WHEAT UP AND DOWN ERRATIC MOVES IN PIT

Crop News Was Somewhat Conflicting, and Traders Ignored Its Importance — May Option Closed Higher, But Deferred Futures Were Weak.

CHICAGO, April 30.—Improved crop conditions thruout the west, but especially in Oklahoma, sent a majority of wheat traders to-day to the bear side of the market. The close was nervous, varying from ⅜c to ½c lower to ½c advance, as compared with last night. Corn scored a net gain of ⅛c to ½c; oats finished irregular, ⅛c off to ½c up, and provisions at a decline of 2½c to 2½c.

Belief that the price of wheat had not descended as much as beneficial rains would imply led to selling pressure right at the outset. Setbacks were not great, however, until the announcement of the Oklahoma state report, showing a crop condition of 81, as against 84 a month ago, and indicating a probable yield of 25,000,000 bushels, compared with 40,000,000 bushels last year. Notice was also taken of the fact that the world's available supply stood 47,000,000 bushels in excess of the total twelve months before.

Seeding Delayed in Northwest

Delayed seeding northwest served to restrain the downward tendency of the market, and to a some extent did official acknowledgments that the Ohio crop was almost a failure. A still better rally near the end of the session came a sa result of big cash sales here and the chattering of lake tonnage. Between the opening and the close July ranged from $1.09¾ to $1.12, with last sales $1.11⅛ to $1.11⅛, a net loss of ⅜c to ½c.

Talk of a good demand southwest had a stimulating effect on corn prices. July fluctuated between 77½c and 78⅝c, closing firm, ½c net higher, at 78⅝c.

In oats, the great discount of values under corn brought about a rally, except for May, which was suffering because of liquidating sales, due to the proximity of delivery. July ranged from 54⅝c to 55⅝c, with the close 54⅞c, just the same as last night.

Suggestions that abnormally high prices for packing house products would cause serious curtailment of consumption led to a lower quotation to-day. Pork reacted the most—10c to 27½c.

DROUGHT IN EUROPE AFFECTS CROP OUTLOOK

Broomhall's weekly summary of foreign crop conditions follows:

United Kingdom: The weather still continues dry and rain would be very beneficial for the spring crops.

France: The crop outlook is favorable. Offerings of native wheat are on a larger scale. Rain is needed for the late seedings.

Germany: There is some anxiety regarding the crops owing to continued dry weather. Offerings of native wheat are on a small scale, and prices have advanced to an import parity.

Hungary: Crop outlook generally favorable, altho warm weather would be desirable.

Roumania: Crop outlook good. Reserves of old wheat are reported to be small. The weather is seasonable.

Turkey: There are complaints of unseasonable weather.

India: There are increased shippers' offers, which indicate a favorable harvest outlook. According to mail advices there has been some damage to wheat in the United Provinces, but the crop will equal last year's.

Australia: There have been moderate beneficial rains for the crop.

Russia: In the southwest there have been rains, but dry warm weather is needed. In the southeast the crops have improved, and are generally favorable. There have been some complaints regarding the winter crops. Arrivals from the interior are rather larger.

Italy: Crop outlook has improved. Danubian sellers have cancelled many April contracts owing to the closing of the Dardanelles. The weather is favorable.

Spain: In the north the crop outlook is fair; elsewhere unfavorable.

North Africa: Crop outlook rather better as a result of moisture.

CHICAGO GOSSIP

J. P. Bickell & Co. from Logan & Bryan:

Wheat—It was a decidedly checkered market in wheat for the session with a number of sharp dips, a generally lower level than yesterday and each depression followed by quick and strong rally. The trade was more inclined to follow bearish news than at any time for weeks, having the impression that the good rains all over the west may easily give a somewhat better crop promise than Kansas and other states. This general feeling of bearishness may be misleading, as the evidence is still quite strong that the western states will suffer from abandoned acreage and thin spotted condition of much of the standing wheat.

Erickson, Perkins & Co. (J. G. Beaty), wired the following:

Wheat—Opening prices showed a general decline as compared with those of last night, but the market rallied from the low point of the opening, easing again after noon on general selling and scattered liquidation, due in part, to the Oklahoma state report, which gave a condition of 84 as compared with 74 April 1, altho the government condition on that date was 82. Liquidation in May wheat was largely responsible for a generally easier tone in the whole market. We are inclined to feel that to-day's setback in prices is enough, and that we will see a higher market.

Corn—The undertone was very firm all day, notwithstanding the lower market for wheat. Prospect of further rains was a strengthening influence. The market shows no inherent weakness, and while we do not look for any material change in prices, no break of moment may be looked for.

Oats—Continued cold and wet weather has unquestionably curtailed seeding operations in many localities and we are of the opinion that the final area seeded will be disappointing as compared with early estimates and therefore feel inclined to advise purchases of the September delivery.

Winnipeg Grain Market.

WINNIPEG, April 30.—Trading on the wheat market in options was very slow and dull, despite the sensational break in prices of Monday. Opening figures were unchanged, and, with a poor demand, prices declined fractionally, finally closing ⅛c lower for May and May (new), unchanged for July and ⅛c lower for October. Cash demand was extremely quiet, very little new business being done pending navigation opening up thoroly.

Oats and flax bids were somewhat stronger. Receipts were heavy, 320 cars being in sight for inspection to-day.

LIVERPOOL, April 30.—Cotton futures closed steady: May, 6.22d; May-June, 6.22d; June-July, 6.23d; July-Aug., 6.24d; Aug.-Sept., 6.23d; Sept.-Oct., 6.19d; Oct.-Nov., 6.17d; Nov.-Dec., 6.15½d; Dec.-Jan., 6.14½d; Jan.-Feb., 6.14½d; Feb.-March, 6.15d; March-April, 6.15½d.

86 CARS AT CITY YARDS CATTLE TRADE STEADY

Best Butchers in Demand—Sheep and Lambs Firm—Hogs $8.85.

The railways reported 86 carloads of live stock at the city yards, comprising 1311 cattle, 1060 hogs, 105 sheep, 821 calves.

There was a fair trade in all classes of live stock at Monday's quotations, quality being equal.

The top price for a straight load of butchers' cattle, weighing around 1200 lbs., was $7.30.

Butchers

There were cattle bought for butchers' purposes or export weights, at prices ranging from $7 to $7.30; butchers' cattle, weighing from 1000 to 1100 lbs., at $6.50 to $6.75; cattle, 800 to 900 lbs., at $6.25 to $6.40; cattle, 600 to 700 lbs., at $6 to $6.35; cows, $4 to $6, with some extra quality cows at $6.25 to $6.60; bulls, $4.50 to $6.

Feeders, 800 to 900 lbs., sold at $6 to $6.25; stockers, 500 lbs. to 600 lbs., sold at $5 to $5.25; cows to turn out on grass sold at $4.

Milkers and Springers

Many of the cows now being offered are misfits, or the class for which there is no really reliable demand. More cows of the good to choice classes, are wanted than are coming forward and $60 to $65 would be paid for such, or up to $70 or even higher for something fancy in the Durham or Holstein line, but few of this class are being offered, altho $75 and $80 was paid to-day, and one extra cow was sold at $100, by Fred Armstrong. The ordinary light class of light cows sell down around $40 and $45, and only inferior sell below these figures.

Veal Calves.

About 900 veal calves were on sale to-day. Prices ranged from $4 to $7 per cwt. for the bulk, as will be seen by sales given below.

Sheep and Lambs.

Wesley Dunn quoted sheep, ewes, at $5.50 to $6.50; rams, $4.50 to $5; yearlings at $6 to $8.50 per cwt.; spring lambs at $3 to $7 each.

Hogs.

Early in the day $8.75 was the price paid, but in the afternoon, $8.80 and $8.85 for selects fed and watered, and $8.40 to $8.50 f.o.b. cars was reported as being paid.

MAKING ENDS MEET

J. F. Wildman Spoke on Positive Side of Advertising

"Making Ends Meet or the Positive Side of Advertising," was the subject chosen by J. F. Wildman of the Office Specialty Co., who addressed the members of the Toronto Ad Club at their weekly luncheon yesterday.

"Advertising," said the speaker, "is the world's greatest index. And advertising is useful according as it is positive.

"Just as a man's greatest asset is the greatest number of friends he can make, so it is with an advertisement. To make friends by his advertising, an advertiser must have ideals. And his ideals must be always higher than his present attainments.

"When the ideals in an advertisement are high, the product is forced up to a higher standard; for the product must live up to the advertisement. That is what I mean by making ends meet. It has long ago been discovered that questionable advertising will not pay from a business standpoint."

In conclusion Mr. Wildman pointed out that in compelling goods and service to live up to the advertising, advertising had raised the standard of business integrity.
