Poetry.

THE ANSWERED PRAYER.

BY MISS S. C. EGERTON.

I prayed for Beauty—for the Magic spell
That binds the wildest with its potent thrall.
That I within fond human hearts might dwell,
And shine the fairest in the festal hall.
I would have seen the lordliest bend the knee,
The loveliest bow, o'erdazzled by my charms:
While he, I long had vainly loved—ah, he,
Subdued, should clasp me fondly in his arms!

But Beauty o'er my spirit waved her wing,
Yet shed no brightness on my form or face;
And passing years but darker shadows fling
Upon the cheek where has left its trace.
My prayer, if heard in heaven hath been denied;
No heart bows humbly 'neath my beauty's sway:
And he I loved now seeks a fairer bride,
With brighter blushes and a smile more gay.

I prayed for Riches. Oh! for lavish wealth
To pour on golden showers on those I loved;
I would have gladly spent my youth and health
Could I, by gifts like these, my love have proved.
I prayed for riches that before God's shrine
I might with gifts and costly tributes kneel;
And thought the treasures of Golconda mine,
Too poor to show the favour of my zeal.

Alas! wealth came not; and the liberal deeds
My heart devised, my hand must fail to do;
And though o'er prostrate truth my spirit bleeds
In vain the aid of magic gold I woo:
The poor may plead to me for daily food,
And those I love in daily want may pine;
I will pour out for them my heart's warm blood,
But other gifts than this can ne'er be mine.

I prayed for Genius—for the power to move
Hard hearts, and reckless, minds, and stubborn
To execute the holy deeds of love,
And light Truth's fire upon a thousand hills.
I prayed for Eloquence to plead the cause
Of human rights, and God's eternal grace;
To cry aloud o'er Mercy's outraged laws,
And speed a great redemption of my race.

But all in vain. My feeble tongue can breathe
No portion of the fire that burns within;
In vain my fancy vivid thoughts may wreathe
In scorching names to vanquish human sin.
Powerless my words upon the ear fall by,
And wrong and crime, disdain the weak crusade;
While vice scans on me its exulting eye
And tide me slow the consequences I have made.

I prayed for Peace—for strength to bear
The keen privations of my humble fate:
For patient faith to struggle with despair,
And shed a brightness o'er my low estate.
I prayed to be content with humble deeds,
With "widow's mites," and scanty charities,
To follow meekly where my duty leads.
Though through the lowliest vale of life it lies.

My prayer was answered: for a peace divine
Spread through the inmost depths of all my heart;
I felt that the same blessed lot was mine
Which fell on her who chose the better part.
What though the world abroad ne'er hears my name?
What though no chains upon weak hearts I bind?
It is a happier lot than wealth or fame
To do my duty with a willing mind!

HOLLOWAY'S OINTMENT.

EXTRAORDINARY CURE OF A CASE
ABANDONED BY
Guy's, the Metropolitan, King's College, and Charing Cross Hospitals.

SUMMARY OF AFFIDAVIT.
Wm. BROOKE, Messenger, of 2, Union street, Southwark, London, maketh oath and saith, that he (this deponent) was afflicted with FIFTEEN RUNNING ULCERS on his left arm, and ulcerated sores and wounds on both legs, for which deponent was admitted an out-door patient at the Metropolitan Hospital, in April 1841, where he continued for nearly four weeks. Unable to receive a cure here, the deponent sought relief at the three following Hospitals:—King's College Hospital, in May, for five weeks; at Guy's Hospital in July, for six weeks; and at Charing Cross Hospital, at the end of August, for some weeks more; which deponent left, being in a far worse condition than when he had quitted Guy's, where Sir BARNSBY COOPER, and other medical officers of the establishment, had told deponent *that the only chance of saving his life was to LOSE HIS ARM!* The deponent thereupon called upon Dr. Bright, chief physician, of Guy's, who, on viewing deponent's condition, kindly and liberally said, "*I am utterly at a loss what to do for you! but here is half a sovereign; go to Mr. HOLLOWAY, and try what effect his Pills and Ointment will have, as I have frequently witnessed the wonderful effects they have in desperate cases. You can let me see you again.*" This unprejudiced advice was followed by the deponent, and a *perfect cure* effected in three weeks, by the use alone of HOLLOWAY'S PILLS and OINTMENT, after four Hospitals had failed!!! When Dr. Bright was shown by the deponent, the result of his advice and charity, he said, "I am both astounded and delighted, for I thought that if I ever saw you again alive, it would be without your arm. I can only compare this cure to a charm!!!"
Sworn at the Mansion house of the city of London, this 5th day of March, 1842. } WM. BROOKE.
Before me, JOHN PIRIE, Mayor.

IN ALL DISEASES of the Skin, Bad Legs, Old Wounds, and Ulcers, Bad Breasts, Sore Nipples, Stony and Ulcerated Cancers, Tumours, Swellings, Gout, Rheumatism, and Lumbago, likewise in cases of Piles, the Pills, in all the above cases, ought to be used with the Ointment; as by this means cures will be effected with a much greater certainty, and in half the time that it would require by using the Ointment alone. The Ointment is proved to be a certain remedy for the bites of Musquitoes, Sand-flies, Chiego-foot, Yawns, and Coco-bay.
Burns, Scalds, Chilblains, Chapped Hands and Lips, also Bunions and Soft Corns, will be immediately cured by the use of the Ointment.
THE PILLS are not only the finest remedy known when used with the Ointment, but, as a General Medicine there is nothing equal to them. In Nervous Affections they will be found of the greatest service. These Pills are, without exception, the finest purifier of the Blood ever discovered, and ought to be used by all!!!
N. B.—Directions for the guidance of Patients are affixed to each Pot.
Sold at *PETERS & TILLEY's*, No. 1, *King Street, St. John, N. B.*

RILEY'S DENTIFRICE.

As an essential point of beauty the TEETH must ever stand pre-eminent. No regularity of feature no brilliancy of complexion, no sparkling eyes, or silken hair, can render that lady beautiful who, when she opens her lips, (though they be of coral) discloses a set of discoloured Teeth. On the contrary, even homely features and a sallow complexion are embellished and rendered agreeable by a set of white Teeth. On the other hand, the effects of decay, the accumulation of tartar, the black teeth and tainted breath, which are invariable accompaniments of a bad state of the mouth, will always prove loathsome and disgusting.
Among the various disorders of the mouth, there is none so destructive as scurvy—which on first entering the gums causes them to bleed on the most trifling occasions, and produces the most offensive and putrid breath. *There is more loss of Teeth from this Disease than from all others.*
Could persons afflicted with it see for a moment the state of their mouth, or catch the odour of their own breath, they would rejoice in finding a remedy so cheap and simple, and yet so efficacious, as the one now offered.
To professional men, shop keepers, and tradesmen generally, who have much intercourse with the fashionable world, a good state of the mouth must be of the utmost importance.
Besides, is not an offensive breath, which in nine teen cases out of twenty, proceeds from a bad state of the Teeth and gums, very much calculated to prevent the blessings of matrimony? and how often from inadvertence or neglect is the happiness of the married state grievously interrupted from the same cause.
To insist on the importance of these things must be a waste of words were it not obvious that there are many persons who never give themselves the trouble to think upon the subject—who seem entirely aware that they possess Teeth at all, while their gross and culpable negligence tendets the fact too apparent to their friends and associates.
Another cause of the rapid decay of Teeth, which is remarkable on the whole continent of North America, is a peculiarity in the climate—the rapid and sudden changes from one extreme to another which are of almost daily occurrence.
This source of decay, as well as the scurvy, is annihilated by using
RILEY'S DENTIFRICE,
which makes the Teeth beautifully white, eradicates the scurvy, preserves and restores the enamel where injured, sweetens the breath, preserves the Teeth sound and handsome until the most advanced age, and by constantly using will prevent the toothache. It was used and most highly approved of by his late Majesty George the Fourth, (the most perfect gentleman of the age he lived in,) and by the principal nobility of his Court; and has never failed to give the most unqualified satisfaction. In several instances the inventor has received considerable presents from parties, as a mark of gratitude for the benefit their Teeth had received from the use of it. Mothers may rest assured, that if their children have sound Teeth at present, they will by using this DENTIFRICE never have occasion to employ a Dentist—as their teeth will remain sound and beautiful until the most mature age.
☞ *Observe that* G. RILEY'S *name is signed, in his own hand-writing on the label of each box.*
☞ PRICE—HALF A DOLLAR PER BOX.
Messrs. PETERS & TILLEY, of Saint John, N. B., are my Wholesale Agents for the Provinces of New Brunswick and Nova Scotia, for the sale of the above celebrated article.
September 25 GEORGE RILEY.

By the Queen's patent.

TRIUMPHANT SUCCESS OF
Buchan's Hungarian Balsam of Life,
THE GREAT ENGLISH REMEDY FOR
Colds, Coughs, Asthma, and Consumption.

THE most celebrated and infallible remedy for Colds, Coughs, Asthma, and every form of Pulmonary Consumption, is the HUNGARIAN BALSAM OF LIFE, discovered by that eminent medical chemist, Dr. Buchan, of London, England, and extensively known as the 'Great English Remedy.
It has been tested for upwards of seven years in Great Britain and on the continent of Europe, where it is universally considered the great and only remedy for this awful malady, and is now introduced to the public under the immediate superintendence of the inventor. Within three years it has been distributed from Maine to Florida, and from Canada to Wisconsin, and its effects are every where alike ASTONISHING AND TRIUMPHANT.
As a preventive medicine, and an antidote in the consumptive tendencies of the climate, it is invaluable. As a remedy for severe and obstinate coughs, inflammation of the Lungs, croup, &c. it is unrivaled. But the Proprietors so confident of the merit of this great remedy, in the worst forms of consumption, that he prefers to have it used by the DYING INVALID, rather than by persons afflicted with some simple and less dangerous disorder of the throat and lungs:—this may seem strong language, but it is the result of experience in thousands of cases, sustained by the most intelligent and unimpeachable testimony. It is not pronounced an infallible remedy in all cases, but it is THE MOST INFALLIBLE remedy known to the civilized world. It is the best preventive of hereditary consumption—it is the best defender against the influences of climate—it is the best remedy for incipient consumption—and it is the great and only remedy *for that fatal softening of the lungs—inflammation of the membrane, and tuberculous decay*, which are the last effects of that dreadful scourge, and which are erroneously supposed to be beyond the reach of medical aid:—the agent or proprietors of other medicines dare not claim for their preparations a power like this; they know that in no case have such effects been produced;—the grand object and purpose of the common 'remedies' is simply to give *relief—not to cure*; this is easily done by an intelligent Physician or Druggist; but while dallying with these delusive compounds, the patient rapidly declines, and every day places him farther and farther beyond the reach of hope.
Such is not the case with the Hungarian Balsam it is always salutary in its effects—never injurious. It is not an opiate—it is not a tonic—it is not a mere expectorant. It is not intended to lull the invalid into a false security. It is a great remedy—a grand healing and curative compound; the great and only remedy which medical science and skill has yet produced for the treatment of this hitherto unconquerable malady. It is in fact the *best remedy in the world!*
[From the John Bull, newspaper, London.]
There is certainly some mysterious and occult virtue in the famous "Hungarian Balsam of Life, which the medical faculty are unable to discover, or Dr. Buchan would not be permitted for so many years to enjoy the magnificent monopoly of the treatment and cure of Consumption in Great Britain. No satisfactory analysis of this famous compound has ever, to our knowledge, been offered to the public.

By special appointment PETERS and TILLEY, No. 2, King street, St. John, Sole Agents for the Province of New-Brunswick. Aug. 1.

SANDS'S SARSAPARILLA,
For the removal and permanent cure of all Diseases arising from an impure state of the Blood, or habit of the system, viz:
Scrofula or King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules in the Face, Blotches, Biles, Chronic sore Eyes, Ring Worm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, stubborn Ulcers, Syphilitic symptoms, Sciatica or Lumbago, and diseases arising from an injudicious use of Mercury, Ascites or Dropsy, Exposure or improprieties in Life; also, Chronic constitutional disorders, &c.
"EVERY cell and organ of the human body" says a distinguished medical writer, "is originally built of, grows, and is renewed by an independent vital force; and when causes which have arrested such growth or renewal, are removed, then by the influence of this vital force, the actions in a part, or in the whole system, resume their harmonious course, and the ravages consequent upon disease are overcome, obliterated and repaired." Here is the whole theory of disease, and the same author proceeds to say, that in many diseases "substances are conveyed into the blood which are incapable of assimilation." In order therefore, to restore this "vital force" and get rid of these substances, it is necessary to employ an agent which will act with directness and certainty upon the blood in the process of its manufacture, preventing the introduction of non-assimilating substances, and thus cutting away, as it were, the very roots of disease. That this preparation is such an agent is abundantly proved by the innumerable successful results that have attended its use. It expurgates the source of the disease, and of course its outward evidence, robbed of their infectious substance in the blood, are rapidly absorbed, and the patient is restored to health.
The Proprietors submit to the Public the following certificate from a highly respectable source, of a cure made by using their preparation of Sarsaparilla:
NORWICH, N. Y., Oct. 6, 1846.
Messrs. A. B. & D. Sands—
Gentlemen—Feelings of gratitude induce me to make a public acknowledgement of the benefit I have derived from the use of your Sarsaparilla. I have for several years been afflicted with scrofulous swellings in my head, which at times would gather and discharge at my throat, nose, and ears and at others, would break out in different parts of my head and face. These continued until my throat, face and head were almost one complete sore, and for a long time I was so hoarse that it was with the utmost difficulty that I could speak above a whisper. During this time I had several attacks of pleurisy and other diseases. I consulted different physicians, and tried various remedies, but received no benefit until I commenced using your Sarsaparilla. I am now well; the sores are all healed, and I attribute the result entirely to the effect of your valuable medicine. Your's with respect and gratitude,
PHEBE CAHOON.
Being personally acquainted with the person above named, I believe her statement to be correct.
JAMES M. D. CARR, Justice of the Peace.
The following testimonial from the Agent to the value of the Sarsaparilla in a case of leprosy will be read with interest by all similarly afflicted:
BEAVER, Pike Co. Ohio, sept. 7, 1846.
Messrs. A. B. & D. Sands:
Gents—A man near here used six bottles of your valuable Sarsaparilla for the leprosy, and has received more benefit from it than all other remedies combined for six years past. It restored a hand, leg and foot from a situation that no person would have known they belonged to a human body, as all appeared to be one mass of putrifying sore. His hand and other diseased parts are all restored to their natural size and feeling; are entirely healed over, and his leprosy cured: he intends using a few more bottles to permanently establish his health.
Your's respectfully, G. W. RAYSOLDS.
For further particulars, and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained of Agents gratis.
Prepared and sold by A. B. & D. SANDS, Druggists, 100 Fulton street, corner of William, New York.—*Sold also by T. WALKER & SON, Saint John, N. B*; Morton & Co., Halifax; John Musson & co., Quebec, and by Druggists generally throughout the United states and the British Provinces.
Price $1 per bottle; six bottles for $5.
☞ The Public are respectfully requested to remember that it is Sands' Sarsaparilla that has been and is constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject; therefore ask for *Sands' Sarsaparilla*, and take no other. Feb. 12.
