At the Tuckett sale in Hamilton on Wednesday 28 horses were sold. The total price paid for them was about $4000. The biggest given for a single animal was $550, which Robert Davies of this city paid for the thoroughbred mare Beehive, which is in foal to Strathspey. Mr. Davies also bought for $330 the 1-year-old bay filly by Strathspey out of Beehive. William Hendrie secured the old bay mare Adriel (Hambletonian and Administrator stock) for $154.

A funny story is told of the sale at Gloucester one day last week of a 6-year-old for a 2-year-old. The price is alleged to have been $1100. The 6-year-old is worth in the vicinity of $11. The party manipulated is a Philadelphian with money and aspirations.

LEGISLATION FOR 'CYCLISTS.

The Davis Bill—A Suggestion as to the Simplest Way Out of the Trouble.

Sporting Editor World: In The Mail of yesterday was printed a copy of the Davis Bill, with the comment that the bill was a harmless measure, as no penalty was provided in case of any violation of it. Such, however, will not be the case, and the editor of that paper could hardly have gone into the matter very thoroughly.

The Davis Bill being merely an amendment to an already existing act will have the general penalty of the act attached to it, viz.: Clause 10—"In cases not otherwise provided for, if any person contravenes this act, and such contravention is duly proved by the oath of one creditable witness before any justice of the peace having jurisdiction within the locality where the offence was committed, the offender shall incur a penalty of not less than one dollar, nor more than twenty dollars, in the discretion of such justice, with costs."

Mr. Davis, I believe, is not desirous of putting any onerous restrictions upon cyclists, and I think the wheelmen are ready and willing to meet him. The simplest and by far the fairest way out of the trouble would be to add a clause to the act providing that bicycles, tricycles and velocipedes should be regarded as vehicles and be governed by the act. There would then be no unfair discrimination against any one class of road users. In nearly every country where the wheel is used some such legislation exists and with satisfactory results both to the general public and the wheelmen. FRED BRYERS.

Road Racing Among the Torontos.

A team of ten junior riders of the Toronto Bicycle Club will make the champion road racing ten of that club begin practice early in the season. These ambitious riders have sent a challenge to Capt. Robins, which brings to light that they mean business. It reads: On behalf of a few members of the Toronto Bicycle Club we hereby challenge the champion hilly road team of the Toronto Bicycle Club (1890) to a 20-mile road race—ten men on each side—to take place on May 16, '91, between the hours of 2 and 6 p.m. Course of the race to be from top of Norway Hill to top of Highland Creek Hill and return. The team to be selected one week prior to race from the following or any other member of the club who was not on the championship of 1890: Guilt, Schultte, Lowes, Lavendar, Foster, W. Mill, Bendelari, Robins, McDonald, Parker, Begg, Love, Irish, Barker, Wood, Lilly.

Pete Wood Will Pitch at Rosedale.

Wardell's nine and a picked aggregation of former students will take place. A special meeting of the club will be held in the Y.M.C.A. building at 4 p.m. to-day to settle the date. Pitcher Bennett has already been limbering up his arm for the event and intends to mow down the fossils in great style. The 'Varsity team will begin practice next Monday.

The West Toronto Gun, Dog, Sports and Angling Club commenced a series of shoots Wednesday afternoon for two handsome silver cups, one for first-class and one for second-class shooters. They have to be won three times before becoming the property of any member. Thursday's shooting was very poor, the highest score was 15, the lowest 1 out of 20. In the first-class Mr. F. Oben scored the highest, viz., 15 out of 20. In the second-class Mr. H. Haynes scored the highest, viz.: 11 out of 20. There were 14 contestants in all. The next shoot takes place April 22.

The glove contest between Jim Daly of Philadelphia and Pat Farrell of Pittsburg came off Monday evening in Philadelphia, and ended by the police stopping it in the third round. The contest was for a purse of $500, of which $400 was to have gone to the winner and $100 to the loser.

The American colleges are taking advantage of this month for baseball matches. Yale, Princeton, Columbia, University of Pennsylvania, Williams, Lehigh and many other teams have already played several games. Princeton downed Columbia Monday by 13 to 6. Pennsylvania gave the Philadelphia Athletics a close game on the same day, score 7-4, and the Philadelphia league team beat Williams by 16 to 2.

Lake Shore Road for Parkdale.

The latest scheme for the beautification of the town, particularly from a visitor's point of view, was inaugurated last night by a number of Parkdale gentlemen who met at the house of Mr. John N. Lee, in Dufferin-street. The scheme is, in short, a lake-shore public drive. These were among the gentlemen: Colonel Gray, ex-Ald. Defoe, Chevalier A. M. F. Gianelli, ex-Ald. Piper, F. B. Lee, Robert Forbes, George Faulkner, Richard West, Major Carlaw.

The drive as proposed will connect Queen's Park with High Park via Queen-street avenue, Simcoe-street, Wellington-street and west through the Garrison Commons, Exhibition Park, Rouille Park and south Parkdale. Several squares are in the line, and as much of the route is in sight of the water the gentlemen who have interested themselves in the matter seem confident that the scheme will prove its own justification.

A deputation was appointed to interview the city authorities and press the matter. It is claimed that the cost will be very slight and the advantage considerable to property on the line of the drive as proposed. Other matters were talked of, such as the extension of the street railway along King to the lake shore, the Dufferin-street wharf, etc., but the drive is the plow to which hands have been set.

Important and True.

No better evidence of the fact that Burdock Blood Bitters is a certain remedy for all blood disorders can be asked than that of Mr. George V. Thomas, druggist, of Hull, P.Q., whose wife was cured of cancer by B.B.B. The family doctor is certain that the disease was cancer and that it is now cured.

American Missionary Association.

The work of this society among the colored people of the south will be presented by Rev. C. W. Shelton in Association Hall next Tuesday night. He will be accompanied by seven colored students from Fisk University, of whom four are ladies, and they will sing a number of the melodies which have made the Fisk Jubilee Singers famous. Several of them will also speak during the evening. A collection will be taken up.

Severe colds are easily cured by the use of Bickle's Anti-Consumptive Syrup, a medicine of extraordinary penetrating and healing properties. It is acknowledged by those who have used it as being the best medicine sold for coughs, colds, inflammation of the lungs and all affections of the throat and chest. Its agreeableness to the taste makes it a favorite with ladies and children.

St. Peter's Song Service.

A service of praise was held last evening in St. Peter's Church, corner Carlton and Bleecker-streets at which the choir of the Church of the Ascension combined with that of St. Peter's in providing an enjoyable program. "Come thou fount of every blessing" was rendered excellently by Miss F. Bates. This young lady has a voice of rare sweetness, which she used on this occasion to advantage. "The Children's Home," by Miss C. M. Hodgett, is also deserving of praise. The service reflects credit on Musical Director E. E. Howard.

A Great Blessing.

SIRS: I have taken three bottles of Burdock Blood Bitters and find it a good medicine for constipation and poor appetite. I will continue taking it, as it is a great blessing and I feel a great change in my health since taking it.

FOR CLOSER FISCAL RELATIONS.

Trade Arrangements Between England and Her Colonies Form the Text for Warm Debate.

The board is of opinion that the time has come in the interests of the Empire when closer fiscal relations should be entered into between Great Britain and her colonies, and that an import duty imposed by Great Britain on the food products of other nations with tariffs hostile to her own productions will not enhance the value of the food products of the Empire, but will materially increase the production thereof, and place her in an independent position for her food supply in the near future.

It was to discuss this resolution that a special general meeting of the Toronto Board of Trade was held last night. President John I. Davidson occupied the chair. The gathering was large and representative. Among those present were: Messrs. A. Pardoe, Warring Kennedy, W. Galbraith, Ald. G. M. Rose, James E. Baille, George H. Bertram, H. A. Massey, George A. Chapman, Hugh Blain, J. W. Lang, Robert Swan, George Keith, Charles Cockshutt, W. F. Cockshutt (Brantford), W. Ince, S. F. McKinnon, W. B. Hamilton, E. Gurney, Robert Jaffray, M. Samuels, James McIntosh, H. W. Dawson (Brampton), P. W. Ellis, C. W. Warren, John Carrick, John Inglis, A. B. Lee, W. K. McNaught, John Leckie, C. Boeckh, M. C. McKeegie, T. H. Cleghorn, R. B. Ellis, R. W. Elliot, James Todhunter, Richard Brown, A. Cavanagh, C. McKenzie, M. C. Ellis, Charles A. Watt, John Catto, W. Croft, jr., W. Stark, John C. Copp, W. E. Massey, F. W. Gibbs, R. H. Tomlinson, E. W. Trent, D. R. Wilkie, E. B. Osler, John Lugsdin, M. McLaughlin, F. Eby, School Trustee Hagerman, Secretary Edgar A. Wills.

Mr. Chapman in moving the resolution said that whether the desideratum was to be brought about by absolute free trade was not for them to decide then but to emphasize the need of preferential fiscal relations with Great Britain to enable us to combat the unfriendly policy of our neighbors. He believed that the time has come when the National Policy should give place or be submerged in an Imperial Policy, and that Great Britain in assisting will not only advance our welfare but that of all her subjects in the British Isles.

"Should England impose a tax on food products of foreign countries whose markets are closed to her, does it follow that the consumers have to pay the tax? Certainly not. Who pays the duty on Canadian barley or food products going into the States? It is the consumer. If so what need of our working for reciprocity?"

He said that from observations of the past ten years, corroborated by American journals, he found that Great Britain dictated the price she would pay for the food products of other countries, and so far as breadstuffs is concerned it is not difficult to find the cause which enabled her to do so. It was of vital importance to the empire to take cognizance of the fact that in a few years at the outside she can not look for supplies of breadstuffs from the United States, as they will be competitive buyers with her. Then, if even for the sake of the poor man's loaf, is she not in duty bound to make provision for the future supplies as well as the present? The source of supply is in our own Northwest.

Mr. Robert Swan seconded the resolution.

Mr. M. C. Ellis said the question of Imperial Federation was a sublime and patriotic one and one which should be cultivated. He declared, amidst applause, that the benefits to be derived from trading with Great Britain were much larger than could be obtained by dealing with the United States.

Mr. W. F. Cockshutt made the speech of the evening. It was vigorous and had a true Canadian ring about it. He said the first thing to be considered in making a treaty was whether the new arrangement would disturb our best market. That best market was our home market, and we can only protect it by building up our cities and towns. Anything that tended to disturb the vested rights of the manufacturing interests would therefore injure the best market. The city of Toronto alone had during the past year consumed as much farm produce as had been exported during that time to the United States. In fact, it was only a comparatively small part of our farm products that the Americans took from us. Last year Canada raised about $350,000,000 worth of farm produce. Of this amount $300,000,000 was consumed within our own borders. England took $35,000,000 worth and the United States $10,000,000.

Mr. George H. Bertram attacked the resolution. The question which it supported was sentimental, and Mr. Chapman had failed to make out a case. It was absurd for the Dominion to think of supplying the needs of England. "The contention," he sarcastically remarked, "that the Northwest will be able in another 10 years to supply the Mother Country may or may not be true." England, he continued, is 3000 miles away from us and has problems of her own to solve quite apart from us, and therefore did not want to bother about us. He had great faith in the advantages of closer trade relations with the United States. He would, however, support the resolution provided the mover of it eliminated from it the concluding sentence, for he held that it was unwise that an import duty imposed by Great Britain on the food products of other countries with tariffs hostile to her own products would not enhance the value of food products of the empire.

Mr. Robert Jaffray thoroughly agreed with the principles of the resolution. He believed in the freest possible trade with Great Britain, but he found the same fault with the motion as did Mr. Bertram, that it was a sentiment which if developed if the price of farm products is not to be enhanced by closer trade relations with Great Britain?" In his concluding remarks he spoke in a pessimistic tone of the condition of the Canadian farmers, which was far worse than that of their English confreres. "If I contemplated going into farming, particularly stock-raising, I would locate in Great Britain."

Mr. James E. Bailie said Canada would probably be snubbed if she asked such a thing as the motion aimed at.

Mr. Hugh Blain contended that if the clause to which Messrs. Bertram and Jaffray objected was eliminated it would spoil the whole matter. He said that the total population of the British Empire was one-fourth of that of the world, and therefore it was quite within her province to dictate a policy of free trade to that portion of the earth's population. If we can gain this free trade with that one-fourth of the globe, we ought to be cordially in favor of it. [Hear, hear.]

The resolution was carried unanimously.

Mr. D. R. Wilkie moved that the Dominion Government be requested to bring the attention of the Imperial Government to the propriety of convening a conference of representative men of the colonies to meet in London to discuss future trade relations with Canada.

The resolution was seconded by Mr. H. A. Massey and carried unanimously.
