REGISTRATION OF THE ORIGINAL GRANTS OF TOWNSHIPS LANDS.

Mr. MOONEY'S Bill to compel the Registration of the Original Grants of Township Lands in this Island, and the subjoined Address to Her Majesty, were agreed to in Committee, reported to the House, and ordered to be engrossed.

ADDRESS

"To the Queen's Most Excellent Majesty;

MAY IT PLEASE YOUR MAJESTY;

We, the Representatives of your faithful and loyal people of Prince Edward Island, in Parliament assembled, submit the inconvenience and insecurity arising from the want of a Law to oblige the original Grantees or Patentees, from the Crown, of Lots or Township Lands, to put their Grants or Patents on record, in the Office, in this Island.

The frequency with which Lands in new countries change hands, and in particular, in this part of your Majesty's dominions, together with the conflicting claims, sometimes, of parties to the same Land, renders an Act, such as is referred to, indispensable.

The Assembly, in order to remedy the want complained of have agreed to a Bill for that purpose, which is hereunto annexed; but having in view an Act, passed in 1832, (2 Wm. 4) bearing the same title with the present, although varying in its principles which was disallowed by the Crown. Since then, the Government of this Island applied to that of Nova Scotia, for copies of the several Original Grants of Township Lands of this Island, recorded in that Province, previous to this Colony becoming a separate Government; and, after incurring considerable expense and some trouble, obtained copies of those Grants so recorded, which were copied into the Public Records of this Island, by the addition of which, to those previously recorded, the great majority of the Original Patents from the Crown are now recorded in the Colony. But a few Proprietors, namely of Townships, No. 8, No. 12, No. 20, No. 23, No. 44, and No. 46, still continuing to withhold recording their Patents in the Register Office of the Colony which is deemed essential to the security of property, and the contentment of the people residing therein:

The Assembly, therefore submit, that those Proprietors heretofore enumerated, ought to have their Original Grants from the Crown recorded: and further submit, that a request so reasonable, which does not infringe upon private rights, and is considered requisite on matters of reference, when disputes arise between parties, ought no longer to be withheld from this Island.

May it, therefore, please Your Majesty, to cause instructions to be transmitted to the Lieutenant Governor of this Colony, that it is Your Majesty's pleasure, that the Bill, herewith referred to, be passed into a Law."

COMMITTEE.—Messrs. Mooney, Davies, and Hon. Mr. Jardine, were appointed a Committee to prepare and present an Address to His Excellency, the Lieutenant Governor, praying the transmission of the said Address, together with the Bill therein referred to, to Her Majesty.

From late English Papers.

In compliance with a desire expressed by Dr. Cullen, in which Archbishop Murray concurred, the Rev. Dr. O'Connell has declined to refute and expose, as he had advertised, Gavazzi's allegations against the dogmas and discipline of the Roman Catholic Church.

FORCIBLE ABDUCTION.—The magistrates of Tulla having investigated the charge of forcible abduction of Mary M'Grath, at Ballyseal, by Patrick Howe, of Quin, and a party of ten men, took information against the accused. It appeared that Howe, with his party, forcibly entered widow M'Grath's house, dragged her daughter out of bed, placed her half-naked, on a horse, and carried her off to the house of Thomas M'Donnell, (ten miles from her residence,) where she was kept the following day, locked up in a room with Howe. Several articles of dress were found, on the following morning, on the road, and her screams were heard by several, as she was borne along. Howe, with five others, have been committed to Ennis Gaol.

OBSTRUCTION OF EDUCATION IN FRANCE.—The correspondents of the London papers agree in stating, that a decree on public instruction is already prepared and is about to be issued. Among other restrictions to be put upon the liberty of education, it is to be laid down, that no school can be established without the authorization of the Government. The normal school of Paris, which is the establishment for the education of schoolmasters, is to be suppressed. It is thought that all communal schools will cease to exist, for it is resolved, that they shall be at the sole expense of the communes themselves, and that they will receive no subvention, as at present, from the State. The first consequence of this measure will be to throw upwards of 3,000 insertiers connected with public instruction (principally professors and schoolmasters) out of employment, and, as they are generally men living "from hand to mouth," to misery. The next will be to throw the cause of education back for half a century. This measure will have the most deplorable effect in the distant provinces. The object of it appears to be to throw education entirely into the hands of the priesthood, for it will enable the clergy to offer education on much cheaper terms than the lay establishments, which are to have no support from the Government.

A letter from Vienna says, "Another woman, on February 15th, was condemned to receive twenty blows with rods, and to be imprisoned for fourteen days, in irons, for using inflammatory language."

A woman at Liege has just been confined of three children, making twenty-four in nine years, having had three at every accouchement. The husband, who was anxious to perpetuate his name, is much disappointed at all his children being girls.

HASZARD'S GAZETTE.

TUESDAY, MARCH 30, 1852.

LEGISLATIVE DEBATES.—We have been informed by Mr. Irving, the Reporter to the House of Assembly, that he has been looking over his Notes of the unpublished Debates, and that he is of opinion he will be able to lay them before the public, in a condensed form, in about four or five weeks, after the close of the session, provided the usual weekly space can be allotted to their publication in the newspapers for that period of time. With respect to the publication of the Legislative Debates, in our own paper we have generally given them, either until the Reporter had nothing more to offer or, until we were obliged to desist from their further publication in compliance with the remonstrances of our subscribers. We cannot indeed, at present say, how much space we shall be able to allot to the publication of the Debates of this Session, still in the hands of the Reporter; but we think it probable, that we will act as we have hitherto done with respect to them. We take this opportunity, however, to state positively, that unless some more satisfactory arrangements be made for the supplying of us with these Debates in a future Session, we shall as regards them, consult our own convenience, more than we have ever hitherto done.

Editorial on two or three subjects have been crowded out by Debates of the House of Assembly. We have been furnished by the Reporter with the Debates in the Legislative Council, which we will endeavour to publish as early as possible.

THE Legislative Council has thrown out the Elective Franchise Bill. As this is a Government measure and one of the first importance, ought not the Premier to have resigned? It is now evident, that he does not command a working majority in the Upper House. This is a matter of too much importance to be dispatched in a hasty paragraph. The division was as follows:—

For the Bill,	Against it,
Hon. Mr. Swabey,	Hon. Mr. President,
Attorney General,	M'Donald,
Birnie,	Holl,
Dingwell,	Hensley,
Beete,	Rice,
