Ayer's *Hair Vigor,*

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, fallen hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning grey or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Prospectus for 1873.—Sixth Year.

THE ALDINE,

An illustrated Monthly Journal, universally admitted to be the Handsomest Periodical in the World. A Representative and Champion of American Taste.

Not for Sale in Book or News Stores.

THE ALDINE is an elegant miscellany of pure, light, and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. While other publications may claim superior cheapness, as compared with rivals of a similar class, *THE ALDINE* is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The character of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes *for ten times its cost; and, moreover, there is the chromo besides.*

ART DEPARTMENT.

Notwithstanding the increase in the price of subscription last Fall, the edition *was more than doubled* during the past year.

The publishers are authorized to announce designs from many of the most eminent artists of America.

In addition, *THE ALDINE* will reproduce examples of the best foreign masters.

The quarterly tinted plates, for 1873, will reproduce four of John S. Davis' inimitable child-sketches, appropriate to the four seasons.

The popular feature of a copiously illustrated "Christmas" number will be continued.

PREMIUM CHROMOS FOR 1873.

Every subscriber to *THE ALDINE*, who pays in advance for the year 1873, will receive, without additional charge, a pair of beautiful oil chromos, after J. J. Hill, the eminent English painter. The pictures, entitled, "The Village Belle," and "Crossing the Moor," are 14 x 20 inches—are printed from 25 different plates, requiring 25 impressions and finish to perfect each picture. As it is the determination of the conductors to keep *THE ALDINE* out of the reach of competition in every department, the chromos will be found correspondingly ahead of any that can be offered by other periodicals.

THE LITERARY DEPARTMENT

will continue under the care of Mr. RICHARD HENRY STODDARD, assisted by the best writers and poets of the day, who will strive to have the literature of *THE ALDINE* always in keeping with its artistic attractions.

TERMS

$5 per annum, in advance, with OIL CHROMOS free.

THE ALDINE will, hereafter, be obtainable only by subscription. There will be no reduced or club rates; cash for subscriptions must be sent to the publishers direct, or handed to the local agent, *without responsibility to the publishers*, except in cases where the certificate is given, bearing the *fac-simile* signature of JAMES SUTTON & Co.

Watchmaking in Switzerland.

[From the Swiss Times of May 30th.]

WE have already drawn attention to the annual meeting of the Society of Arts held on the 23rd current, under the presidentship of M. Th de Saussure, and are now able to furnish some further details.

Professor Soret, in delivering a most interesting report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Genevese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellency unanimously decided in favor of Messrs. J. M. Badollet & Co. This firm having carried off the sole prize by exhibiting a chronometer which fulfilled in the highest degree every condition required, crowned their first success by gaining honorable mention for two other chronometers. The allusion to this triple honor was received with enthusiastic applause, and Professor Humbert, President of the Fine Arts Section, closed the meeting with a happy and humorous dissertation upon subjects connected with this department.
