AT OSGOODE HALL.

Mr. Newsome's Injunction Continued Until Thursday, But the Conservative Club Investigation Will Proceed.

In Newsome v. Toronto Liberal-Conservative Club and Young Men's Liberal-Conservative Association and others, the motion for an injunction restraining defendants from suspending or expelling plaintiff or in any way interfering with his rights as a member was enlarged until Thursday; but, as the notice of motion did not refer to the pending investigation, the Chancellor refused to stay it.

PARKDALE BAPTIST CHURCH.

In Beaty v. Gregory, argument was not concluded on the appeal of the plaintiff from the judgment of Falconbridge, J., holding that the defendants were not personally liable upon a covenant in a mortgage given by defendants, who were trustees of the "Parkdale Baptist Church." Mr. Justice Falconbridge, in an exhaustive judgment, discussing the authorities in such cases, also reviews the evidence. He says: "The mortgage represents the whole purchase money of the property on which the church is situate. The plaintiff knew the purpose for which the property was wanted. He knew of the appointment of trustees before he took his mortgage and the purpose of their appointment. The plaintiff occasionally attended the church, and was interested in the defendants getting a place of worship, and thought it would improve the neighborhood, and he purchased a lot as a site and let the church have it, taking back a mortgage." The conveyance is the usual one in church cases, and grants the land to the defendants, "trustees appointed under the statutory powers" therein mentioned, and recites the revised statute respecting religious societies. The mortgage given by the trustees was made pursuant to the act respecting short forms of mortgages, and contained the ordinary covenant to pay by the mortgagors, and to their ordinary description as mortgagors was added the words, "trustees under R.S.O., 1887, ch. 237, of the Parkdale Baptist Church," and it also contained a privilege to the mortgagors, "their successors or assigns," to pay off the mortgage. No doubt many trustees of churches have given similar covenants, and the decision of the court will be awaited with interest.

Six Hundred Men Thrown Out.

Milwaukee, Jan. 26.—Six hundred men were thrown out of work to-day at the Bay View works of the Illinois Steel Company by the closing down of the top and buttom mill, the fish plate mill and the old and new plate mill. No reason is given for the closing down of these mills.

S. Ackerman, Commercial Traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Eclectric Oil for Inflammatory Rheumatism, and three bottles effected a complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather, but have never been troubled with rheumatism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others, as it did so much for me." ed

AMERICANS ARRESTED IN CUBA.

Seventy-Four Have Been Made Prisoners and Some are So Still.

Washington, Jan. 26.—The President to-day sent to the Senate, in response to a resolution, a list of American citizens, either native born or naturalized, who have been arrested in Cuba since the beginning of the present insurrection, with a statement of the action taken in each case. The arrests number 74. Of these seven have been tried, and appeals were taken in two instances from the sentence imposed—those of Sanguilly and Somellten. In the cases of the five Competitor prisoners, a new trial has been ordered. Seven American newspaper correspondents were also arrested and banished.

The Lady and the Car Seat.

Buffalo News.

A discussion has been carried on in the Chicago papers for some time as to whether a gentleman should give up his seat to a lady on the street cars when seats are all taken. Poor old Sir Roger de Coverly would be indignant at such a "disreputable" controversy. One can fancy him turning up his nose indignantly and sniffing the air at the bare suggestion. Such gentlemen to enter into such a controversy were none of his kidney, to be sure. Times, however, have changed, and perhaps the modern Sir Roger is no worse than his master. We must accept things as they are in this matter-of-fact age, and the code of politeness must be regulated accordingly, as much as we admire those good old-fashioned days.

Women have made up their minds since those days to take care of themselves. They have entered into competition with men in the matter of wage earning, and have determined no longer to be dependent on the male sex for their livelihood. Even matrimony itself has become to some extent a business transaction and to a large extent the old love locks have gone out of date with the perukes and buskins of our ancestors.

To-day everybody admits the right of every women to be self-dependent, whereas a century ago she was forced to rely on her male relatives. It is no longer a disgrace for a women to go out and earn her livelihood, but a feather in her bonnet when she is able to do so. But as she has of her own free will, come into competition with the male sex, she has also to suffer the consequences. Possibly if Sir Roger de Coverly were alive to-day he would politely raise his hat to the working woman on the street car and make way for her, but a the lady who was merely using the car for a convenience instead of her carriage after an hour or two of gossip with her neighbors, he might be so much troubled with gout and rheumatism as to retain his seat.

Sawbill and Hawk Bay.

The splendid showing reported to have been made by the Sawbill mine has awakened considerable interest in that stock, and it has advanced in price, being held to-day at $2 a share. The Hawk Bay Mining Co., whose claim nearly adjoins and has the same appearance, are about to withdraw the last of the first issue of their treasury stock from the market. Messrs. Wyatt & Co., the brokers, have only a small number of shares left.

Nuptial Carrier Pigeons.

A decided novelty has been introduced at some fashionable weddings in England. With dainty packets attached beneath their wings, carrier pigeons are set free as soon as the ceremony takes place. The packets, filed with white ribbon, contain an announcement of the wedding, and the birds are despatched to the friends of the newly wedded couple. This can only be done, of course, in cases where the pigeons come originally from the house of the friends themselves.

Relief for Facial Neuralgia.

For facial neuralgia this is the very best plan to secure quick relief: Heat a freestone hot and roll up in a cloth, wetting one side of it, and turning about a spoonful of essence of peppermint on the wet surface. Lay the face against this, and cover the whole head up warmly with flannel. It will give relief in almost every instance. Or, heat a basin of salt very hot, put it in a bag, and apply to the face. There is something about the salt that seems to relieve the pain where simply the heat will not help it.

Sailors Must Carry Out Contracts

McIntyre & Wardwell (John J. Dixon) received the following despatch to-day from New York:

There was a little activity in the last half hour on the Stock Exchange to-day. Shorts covered and prices advanced a fraction. It has been a very dull day. The news of the afternoon was without any immediate speculative importance. There is a meeting of the Union Pacific reorganization committee which will not be over till a late hour, but at which as assessments will doubtless be decided on. The contract for new equipment between the Metropolitan Traction and General Electric Companies involving over $2,500,000 is to be executed soon. The United States Senate is discussing a bill for an international monetary conference.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat opened weak this morning. Early cables gave no encouragement. The Government report was considered moderately bearish. St. Louis parties sold about 200,000 bushels around the opening. Barrett and Brosseau were also sellers. Pringle, Tuttle and others of the bear crowd pressed the selling. There was no good support from any quarter. The absence of telegraphic business and the local bulls, all laid for the present, made it an easy matter to make low prices. New York, so far as any word was received, was weak and indifferent on the foreign news. San Francisco sent a report on California stocks indicating only about 2,000,000 bushels to spare for Europe, Africa and Australia, and that all likely to go next month. Minneapolis correspondent, who is in Kansas City to-day, says: All talk about big surplus of wheat in the Northwest is a mistake. The Northern Pacific, over which they work, has only handled about half as much as last year, same time. Allowing for seed and enough to run Northwest mills, there is not any more wheat than that section than is needed at home. The early action in the market was followed by a period in which the pits were idle. The trade was without good wire service all morning. Several of the big houses, with lots of leased wires, had not a wire working outside the city. Boston and New York
