THE PEOPLE'S PASTIMES.

WHAT IS GOING ON IN SPORTING CIRCLES THE WORLD OVER.

Result of the Toronto Clay Pigeon Sweep —Hunt Club Dinner—Snowshoe Games —General Notes of Sport.

Races at Hamilton and Ottawa to-day.

A bicycle tournament will take place in Vienna this year.

Captain Bogardus, Buffalo Bill and Dr. Carver go to London next June.

John Murphy has put Judge Fullerton, 2.18, up for raffle at $5 a chance.

Hon. John L. Mitchell of Milwaukee is the latest addition to the list of trotting horse breeders.

Montreal chess men are wrestling with Dr. Zukertort, but as yet have been unable to down him.

Jimmy Weeden, the Pittsburg pugilist, is matched to run William Kreamer 100 yards for $100 a side.

The stands of the Chicago union club, which has the finest ball grounds in the country, will seat 10,000 people.

The Boston bicycle club has a three-story club house, with billiard, smoking and reading rooms and a gymnasium.

The cock pit at Columbia, Ga., is in the court house back yard. When any important main is on the judge adjourns court.

John L. Sullivan's mother is a large, finely-built woman, and his father is about 5 feet 3 inches tall, and weight 127 pounds.

In the great billiard match in England for $2000 a side Peall defeated North by a score of 2000 points to 783, a majority of 1217 points.

There was so much gate money in the last match in Detroit between Dufur and McLaughlin that the wrestlers are getting up another one.

A correspondent of the Spirit writes that Bob Miles, favorite for the Kentucky Derby, has had a slight touch of pneumonia and is recovering.

The first horse to show 2.30 or better this year is an Oregon horse on a California track. Billy Barker trotted in 2.29½ recently at Oakland, Cal.

A Western farmer, who educated his son at a Northern college, says: "He is first-rate at baseball, but I ain't found out yet where geography and 'rithmetic comes in."

H. V. Bemis of Chicago, the former owner of the most famous and popular trotting stables in the United States, has again decided to renew his connection in an active way with the turf.

Arthur Chambers has put up a forfeit of $100 with the New York Clipper for William Sheriff to fight any one (Sullivan not barred) to a finish for $500 or $1000 a side, Marquis of Queensberry rules.

J. D. McColl of Lobo and S. J. Happer of East Williams, will, armed with cross-cut, lance-tooth saws, challenge any other two men in the wide world to saw logs or cordwood with them. Terms—$100 or upwards.

In an amateur skating race at the Aylmer rink on Feb. 9, Geo. Clarke made five miles in the unprecedented amateur time of 21 minutes 9½ seconds. Clarke is 16 years of age, slightly built, and of medium height.

The amount of money added to races run for upon the English and Irish turf goes on increasing. In 1880 it was £246,000, in 1881 £249,000, and last year £263,000, while for the past year the total is no less than £268,000.

Jack Stewart, the London pugilist, in acknowledging receipt of the articles for his glove fight with Harrison of Lindsay, says he can't sign them just yet, as he has to meet Thompson once more. After that, with a few alterations in the agreement, he will meet Harrison.

Eugene Carter is still dissatisfied with his game at rail billiards with Catton in St. Louis, and wants to play for $500 any carom game. He has issued a challenge to this effect, and been accepted by Gallagher of St. Louis. The game comes off Feb. 14 in St. Louis.

A bicycle tournament under the auspices of the Quaker City bicycle club will be given at Philadelphia on June 17, 18 and 19. In connection with the races the club proposes holding a fair for the exhibition of bicycles and cycling goods and manufactures. Prizes are liberal.

A baseball association was organized at St. Paul a few days ago with a capital of $10,000. It will be a member of the Northwestern league. The management will organize a nine at once, which is easier said than done, as ball tossers are scarce, and they want a good round salary.

The prizes offered at the annual games of the Toronto snowshoe club, which take place on the Jarvis street lacrosse grounds Saturday afternoon next, will be on exhibition at the Sheffield house to-day. They consist of gold and silver medals, cups, badges, etc., and are well worthy of competition. In addition to the events already mentioned, there will be a race for boys under 15 in costume.

James Pilkington of New York wants to make a match with any amateur athlete in the world for an all-around competition for a prize not to cost less than $250 or more than $500, at the following games: Rowing from one to three miles, running from half a mile to a mile, walking from one mile to ten, fencing with broadswords and singlesticks, Græco-Roman wrestling, catch-as-catch-can wrestling, boxing, pigeon shooting, and rolling at ten-pins, the winner of six out of eleven to take the prize.

The Toronto clay pigeon sweep resulted as follows:

Hayper	111	111	111	111	111	15
Rogers	111	111	111	111	011	14
Townsend	1111	00	10	10	11111	11
Cockburn	110	111	111	101	000	11
Black	111	0	0001	111	1111	11
G. H. Briggs	11	0	1111	0	1111010	11

Wayper consequently carried off the gold medal and $19. Rogers got a silver medal and $11.40 and Townsend a cup and $7.60. In a 26 yards match, 5 birds each, Townsend scored 1 and Briggs 0.

Hunt Club Dinner.

Cards are out for the annual dinner of the Toronto hunt club at the Queen's hotel on Saturday next, Feb. 16, at 8 o'clock. The departure from the custom that hitherto prevailed to have this event in the club room on King street is explained by the large number of invited guests who are expected to be present. The table will be laid for 150, and those who have been fortunate to have been present on former occasions will not hesitate to accept for Saturday evening next. What these gentlemen take in hand they do well and they are in the true acceptation of the term, "jolly good fellows." The cards are very neat, the letters being in gold on a tinted ground surmounted by a fox head looking through the lash of a hunting whip, with the handle passing between two hounds heads and beneath is the monogram of the club.

THE WORLD AT LARGE.

The chief prize in the Paris decorative art's museum lottery, valued at $20,000, was drawn lately by a servant at Montgaris.

Two members of a party of burglars recently apprehended in London were women, who, attired as men, burgled with their male "pals."

"Lost, a cameo brooch, representing Venus and Adonis while walking in Sandymount (near Dublin) on Sunday last," appears in a Dublin paper.

Mr. Plunkett, England's new minister to Japan, is married to a Philadelphia lady. He is a Roman catholic and brother to the late earl of Fingal.

Another trial of three members of the commissariat service for offences committed during the Turkish war is about to begin at St. Petersburg.

M. Gosselin, guardian at Versailles, has sold to the government a view recently executed by him of the Chateau of Arques.

The Luxembourg gallery at Paris has lately been closed to allow of the placing of works recently acquired.

In England two weeks ago butterflies were numerous, peas were above the ground and fuchias and roses were in leaf, some of the former having made vigorous shoots from four to six inches long.

The rumors of the death of King Mtesa, current in Europe last July, are not supported by anything known at Zanzibar, and are discredited by those Arabs who are best acquainted with the interior.

A shoemaker in Stamford, Conn., has occupied the same bench in the same shop for so many years that he has three times worn away the part of the floor where his feet had rested, and puts on a new half sole of leather over the hole every year.

The fires of London in 1883 compared with those of 1882, show an increase of 218, and compared with the average of the past ten years an increase of 446. The number of lives lost by fires during the year was 39. The number of actual fires was 2144, of which 184 resulted in serious damage and 1960 in slight damage.

Mrs. Weldon is a lady who wants the English divorce court to compel her husband to live with her. She has brought a suit for "restitution of conjugal rights," and the court had no option but to compel Mr. Weldon to live with her or send him to jail for contempt.

The British colonies receive more and more notice at the hands of the imperial government. Dr. Barry, the new primate of Australia, was consecrated in Westminster abbey (instead of the chapel at Lambeth, where colonial prelates are usually consecrated), evidently with a view to giving great eclat, and immediately afterward went on a visit to the queen.

Although 1883 was a far better year than the English agriculturist had known for a long time, the very low price of wheat prevents farmers from experiencing much advantage from it. Large numbers are holding on to their wheat, hoping for a rise (which is very unlikely to come), and have not threshed it.

It used to be the fashion in Paris to lunch at one of the cafes. Now, after the English custom, among Louis XV, pretty and costly toys, gay friends, the rustling of silk, the tinkling of gold spoons and bracelets, and the accompaniment of merry laughter, the 5 o'clock tea is made the excuse for the most charming of reunions.

The governor of Iowa, in a message to the general assembly of that state, recommends on the subject of school books the organization of a committee of competent educators of that state to "prepare and edit these works, and that the state publish the same, furnishing the books at cost price, and thus insure great saving to the people and the state."

An attempt is about to be made on a large scale to drain and replant the Roman Campagna. A certain amount of drainage work has been made compulsory on the land-owners, and no fewer than eighty irrigation companies under government control have been set to work to reclaim the waste lands. Minor experiments have meanwhile been fairly successful. Long deserted spots about S. Paolo Fuori le Mura have been made habitable by plantations of eucalyptus.

An elopement is reported to have taken place from Dublin within the last few days. The lady lived in the suburbs, and is the possessor of £300 per annum in her own right. Her father is owner of considerable property, and was in favor of her union with a gentleman of means; but the proposed match did not meet the daughter's approval, and she disappeared from Dublin in company with the object of her affections, a shop assistant in the city.

On the east wall of the Paris corn market has been set up an inscription recording that on the same site formerly stood the Hotel of the Queen, afterward called the Hotel de Soissons, which was erected for Catherine de Medicis in 1572, by Philibert Delorme. The last remains of this hotel, the astronomical column, were purchased in 1748 for $9000 by Petit de Rachaumont, who gave the column to the town of Paris.

The amount of the sales of the late international art exhibition at Munich was 677,010 marks ($169,250). Germany sold 459,895 marks' worth; France, 13,340 marks; Russia, 5000 marks; England, 1000 marks, and America 400 marks. The Munich museum bought for 40,000 marks, the Dresden museum for 5000 marks, the the Berlin museum for 2000 marks, the Tombola for 75,000 marks, and individuals for 510,000 marks.

Much sensation has been caused at Vienna among the lower classes by some alleged supernatural occurrences. In a house in a western suburb the furniture flies about, china is broken, pictures drop from the walls, tables fall, and lamps are broken, all by unseen agency. The police has interfered three times, and as the occurrences have been repeated the family has gone elsewhere, and the lodging has been locked up and sealed.

The gross value of the city of London in April next will be £4,237,000, and the ratable value £3,582,000, while the gross value of the rest of the metropolis will be £30,745,000 and the ratable £25,372,000. Thus, despite the rapid growth of the metropolis, the one square mile of the city keeps up its proportion of about one-seventh of the ratable value of the whole 120 square miles.

The number of newspapers and periodicals newly started in Germany has never been greater than during the month of December just past. Since the appearance of the last official list on December 10, three supplementary lists have been published, enumerating 134 new journals and periodicals; and deducting fifty-three of such of them as have meanwhile closed their career, the new year, 1884, begins with an increase of eighty one over its predecessor, all sprung into existence within less than four weeks.

Almost every day, says the London Truth, one reads how this landlord has "kindly" returned 20 per cent of the half-yearly rents to his tenants, and how another has remitted 10 per cent. Practical people in the country know very well that these abatements, on which so much ignorant eulogy is lavished, are forced upon the landlords, for if they insisted on exterting the full amounts due, they would lose their tenants and find their farms thrown upon their hands.

READABLE PARAGRAPHS.

—If a well be poisoned, woe to those who drink thereat. It is worse to poison the fountain of life for one's self and for posterity. Often by carelessness, or misfortune, or inheritance, this has been done. Ayer's Sarsaparilla frees the blood, the vital stream, and restores appetite, strength and health.

The item in Saturday's paper in regard to the charge made in the Hamilton police court against Ethelbert Servos by a woman named Clark was erroneous. The offer to compromise for $50 was made by the woman, and indignantly refused by the defendant. The magistrate, believing the charge was one of blackmail, dismissed the case.

—No other medicine is so reliable as Ayer's Cherry Pectoral for colds, coughs, and all derangements of the respiratory organs tending toward consumption. In all ordinary cases it is a certain cure, and it affords sure relief for the asthmatic and consumptive, even in advanced stages of disease.

The Rev. Thomas Harrison, the revivalist, is filling an engagement in a St. Louis church, the term being thirteen weeks, and the pay a hundred dollars a week and expenses. His conversions are very numerous,, and some christians desired him to extend his influence in another part of the city to the extent of making a ten-minute address at the opening of a revival series of meetings; but he refused unless recompensed in cash, and there is a great deal of hot criticism of him in consequence.

The Quickest Thing on Record.

—Fluid Lightning for neuralgia, headache, toothache, etc. It does not blister or discolor the skin; requires but one application to banish all pain magically without using any greasy liniment or carrying your head in a poultice for weeks. Try a twenty five cent bottle from F. T. Burgess' drug store, 364 King street east.

A mormon elder was proselyting in Indiana, and a plot was formed to seize him while he was addressing a public meeting, take him to a secluded spot, and maltreat him with tar and feathers. Being informed of his peril in advance, he did not run away, but boldly appeared according to appointment, preached mormonism in his most eloquent manner, and by his oratory so impressed the conspirators that they gave up the intention of mobbing him.

A Cure for Cuts, Sores, Etc.

—The finest healing compound under the sun is McGregor & Parke's Carbolic Cerate. There is no sore but will succumb to its wonderful healing properties. It is an invaluable dressing for scalds, festers, etc. Price twenty-five cents at F. T. Burgess' drug store, 364 King street east.

The grinding down of the people employed at some fashionable co-operative stores in London has been exciting much attention. Some of the employes have been kept thrice a week nearly to midnight without extra pay. In the hosiery department only 20 out of 101 get $10 and upward weekly.

—James Brayley, Hamilton, says: "I read the testimonials for McGregor's Speedy Cure and found that I had not to go to New York, Philadelphia, Louisiana or Texas to find living witnesses of its value, we had plenty of persons right here to prove its merits. I got a bottle and it helped me right away; I was as bad with bilious fever and indigestion as I think any one could be. I have taken three bottles and am nearly well and can eat any kind of food without it hurting me. I may say that I am better than I ever expected to be." Free trial bottles at F. T. Burgess' drug store, 364 King street east.

Failure to pass a school examination was sufficient cause for the suicide of an overstrained Minnesota student.

—Volumes of bombast have been published about the multifarious and irreconcilable effects of many proprietary remedies. The proprietors of Northrop & Lyman's Vegetable Discovery content themselves with facts susceptible of proof. They state their Purifier to be what it has proved itself to be, an eradicator of dyspepsia, constipation, liver and kidney troubles, and a fine general alterative.

The Trouble at Tomlinson's.

From the Arkansaw Traveler.

"I see," said Mr. Tomlinson, turning from his newspaper and addressing his better two-thirds, "that old man Grettle has buried another wife." "What, you don't say so? Why, his first wife only died two weeks ago. When did he marry again?" "He hasn't married again." "Tomlinson, you are a fool!" "Presumably, my dear, but why this outburst? Grettle has buried another man's wife. He is an undertaker, you know."

—Consumption is a disease contracted by a neglected cold—how necessary then that we should at once get the best cure for coughs, colds, laryngitis, and all diseases of the throat and lungs—one of the most popular medicines for these complaints is Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda. Mr. J. F. Smith, druggist, Dunnville, writes: "It gives general satisfaction and sells splendidly."

About 30,000 head of cattle and 1250 horses are on the ranches near the Rockies, and are wintering most successfully.

—The Star dyes are unexcelled for cheapness and fast colors. 135

—Himalaya (the abode of snow from the Sanscrit "hima," snow, and "alaya," abode) is the most elevated and stupendous system on the globe. The tea plant can be cultivated along the entire southern face of the Himalaya to an elevation of 5000 feet, but the best is produced at from 2000 to 3000 feet above the sea, and the quest only is sold by the Li-Quor Tea company at 39 cents per lb.

What is Catarrh?

From the Mail (Canada) Dec. 15.

Catarrh is a muco-purulent discharge caused by the presence and development of the vegetable parasite anæba in the internal lining membrane of the nose. This parasite is only developed under favorable circumstances, and these are: Morbid state of the blood, as the blighted corpuscle of tubercle, the germ poison of syphilis, mercury, toxæmea, from the retention of the effeted matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces or back of the throat, causing ulceration of the throat, up the eustachian tubes, causing deafness, burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death.

Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous tissue.

Some time since a well known physician of forty years' standing, after much experimenting, succeeded in discovering the necessary combination of ingredients which never fails in absolutely and permanently eradicating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease should, without delay, communicate with the business managers, Messrs. A. H. Dixon & Son, 305 King street west, Toronto, and get full particulars and treatise free by enclosing stamp.

An Old Soldier's EXPERIENCE.

"Calvert, Texas, May 3, 1882.

"I wish to express my appreciation of the valuable qualities of

Ayer's Cherry Pectoral

as a cough remedy.

"While with Churchill's army, just before the battle of Vicksburg, I contracted a severe cold, which terminated in a dangerous cough. I found no relief till on our march we came to a country store, where, on asking for some remedy, I was urged to try AYER'S CHERRY PECTORAL.

"I did so, and was rapidly cured. Since then I have kept the PECTORAL constantly by me, for family use, and I have found it to be an invaluable remedy for throat and lung diseases. J. W. WHITLEY."

Thousands of testimonials certify to the prompt cure of all bronchial and lung affections, by the use of AYER'S CHERRY PECTORAL. Being very palatable, the youngest children take it readily.
