WEDNESDAY MORNING, OCT. 24, 1888.

Right You Are.

The Mail, is of course "down" on Imperial Federation, and does what it can to pick holes in Lord Rosebery's recent speech in its favor. Our contemporary's motive is plain enough; any decided approach, even, towards this scheme, would damage irretrievably the prospects of that other scheme which is The Mail's favorite—annexation to the United States. After recalling Lord Salisbury's dictum, that any attempt to restore "food taxes" in England would be like trying on a revolution, The Mail thus proceeds:

"It is equally certain that Sir John Macdonald and his protectionist following would not allow English manufactures to enter Canada free. They have said so in Parliament, and the N. P. with its heavy duties on British iron is standing proof of their sincerity.

On which we remark: Right you are this time at all events. Not long ago The World ventured to affirm that Canadian Independence instead of being, as most people seem to think, something wholly in the future, was in substance achieved by the revolution of 1879, when the National Policy was established, the Home Government consenting. The substance of the thing was accomplished then, we maintained, and only details of minor importance remained to be added. But if proof were still wanting of the reality of the revolution of 1879, we had it recently when Sir Charles Tupper materially increased the iron duties without protest from the authorities of Downing-street, as far as the public here are aware of. The Mail is compelled by events to believe in the sincerity of "Sir John and his Protectionist following". We invite it to go a step further and say what inference should be drawn from the British Government's prompt and unequivocal recognition of Canada's National Policy as a thing established and "come to stay."

It is truly a great and most important fact—this of the British Government's thoroughgoing acknowledgment of Canada's independence, and of the validity of her N. P. And we would advise our contemporary that this wise and practical recognition of National Policy and Independence for Canada is likely to work powerfully against all schemes for swinging off these Provinces, in order to make them States of the American Union.

Two recent happenings there have been—each of which has considerably increased Canada's fitness to stand alone, and to be a nation: These are: the establishment and growth of the National Policy; and the development of the great Northwest as an addition to the country. That the time just following these important events in Canada's progress should, of all times—have been chosen as proper occasion for pronouncing the country a failure, and declaring that nothing can save it but commercial annexation to the United States, is truly astounding, when you come to think of it. Those who are helping on this ill-starred movement towards national suicide, at a time when such significant proofs of its ability to live are turning up, have surely extraordinary ideas of the fitness of things.

The Attitude of Provinces.

The attitudes of provinces toward the Dominion are far from being what they should. When a province fancies the Federal authorities are influenced in an action by other—greater and wider, considerations than the desires of its people, it at once commences talk about betrayal, insurrection and provincial independence. The fire is fanned by the provincialists, who persuade themselves that there is a sufficient reason for "going to the foot of the throne and asking to be made a separate colony."

It has been stated that the Dominion Government might be held, in a degree, responsible, but just as much excitement ensues against the Federal authorities when it is in no way concerned with the cause of dissatisfaction. The provincialists care nothing for the Dominion, care nothing for the great future stretching out before our young nationality. Their ambition is bound by the confines of their own province and they cannot grasp the conception of a nation on this continent, greater than any other. Such a nation is not to be evolved from a Dominion of jangling, quarrelsome provinces; there must be forbearance, sympathy and mutual assistance, not bluster, threats and appeals to force.

What Manitoba Receives.

Manitoba's expenditure on account of the R. R. V. R. amounts to two millions and a half of dollars. For this expenditure what does the province receive? A nominal reduction of three cents per one hundred pounds on wheat from Portage la Prairie and Winnipeg to the boundary, on points on the Red River Valley system, to Duluth. On goods coming from the east into the province the Northern Pacific tariff will be just the same as now exists on the C. P. R., leaving the price for dry goods, groceries, and imports generally just as it was.

The reduction on the wheat rate is met by the C. P. R. and The Port Arthur Sentinel says:

The effect will be that the Northern Pacific will not handle any appreciable amount of Manitoba grain. To be a competitor with the C. P. R., the Northern Pacific and Manitoba system must make lower rates than the C.P.R., because it will have to offer some inducement to cover the trouble and expense of bonding charges, &c. It practically cannot compete with the C. P. R. The distance from Winnipeg to Port Arthur is 435 miles, from Winnipeg to Duluth by the Northern Pacific system some 500 miles, making real competition out of the question. Manitoba has everything to gain by shipping its wheat via Port Arthur.

In the States.

At election meetings in York State these days it is being recalled that when Samuel J. Randall, the Democratic-Protectionist leader, stumped that State for Cleveland in 1884, he had promised that Cleveland would not lower the tariff if elected. Randall declared that he had a personal promise from Cleveland to that effect; and no doubt Randall himself did his level best to have the pledge fulfilled. But as the time for the present election drew near, Randall was relegated to a back seat in the party councils, the control of which fell into the hands of such pronounced Free Traders as Speaker Carlisle, Premier Mills, and Col. Watterson. Four years ago Cleveland's majority in the Empire State was 192,000, with over a million votes polled; it would not be at all surprising were enough Protectionist-Democrat votes to change to put him in a minority this time.

New York hotels are reported unusually full these days. It is likely, however, that most of the guests will try to be at home on Nov. 6.

The war between the churches and the saloons is a hot one in the State of New York these days. As a general rule, with not many exceptions to it, the former are for Warner Miller (Republican) and the latter for Daniel B. Hill (Democrat) for Governor. President Cleveland (Democrat) has been pressed and pressed again to write a letter in favor of Hill, but firmly refuses.

It may not yet be too late to remark that Congress has adjourned without passing any tariff bill, good, bad, or indifferent. We told you so, and don't you forget it.

Let them say what they like about the man from Maine; but there is no disguising the fact that he is a powerful speaker for moving crowds, and working on their feelings. His western tour has been a continuous success so far; and it has been made abundantly evident that, among all their "big guns," the Democrats have not one big enough to match him. On Thursday night he is to address workingmen in Madison Square Garden, New York.

The Republican majority in Michigan was very small in 1884; and the Democrats talk of capturing the State this time. Perhaps they may, but, candidly speaking, it looks as if they are going to find their great danger in New York.

Mr. Sandford Fleming has reported that the sawdust thrown into the Ottawa river by the Chaudiere Mills is carried away by the current and that it does not therefore interfere with navigation. If Mr. Fleming's opinion is a correct one, the Dominion Government has been wasting a considerable sum of money annually by dredging out the sawdust when it would itself have been moved by the current.

Warlike arrays and rumors arising in that province out of the Manitoba railway difficulties show us by what a brief span our vaunted civilization is removed from the era when was in effect the good old rule, the simple plan, that they shall take who have the power and they shall keep who can.

The letters N. P. are as significant in Manitoba just now as they ever were in Ontario, albeit the two provinces do not read them the same way. Norquay and Greenway have each of them an N. P.

Now that the victory of Monsieur Workingman Lepine has been duly celebrated with champagne galore, Monsieur Prohibitionist Lepine's election ought not to go uncommemorated.

The Mining Commission.

BELLEVILLE, Oct. 23.—The amount of phosphate mined in Ontario and Quebec is annually increasing and is nearly all exported, but although Canada exports a large quantity of phosphate in its raw state, a considerable quantity is imported in the manufactured condition as superphosphates which as a fertilizer is becoming yearly more necessary for exhausted land.

After leaving Smith Falls, the commissioners proceeded to Perth where many persons were examined, the general tendency of the evidence going to show the existence of magnetic and hematite iron ore in large quantities, of copper and galena. Silver and some gold have also been found in this district, phosphate and mica are found in large quantities, while in the township of Barrie, marble equal to that of Carrara is said to exist. Near Oliver's ferry there is a large deposit of plumbago. On the 8th concession of North Burgess were found some fine rubies, sapphires and emeralds which were exhibited in the London Exhibition of 1851, by Dr. Wilson of Perth. Quite a few zircons have been found in the phosphate mines at different times.

After hearing the evidence the commissioners drove out to Pike Lake to see the mica mine situated there; the lead is about 50 yards wide and from 600 to 700 yards long; the mica is found in crystals through the lead. The stone in which the crystals occur is a kind of sandstone, the country rock being granite. The mica is good and serviceable, but not first-class, being a soda mica. The best mica is known as the moscovy, is as clear as plate glass and has a highly polished surface.

Fever and Ague and Bilious Derangements are positively cured by the use of Parmelee's Pills. They not only cleanse the stomach and bowels from all bilious matter, but they open the excretory vessels, causing them to pour copious effusions from the blood into the bowels, after which the corrupted matter is thrown out by the natural passage of the body. They are used as a general family medicine with the best results.

Those intolerably painful and constantly harassing things called piles, which trouble so many people, are soon healed by *Dr. Thomas' Eclectric Oil*—the great external remedy for physical suffering and means of relieving pains. A very small quantity achieves results of the most gratifying kind.

The Empress' Birthday.

BERLIN, Oct. 23.—Empress Frederick is indisposed. She was unable to visit the Empress to offer her congratulations upon her birthday or to attend the family dinner. Her daughters congratulated the Empress on her behalf. Numerous cards, bouquets and wreaths were sent to Berlin and Potsdam Palace for the Empress.

King Humbert and Queen Margarette sent as a present to the Empress through Emperor William a silver casket containing a diadem, necklace, bracelets and pearl ear rings set in Roman gold.

Through Sleeper to New York.

By the popular West Shore route, leaves Union Station daily, except Sunday, at 5 p.m., arriving in New York at 10.10 a.m.; Sundays at 12.20 noon train. Remember the West Shore lands passengers either at up town or down town stations in New York.

If attacked with cholera or summer complaint of any kind send at once for a bottle of Dr. J. D. Kellogg's Dysentery Cordial and use it according to directions. It acts with wonderful rapidity in subduing that dreadful disease that weakens the strongest man and that destroys the young and delicate. Those who have used this cholera medicine say it acts promptly, and never fails to effect a thorough cure.

Berlin Briefs.

BERLIN, Oct. 23.—The leading incidents in the Emperor's European tour have been made the subjects of paintings, drawings and photographs, which will be reproduced and published with notes.

It is rumored the King of Wurtemberg was received at Nice with hisses and cries of "A bas la Prusse."

The North German Gazette complains of the French hatred of Germany, shown by the recent tearing down of the escutcheon on the German consulate at Havre.

The Cologne Gazette declares that French officers are systematically making tours of Germany on the pretence of desiring to learn the language, but really to act as military spies.

Fine Groceries, Wines, Etc.

We have one of the largest and choicest stocks in the Dominion of general groceries, fine groceries, table delicacies, and very old wines and liquors for medicinal purposes. Families in any part of the city will be called upon for orders if required. Send for catalogue. Marx & Co., 280 Queen-street West. Telephone 718. 135

The poor and the rich, all kinds and all conditions of men buy their clothing at the Army and Navy stores; none are too poor to find a suit or overcoat within their means at the Army & Navy. None are so rich that they can afford to buy without seeing what the Army & Navy is selling. A hundred thousand dollar stock of clothing at 1 cent on the dollar. Overcoats worth $4.00 for $1.00, at the Army & Navy, 109 King-street East, and 113 Yonge-street.

THE CAMBRIDGESHIRE.

VERACITY, A 30 TO 1 CHANCE, WINS FROM A FIELD OF NINETEEN.

Lochiel Defeats Driftwood After a Great Race—Opening Day at Washington—English Racing News—The Toronto Colts' Record—Baseball and Turf Gossip.

LONDON, Oct. 23.—This was the second day of the Houghton meeting at Newmarket, with the famous Cambridgeshire Handicap as the attraction. The distance was a mile and 240 yards. It was run, for the first time in its history, over the comparatively easy course, known as "across the Ba." It had nineteen starters, of which Mr. T. Jennings, jr., filly Minnie, ridden by young Cannon, was the favorite. She, however, failed to get a place. Mr. W. J. Legh's colt Veracity, the Lincolnshire winner, a 20 to 1 chance, winning after a good finish with Mr. H. F. Boyd's colt Cactus.

There was a large and fashionable attendance, the Prince of Wales being present. Conditious.

The forty-ninth running of the Cambridgeshire Stakes of 25 sovs. each, with 300 added; the winner of the Doncaster St. Leger to carry, if a colt, 128 lbs; if a filly, 120 lbs; a winner of a handicap value 450 sovs. after the publication of the weights to carry 7 lbs; of any other handicap, 5 lbs; a mare the winner of the Cesarewitch, 14 lbs extra, but if the winner of the St. Leger also, only 7 lbs extra; the second to receive 50 sovs. out of the stakes, and the third to save his stake; New Cambridgeshire course (last mile and a distance of a furlong). 109 subs.

Mr. W. J. Legh's b c Veracity, 4, by Wisdom—Vanish, 104.....(Calder) 1
Mr. H. F. Boyd's ch c Cactus, 4, by Springfield—Columbine, 99.....(Pulbon) 2
Mr. A. Cooper's br c Bismarck, 3, by Pride of Prussia—Floeta, 106.....(Pagan) 3

Gallinule, 111; Acme, 116; Thunderstorm, 109; Sheen, 102; Oliver Twist, 106; Lisbon, 108; Pilot, 94; Attila, 99; Johnny Morgan, 82; Admiral Benbow, 85; Eave's Off, 112; Cotillon, 99; Heloise, 88; Baldal, 98; Tonans, 100, and Dandizabe, 99, also ran.

The bay colt Veracity was bred by Mr. A. Hoole, but is now owned by Mr. W. J. Legh, for whom he is trained by E. Weever at Burton-on-the-Hill. Veracity made a most successful debut as a two-year-old in his breeder's colors, but of his ten races only losing twice. Last year he ran ten times without gaining brackets, his nearest approach to victory being a third in the Bognor Plate at Goodwood, to Pierrepont and Priesthood, second to Hugo in the Chaddesden Cup at Derby, November, and second to Monsieur de Paris in the Ellesmere Welter Handicap at the Manchester November meeting. Veracity started in this year by winning the Lincolnshire, when he was quoted at the long odds of 50 to 1. He also captured the Nottingham Spring Handicap, in being his only other victory this season, previous to that of yesterday.

A STEEPLECHASE RECORD BROKEN.

Lochiel and Driftwood's Fast Race Over Wedding Jumps.

Though a drizzly rain fell yesterday afternoon over two hundred spectators were present at Woodbine Park to witness the match race between Lochiel and Driftwood, in which the former won the honors.

"The best steeplechase I ever saw," was the verdict of nearly every one present, several horsemen saying that nothing had been seen like it since the days of Rose and Pilot, when the two crack jumpers did battle over the same course. Lochiel had the call in the betting at 10 to 8, though Driftwood's supporters were many and the betting was heavy. The race was a case of "die in front" and the pace was terrific, so much so that the record over the short course was lowered 10 seconds, making it 4.56, which will no doubt remain many years before it is rubbed out.

Even those that lost their money could not help but give the winner a cheer. The details are as follows:

March $800, to carry 155 lbs. each, short steeplechase of about 2 miles.

F. E. Macdonald's b g Lochiel, 5, by Milestan—Lady Patti, 155.....(Owner) 1
T. P. Phelan's ch g Driftwood, a, by Stockwood—Vanetta, 155.....(Mr. Doherty) 2

Time, 4.56.

Lochiel was first away, but gave place to Driftwood in going to the rail fence. The positions were unchanged till the second time over the board jump in the east field, after which Lochiel went to the front and was never afterwards headed, winning by three lengths.

THE HAGGIN STABLE.

Its Winnings on the American Turf This Season.

The disappointment of the season on the American turf is the Haggin Stable, although its winnings foot up $122,546. Notwithstanding this sum places them close to first position, it probably does not begin to pay the expenses of so mammoth an establishment as that of the California millionaire, with his hundred or more horses in training, his three trainers, three high-salaried jockeys, innumerable stable employes, and the enormous forfeit list which rolled up during the early months of the season, when scarcely a horse in the stable was earning enough money to buy its feed.

At the opening of the racing season Albert Cooper took charge of the California division, young Mr. Littlefield of those that were destined to race as Chicago, Senators and St. Louis, and Matt Byrnes, Pierre Lorillard's old trainer, had complete control over the Eastern contingent. Yes, out of this enormous string, of which the three-year-olds were the most conspicuous failures, Firenzi, Silver, Foxford, Fresno, Aunt Yum Yum, and Falcon are the only ones to earn more than $5000; and if it had not been for the first-named three, the standing of the stable would be deplorable indeed. Firenzi is the heroine of the day, and the best filly that America has ever seen. She beat the best horses in training, including The Bard, Terra Cotta, Kingston, Elkwood, and Exile, and won the Freehold Stakes, the Champion Stakes, Great Long Island Stakes, Battle Stakes, Firenzi Stakes, winning in New York alone, being well nigh invincible at Jerome Park. She leads the Haggin string with $34,276 opposite her name. Firenzi has won many thousands of dollars more than any four-year-old or upward of the year. Fresno's total number is $15,610; but Salvator, a good son of Prince Charlie, a sire whose loss will be keenly felt, was second to Proctor Knott for the Futurity, and subsequent victories at Jerome give him $17,300 on the right side of the book, making him second to Firenzi. Aurelia yielded $11,085 as her tribute, while Falcon, the black son of Falsetto, earned $7990 before he was sold to MacMahon & Co. Yum Yum was badly placed, yet succeeded in winning $9705. Ransom earned $3805, Sonoma $2980, So So $2145, Trade Mark $2150, Daruna $1325. The three-year-old Guarantee, Fitzjames and Biltlesome, of whom great things were expected, did not win $1500 between them; in fact Guarantee did not win a dollar. Hidalgo, supposed to be a great distance horse, corralled $150, and Ben Ali, a high class two and three year old, but one of the worst brutes that ever ran in silk, won $100 as a five-year-old.

Mr. J. B. Haggin is a well known banker doing business in New York and San Francisco.

Opening Day at Washington.

WASHINGTON, Oct. 23.—Heavy rain marked the opening day of the National Jockey Club's fall races at Ivy City to-day, but there was quite a good attendance, and though the track was very muddy and the time slow in consequence.

The races produced fairly good sport and the bookmakers had the satisfaction of seeing the favorites beaten in three out of the five events. Results:

First race—Purse $500, for all ages; 6 furlongs. Reporter won, Badge 2, Volta 3. Time, 1.16.

Second race—Purse $500, for 2-year-olds; 5 furlongs. Bertha B colt won, Passport 2, Bravo 3. Time 1.04½.

Third race—Autumnal Handicap, for 3-year-olds and upwards; 1½ miles. Eurus, 117, won; Favor, 115, 2; Frank Ward, 110, 3. Time 2.13½.

Fourth race—1 1-16 miles. Gleamound won; Satisfaction 2; Wahoo 3. Time 2.53.

Fifth race—McClubin Handicap Steeplechase Hercules, 141, won; Elphin, 163, 2; Brae a Ban, 137, 3. Time 3.33.

The New York Jockey Club.

ALBANY, Oct. 23.—The New York Jockey Club has been incorporated, with a capital of $100,000. Its location is in Westchester County, and its objects are the raising, improving and breeding of horses by providing grounds, track, etc. The corporation is to continue twenty-five years. Leonard W. Jerome, Alfred Harman Morris, John E. Rogers, Charles W. Hubbard and Charles T. Goddington are the original directors. The stockholders include H. D. C. Forbes, G. Gray Griswold, T. Sherman Kock, Thomas W. Foote, David Thompson, Eugene M. Jerome, William Tod Helmuth and Thurlow Weed Barnes.

Gossip of the Turf.

Prince Wilkes and Patron will trot at West Side Park, Nashville, to-morrow.

Geo. Taylor, the English jockey, has signed to ride for the Dwyer Bros. for next year.

It is now pretty definitely settled that Mr. Belmont will have the first call on Jockey Garrison next season for such races as Garrison can make the weight. The "Snapper" refused to make an engagement in which he would be asked to ride lighter than 115 pounds.

Charles Reed, who is to return to the race track as the owner of a racing stable next season, it is understood, will hold on to the youngsters raised at his farm, near Gallatin, Tenn., instead of disposing of them as Year-lings at public auction.

The well-known hunter Silver King, sold by Mr. L. O. P. Genereux of this city to a gentleman in Boston, arrived at his new owner's home on Thursday last. He will make his appearance in a steeplechase at the Hunt Club races there next Saturday, and will undoubtedly give a good account of himself.

There is now little doubt that Galen, the crack 2-year-old of Gray & Co.'s string, will next year race in the colors of the Chicago Stable. Mr. Gray is understood to have accepted Mr. Hankin's offer of $10,000 and 20 per cent. of the stakes the colt may win next year, providing the colt is delivered to the Chicago Stable sound and well in the Spring.

An important race will be trotted at the fair grounds near Lexington, Ky., to-day. It is for $1,000 each, half forfeit, which is already up. Bowerman Brothers name Hinda Wilkes, Col. Stoner names Baron Wilkes and B. J. Treacy names Bermuda. On the same day Axtell will try to beat his two-year-old record of 2.22, Angelina her two-year-old record of 2.18 Cotillion 2.20, and Bassemer to beat his pacing record of 2.15.

The Toronto Colts Record.

During the season 10 matches were played by the young cricketers, of which 5 were won, 2 lost and 3 drawn. The average innings of the Colts was 91 to their opponents' 58 and they scored 1095 runs to 703. The match played with the Hamilton Colts at Hamilton on May 12 was lost by 26 runs, and the return match arranged for June 30 fell through as the Hamilton Colts were unable to get a team. Trinity College School and Upper Canada College were defeated, the former by 5 wickets and the latter by 94 runs on the first innings. Captain J. C. Cassels deserves special mention, for although third in the batting averages he scored double figures eight times in eleven innings. The batting and bowling analysis is as follows:

BATTING AVERAGES.

	Innings.	Not out.	Runs.	Highest Runs.	Aver.
Allan, F. B.	7	0	61	37	43.50
Boulton, W. R.	2	1	32	19	16.50
Cassels, G.	11	1	99	15	9.90
Ambrose, J. W.	3	2	9 (a)	14	14.00
Chewett, J.	5	1	40	54	13.30
Goldingham, P. C.	9	0	126	36	14.00
Reed, R.	2	0	20	20	10.00
Godwin, W. H.	10	1	91 (a)	25	10.55
Crooks, J.	4	1	29	57	9.30
Osborne, J. H.	3	0	27	21	8.67
Stewart, R. H.	2	0	19	25	9.50
Kingsmill, G. T.	10	1	77	32	8.77
Tucker, C. R.	9	0	13	15	1.60

Dust from the Diamond.

Burdock has been released by Brooklyn.

A world's championship game will be played at Cincinnati next Monday.

It is feared that Lyons of the St. Louis Club will never play ball again.

The rumor that Brooklyn has offered $2,500 to Kansas City for McTamany's release is positively denied by Mr. Byrne. No changes in Brooklyn infield or outfield are contemplated.

The winners of the League pennant have been as follows: 1876, Chicago; 1877, 1878, Boston; 1879, Providence; 1880, 1881, 1882, Chicago; 1883, Boston; 1884, Providence; 1885, 1886, Chicago; 1887, Detroit; 1888, New York. The Association winners have been as follows: 1882, Cincinnati; 1883, Athletic; 1884, Metropolitan; 1885, 1886, 1887, 1888, St. Louis.

In Indianapolis it is believed that Boyle, Healy and Denny should be sold, and in their places young and ambitious players should be secured. Pretty much the same feeling prevails in Boston, where it is believed that the club will remain in the League, but that legislation in its interest will be asked at the next meeting. It is his belief that the League should be enlarged and other Western cities should be taken in, and that the playing season should be shortened and expenses reduced.

Sports of Sport.

Harry Tyng, the well known professional of the Manhattan Cricket Club, has been re-engaged for his fourth year.

It is expected that the Canadian football team on their return from Europe will play a few matches with the clubs of the American Football Association in New York.

The Hanlan-Gaudaur race between Ike Weir, the Belfast Spider, and Frank Murphy, is to take place in Boston to-night.

Patrick Hines of Newark, says he has a fighter on his hands, one who will fight anybody in the world at 142 pounds, and that he will back him to any amount, between $500 and $5,000, to win against any man he may be matched with. He says he is willing to fight any man in the world at 142 pounds, and he is willing to put up a stake of $2,500 to back his man against
