The Weekly Monitor.

WEDNESDAY, MAY 30th, 1888.

—The Bangor *Industrial Journal*, in a late issue, has the following article entitled "How Farming is Improved," which we republish, principally on account of the favorable opinions expressed in regard to the creamery industry:—

—"A leading mark of modern industrial progress is the way in which special features of every industry are each developed and built up into an independent business. In all the mechanical trades, the subdivision of each industry into a multitude of distinct employments has brought about the great cheapening of production, improvement of products, and rapidity of manufacture, needed to meet the wants of a multiplied army of purchasers, to bear up under intensified competition, and to keep pace with that demand for higher quality of goods which marks the advance of civilization and refinement.

That this is the case with farming here in New England is shown by the development of the industry of canning the products of the farm, which is now conspicuous in Maine as the missing link between manufacturing and farming, and the boom which the creameries, or butter factories, are now undergoing. There is little danger in overstating the benefit which the canning factories have been to the farming communities. Giving the farmer a home market for his corn and other products at good prices and with prompt payment, furnishing employment to the young people of the community, and stimulating the cultivation of the state's great farming staple, in raising which the land can be used to better advantage than in growing almost any other crop, the money distributed through the country towns by the canning companies is not their only service to the agricultural interests of the state.

Butter-making, formerly a mere incident in the operations of a farm is now becoming an important industry. Much activity is at present manifested among the farmers all over the state, in securing butter factories to use the cream from their cows, and it is a good sign for the future of Maine. Creamery butter is in so much greater demand in the city markets, on account of its uniform excellence, and the manufacture can be carried on upon a large scale so much more cheaply, that the farmer receives a better return from his labor, and the raising of choice cattle is stimulated in no small degree."

Our progressive farmers should meet together and discuss the question of establishing creameries. Truro farmers are about building one, and Annapolis agriculturists should not be behind. We have endeavored to supply all information we could obtain bearing upon the subject, and it certainly is very evident that wherever the creamery system of butter making is adopted it becomes very popular. Should any inquiring minds desire to ask questions about points of which they may be in doubt, our columns are at their disposal, and if we cannot answer the questions, they will be submitted to those better informed upon the subject. Correspondence is also solicited.

—There are splendid openings here for establishing wood pulp mills in this County, as there are good water powers and abundance of wood for making the pulp. The following from a Maine paper will give an idea to what dimensions the industry has grown in that State:—

"Statistics have been gathered to indicate the extent of the wood pulp business of the country. It is said that the wood fiber manufacture of twenty one states employs a capital of $20,000,000 and 22,000 men, and consumes stumpage to the value of $2,235,000 annually. The yearly product is given at 225,000 tons of ground fiber and 115,500 tons of chemical pulp, the whole valued at $12,375,000. Seven concerns in Maine turn out 84,000 pounds of ground wood daily, and as many more turn out 188,000 pounds of chemical wood fiber daily. The manufacture and use of wood pulp began in 1868, and has rapidly increased since. All the patents have expired except on the new sulphite process, and the development of the industry has reduced paper from the antebellum price of 9 cents a pound to 4½ cents. Since 1883, when the duty on imports was reduced from 20 to 10 per cent, foreign competition is said to have increased, 18,000 tons being imported in 1886, and 32,000 tons in 1887, while it is estimated that 53,000 tons will be imported this year."

—Mr. Ignatius Donnelly with his cryptogram and assertions that Bacon wrote Shakspeare's plays is being mercilessly criticised by many clever writers. Among the rest is Mr. Labouchere, editor of London *Truth*, who has a supposed correspondent who invents a theory that Oliver Cromwell wrote "Paradise Lost," and adduces plausible arguments to back up this opinion. Among the rest is one that there is not a page in "Paradise Lost" in which all the letters that form the name of Oliver Cromwell are not to be found.

—It takes nearly $29,000 per year to meet the expense of keeping up the Halifax police force.

—The sum of $4,000 has been granted by the Nova Scotia government for a provincial exhibition to be held at Truro.

—We are pleased to be informed that Mr. Calnek is making a most successful canvass for the sale of his "Notes on Annapolis Families," about to be sent to press. This work will be of great interest to the people of the County.

—The Committee for the Dinner and Tea on Celebration Day will feel obliged if all those who intend contributing to the tables will hand in their names as soon as possible. A list will be kept by H. Ruggles, Esq., and at the office of this paper.

—Mr. Kennan gives one a good idea of the enormous size of Siberia by stating in the *Century* that its territory would contain the United States, including Alaska, with all the States of Europe, except Russia, and there would still be 300,000 square miles to spare.

—At Londonderry, Nova Scotia, a plant for the casting of pipes of all sizes has been put in which is the equal of any plant in existence; and a gentleman from Cleveland, perfectly familiar with the iron business, asserted not long ago that the Londonderry works could make pipe as cheaply as any establishment in the United States or Great Britain.

—A curious explanation of the recent sale of Johnston, 2.05¼, king of pacers, is offered by an exchange. The horse is only eleven years old and known to be perfect and as fast as ever, yet he sold for $3,900 only, and the only reason assigned is that he is too fast to be of use. He is so generally barred, even from free-for-all classes, that there is little or no chance to send him against other horses, and is, therefore, practically useless.

POSTAL RATES.—A deputation waited on the Postmaster General, asking to have the letter rate of postage reduced to two cents per half ounce. The Minister has replied that the Government, having considered the matter, found it involved too large a sacrifice of revenue, but they were thinking of changing the regulations so that a three cent stamp would take a letter weighing one ounce instead of the present half ounce limit.

—George Murdoch has now made up a large lot of Fine Harnesses and offers them much lower than any ever offered in this market before. Intending purchasers will find it their advantage to call for prices. 1i

ANNAPOLIS SCOURGED AGAIN.

A $30,000.00 Fire!

[From our own correspondent.]

Our town has again been visited by the fire fiend, and with the usual disastrous results. On Monday night, about the hour of 12 o'clock, fire was discovered in the rear rooms of the adjoining stores occupied respectively by F. Symonds, as a drug store, and Miss Smith, as a millinery establishment. The alarm was at once given and the engine was promptly on hand, but too late to successfully combat the flames which were being fed by the most inflammable material imaginable, and it was now obvious that the entire block was doomed. The flames spread to the adjoining building, occupied by the Post Office, and in the opposite direction to the stores of H. West's, hardware, and W. Malcom's, corner grocery, thence through and around the brick building occupied by Bank of Nova Scotia on the ground floor, second floor by offices of Mills & Gillis and by F. Leavitt, register of probate, and top floor by the office and press room of the *Spectator*. It was at first hoped that the brick structure would effectually bar the progress of the flames in this direction and thus save the Dominion Hotel, but the stable in the rear and other wooden out-buildings brought the fire directly upon the hotel, and both buildings were entirely consumed. There its further progress was stayed, a vacant lot intervening between the hotel and the restaurant of S. Bishop. The contents of the Post Office were saved. H. West saves a portion of his stock. W. Malcom ditto. The valuables of the Bank are yet in the smoking safe, and doubtless well preserved, as also may be hoped for the valuable papers of the Register of Probate, which are in the fire proof vault. The papers belonging to Messrs. Mills & Gillis' office are also in fire proof safes. A. Riordan saved the greater portion of the furniture from his hotel, although of course in a damaged condition. The press and outfit of the *Spectator* is almost an entire loss. Friend Banks has, however, a small hand press upon which he intends to publish a curtailed edition until a new press and outfit is obtained. The entire loss must run nearly up to $30,000, with insurance of about $10,000 or $15,000. As to the cause of the fire, whether accidental or otherwise, there is a difference of opinion. An investigation will doubtless be held from which some new light may be gained, but it is more than probable that it was of accidental origin. Had the fire been discovered in time the conditions were favorable to subdue it, as the tide was full and the air damp and heavy with no wind.

Postmaster Corbitt has improvised the hall of his dwelling house as Post Office *pro tem*. There is talk of immediate rebuilding.

Local and Other Matter.

—The N. S. Western Baptist Association meets at Clarence, on the 16th June ensuing.

—The closing exercises of Mt. Allison Male Academy took place on Monday last.

—The Band was out on Monday night, and rendered a number of pieces in their usual excellent style.

—Chas. F. Armstrong, Granville Ferry, has been appointed Deputy Surveyor for the County of Annapolis.

—The County Treasurer is prepared to pay to the order of trustees the amounts from County School Fund.

—A brig arrived at St. John, N. B., last week, and reported passing through immense schools of mackerel coming on the coast.

—Let every man, woman and child in the town do what each can to make our celebration day a success and one long to be remembered.

—200 bbls. choice brands Flour, viz.: Peoples, Goldies Star, Ocean, Golden Age, Gold Flake and Standard at lowest prices, at Murdoch & Neily's. Call for prices. 1i

—A fine flag staff was put into position on the Court House tower last week. The building is now nearly completed; the principal work yet to be done being the inside finish and the painting.

—Aubrey, youngest son of Dr. J. Barnaby, had two fingers of his left hand badly jammed on Monday while at work on his father's farm lifting stones. It is feared one finger will have to be amputated at the first joint.

MONSTROSITY.—Sydney, C. B., has a calf with two perfectly formed heads, two necks parting at the shoulders, two tails, with four legs and standing upon four feet. This animal saw the light of the day in Bay Chaleur, Gloucester, N. B.

—Among residences that have recently been painted we notice Mr. T. A. Foster's, Mr. Hanson Chesley's, Mr. Richard Shipley's, Hon. John Aldous', and that of L. S. Morse, Esq., Inspector of Schools. Our townspeople generally, are showing a commendable taste for paint.

—Master Wm. Lockett, of this town, son of John Lockett, Esq., has an old copper coin or medal in his possession dated 536 or 538. It is about the size of one of our ordinary cents. The figures on the piece are considerably obliterated, but from what can be made out we should judge the coin or medal to be Grecian.

MOOSE KILLED.—A singular incident happened on the road leading from Albany to Lake Alma during the recent thunderstorm visiting that locality. A large moose was found dead under an apple tree, the tree was completely shattered by lightning, and there can be no doubt but that the moose met his death in that way.—*Liverpool Advance.*

—Mr. R. S. McCormick has had his place of business entirely refitted up recently and much improved its appearance. The offer he makes in another column is exciting considerable attention. The goods he offers are well worth the money charged for them, while the engraving is a great inducement.

—At Wolfville the other day a gold watch and chain worth $130 was stolen from the private apartments of Mrs. (Dr.) Middlemas. Suspicion rested upon Robinson Allatt, a young Englishman who had been working a few days for the doctor, who suddenly left under pretence of returning home. After inquiry the doctor got on his track, and ultimately found him on the boat at Annapolis, a few minutes before its departure. He handed over the watch and chain.

—The anniversary exercises of Acadia college take place this year on the 7th June. The graduating class is comprised as follows: James W. Armstrong, Kingston; Oliver H. Cogswell, Morristown; Carmel L. Davidson, Gaspereaux; Horace L. Day, Yarmouth; Chas. W. Eaton, Lower Canard; Herbert O. Harris, Canning; Lewis J. Lovett, Kentville; Morley D. Hemmeon, Wolfville; Walter B. Wallace, West Gore; Lewis D. Morse, Nictaux; Alfred E. Shaw, Avonport; Harry S. Shaw, Berwick; Harry H. Wickwire, Canning; J. R. Hutchinson, Wolfville.

—Diphtheria of a very virulent type is raging at Cold Brook. There have been two deaths already.

FLY RODS FOR SALE.—John Hicks, Bridgetown, will sell the balance of his fly rods cheap. 1i

—Alfred B. Morine, formerly editor of the *Spectator*, was admitted as a member of the Law society of St. Johns, Nfld., on Saturday.

—C. H. Tupper, M. P., has been appointed Minister of Marine and Fisheries *vice* Hon. Mr. Foster, who has taken the portfolio of Minister of Finance.

—The Sunday School Convention for Wards No. 4 and 11 will be held on the 5th June at 2 o'clock, p. m., in the basement of Providence Church.

—The various Committees appointed to carry out the programme of celebration on July 1st, met in Mr. Cox's office on Friday night last. The attendance was good, and there is no doubt everything will be a pronounced success. As soon as possible the full programme will be published.

—A Bear River correspondent of the St. John *Telegraph* says:—

"Mrs. Wesley Rosencrantz, Milford corner, Bear River, set a hen on 13 eggs and she hatched out 16 chickens, and they are all alive and doing well. Who can beat that? Mrs. Rosencrantz is one of my neighbors, and the foregoing is a fact."

ORDINATION SERVICE.—The first ordination held by the Bishop of Nova Scotia, took place Sunday morning in St. Luke's cathedral, when two candidates, Mr. Fullerton, B. A., of King's college, and Mr. Woollard, of St. Boniface college, Warminister, England, were admitted to the order of deacon. The candidates were presented by the Archdeacon. Previous to the ordination, a sermon was delivered by Rev. Dr. Partridge, of St. George's, appropriate to the occasion. The manner of the Bishop is most impressive, and the two young men must have entered upon their life work with very deep and solemn feelings.—*Herald.*

Mr. Fullerton is a native of this County.

—It has been brought to the notice of the Annapolis *Spectator* that in the vicinity of Birchtown there was an old couple named Locke, who had been living in a deplorable condition. During the winter they barely existed on a few crusts of bread, and scarcely any fuel to keep them warm. The man died last Saturday morning, it is said of starvation. A colored woman, hearing of his death, went to the house to see if any assistance was required. She found the man lying dead with scarcely a rag to cover him. The old lady told her that her husband had died of starvation, having had nothing to eat for quite a while. The colored woman procured some eatables (there being nothing in the house whatever) and also some clothing.

—The following named gentlemen with the stockholders are constituted a body corporate under the name and style of "The Annapolis and Atlantic Railway Company."

Robert G. Harvey, Brockville, railway manager, R. Bowie, Brockville, brewer, Chilton Jones, Brockville, civil engineer, John F. Wood, M. P., Brockville, barrister, James Irvine, New York U. S. A., railway banker, Augustus Robinson, Annapolis, doctor of medicine, Christopher D. Pickles, Annapolis, merchant, Charles McCormick, Annapolis, merchant, Robert W. Freeman, Jordan River, timber merchant, John Bowers, Shelburne, trader, John M. Shand, Shelburne, manufacturer, S. T. R. Bill, Liverpool, merchant, Alfred W. Moren, Liverpool, merchant, Allen Tupper, Liverpool, merchant.

—We clip the following from our Annapolis contemporary:—

The creek, as far up as General's Bridge, is swarming with gasperaux. .....Conductor Joe Edwards has been obliged to leave the train for a time, on account of poor health.....We have been shown some fine looking quartz which has recently been discovered near Clementsport, on property taken up for mining purposes by Messrs. W. C. Shaw, of Clementsport, and Mr. J. A. McCallum, a mining expert. The ore carries galena silver, and is said to be good for $30 to the ton. Several practical miners have been on the grounds, and pronounce the ore of very fine quality. One lead is three feet and the other six inches wide.

Lawrencetown Items.

Farming is being done with as much haste as possible.

Mr. John Hall has been quite poorly of late, but is now around.

A Temperance Lecture will be held here by E. F. Johnston, on Wednesday evening, 30th.

We still have Capt. Hartery with us in the S. Army, and have also as a new Lieut., Flossie Johnson.

Bowlby, Balcom & Co., and the Lawrencetown Mill Company's drives are just arriving. They show off to good advantage.

Prof. Spinney gives a concert here this week, so we are informed.

The S. Army have bought and moved the old depot, and have had it re-modelled, painted inside, and have had a general fix up.

Attorney General, J. W. Longley, was in town last week, and went to Springfield to see about the lake shore route of the N. S. Central Railway.

A large number of trees are now being set out along our main street, which will make it look much better.

H. H.

Meteorological Report for April.

April was a cold and backward month. The average temperature of three daily observations was 34-5-15ᵗʰ. Storms were not very heavy or frequent. Total snow and rainfall was light. The 26th, 27th, 28th, and 29th, were the first Spring-like days during the month.

No. of fine days 9, cloudy 8, foul 7, variable and mixed 6.

Average temperature of coldest day 23-1-3ᵗʰ, warmest 51 2-3ᵗʰ, 8th and 27th respectively.

Max. heat 66ᵗʰ, 28th; min., 20ᵗʰ, 8th and 9th. Range, 46.

No. days snow fell, 7; rain, 3.

Total snowfall, 18 1-2 in.; rain, 9-16 in.

Total moisture—rain and melted snow—3 1-4 in.

Storms—West 3, E. 2, N. W. 1, N. E. 2, N. 1, S. E. 1.

Prevailing winds, west and north-east.

Frost on 22 days.

Cloudy 421 hours on 22 days. H. H. R.

May 14th, 1888.

GOLD IN WALES.—*London*, May 21.—Mr. Morgan, the owner of the recently discovered Welsh gold mines, announces that he has compromised his suit with the Government affecting the title to the mineral deposit, and gives notice that the work of developing the mines will be resumed immediately, it having been stopped pending the disposition of the legal proceedings. In a speech at Dolgelly on Saturday evening, Mr. Morgan expressed his belief that the gold yielded by these mines is the finest in the world and stated that the auriferous area is 100 miles in length and 40 miles in breadth. Some of the ore put out from the mines already worked was stated by Mr. Morgan to have contained from 500 to 1,000 ounces of pure gold to the ton.

—Ex-Senator James G. Fair is one of the few millionaires of the far west whose gains in recent years have been greater than their losses. His fortune, it is estimated, will easily reach $25,000,000. One of his possessions is the South Pacific Coast Railroad, one of the largest narrow-gauge railroads on the continent, which cost $7,000,000 to build, and which pays a handsome interest on the investment.

—The Bishop of N S. has appointed for examining chaplains. The Ven. The Archdeacon; the President of King's College, Canon Brock; Rev. C. E. Willets, D. C. L; head master of the Collegiate School; and Rev. Francis Partridge, D. D., Rector of St. George's.

—The following are the official gold returns so far received at the Mines Office for the month of April:—

District.	Mill.	Tons Crushed.	Ounces Gold.
Darr's Hill	Dufferin	780	276¼
Oldham	Oldham United	165	55
Waverly	Wallace	7	2¼
Caribou	Moose River	185	92
Rawdon	Rawdon United	200	49¼
Whiteburn	The McGuire	38	175
Stormont	Tributers	150	251¼

Spa Springs House

AT

Wilmot Spa Springs, Annapolis County.

A COMMODIOUS New Hotel has just been built at this famous summer resort, and first-class accomodations can now be furnished to 100 guests.

The Spa Water has wonderful medical properties, and the effect upon people troubled with Dyspepsia, Kidney Diseases, Scrofula, Spinal Complaint, General Debility, and other diseases, are of the most beneficial nature, as numerous testimonials will testify.

The Springs are situated at the base of the North Mountain, amid an extensive grove of lofty pines, covering seven acres of ground. The surrounding scenery is beautiful, and charming walks and drives abound, while the Bay of Fundy is distant but a few miles. Good trout fishing can be had in the neighborhood.

Baths, hot or cold, can be had at all hours. Conveyance to Middleton Station at all hours.

Terms from $8 to $12 per week.

J. R. HALL, Proprietor.

P. S.—After 1st June a small admission fee of 5 cents will be charged for admittance to the Spa Spring grounds, and 10 cents per gallon will be charged for the water. Special terms for larger quantities, and for families wishing season tickets for admittance to grounds and use of water. tf

1888. Letter "B," No. 204.

In the COUNTY COURT,

Between STEWART L. MACK, Pltff.,

AND

WILLIAM R. LUXTON, Defdt.

UPON hearing counsel and upon reading the affidavits of J. G. H. Parker and Avard Morse, High Sheriff, dated the 12th day of January, A.D., 1888, I do order that unless the above named defendant, William R. Luxton, do appear and plead to the writ of summons in this cause within thirty days after the publication of this order in the WEEKLY MONITOR, newspaper, published in Bridgetown, in the County of Annapolis, the above named plaintiff may proceed therein to judgment, and that publication of this order for thirty days from the date hereof in said WEEKLY MONITOR, newspaper, shall be good and sufficient service of the said writ and that a copy of the order and of the said summons be also mailed, post paid, to the said William R. Luxton, addressed to his last known place of residence at Carlton's Corner, in the County aforesaid.

Dated this 24th day of January, A.D., 1888.

[Sgd.] A. W. SAVARY.

On motion of J. G. H. Parker,

Plaintiff's Solicitor.

Address, Bridgetown, in the County of Annapolis. 4it12

FARM FOR SALE!

THE Farm at Paradise Corner, containing 152 acres. It has

THREE ORCHARDS,

in all, 350 apples trees, of the most valuable kinds, mostly all in bearing. It is in a good state of cultivation. The house has lately been repaired, with a new ell added. WON'T YOU GUESS?

TO OBTAIN THE BEAUTIFUL STEEL ENGRAVING

Christ Before Pilate

(ELEGANTLY FRAMED,)

For the small sum of Twenty-five Cents.

TO call the attention of the public to the many Useful Household Articles for sale at the

Store, first door East of Post Office,

McCORMICK has placed on the counter a Jar filled with Beans, the same having been placed therein by an entirely disinterested person, who has not the slightest knowledge of the number. This Glass Jar has been solidly sealed, and will not be opened till the third night prior to Dominion Day, when it will be placed in the hands of one or more gentlemen for the contents to be counted.

Every person buying 25 cents worth will be entitled to a guess, and will have their name recorded in a book for that purpose, with the number placed opposite. The person guessing nearest to the actual number will be presented with this beautiful picture on Dominion Day. Should more than one guess the exact or nearest number, they will be duly notified, and may settle among themselves as to whom shall have it. This engraving is on India Proof Paper, and an exact copy from Munkacsy's great original, which sold for $110,000, and is really worth $15. Call and inspect the contents in store, the Steel Engraving, and at the same time carry away with you a circular giving in detail a full description of the many figures portrayed in this wonderful work of art.

Business Change!

I HAVE purchased the entire stock in trade and good will of the business so long conducted by Mr. N. F. MARSHALL, at Middleton Station, where I will continue the business in the same lines. By selling goods at reasonable prices and using the public right, I hope to secure a fair share of patronage. I will be glad to see all of Mr. Marshall's old customers and as many others as possible.

FOR THIRTY DAYS commencing May 11th, I will offer the Entire Stock of

Dry Goods, Boots & Shoes, Class & Tin Ware, Hats & Caps, etc., etc., at 20 per cent. Discount for Cash.

I have also on hand 2000 rolls ROOM PAPER, from 4 to 75 cts. per roll.

TEA.—The best in the market for 36c.

GREY COTTON from 5 cts. upwards.

Also One Car Load FLOUR and MEAL.

Come and see me and see if I can't suit you.

G. W. ANDREWS.

Middleton Station, May 7th, 1888. tf

DEAFNESS

CAUSED BY

SCARLET FEVER, MEASLES, GATHERINGS, CATARRH, WHOOPING COUGH, OLD AGE, Etc.,

Entirely relieved by a device which is positively invisible, and which has been recommended by every physician who has examined it. It is successful in cases where every other device or remedy has failed. It may be worn six months at a time without removing, causing no pain or inconvenience.

For sale only by the inventor,

H. A. WALES, Bridgeport, Conn.

T. A. FOSTER,

LONDON HOUSE.

Bridgetown, April 17th, 1888.

THE CELEBRATED STALLION

"Champion Messenger,"

Will travel through Annapolis County, for the service of mares, during the season of '88.

See posters.

CHAMPION MESSENGER is 16 hands high, a beautiful roan in color, weighs 1200 lbs., perfectly sound, with the best of legs and feet, and is pronounced by the best judges a perfect specimen of horse flesh. His size, style, soundness and breeding should make him a most desirable stock horse.

JOHN HALL.

Lawrencetown, April 24th, 1888. tf

THE STUD HORSE

ISLAND KING,

WILL travel the Counties of Annapolis and Digby during the coming season. When not on the road will stand at the Stables of Mr. Fletcher Durling, 2½ miles east of Bridgetown, on the Annapolis side.

O. F. Ruffee.
