Poetry.

WHAT MIGHT BE DONE.

What might be done if men were wise—
What glorious deeds, my suffering brother,
Would they unite
In love and right
And cease their scorn of one another?

Oppression's heart might be imbued
With kindling drops of loving-kindness,
And knowledge pour,
From shore to shore,
Light on the eyes of mental blindness.

All slavery, warfare, lies, and wrongs,
All vice and crime might die together:
And wine and corn,
To each man born,
Be free as warmth in summer weather.

The meanest wretch that ever trod,
The deepest sunk in guilt and sorrow,
Might stand erect,
In self-respect,
And share the teeming world to-morrow.

What might be DONE! THIS might be done,
And more than THIS, my suffering brother—
More than the tongue
E'er said or sung,
If men were wise and loved each other.

SPRING AND SUMMER

CLOTHING!

The subscriber has received per late arrivals, a large and varied assortment of GOODS, consisting of:—

CLOTHS, CASSIMERES, DOESKINS, Cashmeres, Cassimers, Bockskins, Velvets Satins, &c. with a large assortment of MATTRASSES Jammocks, Blankets, Sheets, Rugs, a superior article of OIL CLOTHING, Glazed, Beaver, and Silk HATS—high and low crowned, latest styles; Cloth and glazed Caps; silk and javen Covers for do; Belts and sheaths; Knives; Lambswool, Merino and Cotton Shirts and Drawers; Regatta and heavy striped do: White Cotton do., with Linen rimmings; Linen Fronts, and Collars; Red and Blue Flannel and Serge Shirts; with an assortment of *Tailor's Trimmings*, and almost every article in connection, suitable for a GENERAL CLOTHING STORE.

And, as heretofore, having made up in the concern a great part of the Clothes into *Fashionable Spring and Summer CLOTHING of the latest styles* he is now prepared with his large stock of Ready made Garments of every fabric, style and finish, for the farmer or laboring man, the gentleman of fashion or mechanic, the seafaring man, and all others; which will be hereafter proffered for sale to the public at lower prices than ever before known.

It is almost unnecessary to point out to a discerning public the vast benefit arising to the Province generally by having your Clothing made up in the place. You may safely say that every imported garment you purchase, you are actually sending one fourth of the cost unnecessarily out of the country, not to speak of the great injury you are entailing on a large class of industrious people in your own city. It is high time to look seriously into this matter, and to tell those people who import that they are the real enemies of the country, and that their slops you do not want; but patronize those, and those only, who always get their Clothing made up in the City, and sell them at a cheaper rate than imported garments can possibly be obtained; and those Goods you will now find at the

TRIUMPHANT SUCCESS OF
Buchan's Hungarian Balsam of Life,
THE GREAT ENGLISH REMEDY FOR
Colds, Coughs, Asthma, and Consumption.

THE most celebrated and infallible remedy for Colds, Coughs, Asthma, and every form of Pulmonary Consumption, is the HUNGARIAN BALSAM OF LIFE, discovered by that eminent medical chemist, Dr. Buchan, of London, England, and extensively known as the "Great English Remedy."

It has been tested for upwards of seven years in Great Britain and on the continent of Europe, where it is universally considered the great, and only remedy for this awful malady, and now introduced to the public under the immediate superintendence of the inventor. Within three years it has been distributed from Maine to Florida, and from Canada to Wisconsin, and its effects are every where alike ASTONISHING AND TRIUMPHANT.

As a preventive medicine, and an antidote to the consumptive tendencies of the climate, it is invaluable. As a remedy for severe and obstinate coughs Inflammation of the Lungs, croup, &c. it is unrivaled. But the Proprietors so confident of the merit of this great remedy, in the worst forms of consumption, that he prefers to have it used by the DYING INVALID, rather than by persons afflicted with some simple and less dangerous disorder of the throat and lungs:—this may seem strong language, but it is the result of experience in thousands of cases, sustained by the most intelligent and unimpeachable testimony. It is not pronounced an infallible remedy in all cases, but it is THE MOST INFALLIBLE remedy known to the civilized world. It is the best preventive of hereditary consumption—it is the best defender against the influences of climate—it is the best remedy for incipient consumption—and it is the great and only remedy for that fearful *softening of the lungs—inflammation of the membrane, and tuberculous decay*, which are the last effects of that dreadful scourge, and which are erroneously supposed to be beyond the reach of medical aid:—the agent or proprietors of other medicines dare not claim for their preparations a power like this: they know that in no case have such effects been produced:—the grand object and purpose of the common 'remedies' is simply to *give relief—not to cure*: this is easily done by an intelligent Physician or Druggist; but while dallaying with these delusive compounds, the patient rapidly declines, and every day places him farther and farther beyond the reach of hope.

Such is not the case with the Hungarian Balsam It is always salutary in its effects—never injurious. It is not an opiate—it is not a tonic—it is not a mere expectorant. It is not intended to lull the invalid into a fatal security. It is a great remedy—a grand healing and curative compound; the great and only remedy which medical science and skill has yet produced for the treatment of this hitherto unconquerable malady. It is in fact the *best remedy in the world!*

[From the John Bull, newspaper, London.]

There is certainly some mysterious and occult virtue in the famous "Hungarian Balsam of Life which the medical faculty are unable to discover or Dr. Buchan would not be permitted for so many years to enjoy the magnificent monopoly of the treatment and cure of Consumption in Great Britain. No satisfactory analysis of this famous compound has ever, to our knowledge, been offered to the public.
