acts passed by the legislature in 1885 and 1886. But they did not want to be unreasonable, and have decided to act in the best possible way with the town officials.

Before proceeding any furthur in this matter he wished to say, as the representative of Mr. Henderson's, that they would not at all entertain the proposition in the report as passed to-night. It was simply an absurdity, as the owners were now receiving from $200 to $300 in rents.

The settlement of the Kelly property was in his hands now and he would do what he could to have it made over to the town. From the peculiar will a right title could not be given, but he would hunt up the records and have the matter settled.

Mr. Tweedie then read the acts passed by the legislature in the years 1885 and 1886 empowering the Sulphite Fibre Co. to build tramways on the public highways for the interests and workings of the said mill, etc. From the power within these acts they could do this work without reference to the council provided they did not go beyond their privileges, but the company were agreeable and did not want to act as they saw fit, but to work in conjunction with the road commissioner. The act gives them the power and they wish to run a tramway from the mill to the wharf along Water Street, the motive power to be horses instead of steam, and also to run a water pipe across the the street to "the hollow."

Ald. Groat said that on St. Andrew's St. there were two tramways, and they were a nuisance and a danger to the people around that section. Property was very much reduced in value, and he did not think the people's rights ought to be further encroached upon, especially now as we were trying to improve and clear the streets. He did not see why the company should not do as in other cities: that is, by going to the people for these privileges. Then, the town might purchase property for them instead of having them monopolize the whole of the street.

Mr. Tweedie said ald. Groat was mistaken. When this company got these rights there was no town council and there was no other way of securing them, but by applying to the legislature, and the proposed bill had been published and no objection raised. Every facility was granted to the company to establish the mill in Chatham and a 15 years' release of taxes was given them. Everyone would agree that the factory did a great good, and it was partially due to them that they were there to-night. He agreed with ald. Groat that it was desirable not to encumber the streets, but in this instance it was for the interest of the town and had to be done.

Ald. Snowball said everything should be done to assist the company in making the business profitable, so as to form an inducement for the establishment of other industries. Ald. Groat was, no doubt, trying to protect the people..

Ald. Groat said he certainly agreed that the factory had done great good, but he did not want to see the people trampled on. If they wanted to open a tramway let the town purchase property for them so as to leave the streets free and the people would not have their lives at risk as at present on St. Andrew's St.

Ald. Loggie said water street was very narrow at this place and the public works committee would have Mr. Fish survey the road. He considered it entirely too narrow to admit of a tramway being run on it, and it would certainly be very dangerous, especially in winter. A strip of land, say 10ft. wide should be purchased along the river bank and leave the road free to the public. He moved the following seconded by ald. Maher :—

Resolved that the matter laid before the council by Hon Mr. Tweedie be referred to the public works committe to report on, and that, in view of the matter, the public works committee be instructed to find out if property can be secured to widen the street some ten feet or thereabouts, in that locality, and report at next meeting.

Carried.

Adjourned.

International Commission.

QUEBEC, Que. Sept. 20—The international Commissioners met in joint session for an hour this afternoon and adjourned, to meet again on Thursday. The adjournment over till to-morrow is taken because of the ceremonies attending the unveiling of the Champlain monument, in which the members of the High Commission are to participate.

The American Commissioners met this morning and again this afternoon. They listened to arguments of Messrs. Babcock, of New York and Fallon, of Ohio, who represent the interests of the United States inland fisheries.

As usual, all the proceedings were behind closed doors, but so far as the fresh water fisheries are concerned it is understood that the Americans and the Canadians will agree with little trouble. Both sides desire the better protection of the fresh water fish, and no doubt this part of the proposed treaty will readily be disposed of.

Interests of the United States farmers will be heard Thursday. Aaron Jones, of South Bend, Ind., worthy master of the Grange, and Secretary John Trimble of Washington, D. C., have notified the Commissioners that they desire to be heard. It is presumed they will protest in a general way against the reduction or the removal of the tariff on Canadian agricultural products, especially barley, hay, oats and potatoes.

Indications are that the Canadian Commissioners are going to take a very determined position on the lumber question. A. S. Hardy, Premier of Ontario, and George W. Ross, Minister of Education, arrived here to-day and represent the Ontario government in the lumber question. They declare unreservedly that no concessions will be made on the part of the Canadian government in the way of permitting logs to go free into the United States unless the United States makes some concession in the way of reducing or removing the present duty of $2 per thousand feet of Canadian sawn lumber.

Ontario's Legislature passed a law last year that no logs cut on crown lands by American lumbermen should be taken into the United States to be sawed into lumber in American mills. The law was a result of $2 duty put upon all Canadian lumber in the Dingley bill, but it has been a disastrous law to such of the American lumbermen as own large tracts of crown lumber lands in Ontario.

These men contend that the Canadian government knew when it sold the timber to the Americans that it was to be sawed in American mills, and having this knowledge, the government had no right to pass a law of this character. Canadians waive that point, and say it must be free logs and free lumber or no chance at all.

Clark Wallace, former Minister of Customs, now representing the Canadian Manufacturing Association arrived here to-day to confer with the Canadian Commissioners. He counsels them to stand by the present protective duty upon certain manufactured goods sent to Canada from the United States. Textiles and manufactured iron implements are the principal articles upon which he urges that no reduction be made.

C. M. Hays, general manager of the Grand Trunk Railway company, has been in consultation with both the American and Canadian commissioners, and states that there will probably be little difficulty in settling the bonding question, the alien labor question and other matters in which the railroads are concerned. He says the views of the commissioners on both sides are along the same general lines.

Although nothing is revealed to indicate what progress is being made by the commission, or what results are probable, Senator Fairbanks, chairman of the American delegation, gives the assurance that the achievements so far is gratifying and indicative of satisfactory results in the end.

BIRTH.

At "The Pines" Nelson, N. B., on Sunday morning 18th inst, to the wife of William J. Flett of Boston, Mass.—a daughter.

MARRIED

At Trinity Church, Blackville, on September 20th, John Cameron of Gilleon, to May E., youngest daughter of the late J. A. Underhill Esq., of Blackville.
