SYNOPSIS OF CANADIAN NORTH WEST LAND REGULATIONS

The sole head of a family, or any male over 18 years old, who was at the commencement of the present war, and has since continued to be a British subject or a subject of an allied or neutral country, may homestead a quarter-section of available Dominion Land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at Dominion Lands Agency or Sub-Agency for District. Entry by proxy may be made on certain conditions. Duties—Six months residence upon and cultivation of land in each of three years.

In certain districts a homesteader may secure an adjoining quarter-section as pre-emption. Price $3.00 per acre. Duties—Reside six months in each of three years after earning homestead patent and cultivate 50 acres extra. May obtain pre-emption patent as soon as homestead patent on certain conditions.

A settler after obtaining homestead patent, if he cannot secure a pre-emption, may take a purchased homestead in certain districts. Price $3.00 per acre. Must reside six months in each of three years cultivate 50 acres and erect a house worth $300.00.

Soldiers of entries may count time of employment as farm labourers in Canada during 1917, as residence duties under certain conditions.

When Dominion Lands are advertised for poster for entry, returned soldiers who have served overseas and have been honourably discharged, receive one day priority in applying for entry at local Agent's Office (but not Sub-Agency). Discharge papers must be presented to Agent.

W. W. CORY,
Deputy Minister of the Interior

N.B.—Unauthorized publication of this advertisement will not be paid for.

LOYALTY OF JAPAN HAS BEEN PLEDGED IN THE GREAT WAR

Viscount Ishii, Head of the Special Mission, Promised Amity and Co-Operation With the United States in the Struggle to Victory Against the Common Enemy of Civilization

Hands across the sea rarely have been clasped more tightly than they were on the day of reception accorded Viscount Ishii, Ambassador on special mission from Japan, and other members of the mission by the United States Senate. Both in the introduction of Mr Ishii by Senator Saulsbury, President pro tem, of the Senate, in the absence of Vice-President Marshall, and in the message delivered by Mr. Ishii, were assurances that America and Japan will fight shoulder to shoulder to certain victory against the common enemy of civilization.

"We are in the war," said Mr. Ishii, "we insist on being in it, and we shall stay in it because earnestly, as a nation of individuals, we believe in the righteousness of the cause for which we stand; because we believe that only by a complete victory for that cause can there be made a righteous, honorable and permanent peace so that this world may be made safe for all men to live in and so that all nations may work out their destinies untrammelled by fear."

Formal Ceremony in Senate.

The Ambassador and other members of the mission were received on the floor of the Senate with formal ceremony. Senator Saulsbury, in presenting Mr. Ishii, decared that the occasion typified "the complete international fraternity which common consciousness of international honor has brought about.

He also denounced the efforts of German propagandists to create distrust between Japan and the United States, declaring all such insidious diplomacy fruitless.

"We now know how industriously insidious attempts have been made by the German people to bring about distrust and hatred in the world," he said. "We know what evil attempts they have made to breed hatred and distrust of us among our friends, and we welcome this opportunity to heartily congratulate our old friends who honor us to-day that by the capture of Tsing Tau and the German islands in the Pacific Japan has completely removed from the Far Eastern world the only threat, as we believe, to peace and prosperity, the only threat to lasting peace in Eastern Asia.

Warns Against Evil Tongues

"Let us never permit hereafter that evil tongues of wicked propaganda shall cause even the simplest mind among our people to forget the ancient friendship of our nations or weaken the ties of mutual respect and regard in which we hold each other."

Mr. Ishii read his address, which was in English. He was frequently compelled to stop for hearty applause from the Senators. His tribute to Thomas Jefferson and the American ideal of life were especial occasions for hand clapping. He said in part;

"I shall not abuse this rare privilege by attempting to address at length, in a language of which I have but little command, trained leaders of thought and masters of argument and oratory. But I grasp this occasion to say to you that the whole people of Japan heartily welcome and profoundly appreciate the entrance of this mighty nation of yours into the struggle against the insane despoiler of our civilization.

"We of Japan believe we understand something of the American ideal of life, and we pay our mst profound respects to it. Jefferson, your great Democratic President, conceived the ideal of an American commonwealth to be not a rule imposed on the people by force of arms but as a free expression of the individual sentiments of that people.

Saw Them As Free Men

"Jefferson saw Americans not as a set of people huddled together under the muzzles of machine guns, but he saw them as a myriad of independent and free men, as individuals only relying on a combined military force for protection against aggression from abroad or treachery from within.

"I assure you, gentlemen, that the Japanese ideal of national life is, in its final analysis, not so very far removed from yours. We conceive of our nation as a vast family held together not by the arbitrary force of armed men but by the force of a natural development.

"In this tremendous work as we move together, shoulder to shoulder, to a certain victory, America and Japan must have many things in which one can help the other.

"I have an earnest and abiding faith that this association of ours —this proving of ourselves in the highest, most sacred and most trying of human activities—the armed vindication of right and justice—must bring us to a still closer concord and a deeper confidence one in the other, sealing for all time the bonds of cordial friendship between our two nations."

SWIMMING POOL TO BE PERMANENT

Fence May be Removed at Close of Season for the Winter.

REPORT SUBMITTED

Full Detailed Statement For the City Council Last Evening.

At the council meeting last night, Ald. J. J. Kelly, chairman of the special committee on the construction of the city swimming pool, submitted the following report: —

The pool is located on the Grand River opposite the lower end of Agricultural Park. An old pile driver was bought for $100.00 and for a like sum piles were secured from the L. E. and N. Railway and driven in two rows at right angles to the shore out into the river for a distance of 100 feet. The piles are about 7 feet apart. A third row was driven joining the ends of the others a distance of 80 feet. As the length along the shore, which is concave, is 120 feet the area of the pool is about 10,000 sq. feet. The pile driver was worked from a raft on which was placed a gasoline engine for lifting the 1900 lb. hammer.

In the part of the pool farthest from the shore where the water was too shallow to float the raft the pile driver was worked out on timbers two feet above the water and a fence constructed around the pool extending from the bottom of the river to three feet above the water level. This is built in sections and will be taken down in the fall and replaced next season. After removing the fence at the close of this season the water in the river should be lowered and the piles cut off one foot below the low water level, so that they will not be lifted by the ice when the river freezes.

At low water the pool is 5 feet in depth at about 15 feet from the shore, gradually lessening to 2 feet at the outer edge. Vertical gauges are placed every few feet around the edges on which height of the water at different levels is plainly marked. Two rows of steps lead from the bank (the City Dyke) to the waters edge, and a walk is constructed on the inside of the upper side of the pool, from the shore to the shallow water, so that the smaller children can go out without having to cross the deeper part. A life preserver with line attached is placed on one of the trees which shade the bank. A chute, spring boards, teeters and dressing rooms for boys and girls complete the equipment.

In my report to you of June 18th, 1917, I gave an approximate estimate for a pool 70 ft. by 80 ft. having an area of 5600 suare feet as $600.00. The pool constructed is about 100 ft. by 100 ft. having an area of 10,000 suare feet, the cost being $812.89 and includes steps, walk, gauges etc. not included in the original estimate. The area of the pool constructed is about 80 per cent greater than that originally proposed and the cost 35 per cent greater.

I enclose detailed estimate of cost. I remain, Sir,

Faithfully yours,
T. HARRY JONES,
City Engineer.
