FIVE DROWNED ON A DRIVE:—A telegram received at Marysville on Tuesday announced the death by drowning on the Aroostook last week of Murray McDonald, of that place. He left home about a fortnight ago, and was working upon John R. McConnell's drive. No particulars of the accident are yet to hand. The deceased was a married man and leaves a wife and several children. It is reported that four other men lost their lives at the same time.

FOR GOOD ORDER:—Owing to there having been some disorder created in the Indian settlement at Burnt Church by one or two unruly braves, there was a general desire on the part of the rest of the community, which, as a rule, is an orderly one, to have an Indian constable appointed, and Hon. Mr. Tweedie having brought the matter to the notice of the Department, Commissioner Carter has been asked to recommend a suitable man for the position, and as soon as the selection is made he will be duly appointed.

EXHIBITION HONORS:—Mr. C. E. Fish of the French Fort Stone Quarry has received a silver medal and diploma from the Paris Exposition for Wood Pulp Stone exhibited at that fair. This stone was a part of an exhibit embracing stones from nearly all sections of America and Europe and speaks well for Mr. Fish's product. We are glad to learn that orders for these stones are being constantly received from the largest pulp mills in Canada.—Advocate.

A MIDNIGHT ATTACK:—A few nights ago Mr. John Campbell of Queen street, Chatham, was awakened at about eleven o'clock by a loud report and soon realised that he had been struck by a missile as he lay peacefully slumbering. He rose quickly as did also Mrs. Campbell and on lighting the lamp and putting his hand to his head found his hair saturated with blood which also covered his hand and ran down his face. He examined the panes in the bedroom windows and found that no bullet had entered, and on further search discovered that a bottle of medicine made up on a local physician's prescription had exploded, and a piece of the flying glass done the damage. This dispelled the idea of attempted midnight assassination.

FOR COUGH, horse ail, stoppage and fever use the GRANGER CONDITION POWDERS. A genuine Condition Powder, Blood Purifier and Tonic. The Granger is guaranteed superior to many so called Condition Powders in small and large packages.

NEW STEAM YACHT.—Mr. F. M. Tweedie, secretary treasurer of the Miramichi Yacht Club, is adding a new boat to the river's steam fleet. She has just been taken out of Mr. Tweedie's building shed and placed in the Ruddock yard. The new yacht was modelled by Commodore John C. Miller and Capt. John Bullock was foreman of construction. She is 27 ft. long, 8 ft. 4 in. wide and 5 ft. deep. The keel, stem; stern and garboard planking are of yellow birch, the frames of juniper, the upper planking and decks of pine. The engine is a steeple compound built at the Ruddock Foundy and Machine Works and has four and eight by six-inch cylinders. The boiler is of Montreal construction. All the new yacht's fittings will be first class. Mr. Tweedie expects to have her in running order about 24 h May.

Coal at Harcourt Kent Co.

A despatch of Tuesday says:—It is reported that a three and a half foot seam of coal has been struck by the men at work at Mr, G. R. Jones' coal mine at Harcourt, known as the T M. Carlyle property. Mr. Jones is much encouraged with the operations that have been carried on up to date. The property is being developed on a paying basis and recently a seam twenty two inches thick was struck, which is a thicker seam by four or five inches than had been previously discovered. The mine has recently been bonded by Mr. Jones for $26,000 to Americans, and it is the intention to extend operations and make borings on the property. For this purpose a diamond drill has been ordered and is expected to arrive from New York in a few days.

Where Medical Science Fails

to cure rheumatism, and all the time you suffer dreadfully, why don't you get a bottle of Polson's Nerviline and try that? Rub it into your stiff joints, sore arms, lame back, bent shoulders—wherever the pain is. Nerviline has cured plenty of people in this way, and that ought to be proof enough that it will cure you too. It is an unusually strong liniment that cures rheumatism in unusually quick time. Best house-hold liniment known. 25 cents. Sold by C. P. Hickey, Chatham.

To Our Readers.

The ADVANCE will be obliged to its numerous readers if they will enable us to make reference in our local columns to matters and events in which they are interested, or may think their friends may be. This they can do by giving the information in person at the office or writing to us about it. Many things proper to be noticed in the ADVANCE'S columns do not appear therein, simply because our attention is not called to them by those who would like to see reference to them in the paper, but have omitted to do their part in making them known. Come, therefore, or write and tell us your local news.

Kent Notes

RICHIBUCTO, April 25.—Mr. R O'Leary has sold his tug Frederick A to Mr. M. F. Mooney of St. John.

The saw mills of Kingston have commenced operations and it is expected will do good work this season. Mr. R. O'Leary's mill has not yet begun sawing.

The river was clear of ice on Monday, but owing to the cold easterly wind on Tuesday the ice from outside the harbor came in and completely blocked the river.

A quiet wedding took place at the manse, St. Anne, Kent Co., on Monday, when Mr. James Conway, Sr., of Kingston was married to Mrs. Harnet, widow of the late John Harnett, of Richibucto. Rev. A. Robichaud performed the ceremony. They were chivaried at the Royal Hotel, Kingston, on Monday evening.

Town and City Loans.

The town of Truro is advertising for a loan of $57,000 on thirty year bonds, bearing interest at 4 per cent. The money is to be used for sewerage, a new Academy building and water works improvement purposes.

Montreal, April 25—Tenders opened at the Bank of Montreal today for two new civic loans. One of the loans is for $1,500,000, bearing three and a half per cent., and the highest bidder for the entire loan was Gay & Co., New York and Montreal, at 98.27. For partial subscriptions, there was offered as high as 99. For $300,000 four per cent loan, the highest offer for the whole amount was 101, while for partial amounts as high as 105 was offered. The issue at these prices is not considered a success.

Drugging will not Cure Catarrh

Doctors say so. Victims of snuffs, ointments and tablets tell the same story. Catarrh is a germ disease. The germs excite disease in the lungs, throat, nasal passages and bronchial tubes. Germs are hard to get at, but destroy them and you cure the disease How can it be done? By carrying powerful medication with the air you breathe direct to the diseased parts You must be sure, also, that the medication will kill the disease germs. Catarrhozone is guaranteed to do this, that's why it has created such a sensation in the medical world. You simply breathe Catarrhozone; it destroys the germs—it heals—in a word it cures. Now you know everything about Catarrhozone, except what you can learn by using it. Catarrhozone never disappoints and is guaranteed to cure Catarrh. Price $1.00; Small size 25 cents, at druggists or Polson & Co., Kingston, Ont. Sold by C. P. Hickey, Chatham, N. B.

Bathurst Notes.

P. G. Mahoney, of Westmorland is to ship about 2,000,000 of deals from Bathurst the coming season.

Lumber drives are coming down nicely, Mill Stream and Tetagouche drives are well advanced. Elmtree and Bass river are expected out to-day. Middle river and Little river are doing well. South branch of Nepisiguit drive is now in the main river and safe.

On Tuesday morning the body of an unknown man was found washed ashore at Janeville. The age was apparently about twenty-five years. Deceased was dressed in black, and had on an ulster, gaiter boots and rubbers; also a French prayer book in his pocket. There was nothing on the body by which it could be identified.

Mr. and Mrs. Philip Rive, of Caraquet, who have been travelling in Europe for the past two months, arrived at Bathurst Thursday night in the best of health after a most pleasant trip.

A number of boys, pupils in the superior school, had a rather exciting time Friday morning. At recess four or five of them got on a cake of ice and were carried up the basin by the swift current. They were finally taken off by a boat.

A Remarkable Episode.

The other day a man named Augustus Keating, while working in the tunnel of the plaster quarry, Hillsboro, fell in front of a loaded car, a wheel of which crushed one of his legs below the knee, nearly severing the foot. Mr. Keating relates a most remarkable experience, painful yet thrilling. When he fell from the car the brakes were on and the car moving slowly. He slid along for a few yards with his leg upon the rail and the sliding wheel pushing it along. Finally the car stopped, the wheel resting upon his leg. In a most remarkable manner he managed to get a piece of board that was within reach, and made a pry, thus liberating himself from the wheel. He then was in great danger of the car starting after the obstruction was removed, as it was a down grade, and nothing but an inch board to block the wheel. While calling for help Mr. Keating's noble horse carefully caught him by the coat and tried to move him from the perilous position. The first attempt was unsuccessful, the teeth slipping off, but not before they had left their mark upon Mr. Keating's arm. The second attempt was a success, and the noble, intelligent animal placed his disabled teamster in a safe position outside the rails, and then stood by him until quarrymen heard the cries and came to Mr. Keating's assistance.

Presbytery of Miramichi—Ordination at Doaktown.

On Friday last Mr. H. N. Clarke, who has just completed his college studies at the Presbyterian College, Halifax, was licensed and ordained at Doaktown by the Presbytery of Miramichi. The members present were—Rev. D. Henderson, Rev. J. M. Maclean, Rev. A. W. Lewis, Rev. T. Corbett and Rev. A. F Robb. In the afternoon Mr. Clarke passed the trials for license and he was ordained in the presence of a very large congregation in the evening. Rev. D. Henderson presided and ordained, Rev. A. W. Lewis preached the sermon, Rev. T. Corbett addressed the minister and Rev. J M. Maclean addressed the people. Rev. A. F. Robb pronounced the benediction.

At the conclusion of the service an opportunity was given the congregation of shaking hands with their new minister, and of bidding Mr. Robb—who has been minister of Doaktown for the last three years—an affectionate farewell. The welcome on the part of the people was most hearty, sympathetic and cordial.

A call was laid on the table by Rev. Mr. Henderson, in the unavoidable absence of Rev. Mr. Townsend, from the congregation of Harcourt, in favor of the Rev. James Wheeler. The call, which was accompanied by all relative documents, was duly sustained and arrangements made for the induction of Mr. Wheeler on Tuesday, 14th May, at seven o'clock, standard time.

The America Cup Races.

Glasgow, April 27—The Shamrock II. was undocked early this morning and towed to Greenock, where her try sails were bent and her compass was adjusted. She will start for Southampton in tow of the Erin this afternoon, Mr. Fife accompanying her. Designer Watson inspected the challenger and expressed enthusiastic approval of her. Sir Thomas Lipton in the course of a conversation said: "I am satisfied I have the best challenger ever built, and I warn my American friends that they have a big job this time."

New York, April 27.—Three special trial races will be sailed between the cup defense yachts Constitution and Independence, the dates of the matches being July 2, 4, and 6. This announcement has just been made by a representative of the Newport Yacht Racing Association and is the solution of the deadlock between the New York Yacht Club and Thomas W. Lawson. The races will take place off Newport. A rule of the New York Yacht Club forbidding a non member to sail in a race of that organization excluded Mr. Lawson's yacht from competing in the matches that were to decide the choosing of a challenger to meet Sir Thomas Lipton's Shamrock II Mr. Lawson declined to get around the rule by sailing his boat in New York Yacht Club trials under the name of a member of that club. The matter was settled by the offer of the Newport Yacht Racing Association to present a cup for a contest between the rival vessels. The races are not under the New York Yacht Club. That club has taken no action whatever respecting the trial matches. Mr. Duncan, the manager of the Constitution, and Mr. Lawson, owner of the Independence, have signified their willingness to race for the Newport Association's cup.

South Africa.

It is reported from Pretoria that General Baden-Powell will resign the inspectorship of the South African constabulary and return to England at an early date.

The war office professes to know nothing of this report, but officials there think General Baden-Powell may decide to take a short holiday.

Lord Kitchener telegraphs:

"PRETORIA, April 26—Since yesterday the columns report the Boer losses to be 12 killed, 20 wounded, 47 captured and 42 surrendered. In addition, Lieut. Reid, with twenty Bushmen, captured southwest of Commassie Drift, Oliphant's River, Commandant Schoeder and 41 Boers, together with a Maxim."

In a later message the commander in-chief says:

"General Kitchener reports from Paardeplatz, four Boers killed, 180 taken prisoners, and 3,000 cattle 6,000 sheep and many wagons captured."

London, April 29.—Lord Kitchener reports to the War office from Pretoria under date of April 28 as follows: Kitchener's fighting scouts under Greenfell have surprised and captured Van Rensberg's laager at Klipdam, north of Pietersburg. Several boers were killed and 37 taken prisoners. Eight thousand rounds of ammunition and all wagons, carts, oxen, horses and mules were captured. Our only causuality was one wounded, The other columns report three killed, 58 taken prisoners, 57 surrendered and one quick-firer captured.

Cape Town, April 39.—A party of Boers blew up the railroad between Graspan and Belmont, Cape Colony, in three places, April 27, apparently with the intention of intercepting a train carrying Mr. Cecil Rhodes. The damage done was slight and was quickly repaired.

Canadian Club of Boston.

Copies of the following circular have been sent to the boards of trade throughout Canada:

218 BOYLSTON STREET,
Boston, Mass, April 16, 1901.

To the Secretary of the Board of Trade:

Dear Sir,—At the recent annual banquet of the Canadian Club of this city the proposition of establishing an "Old Home" month for Canada was considered and referred to a committee to act upon the subject.

The committee wishes to bring this matter before the various boards of trade of each province, and by co-operative action hopes to make this "Old Home" month a popular feature.

When it is borne in mind how many Canadians there are residing in the United States; that there are in the state of Massachusetts alone some 207,000, and in Greater Boston about 112,000, we feel sure that a very large proportion of these would return and visit their native province, and a large number of tourists avail themselves of the opportunity presented by our efforts to procure, if possible, special rates on all railway and steamboat lines for a trip at that particular time, to one or another of all the different provinces. This would, of course, largely increase the volume of business in the summer between the United States and Canada.

In order to bring this project to a successful issue, would it not be well for each province to select some suitable week and arrange special features and attractions for that particular time, and cooperate with our committee, after arrangements have been decided upon?

A similar letter to this has been sent to each of the boards of trade throughout the Dominion, and we trust that the project will meet with popular approval, for we feel sure that the carrying out of such a plan cannot fail to be the means of rapidly and materially developing the interests of Canada.

Respectfully yours,
ROBERT H. UPHAM,
THOMAS F. ANDERSON,
WILLIAM B. McVEY.

Will Canada Win?

A GIGANTIC INTERNATIONAL RACE.—EVERY NATION REPRESENTED.—THE MOST REMARKABLE CONTEST IN THE HISTORY OF MAN.

Owing to the success of the recent expeditions in search of the North Pole all nations are alert. In all parts of the world scientists have arisen to the emergency, and now with victory in sight it will be a struggle to the death to plant the flag at the earth's axis. No less than seven expeditions are being fitted out and will sail from as many ports. Practically unlimited means have been placed at the disposal of the explorers in other lands. Russia has placed unlimited means at the disposal of Admiral Maksroff, William Zeigler, a millionaire of New York, is willing to spend one million five hundred thousand dollars to enable Evelyn B. Baldwin to plant the stars and stripes at the Pole. The Duke of Abruzzi who spent five hundred thousand dollars on his expedition is prepared to spend twice as much if necessary to accomplish his purpose.

Undoubtedly the greatest factor in the world's race for the Pole is the expedition of Captain J. E. Bernier, of Quebec, a Canadian by birth, who has offered his services to his King and Canada gratuitously. The Captain's plans are unquestionably the best that have been conceived. They have been endorsed and approved by the Geographical Society of Quebec, the Colonial Institute of London, England, the Dominion and Provincial Governments, and have received the commendation of such authorities in arctic research as Sir Clements Markham, Dr. Bell of the Dominion Survey, J. W. Tyrell, chairman of the committee on Polar research, of Toronto, and the late Dr. G. M. Dawson, of the Geological Survey.

The strongest testimony that can be brought to bear in favor of Captain Bernier's expedition is the fact that his plans are fully in accord with nature while those of his competitors are in direct opposition to nature.

In view of the great interest manifested by Canadians in the Canadian Polar Expedition, it has been decided by the committee in charge of the Expedition, of whom His Excellency the Earl of Minto is Patron Lord Strathcona and Mount Royal, President; Sir Clements Markham, 1st Vice-President; and Hon. R. R. Dobell, M. P., P. C., 2nd Vice-President and Chairman, Lt-Col. De Lery C. T. Irwin, Hon'y. A. D. C. to the Gov.-Gen., Treasurer, to immediately appeal to the Canadian public for assistance in the shape of a popular subscription to supplement the grant given by the Dominion Government.

Subscription lists have been opened in all the Banks and Newspaper offices in Canada, and it is earnestly requested that the necessary funds be supplied with as little delay as possible; you are, therefore, asked to subscribe now, and any amount you feel disposed to contribute will be most acceptable. Funds will be deposited as received in the Bank of Montreal, Ottawa, and every sum received will be recorded in the official records of the undertaking.

Subscriptions may be sent to the nearest bank or newspaper office, or may be mailed direct to the Polar Expedition Committee, 117 Bank Street, Ottawa.

Cornwall and York's Morganatic Marriage.

The New York Journal of 24th ult. gives currency to the story that the lady to whom King Edward VII has given the use of the White Lodge at Richmond is the morganatic wife of the Duke of York, heir-apparent, to the throne. The Philadelphia Record publishes a despatch on the subject from its London correspondent, Horace Townsend, in which the following statements are made:—

"With the exception of the Mail all the papers preserve a significant silence, but I have the strongest reasons for believing Mrs. Hartmann to be none other than the morganatic wife of the heir-apparent.

"In any case, as I happen to have special means of knowing, the truth of the Duke of Cornwall and York's relations to the lady are that he was married to her at Malta, and that she had borne him several children, and I think it to be of public interest to state this for the first time in print.

"Hints and rumors have been in circulation for years, accounting largely for the lukewarm regard in which the Duke was held by the English people, but the absolute truth has never been publicly divulged, so far as I know.

"The lady in question is the daughter of Admiral Sir Michael Culme Seymour. The marriage took place in Malta, when the Duke's elder brother, Clarence, was alive, and when the present Duke, therefore, was not heir to the throne. At that time I am informed that Miss Culme-Seymour had not wished to marry, but finally consented under pressure of her own father and after receiving the consent of the present King, who was then Prince of Wales.

"When Prince Clarence died the Duke of York's marriage to Princess May was determined on as an affair of state, though if the Duke had had courage to remain true to his real wife, who even then had borne him two children, he would have been the most popular man in England.

"But his duty as the future King overtode personal ties, and he consented to regard his first marriage as morganatic.

"Most generous settlements were then made by the royal family, the late Queen contributing her share. I have absolute knowledge that in the settlement the marriage was described as morganatic and contracted with the consent of the Duke's father, then the Prince of Wales. The settlement provided a large income and also for the education of the two children already born and the one expected.

"The further statement that she is a personal friend of King Edward also tallies with the fact. The lady in question has always been on most friendly terms with the most prominent members of the royal family, though the late Queen was never entirely reconciled to such a marriage, she sharing the universal English abhorrence of the very term "morganatic."

* * * *

"It was not until after his wedding with the Princess May that the report of this morganatic marriage became generally public. There is little doubt but that if the report of the first marriage had been generally known the British public would have made so loud and vigorous a protest that the second marriage would never have been celebrated.

"As it is, full details of the alleged first marriage, have been kept as secret as possible. Miss Seymour, as she is referred to, has been enjoying, it is reported, an annuity of $10,000. Her father, who at the time of the alleged marriage was second in command of the Mediterranean squadron, is to-day Admiral-in-Chief of the station at Portsmouth and Governor of that naval stronghold, one of the best posts in the British navy.

"Queen Alexandria, then Princess of Wales, was very much opposed to the marriage of her son to the Princess May. It is not unlikely that she had something to say in the presentation of White Lodge to Mrs. Hartmann."

NOTICE.

Extracts from Act of Assembly 60, Vict. A. D. 1897.

The property to the amount of Five Hundred dollars of a wife deserted by her husband and compelled to support herself; and where the whole property owned by a widow, as well the place where she resides as elsewhere, is under the value of Fifteen Hundred dollars, and such widow supports minor children of her own or of her deceased husband, her property in the parish where she resides shall be exempt from taxation to the extent of Two Hundred dollars; and also to the extent of One Hundred dollars for each minor child wholly supported by her. If she has no property in the parish where she resides, then such exemption shall be allowed in the place where such property is situated; but such exemption shall not apply or extend to school taxes.

WE FREELY ACKNOWLEDGE that much of our present standing and reputation is owing to the character and ability of the students of whom it has been our good fortune to have had the training. This year's class is no exception, but is fully up to the standard of former years.
Business and professional men in want of bookkeepers and stenographers are invited to call upon us or write us. No recommendation will be made unless we are sure of giving satisfaction.
No better time for entering than just now.
