BEAUTIFUL PLATTSVILLE.

A THRIFTY LITTLE VILLAGE IN OXFORD COUNTY.

Excellent Water Power Furnished by the Nith Which Runs Through the Town—Its Manufacturing Industries—Public Institutions—Schools, Churches, Prosperous Business Men.

The village of Plattsville is a thrifty little village, not directly on any line of railway. It is in the fertile and beautiful township of Blenheim in the county of Oxford, about three miles from the railway, the nearest station being Bright, where a stage meets both forenoon and afternoon trains. The Nith runs through the village and furnishes power, and is crossed by four bridges at different points in the village. The industries consist of two grist mills, barrel and stave factory, furniture factory, door and sash factory, cider and fruit evaporating business and a brick yard.

Among the institutions showing the enterprise of the citizens is a Town Hall, built by subscription, and a skating and curling rink built by a joint stock company, costing $2 500, a bricks chool house and three teachers furnish every necessary facility for education.

There are four brick churches, viz.: the Methodist, Baptist, Evangelical and Presbyterian. The Lutherian is frame, and is supplied from Dundee, all the others having settled pastors.

The societies are the A.F. and A.M., I.O.T. and R.T. of T., and are all in a flourishing condition. An eight-page 40 collumn newspaper called The Echo is published by H. Chester, and is now in its third year. As Mr. Chester is full of other business he would part with this on reasonable terms. To manufacturers it might be interesting to state that there is a large four-story brick woolen factory with one full set of machinery now idle and which could be obtained on very advantageous terms by addressing Thos. B. Puddicombe, Hayesville.

H. Chester,

commenced the business of baker and confectioner about 2 years ago, and the rapid increase in his business is the best proof that the public are being satisfactorily served. John Martin, his baker, is a practical man of varied experience, and an adept either at bread or fine cake baking. Mr. Chester also does the oyster and ice cream trade, and in addition to confectionery of ever kind, keeps all kinds of fruit in season.

Jones House,

R. H. Jones, proprietor, is a new three story white brick hotel 60x50 feet, with plate glass front, and presents a fine appearance. The interior fittings are all of the most superior kind, and the whole house is bright, airy and attractive. It is carpeted and furnished in elegant style, and being heated throughout with hot air is one of the most comfortable hotels to be met with. The menu shows that an adept is at the head of the culinary department. The bar is supplied with the best, and the yard and stabling are sufficient to meet all demands. Mr. Jones also carries on the butchering business, and his versatility is evidenced in being the patentee of a neat and durable cutter which is retailed at $20. It is strong and durable, easy to ride in, runs easy, and is found to be more servicable than more expensive cutters.

American Hotel,

S. Everatt, proprietor, is centrally located, and has two large sample rooms, and all othe equipments of a commercial house. The hotel is in excellent order, furnished and decorated in modern style, and the bar and table are supplied with the best. The present proprietor has been five years in the house, and is a popular landlord.

Victoria Cabinet Works,

Baird Bros. proprietors, are carried on in commodious brick premises, three stories high, the front part being used as a wareroom for the retail trade and for undertaking. A saw-mill is in connection with the factory, and a great number of logs, both for themselves and customers are cut every season. Two steam engines furnish motive power. They manufacture for the wholesale trade, bedroom suites, sideboards, extension and centre tables, book cases, secretaries, etc., and carry a full line of all kinds of furniture for the retail trade. The facilities for seasoning lumber are of the very best. The factory has been established over 20 years, and since coming into the hands of the present proprietors eight years ago the business has been carried on with great energy. Their manufactures are in great demand, even as far east as Quebec and the Maritime Provinces. They keep a hearse, and attend to the undertaking business in all its details. Cuts of their manufactures will be furnished on application.

Wegenast & Robertson

are proprietors of an old-established business next door to the Postoffice. They deal in staple and fancy drygoods, clothing, hats and caps, gents' furnishings, boots and shoes, crockery and groceries, and the stock in each department is large, attractive and well kept. They make specialties of tailoring, millinery and dressmaking, and keep a first-class cutter of best experience and an accomplished milliner and dressmaker. All garments turned out are made with a view to fashion, fit and durability, and satisfaction is guaranteed. Among the business places this takes the lead, showing that it is conducted on popular principles.

Wonderful Cures by Dr. Washington, Through Advertising.

Second stage, bordering on the third.

Dr. Washington, 78 McCaul-street, Toronto:

DEAR SIR,—This is to certify that I was in a very critical condition. I was a sufferer for fully nine years. I was troubled with a bad cough and bleeding of the lungs, at times being very bad and bleeding as much as a pint. My disease had all the symptoms of consumption, and I was in a very losing condition. I am pleased that I met with Dr. Washington of Toronto. It is a miracle to myself as well as to others that I have been so fully restored to my health. I was under his treatment since the 14th of January, 1888, and now consider myself cured of the disease. I feel no hesitancy whatever in recommending Dr. Washington to everyone who may need his services. I shall be very happy to give full particulars to any person who may be desirous of any information on the subject.

Yours very gratefully,
PETER WICE,
Stroud, Ont., near Barrie.

June 2, 1888.

N.B.—Peter Wice was recommended to me by the Rev. John Wesley Savage, Methodist minister, then of Stroud but now of Bond Head, and can substantiate every word of the testimonial. Write either of them or both. It is right that the people should know how insanely absurd the contention of the Medical Council, viz: "That advertising the symptoms of a disease causes people to imagine that they are affected and causes them to take treatment, which causes suffering."

Before Judge Falconbridge.

In the case of White v Tomlinson at the Civil Assizes yesterday judgment was reserved. This was an action for specific performance of contract. The plaintiff, William White, mortgaged a farm in Grey county for which defendant agreed to trade him a grocery store in Brampton but afterwards backed out. The action was to compel the defendant to carry out the agreement.

In Castor v Davies the plaintiff's counsel made application to examine the defendant and the case was postponed until the 13th inst.

Sacks v Carroll and Bright v Bright were allowed to stand over until the next sittings.

Cooper v Porter was an action brought by James G. Cooper and John L. Birney of Streetsville against William Porter to recover $457, commission on a land transfer. Judgment was given the plaintiff for $378.75.

McCuaig v Hogg, an action brought by McCuaig and Manwaring against Mrs Hogg to recover $365, commission for the sale of land to the Land Security Company. The defendant claimed that the plaintiffs were agents of the Land Security Company. The case was adjourned.

JEALOUSY AROUSED

By the Success of Advertising Specialists—A Fair View of the Case.

The jealousy of the general practitioner of medicine in Toronto has been aroused by the success of the advertising specialists, and is the sole reason why they take the negative side of the question "Is it right for doctors to advertise their specialties?" This question is wrong and can only be taken on purely selfish grounds, as any one with common sense knows that a specialist who makes particular diseases his special study will be more competent to deal with them than the general practitioner, who treats all the diseases known to man. Below we give an illustration wherein a party was perfectly cured by an advertising specialist. Mr. John Stitt of No. 236 Ontario-street, had been for years treated by general practitioners of medicine, and had grown from bad to worse until his case was to him hopeless. He was so bad he had to abandon his work, but he noticed the advertisement of the Medical Institution for the cure of Catarrh, Dyspepsia and Chronic Diseases, located at 198 King-street west, and resolved to give them a trial. Mr. Stitt had chronic dyspepsia, his appetite was gone, he had nasty pains and burning sensations in his stomach attended by occasional vomiting, was bloated, had palpitation of the heart, headache, dizziness, pain in the back, felt worn out on the least exertion, had no ambition. After a short course of treatment he was entirely cured and is now a well and happy man. He can be seen by any one who wishes to call on him and will gladly tell his story.

We have hundreds of similar testimonials which can be seen on application at our office. No testimonials published without consent of patient. Medical Institution, 198 King-street west. Office hours, from 9 a.m. to 8 p.m.; Sundays, 1 p.m. to 3 p.m.

Redpath

CERTIFICATES OF STRENGTH AND PURITY.

OFFICE OF THE PUBLIC ANALYST,
MONTREAL, September 9th, 1887.

To the Canada Sugar Refining Co'y, Montreal:

Gentlemen,—I have personally taken samples from a large stock of your Granulated Sugar, "REDPATH" brand, and carefully tested them by the Polariscope, and I find these samples to be as near to absolute purity as can be obtained by any process of Sugar Refining.

The test by the Polariscope showed in yesterday's yield 99.90 per cent. of Pure Cane Sugar, which may be considered commercially as ABSOLUTELY PURE SUGAR.

MONTREAL, September 9th, 1887.

To the Canada Sugar Refining Company:

Gentlemen,—I have taken and tested a sample of your "EXTRA GRANULATED" Sugar, and find that it yielded 99.88 per cent. of Pure Sugar. It is practically as pure and good a Sugar as can be manufactured.

Yours truly,
G. P. GIRDWOOD.
