THE COAL DEAL SETTLED.

CITY CONTRACT FOR SOFT COAL GOES TO A BUFFALO FIRM.

Five Thousand Tons at $2.50 Delivered, a Saving of $1850 on the Order or $5000 on a Year's Supply The Gas Company Becoming Uneasy—Where Some of the Local Clergy are Careless.

The Board of Works met yesterday and unanimously adopted the following report on the coal supply, presented by Chairman Lamb:

"Your committe beg to report that its chairman, accompanied by Ald. Crane and Mr. Matthews, secretary of the water works department, went to Buffalo with reference to procuring a supply of bituminous coal for the pumping house, and after negotiations received the following offer, including the signing of the Toronto Water Works specifications for the same:

"Nov. 26, 1895.

"Mr. Daniel Lamb, Chairman Board of Works:

"Dear Sir,—We will agree to deliver to the Toronto water works their supply of coarse slack coal, amounting to about 5000 tons, to be delivered between now and April 1, 1896, at $2.50 per net ton f.o.b. your siding, Toronto, Ont. The weights of the Toronto water works to govern settlement. This slack will be from our Eleanora mine, and in case of dispute in regard to quality we agree to abide by your specifications and general conditions under date of Nov. 13, 1895, with the exception of depositing the cheque for $1000, which we understand shall be waived. Coal to be delivered at the rate of two cars daily until further instructions.

"Very truly yours,
"HARRY YATES,

"General Agent the Rochester & Pittsburg Coal & Iron Co.

"Your chairman accepted the offer subject to the approval of the city council, and in the meantime the company will immediately deliver 40 tons per day pending your acceptance of their offer.

"Your committee would therefore recommend that its recommendation in Report No. 27, awarding the tender to Messrs. Rogers & Co., be withdrawn, and the offer of the Rochester and Pittsburg Co. accepted, and a contract entered into forthwith."

This deal alone will save the city 37 cents per ton, which amounts to $1850. The total saving on a year's consumption will be $5000.

The contract for hard coal will be given to the Standard Company.

Lobbying the Aldermen.

The directors and officials of the Consumers' Gas Company are not living on "easy" street at present. They are nervous and anxious as to the outcome of the agitation over the price of gas, which was started by The World. That they are growing desperate, and have not a leg to stand on for their past actions in manipulating figures and perverting certain funds from their proper sources, so that an excessive price could be charged for lighting, is evidenced by the fact that they, or their representatives, have called on certain aldermen at their private residences. These callers are armed with a mass of figures, which they endeavor to explain to the aldermen in such a way as to show that the gas company is a martyr for the public's benefit. The object, doubtless, is to confuse the aldermen, as the statements shown are all in favor of the company.

Said a prominent city official, "If a clerk in the employ of the company had perverted the one-thousandth part of the sum the company has, he would have been in jail long ago."

The Don Station.

Acting on instructions from Ald. Allan, the City Clerk has written the City Solicitor, asking him to prepare a by-law to exempt the C.P.R. station at the Don from the fire limit by-law.

Lee Has Been Found.

On Nov. 20 City Clerk Blevins received a letter from a man named Nolan, living in Lawrence, Mass., enquiring the whereabouts of one Lee, who enlisted at Aldershott in 1856, under the name of Kelly. The City Clerk received word yesterday that Lee, who has fallen heir to a large sum of money, had been located at Hochelaga, Que., where he is employed as a baggageman by the C.P.R. Co.

Careless Clergymen.

That a number of clergymen are very careless over important matters is proven by the fact that scarcely a day passes but the City Clerk is forced to return marriage certificates that have been improperly filled out. In many cases the writing is so poorly done that it is almost impossible to decipher the names. It behooves those who purpose entering the bonds of matrimony to first ascertain whether the minister knows how to fill out a certificate, as an error may cause no end of trouble at some future time.

A Timely Work.

The unveiling of historical monuments on the battlefields of Chateauguay, Lundy's Lane and Chrysler's Farm, within the past few months has awakened considerable interest in the events of the American war of 1812-13. The eighth volume of the history of Canada by Dr. William Kingsford of this city has just made its appearance and it may be regarded as exceedingly timely in view of the fact that the greater portion of the volume deals with the period leading up to the war of 1812, with a lucid account of the various battles and events of the war and the results which flowed from the defeat of the American troops.

Christmas in England.

There are always a number of persons desiring to spend Christmas in England. To these people the question of a good, safe and fast line is a very important one. The Cunard Line steamships, sailing from New York and Boston every Saturday, besides having a record of having never lost the life of a passenger, have the largest and fastest steamers afloat.

The Lucania will sail Dec. 7, and will be due at Liverpool 13th. The Etruria will sail Dec. 14, and will be due at Liverpool Dec. 21.

Intending passengers should secure their accommodation at once from A. F. Webster, sole passenger agent, corner King and Yonge-streets.

Dutton Men in Trouble.

St. Thomas, Nov. 27.—Detective Rogers arrested A. D. Urlin of Dutton and his son George, charged with having set fire to the former's store. The prisoners were remanded till Tuesday, Dec. 3. They were brought to jail here last night. Bail was refused.

A Clammy Briber.

Albany, N.Y., Nov. 27.—It is said to have been discovered that the secretary of the State Fish Commission was in the habit of distributing hundreds of barrels of oysters and clams to politicians for favors received. Doyle was dismissed, although he made a hard fight for retention.

Dyspepsia and Indigestion—C. W. Snow & Co., Syracuse, N.Y., wrie: "Please send us ten gross of pills. We are selling more of Parmelee's Pills than any other pill we keep. They have a great reputation for the cure of Dyspepsia and Liver Complaint." Mr. Chas. A. Smith, Lindsay, writes: "Parmelee's Pills are an excellent medicine. My sister has been troubled with severe headache, but these pills have cured her."

A Millionaire Suicides.

Milwaukee, Wis., Nov. 27.—Peter McGeoch has committed suicide by shooting. He is well known throughout the country as the millionaire pork packer and manipulator of pork and lard deals.

WILL GO TO HEADQUARTERS.

A Committee to Call on Sir Charles Relative to Race Track Gambling.

A large and enthusiastic gathering of clergymen and others interested in the suppression of race-track gambling met in the Y.M.C.A. yesterday. The Rev. Canon DuMoulin presided, the others present being: Senator Allan, J. J. Maclaren, Q.C., Rev. Drs. Thomas, Sims, Dewart, Milligan and Canon Sweeney, Hamilton Cassels, John A. Patterson, Seymour Corley, W. L. Gordon, W. G. Lhamon, J. C. Copp and J. A. Worrell.

Mr. J.A. Patterson explained the law relating to gambling.

A committee composed of Canon DuMoulin, J. A. Worrell, Q.C., J. J. Maclaren, Q.C., and J. A. Patterson will wait upon Sir Charles Tupper at the Queen's Hotel, in this city, at 5 o'clock this afternoon, to request his removal of the clause in the Criminal Code sanctioning horse race gambling.

The commitee then adjourned indefinitely.

History Taught by Eye.

Of late years so much time has been devoted to the investigation of methods of teaching, and to the best means of economizing mental energy in acquiring knowledge, that any device calculated to further these ends in the study of so important a subject as history is deserving of public attention. This is especially true in a country like ours, where self-government exists, and where the experience of the past is drawn so heavily upon for the guiding principles of administration.

In this connection our attention has lately been directed to a most ingenious and valuable device of Mr. A. H. Scaife, an Oxford University man, now engaged in journalism in Victoria, B.C.

The work takes the form of a chart on which the selected materials of English history from the time of William the Conqueror to the recent administration of the Earl of Rosebery are carefully entered. All one has to do in order to understand it is to remember that it is drawn to a scale of time, as a geographical map is drawn to a scale of distance; that time in history corresponds to distance in geography. With this idea clearly grasped, you begin at the bottom of the chart and rise with the advancing centuries to the top. The duration of the various ruling houses of England is indicated by backgrounds of alternating colors into which the name of the house has been engraved. The centuries are clearly marked off and subdivided into periods of five years, while in columns on the right and left of the chart, respectively, are entered in their order the wars in which England has been engaged, and the Archbishops of Canterbury. In the body of the chart are to be found the events and facts—political, religious, military and commercial—that have contributed to the development of the country; while at right angles to these are a number of slender parallelograms in which are entered the names of eminent statesmen, soldiers, scientists and literary men. The reigns of monarchs appear in the form of a genealogical tree in the middle of the chart, an ingenious but simple device showing the line of descent and the fate of the branches that never reigned.

All the materials are built into the chart so as to correspond to the exact time scales that have been placed on either side. Thus, the student, by choosing any monarch, eminent personage or event, can, at a glance, bring under observation all the important contemporary events and personages.

The strong point of the chart from an educational point of view is that, by teaching history through the eye, it relieves the memory of half its previous labor, and by grouping the materials correctly according to time, the student by the law of the association of ideas is enabled to recall events not otherwise connected.

By this method, bringing, as it does, the entire data of English history under observation at once, it is an easy matter to trace effects back to causes and thus pursue a connected line of investigation. At the same time and for the same reasons, review becomes almost effortless. The student who, with one of these charts before him, cannot learn English history thoroughly is, we fear, an almost hopeless case.

Busy Times at the Dodge Pulley Works.

The Dodge Wood Split Pulley Co. are unusually busy for this time of year. They are shipping to-day to Antwerp, Belgium, a carload of large special pulleys built for one of Belgium's biggest mills, the order coming to the Dodge Co., Toronto, through their general agents in London, Eng. They are also working full time on large orders from different points in the Dominion; they are supplying the pulleys and clutches throughout for the Dominion Coal Co.'s plant at Glace Bay, N.S., and have just shipped a very fine specimen of a large size split friction clutch pulley to Perth, Ont., for the Electric Light plant there to handle 150 h.p.

Mrs. O'Brien Wants Her Husband.

New York, Nov. 27.—The wife of John O'Brien, a Brooklyn diver, whose house is at Rockaway-avenue and Fulton-street, went to police headquarters this morning and asked Inspector Mackellar to take steps to bring home her husband who is under arrest in Halifax, N.S., for supposed burglary.

Dr. Wild's Coming Journey.

To-morrow Dr. Wild leaves for a trip westward. On Sunday, Dec. 1, he will preach in the famous Auditorium in Chicago. Later on he will preach or lecture, in Denver, Salt Lake City and other places, ending in California, where the Doctor will spend the rest of the winter. He also intends visiting some of the canyons in Colorado and Utah, doing a little exploring among the ruins of the ancient cliff-dwellers.

Must Give Up the Ship.

Portland, Ore., Nov. 27.—Judge Bellinger of the United States District Court has declared that the schooner Louis Olsen, seized in Behring Sea by the United States revenue cutter Rush on a charge of killing seals within the prohibited zone of 60 miles around the Pribyloff Islands, must be forfeited to the Government. The defence was set up that the schooner was seven miles outside of the prohibited zone, but Judge Bellinger held otherwise.

Mrs. Shortis Clings to Her Son.

Beauharnois, Nov. 27.—Mrs. Shortis is remaining here, waiting anxiously the decision of the Minister of Justice about her son. She has taken rooms at the jail, to be nearer to and constantly with her son until his death, if he is to be hanged.

Doctors Say It Is the Best.

Gentlemen,—I recommend Milburn's Cod Liver Oil Emulsion with pleasure. Last July I took Congestion of the Lungs, and was in bed for four weeks. I was very weak, and could not speak above a whisper. Dr. Lawson of Hamiota attended me, and sent me a bottle of Milburn's Emulsion. It is the very best made, and soon restored my voice and brought me back to health again.

Yours truly,
ALF. SMITH.
Wheatlands, Man.

Expensive

Town Topics.

Attendant—Heavens, doctor! There's a sponge missing. I think you have sewed it up in the patient.

Surgeon (a few minutes later)—Thanks for calling my attention to the matter. That sponge cost $2.

Chili Borrowing Largely.

Buenos Ayres, Nov. 27.—It is reported that Chili is about to raise a loan of six million pounds ($30,000,000).

Only those who have had experience can tell the torture corns cause. Pain with your boots on, pain with them off—pain night and day; but relief is sure to those who use Holloway's Corn Cure.

TO INVEST IN ONTARIO.

The Provincial Ministers Interviewed With Reference to Mineral Districts.

Messrs. W. Hamilton Merritt, mining engineer of this city, and W.D. Ferguson of London, Eng., who have just returned from several months' sojourn in the Rainy River and Lake of the Woods gold districts, waited yesterday upon Hon. A. S. Hardy, Commissioner of Crown Lands.

Mr. Ferguson represents British capital, which is ready to be invested there and he wished to ascertain upon what conditions British companies could operate in that section of country. The Commissioner's assurances were entirely satisfactory in this regard.

Inquiries were also made as to the operation of the Government diamond drill to test the depth at which the first changes in the granite strata are apparent, as it is believed that the ore will be freer at that depth.

Charges Against Dr. Galbraith Withdrawn

The differences in Elm-street Methodist Church between the pastor, Dr. Galbraith, and the congregation are settled, so far as the Arbitrating Committee is concerned.

The above committee met yesterday, when the following gentlemen were present: Rev. M. L. Pearson, Dr. W. R. Parker, Rev. G. Webber, Messrs. R. Brown, and G. J. St. Leger.

As the committee were given to understand that the case had been withdrawn from the courts, both civil and ecclesiastical, and that the members of the church who were dissatisfied with the way the affairs were being conducted were withdrawing and uniting with other churches, it was decided to drop the proceedings, and the committee dissolved.

Hayward Makes Confession.

New York Nov. 27.—A special from Minneapolis says: Harry T. Hayward, now in the Hennepin county jail, under sentence of death for the murder of Catharine Ging, has confessed. The confession was made to relieve Michael Quinn, some time ago, but the fact was not revealed. The confession admits the securing of Blixt to commit the murder, the gambling, and, in fact, everything, except that Hayward is guilty of murder, because some one else did the killing.

Durrant Not Yet Sentenced

San Francisco, Nov. 27.—The case of Theodore Durrant, convicted nearly 30 days ago of murdering Blanche Lamont and still unsentenced, came up to-day for the third time since the verdict. It will probably be Monday or Tuesday next before the presiding judge can pass sentence on Durrant or grant him a new trial.

Miss McPherson Will Lose an Eye.

Brampton, Nov. 27.—A peculiarly unfortunate accident happened at the High School here last evening, and as a result one of the pupils, Miss McPherson, will lose the sight of one of her eyes.

She was in attendance at the chemistry class, when, while Mr. Howard, the teacher, was making an experiment, an explosion occurred, and a piece of a glass jar struck the young lady in the face, injuring an eye.

Two Women Suffocated.

St. Hyacinthe, Que., Nov. 27.—Fire broke out about 3 o'clock this morning in a boarding house and two women were suffocated. They were Georgina Malbeuf, wife of A. Ammon, and an old maid named Rosalie Gauthier.

PURSER JOHN MACEDWARDS

Of the C.P.R. Steamer Arthabaska Says That Dr. Agnew's Catarrhal Powder is the Best Remedy in the World.

To the thousands who have enjoyed a trip on the beautiful Canadian Pacific steamers, few men are better known than the purser, Mr. John MacEdwards of the Arthabaska. Sailing, however, has not been all joy to him, as he has been a sufferer from catarrhal troubles. With others, fortunately, he at last found relief, quick and effective, in Dr. Agnew's Catarrhal Powder. So pleased has he been with this medicine that, Good Samaritan-like, it is a practice of his to send supplies to friends who he knows have been afflicted like himself. It never fails to give relief in ten minutes, and cure permanently. Sold by druggists.

WILL NOT PERMIT DELAY

In Cases of Heart Trouble. How to Act Quickly.

What to do till the doctor comes is a good thing to know, and is urgent in cases of heart disease. Keep in the house Dr. Agnew's Cure for the Heart, and it will be found to exceed the skill even of the skilled physician. Many letters are in the possession of the proprietor of this medicine showing that death would have ensued from heart disease had it not been promptly taken when the heart spasms had manifested themselves. It is a remarkable specific for this one particular purpose, and in ninety-nine cases out of a hundred, strong as the statement may seem, will cure heart disease, either in its incipient stages or the more chronic.

One Source of Pain and Suffering Under Human Control.

The remedy known as South American Kidney Cure never fails to give relief in six hours in all derangements of the kidneys or bladder. Bright's disease, diabetes, inflammation or ulceration of the kidneys, neuralgia, consumption, hemorrhage and catarrh of the kidneys, inflammation of the bladder, etc. It purifies and regulates the urine, removes sediment in urine and prevents scalding. It is worth a thousand times its cost for prostatic troubles in the old, such as enlargement inflammation and ulceration of the prostate gland.

Unable to Move Hand or Foot for Weeks. Horrors of Rheumatism.

"For fifteen years I have been more or less troubled with rheumatism in my back. Last spring I became so very bad that I was unable to move hand or foot, and was in bed for weeks. My husband and I became discouraged and had given up all hope, but at the critical time a neighbor, Mrs. Blanchard, who had been cured of lumbago in three days by South American Rheumatic Cure, called to see me and advised me to try this remedy. I did so and the first bottle enabled me to sit up in bed, and in a week I was attending to my duties as usual. It is without doubt the best remedy in the world."
