HAMILTON.

The Strathroy Knitting Company's Mills May be Rebuilt in Hamilton—Sudden Death of a Well-Known Horseman.

HAMILTON, Ont., Aug. 3.—It is possible that the Strathroy Knitting Company's mills, which were burned to the ground yesterday in Strathroy, will be rebuilt here. James Watson, of this city, is president of the company, and holds a big portion of the stock. The mills were mortgaged heavily, the creditors being the Bank of Montreal and Long & Bisby, of this city. If the mills are completely destroyed the loss will be $130,000, against an insurance of $65,000.

John Fillman, proprietor of the Black Horse hotel, and a well-known horseman, died suddenly at his hotel this morning.

The firm of Zelensky & Brownstein, who were engaged in several kinds of business and conducted three or four stores here, assigned to-day to Z. F. Lyall, barrister. The liabilities are said to be $6,500. The chief creditor is the McClary Manufacturing Company, of London.

THE HUSBAND OF SEVEN WIVES.

A Bigamist, Hotel Beat and Masonic Fraud Captured in Chicago.

[From the Cincinnati Commercial.]

Assistant Prosecuting Attorney Rulison and Detective Ryan left for Chicago last evening for the purpose of bringing B. F. Conrad here for trial. The charge is bigamy. Wife No. 3 is a sister of County Recorder Hobson. It is said, but perhaps with exaggeration, that there have been seven wives in all. Wife No. 3 felt the deception which was practiced on her keenly. As soon as she recovered from the blow she began to make efforts to bring him to justice. For more than three years she has been a frequent visitor at the office of Prosecuting Attorney Schwartz. She has located Conrad at one time and another in nearly all the important cities west of the Mississippi. While he was in Seattle she succeeded in having him arrested.

The officers there telegraphed for instructions as to whether they should hold him. Mr. Schwartz was in favor of replying in the affirmative and of sending an officer out there after the man, but the county commissioners hesitated on account of the expense of about $700 which would be involved in bringing him here, without reference to his trial. For that reason nothing was done.

Chief Deitsch has sent circular letters all over the country, giving Conrad's photograph and description; also stating that he was formerly a member of the G. A. A. and Masonic orders, both of which organizations now no longer recognize him. Yesterday word was received that Conrad was under arrest in Chicago. Application for requisition papers was made at once, and last night the representatives of Prosecuting Attorney Schwartz left as stated.

Conrad is not only a rank bigamist, but a dead beat. His game is to stop at the best hotels, run a good bill and jump it. The dispatch received yesterday from Chicago stated that Conrad's baggage was held in the Leland House on account of an unpaid bill. He may resist being brought here, but the fight will not be long, and the prospects are excellent for his being speedily "railroaded" for a good long term at Columbus.

RELICS OF ST. JAMES.

A Piece of Cloth From One of His Garments and a Lock of His Hair.

SAN FRANCISCO, Cal., Aug. 3.—The new Church of St. James, at the corner of Guerrero and Twenty-third streets, claims to have secured not only a portion of an object which was in close contact to the Apostle St. James, but also a small lock of his hair. Recently the relics were exposed to view at the church, the occasion being the feast of St. James. Especially elaborate services were held, attended by large congregations, and the shrine was visited by hundreds of people during the day.

A little altar, especially arranged for this purpose, was stationed just within the railing at the left side of the sanctuary and thereon the golden reliquary reposed. The case was all that could be seen from the railing and the inscription in Latin could not be distinguished. Close inspection revealed two very small dark objects within the glass of the reliquary. One of these was said to be a bit of cloth from a garment worn by St. James and the other a minute lock of the apostle's hair.

Father Lynch, the pastor, declared that the relics had been obtained by him from the church authorities at Rome, that they were fully authenticated and that there could be no doubt of their genuineness. He had not made extended inquiries about them, for he had not felt that there was any reason to do so.

No marvelous results in the line of miracles are expected through the agency of St. James, and this exhibition is not regarded as beyond the ordinary of such events in the Catholic Church.

The relics will be kept at the church, and each year at the feast of the patron saint they will be placed on the altar for the veneration of the believers.

SUMMER HINTS.

When one is taken with a sudden cold in summer there can be no better treatment than to eat a raw onion and go into a retreat until the unpleasant effects of the vegetable have worn away. Onions are also excellent medicine in the first stages of malaria, and if eaten regularly will keep the system in a condition hostile to disease.

One of the simplest remedies for stomach troubles is taking a little lemon juice squeezed into a glass of cold water every morning before breakfast.

One of the best ways to keep cool is to read cooling things, to imagine "squares of colored ice and cherries served on drifts of snow," or "sand-strewn caverns, cool and deep, where the spent lights quiver and gleam."

French Vanilla Cream.

Break into a bowl the white of one or more eggs, as is required by the quantity you wish to make, and add to it an equal quantity of water; then stir in the finest powdered or confectioners' sugar until it is stiff enough to mould into shape with the fingers. Flavor with Pure Gold vanilla to taste after it is formed into balls, place upon plates to dry. This cream is the foundation of all the French creams. b

In the States in 1790 three patents were issued; 100 years later the number was 26,292. The total number of patents granted during the 100 years was 453,944, or an average of nearly thirteen patents for every day.

The water clock was known in Rome B. C. 158. Dial clocks were first put up in A. D. 913; striking clocks were Saracenic, about 801; pendulum clocks were invented in 1641; repeating clocks in 1676.
