SAVED FROM THE KNIFE

Appendicitis Cured By "Fruit-a-tives"

Newburgh, Ont., Feb. 12, 1910.

"Just about a year ago, our daughter Ella (fourteen years), was taken with terrible pains in the right side. The pain was so severe that we had to carry her to bed. We at once put her under the care of a first-class doctor, who pronounced it a case of Appendicitis and advised an operation.

"We took her to a hospital in Kingston, where she was again examined by an eminent specialist. He said she had Appendicitis and must be operated on at once if we wanted to save her life. As we had taken her to Kingston to have this done, we were ready, but our daughter was afraid and cried and begged so pitifully, that we postponed it for that day. Luckily for us and for her an uncle came in with some 'Fruit-a-tives' and insisted on Ella taking them. Good results were apparent, almost from the first dose, and the continuous treatment cured her.

"'Fruit-a-tives' saved our daughter from the surgeon's knift and today she is enjoying the best of health."

J. W. FOX (father).
LILLIAN FOX (mother).

Words cannot express the gratitude of Mr. and Mrs. Fox. And Miss Ella will always remember "Fruit-a-tives"—the discovery of an eminent physician, and the only medicine in the world made of fruit. 50c a box, 6 for $2 50, or trial box, 25c. At dealers, or sent, postpaid, on receipt of price by Fruit-a-tives Limited, Ottawa.

GREAT BRITAIN TO CONTROL BIG BAYS

Mr. J. S. Ewart, of Ottawa, Concludes His Argument Before Hague Tribunal.

London, July 16.—At The Hague conference Mr. J. S. Ewart, continuing for Great Britain, argued that the United States was wrong in asserting that in 1866 Great Britain had recognized that the United States had the right to fish in the Great Bays. Secondly, the word "bays" in the treaty of 1818 should be taken in its geographical sense, because the word did not then possess a judicial signification, as definite rules of international law respecting bays were not in existence at that time, and Britain then claimed sovereignty and absolute jurisdiction over the fisheries of its possession far beyond the territorial limit.

Quoted Hugo Grotius.

In treaties with France in 1713 and 1763, Mr. Ewart said the French fishermen were even excluded from fishing within thirty leagues of the coast of Nova Scotia, and England claimed jurisdiction over the whole Gulf of St. Lawrence. The proportions of the bays was undetermined territorially.

He preferred the criterion of Hugo Grotius that bays belonged to the countries surrounding them. Mr. Ewart also dealt with the question whether Newfoundland had the right to prohibit foreigners from fishing in her waters and to keep the privilege from American vessels, answering it in the affirmative.

A Masterly Speech.

Mr. Ewart's presentation of the British case is regarded as exceedingly effective. His colleagues, including the British Attorney-General and Sir R. Finlay, are exceedingly pleased with Mr. Ewart's style and address, it is in such marked contrast with that of the counsel for the United States who have appeared before the tribunal. Mr. Ewart's address has certainly taken a not less important place than Sir Robert Finlay's opening speech to the tribunal.

MARY MANNERING TO WED DETROITER?

Actress Denies Engagement to W. W. Wadsworth, Recently Divorced by Wife.

New York, July 15. — Friends of Mary Mannering, former wife of James K. Hackett, are waiting for her to come east to congratulate her personally upon the news to the effect that the actress is to become the bride of Frederick E. Wadsworth, of Detroit, Mich. Unless Miss Mannering returns east soon, they say, congratulations may have to be extended upon her marriage, rather than upon her engagement. That Miss Mannering was to be married again had been a great secret, and only a few of her most intimate friends knew it.

Mrs. Wadsworth secured a divorce from her husband last Monday in Kalamazoo, and received the custody of their daughter Helen.

Miss Mannering's marital troubles were cleared on Jan. 10 last, when the court granted her a divorce from Jas. K. Hackett, and gave to her the custody of their 5-year-old daughter.

Chicago, July 155. — Miss Mannering, at the Garrick Theatre here this evening, denied there was any engagement between herself and Mr. Wadsworth. She said her friends in New York were a little premature.

STREET CARS CRASH ON AN EAST RIVER BRIDGE

Twenty-Five Persons Injured in an Accident at New York.

(Associated Press.)

New York, July 15.—Twenty-five persons were injured in an accident on the Manhattan approach of the Queensborough Bridge over the East River today when a crowded car from North Beach with a theatrical party aboard crashed into the rear of a Flushing car. Passengers in both cars were thrown to the floors in a heap and the woodwork of the cars was badly splintered. Flying glass from the broken windows caused numerous minor injuries to those on board. The more seriously hurt were those in the rear of the North Beach car, caught in the splintering woodwork. All of the injured will recover.

LEMIEUX AND BRODEUR YOUNG ENOUGH TO WAIT

Why the Postmaster-General and the Minister of Marine Refused Knighthoods.

Ottawa, July 16.—It is impossible in the absence of the ministers to confirm the story that both Hon. Rodolph Lemieux and Hon. L. P. Brodeur refused knighthoods on June 24. It is popularly believed that Sir Wilfrid has no desire for any more knights in his cabinet, and while there is no doubt that the Postmaster-General would be willing to become Sir Rodolph, he is statesman enough to recognize that too many titles would do the party little good in the country at large. Quebec would not object so much as some of the English provinces; indeed, it would rather like the distinction Both the Postmaster-General and Minister of Marine will undoubtedly be knighted some day, but they are each young enough to wait.

ALFONSO'S PERIL.

Madrid, July 16.—An anarchist plot against the King is reported to have been discovered in Valladolid, shortly before King Alfonso went through that city on a train bound for Segovia.

An anarchist by the name of Moya has been arrested and several compromising letters were found in his pockets.

The police searched several houses.

FUNNY INCIDENTS OF DE LESSEPS' FLIGHT

Caused Great Excitement on Toronto's Streets and at the Island.

Toronto, Ont., July 14.—Not the least interesting thing about De Lesseps' wonderful flight over Toronto Wednesday was its effect upon the citizens. There was the greatest excitement throughout the city. The noise of the propellers could be heard plainly, and everyone rushed out of the house to see the airship.

It passed over the exhibition grounds, and out over the lake. It went over the Lakeside Hospital at the Island, and excitement of the children may be imagined.

All the cars stopped, and motormen and conductors and passengers ran out into the streets to see the birdman.

"This is better than the comet any day," one of them exclaimed.

One old man, who had nearly fallen in his hurry to see the aeroplane, exclaimed: "Little did I think that before I died I would see a man fly over the city. I remember the time when I laughed at the idea that a carriage could go without horses."

One woman was perhaps more astounded than anyone else. It is hard to believe it, but she had not known that there was an aviation meet being held in the city, and when she heard the noise last night, and saw the machine, she was badly frightened.

Another funny incident occurred at Hanlan's Point. On the beach near a Lake Shore avenue cottage enjoying the cool breezes of the early evening was a tall lady with two little boys and a greyhound. When the airship hove into sight the mother took one amestruck look upward and then w.... a kiddie under each arm and followed by the dog with tail between its legs, the whole party "beat it" for home.

LEAVES $5,000 TO SARNIA SOCIETY

Toronto, July 16.—The British Anti-Vivisection Society, $75,000.

The Toronto Humane Society, $25,000.

The Sarnia Humane Society, $5,000.

Miss Eliza Anne Gwynne, who died recently at her home in Parkdale, left those sums to her favorite charities. There were no other charitable bequests, although there were several personal legacies of $25,000 and several smaller ones.

Miss Gwynne could not leave the larger sum to any Canadian society, as there is no active society for the prevention of vivisection in this country. There are several in the States.

A FATAL FALL

Windsor School Teacher Succumbs to Accident of Last March.

Windsor, Ont., July 15.—Injuries sustained in a fall four months ago proved fatal to Miss Emma Boyd, a member of the teaching staff of the Cameron avenue public school, who is dead at her family home in Brockville. On her way to school one morning in March, Miss Boyd slipped and fell on the icy sidewalk, and as a result a form of hip disease developed, which proved incurable. Miss Boyd had been in the employ of the Windsor Board of Education for fourteen years.

JUDGE BARRON SELECTED

Will Act as Third Member of Toronto Conciliation Board.

Toronto, July 16.—The representatives of the Toronto Railway Company and the employees, Messrs. J. P. Mullarkey and D. J. O'Donohue, met this afternoon and decided on the third member of the conciliation board, His Honor Judge John A. Barron, of Stratford. This will make it unnecessary for the Government to appoint a chairman. These three will open their investigation in this city on Tuesday next.

WILL AVIATE TO THE GOLD FIELDS

Former Lambton Man Has Up-To-Date Prospecting Scheme.

Windsor, July 16.—The monoplane as a means of exploring and developing inaccessible gold mines high up in the mountains of Mexico is the project Dr. Armstrong, former resident of Mooretown, near Sarnia, is undertaking.

Magistrate Leggatt, of this city, a cousin of Dr. Armstrong's, is in receipt of a communication from the latter, in which he outlines his plans. Dr. Armstrong for the last few years has been prospecting along the New Mexico and Mexican border. He will fly into the mountain regions around Chihuahua, Mexico, carrying with him sections of a rock crushing machine, with which it will be possible to conduct his prospecting.

Dr. Armstrong learned that the Indians up in the mountains were frequent visitors to the village of Duange, and that they often brought back with them large gold nuggets, which they had found in the mountains and streams, which flowed from inaccessible pinnacles of the mountains.

Repeated efforts to reach the gold fields have been of no avail.

ROBLIN DENIES IT

Says Story of Entering Federal Arena Is Without Foundation.

Winnipeg, Man., July 15.—The rumor which percolated here from Montreal that Premier Roblin would enter Dominion politics, sitting for an Ontario seat, was detailed to the Premier here this morning.

His comment was brief and to the point.

"You may say," he declared, "that I have never heard of it before. It is absolutely unwarranted and untrue."

OPPOSE HEALTH BOARD.

Chautauqua, N. Y., July 15.—Dr. H. W. Wiley, chief of the bureau of chemistry of the agricultural department, speaking here today on the conservation of the nation's health, made the assertion that the patent medicine manufacturers were spending $25,000 a day in advertising to defeat the bill pending in Congress for a national board of health. The so-called leagues of medical freedom, Dr. Wiley declared, were the result of the patent medicine men's campaign. He said further that the bill has the support of the regular medical profession, and should become a law.

TWO BADLY INJURED IN A RUNAWAY

Buggy Was Upset—Lacross and Abbott, of Woodstock, May Die.

Ingersoll, July 16.—Two Woodstock men, Lacross and Abbott by name, employees of the Woodstock gun works, suffered serious injuries Thursday, as the result of a runaway. The two gentlemen were returning to Woodstock, and at the outskirts of this town their horse took fright and ran away. The patent shafts on the buggy became detached, upsetting the buggy and throwing the men violently to the ground. Both men were badly cut about the face and scalp, and it was found that Lacross sustained internal injuries. Abbott was taken back to Woodstock in an unconscious condition, and there are grave fears for his recovery.
