LOCAL MATTERS.

"TWA HOURS AT HAME."—Don't fail to hear the Kennedy's to-morrow evening. It will be their last appearance before a Sackville audience.

AN AGED CONVERT. — Mrs. Thomas Wheaton, of Upper Sackville, was baptized in Morice's pond last Sunday by Rev. W. E. Hall. Mrs. Wheaton is eighty-five years old.

SCOTT ACT.—Joseph Noiles was convicted before Commissioner Cahill, on Monday, of violation of the Scott Act, and was fined $50 and costs. Complaints have been laid against Nathan Hicks, jr., and wife, and the cases come up for trial today. Two complaints against Alfred Polly, of Port Elgin, are down for trial on Saturday.

GOOD BICYCLING.—Mr. McDougall Snowball, of Chatham, and Mr. Frank Black rode last Saturday from from Middle Sackville to Mermaid Retreat, Cape Jourimaine—a distance of forty miles—in five hours. On the return trip on Monday still better time was made—the journey to Port Elgin eighteen and a half miles, being accomplished in two hours.

I.O.G.T.—At the regular meeting of Sackville Lodge, No. 134, I. O. G. T., on Wednesday evening, 4th inst., the following officers were duly installed for the current term:—

C. T.—Titus Anderson.
V. T.—Annie Scurr.
Sec.—H. A. Roberts.
F. Sec.—Jas. Johnson.
Treas.—Belle Robinson.
Chap.—L. Harrison.
Mar. Chas. Cahill.
I. G.—Flora Bowser.
O. G.—Albert Richardson.
A. T.—Alice Cother.
D. M.—Alice Outhouse.
R. H. S.—Maud Richardson.
L. H. S.—Janie Atkinson.
P. C. T.—R. K. Harrison.

SUDDEN DEATH.—Miss Amy Crane, a daughter of the late S. E. Crane Esq. of Baie Verte, died suddenly on Sunday morning last under distressing circumstances at the residence of Mr. Burton E. Black of this place where she had been for a few days on a visit. About a fortnight previously she had been picking cherries and fell from the tree. She felt no ill effects from the fall for about a week when she began to suffer considerable pain, but even then no serious consequences were apprehended. Medical aid was summoned and she appeared to be recovering until an hour or two before her death, when alarming symptoms set in. Miss Crane was a very estimable and popular young lady and her sudden removal is a severe blow to a very large circle of friends.

THE BIG RAFT.—Mr. H. R. Robertson, inventor of the mammouth raft at the Finger Board, has returned from New York accompanied by Mr. J. D. Leary, an expert in matters connected with launching, who was sent by Mr. Godfrey to report upon the prospect of getting the raft afloat. After examining the structure and finding that it was resting without strain, Mr. Leary reported that he had not the slightest doubt of the possibility of launching it from its present position. Mr. Leary has returned to New York for suitable appliances. Mr. Robertson returned to St. John to procure men, and yesterday morning the tug "Dirigo" with fifty workmen in charge of Mr. J. Olive arrived at the Joggins, where the task of preparing the raft for launching was at once resumed. Mr. Murray, American Consul General for New Brunswick, who has had large experience in rafting logs, paid a visit to the monster raft yesterday. He, as well as the parties directly interested, is sanguine that there is nothing to prevent the launching and the general impression is that the celebrated raft will be successfully floated the next high tides.

—By changes in school inspectional districts of this province that came into force in 1st ultimo, Mr. Geo. Smith's district now includes the whole of Westmorland County, as well as well as Albert and two parishes in Kings. This gives him charge of schools in which the teaching is done in the French language. This was no doubt a wise change on the part of the government, because Mr. Smith has a practial knowledge of the French language, and it is gratifying to the people themselves, who had previously urged that them schools be placed under his supervision. Mr. Smith has proved himself during the tenure of his office a useful and highly successful inspector and we would be glad to hear that the Government in adding new duties, had accompanied them with increased compensation.

On The Rise.

"Leaves are on the fall," says the poet, but Wild Strawberries leaves are on the rise just now, being utilized in such enormous quantities in making Dr. Fowler's Extract of Wild Strawberry—the infallible remedy for Cholera Morbus, Diarrhœa and other Summer Complaints.

ROUND TOWN.

—Dull hay weather.

—Thunder storm last night.

—Railway contractors have been plentiful in Sackville the past week.

—The N. S. Eastern Baptist Association meets at Parrsboro tomorrow.

—Reserved seat tickets for the Kennedys farewell entertainment at E. J. Trueman's.

—Mr. H. V. B. Bridges, Principal of the Collegiate School, Fredericton, is at the Brunswick.

—The Baptist Convention for the Maritime Provinces will meet at St. John on Saturday, 21st inst.

—Mr. John T. P. Knight, Inspector of the Merchant's Bank of Halifax, was in town on Monday.

—Mr. L. M. Wood, of the *Maple Leaf*, announces that he will shortly publish a history of Albert County.

—Shediac is seeking for incorporation. It is nearly time for Sackville to make a start in the same direction.

—The Kennedys have drawn crowded houses whenever they have appeared. Don't miss hearing them to-morrow night.

—A rifle competition took place on the Welling Range, Shediac, on Monday. There were six matches, all of which were closely contested.

—The Parrsboro schooner "Wyoma," from Calais for Parrsboro capsized in a squall off Devils Head, Me., on Tuesday of last week. The crew were rescued.

—Mr. C. W. Knowles has changed the name of the *Windsor Courier* to the *Windsor Tribune*. Mr. Knowles is an experienced journalist, and the *Tribune* under his management is sure to succeed.

—Two barques are loading deals at Baie Verte at present—one by Hon. J. Leturgey and the other by Mr. G. McKean. Mr. McKean is also loading another barque at Shemogue opposite Murray's Corner.

—The Roman Catholic church at Bathurst, known as the Church of the Sacred Heart, was destroyed by fire Monday morning. The basement of the building was used as a temperance hall in connection with the church.

—Capt. Thomas Anderson and Capt. George B. Bulmer started last night to join their ships at Montreal. Capt. Anderson is master of the ship "Asia," and Capt. Bulmer will sail as mate of the barque "Alabama."

—The annual prize competitions of the Westmorland County Rifle Association will be fired on the Killam Range, Moncton, to-morrow. There will be three matches—County, Moncton Merchants and Association—and over one hundred prizes are offered.

—The thirteen-year-old son of Rev. Wm. Aitken, of Newcastle, accidentally shot himself with a pistol last Friday. The bullet lodging in the lower part of the abdomen. Three doctors are attending him, and hopes are entertained of his recovery.

—A terrible accident occurred at Painsec Junction at 4 o'clock Sunday morning. Edward Cass, aged sixteen years, had stolen a ride from Spring Hill on the Truro freight, and, dropping asleep, fell from the train. One car passed over him, mangling his left leg and left arm in a shocking manner. On the arrival of the train at Moncton Drs. Ross and Baxter amputated the leg above the knee and the arm above the shoulder. The unfortunate youth is doing well and it is believed he will recover.

—Mr. Alex. Woods, Canadian agent-general to the Australian colonies, has returned here after a visit to the lower provinces, where he interviewed manufacturers and business men with a view to their establishing an export trade with that part of the empire. He thinks his visit will result in opening up a large fish trade from Halifax to Australia. An enormous amount of fish is consumed there, and what Canada has lost across the line she will gain in Australia. The exhibit of boneless fish from St. John at the Colonial Exhibition was seen by an Australian buyer, who was so much pleased with it that a large trade, at very profitable prices, has already resulted. Heretofore this trade has been confined to Scotland, but Mr. Woods is confident that Canada can monopolize the market.

Justice to the Home Circle.

MR. EDITOR:—In glancing through the columns of your valuable paper I fail to notice any mention of the Home Circle Base Ball Club match with the Tantramar Cricket Club, which was played on Wednesday, the 7th of August, in which match the Home Circle B. B. Club came off six runs ahead of the Tantramar club, also on the 6th of August the Home Circle Base Ball Club played a match game with the Upper Sackville Cricket Club called the "Mechanics" Club, where the B. B. Club came off 51 runs ahead. I should think, Mr. Editor, that you should do justice to the Base Ball Club and make mention of the two above named games; as it is to be considered that the B. B. club are not cricketers, but wished to have a few games with the Tantramar and Mechanics Cricket Clubs, to wear away the few hours they had to spend as on the above named day, which they were taking as a holiday. Let it be remembered that the Home Circle Base Ball Club played cricket, not base ball, with the Tantramars and Mechanics' clubs. That being the case, I think for encouragement for the Base Ball Home Circle Club, you should make mention of the two games played and no doubt it will tend to make the Tantramar and Mechanics clubs try and not let a Base Ball club beat them on their own grounds and at their own game, *Cricket*. I do not write as one who belongs to the Home Circle Club, but as one who had the pleasure of naming the *Home Circle Club*. Trusting you will make mention of this in such a manner as to give all concerned a fair and impartial understanding.

I remain respectfully,
E. L. STEVENS.

Sackville, August 9, 1886.

GENERAL NEWS.

—It seems that the thrifty Islanders have been holding their eggs too long in the hope of a rise in the markets, for the Boston commission merchants complain that the eggs now received from P. E. Island are very stale.

—Cramps and pains in the stomach and bowels, dysentery and diarrhœa are very common just now and should be checked at once. *Johnson's Anodyne Liniment* will positively cure all such cases and should be kept in every family.

—The most distressing case of scrofula or blood poison that we ever heard of was cured by *Parsons' Purgative Pills*. These pills make *new* rich blood, and taken one a night for three months will change the blood in the entire system.

—That troublesome Cough should be at once cured, as if not it is liable to terminate in Consumption. Thousands die annually that might be saved if West's Cough Syrup had been taken in time. It will positively cure the worst cases of Throat and Lung Diseases, Colds, Coughs, Hoarseness, Bronchitis, Whooping Cough. Price 25 cents, 50 cents, and $1.00 per bottle. Sold by Chas. G. Hart, Druggist.

—Yesterday a young woman named Lavinia Boal, of Sussex, performed a very brave act, by means of which the life of a little child was saved. The child wandered from his home and was sitting between the rails on the I. C. R. near Sussex when observed by Miss Boal. Just at the time she saw a train in sight rattling along. Without losing a moment she ran towards the child and snatched it off the track when the the train was within a few yards of it. Miss Boal is loudly praised for her heroism.—*Globe.*

—The hail storm last week caused great damage to crops in the Parish of St. Mary's, Kent Co. Hail stones as large as hens eggs are reported to have fallen, and the grain crop for a distance of two miles on both sides of the river were completely destroyed. One hundred panes of glass were broken in the Catholic chapel at St. Mary's and windows were broken in all the houses of the village. Hens and other small animals were killed by the hail. Damage was done in other parts of Kent Co., but St. Mary's suffered the most severely.

—Advices from Constantinople report an attempt to assassinate the Grand Vizier. That official was out driving on Sunday afternoon in Hallaghia and two shots were fired at him by a Tartar. Neither of the shots struck its mark. The assassin then pursued the carriage with a drawn sword, with which he endeavored to strike the Grand Vizier. He was arrested and taken before the Sultan at the Yildizkiosk. To His Majesty the Tartar declared that the Grand Vizier had prevented him from securing justice, and implored him to hang the Vizier.

—The returns from new gold mines are very encouraging. Fraser Bros. of Pictou had 60 ounces from 30 tons at their Cochrane Hill property. The Whitehorn mine, Queens Co., reports 200 ounces from 20 tons of quartz, the product of 3 weeks work by eight men. With the exception of Hattie's rich strike in Goldenville, in 1879, this has seldom if ever been equalled in Nova Scotia. There is also a rich strike reported at Brookville, Queens, but we have no particulars. It looks as if the halcyon days of '67 and '68 for gold mining were returning.—*Herald.*

—A Milwaukee despatch of the 10th inst. says: The results of the forest fires in the interior of the States are terribly disastrous in nearly every part of the central, northern and northwestern parts of the States the forests are burning with more or less disastrous results. The forests in every part of the States are so dry that distructive fires are liable to be reported at any moment where there is a continuous belt of timder to carry flames. Among the forests on the upper Chippewa and towards the Lake Superior region, the destruction of the fires extends all along the Lake Superior and Omaha road, near to Chippewa Falls.

Fireman's Tournament.

Halifax papers are full of description and details of the Firemen's Tournament which commenced in that stronghold of sesession on Tuesday. The city is full of visitors and everything presents a gala appearance, while all tokens of discontent are kept carefully in the background, so that strangers might be led to believe that there is no absorbing desire to throw off the yoke of Canada. The number of visiting firemen is large, although some companies that were expected have failed to put in appearance. Charlottetown sent an Engine Company, a Salvage Corps and a Hook and Ladder Company; St. John contributed a lot of firemen, the Salvage Corps, the Artillery Band and the chief engineers carriage. Woodstock and Portland, N. B., sent delegations as did also Haverhill and Barington, Mass. Yarmouth, Truro, Windsor and Amherst sent delegations and hose reels. New Glasgow furnished a hook and ladder company, and from Chelsea, Mass., came a steam fire engine and hose carriage. The visiting firemen received a cordial welcome from their Halifax brethren and a gorgeous procession was formed and paraded through the principal streets.

The Tournament sports comprise a half-mile hose race, salvage corps team race, hose reel race, flat races, hook and ladder race and tug of war for teams of ten. The first prize for the hose cart race is $300 and a silver trumpet, second prize $150. The prizes in the other contests range from $100 down to $5. The Halifax people have expended about $10,000 in decorations in honor of the occasion. To-night there will be a great display of fireworks and a torchlight procession, and the festivities will conclude to-morrow with a grand military review.

Canadian Fruit at the Exhibition.

DEAR SIR:—The Canadian fruit preserved in about 1000 glass jars, continues to be one of the chief attractions of the Exhibition, notwithstanding many of the specimens have lost their natural colors.

This Exhibition cannot fail to be of great benefit to Canadian fruit growers, as well as all other classes and no efforts should be spared to supplement this collection with fresh fruits at the earliest possible date.

All reports agree that the apple crop this season in Great Britain and on the Continent, will be under the average excepting in Spain and Hungary where large crops are reported.

Efforts are being made to extend the markets for Canadian apples directly to all the principal cities of Great Britain and on the Continent where it seems practicable.

I hope to be able to report very shortly upon the prospect of success in this direction as well as in the matter of cold chambers for fruit shipments in Canadian steamers.

Yours very truly
C. R. H. Starr
Canadian Fruit Deparment.
C. & I. Exhibition, July 28th 1886.

Dorchester.

—Lady Smith has gone for a few days to Shediac.

—We understand that Trinity Church has an excursion to Point du Chene, and that the Shediac Church Sunday School joins with them.

—The dwelling house of Mr. James Wry with all its contents was destroyed by fire on Thursday morning. Cause, a defective flue. Mr. Wry's loss is about $600. No insurance.

Moncton.

—The Merchants Bank of Halifax are about opening an agency here.

—The Madison Square Theatre Company played the "Private Secretary" to fair house on Saturday night.

—The Railway employes picnic to Point du Chene was a great success. About two thousand people attended. The day was beautifully fine.

—The City Council on Monday night, by an unanimous vote, decided to take no action for the enforcement of the Scott Act until instructed to do so by a majority vote of the ratepayers at a public meeting called for that purpose.

—The Moncton and Buctouche Railway Co. have plans for a summer hotel at the latter place with one hundred rooms built in such a style that it can be added too. Buctouche on the completion of the road promises to be a favorite resort for summer tourists. Its near proximity to Moncton will enable parties to attend the Opera here and return at the close of the play.

—Robert Weir died rather suddenly on Saturday night. He was buried on Monday with imposing society demonstrations. As he was a member of the Knights of Pythias, Fire Company and Band, all these societies uniformed, formed in procession which, with the very large number of carriages, made the procession an imposing one. It was formed in the following order: Band playing the Dead March, Firemen, Hosemen, Salvage Corps, Doctors and Clergymen, Knights of Pythias, mourners; sixty carriages.

Point de Bute.

—Slow weather for haying but crop better than it was thought it would at one time.

—Financial district meeting of the Methodist church in the Sackville district is being held here this week.

—T. Wells, Miss A. Wells and Miss C. Wells, of Wallace N. S. and Miss M. Avard, of Bristol, are among the visitors here at present.

—A very interesting Sabbath School convention or more correctly perhaps a public meeting was held on Tuesday morning under the chairmanship of Rev. Dr. Stewart in which the claims and importance of Sabbath School work were discussed by Rev's. Allen, Crisp and Paisley. The addresses were very interesting and the music seemed to give entire satisfaction to the chairman.

—Mr. B. Bryant who left Sackville thirty-six years ago, is now in a visit to his old friends here. Mr. Bryant notwithstanding his age is looking fresh and healthy, and the few friends of former years remaining alive were delighted to see him. Mr. Bryant assisted in the building of the Temperance Hall near the late James Ayre's, and a prominent part in sustaining the old Sackville Total Abstinence Society, which held its meetings and flowerished there. Mr. Bryant remarked upon the improvements in Sackville since he left it and said it had been so changed by building and ornamental trees that he hardly knew it it, the only thing not changed were the south west winds which did not seem to have lost their vigor.

Parrsboro.

—The Salvation Army is still doing a good work.

—R. G. Leckie, Esq. and family are enjoying the sea breezes at the Ottawa.

—Mrs. Doyle is selling off her stock of dry goods preparatory to leaving for the States.

—We are glad to see tdat A. E. McLeod has recovered from a serious attack of sickness.

—Capt. D. Carter has bought the tug boat "Bertha" from Messrs. B. Young & Son, and is having her repaired.

—Frank Ashe, workman on the Cumberland Railway had is hand jammed while coupling cars at Spring Hill.

—Boating parties are all the rage. Neighbor Newcombe counted eleven boat-loads that visited him at the lighthouse.

—J. G. Aikman, Esq. our railway Supt., accompanied by one of his daughters, has gone off on a well merited vacation.

—The farmers are making hay while the sun shines, but as he only shines occasionally they don't get along with it very fast.

—A pocket-book with valuable contents, was lost a few days ago by our Debating Club Treasurer. He mourns its loss and offers a reward for its recovery.

—Port Greville was taken on Saturday evening by two adventurous canoeists from New York, Messrs. S. R. Stoddard publisher of Glen Falls, New York, and R. B. Burchard, of New York City arrived in their canoe "Atlantis" from New York via St. John, having taken in the whole coast, occupying in all about 38 days. Photographs of points of interest all along have been taken and the party are now taking in Minas Basin going as far as Truro whence they will return by I. C. R.

None Better.

There is no more wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera Dysentery, Cramps, and other summer complaints of infants or adults, than Dr. Fowler's Extract of Wild Strawberry.

Elgin, A. C.

—Inspector Smith has begun his round of visitations to the schools of this county.

—Crops in this parish are said to be above the average except hay, which is in most parts only about two-thirds of the former yields

—Rev. Mr. LePage is spending his holidays on the Island. His duties have been attended by Rev. Mr. Clements, a student from Mount Allison.

—The Elgin Mfg. Co. have doubled the sales of their tubs during the past season; their tubs are becoming very popular with farmers as they test their merits.

—The schools have re-opened under the same teachers, Mr. Jonah and Miss Trimble. The former has taught in this school over four years and the latter about two

—The Division S. of T. intend holding a public entertainment on Saturday evening next as a kind of anniversary of its organization. Good music may be expected.

—Lumber operations are still carried on by Mr. Fownes who has shipped nearly three million of deals during the past season, affording labor to many men and teams in his vicinity. Mr. Fownes deserves much credit for his energy and pluck in working up his business against many difficulties.

—Mining operations continue brisk. Mr. Freeze is about to put in more horse power in order to enlarge his business. This ore is said to increase in richness as they go down and is computed to have a large percentage of silver. Other undeveloped mines are claimed including one of albertite on J. W. Steeve's farm.

Amherst.

—Mr. Murray, of St. John, American Consul General for New Brunswick, was here yesterday on his return from a visit to the big raft.

—Preparations are being made for a big excursion to St. John on the 20th inst. under the auspices of La Planche Lodge. The excursion will start from Maccan Station.

—Rev. W. H. Porter, M. A., of London, Ontario, delivered his interesting and impressive lecture, entitled "An old time hero, or Daniel, a model for young men" to a large audience in the vestry of the Baptist Church on Tuesday evening.

—The exhibition advertised for Music Hall on Friday evening last, by Slugger Magee and associates, has been postponed *sine die*. The good people of Amherst do not apparently appreciate entertainments of the sort and the management were compelled to give their performance to empty benches or adjourn.

—A number of fines have lately been imposed for violation of the Scott Act, and other cases are being brought. On Saturday, Stipendiary Cutten fined James T. Ward, of Lamy's Hotel, $50 and costs, and on the Tuesday preceding, Justice Greenfield and Hicks imposed a like penalty on Jude Babineau, of Maccan.

—Judge Morse opened his court for the final revision of the Dominion lists for Polling Districts, 1, 3, 5 and 6, on Tuesday. Two hundred and eighty-two applications from these districts are in, and it is probable that in the end most of them will be passed. Mr. Pipes, who is watching the proceedings on behalf of the Grits, or rather himself, is urging the most convincing evidence in regard to every qualification of those applied for by the Liberal Conservatives, and seems to be making the most strenuous efforts to keep nearly a hundred of the Spring Hill men off. In order that stricter evidence may be furnished in these cases an adjournment has been made until Thursday next, Mr. Pipes is called a "Liberal" and is said to be the candidate of that party at the next election!

Monumental.

A very handsme white bronze monument has just been erected to the memory of the late Alpheus Mitton, Esq., by his family at Coverdale, Albert Co. The material is white bronze, which differs from the antique or copper bronze by being lighter in color, and is endorsed by sientific men as being even more durable. It is of of a pecular rich grey color, which is much admired. It stands on a base three and a half feet square of the ashler design, above which are several beautiful members. Then come the four large epitaph tablets surrounded by fine ornamental work. The shaft is hung with rich drapery ornamented with bas-relief emblems, giving it a very pleasing appearance. The whole is surmounted by an urn of of highly artistic design making the total height over twelve feet. The monument is, perhaps, one of of the finest in this part of the country and its selection reflects much credit on the good taste and judgement of the family, whose many friends will be highly gratified to see so fitting a memorial to one so worthy to be remembered. It has been purchased from Faulkner & Huntly of Moncton, who are the manufacturer's agents for the Maritime Provinces and who show over 500 beautiful designs from which selections can be made.—*Moncton Times.*

To the Editor of the Chignecto Post.

SIR:—Assuming that fearful party exigencies demand that the bread shall be taken out of the mouth of so unquestionably upright an officer as Jailer Tait, before the suicidal step is taken, let the electoral public con this over:—that whilst undoubtedly it should be a prime consideration that that officer shall be a man of sound principles and well ascertained integrity, it is a matter of scarce by inferior moment, that in the person of the wife of the Jailor, the position calls for one fitted by experience, character and well-tried ability to discharge with satisfaction to the public the duties peculiarly incident to the position. Let, I say, this aspect of the case have its just weight and consideration, whether, if even another lady could be found in the county to discharge all her duties equally well, whether there be not somewhat to be thought of, something due to one who has filled that place as Mrs. Tait has for more than five and twenty years? I think there is; and, if Mr. Tait is removed, some lingering remains of love of British fairplay in the electorate will certainly remember it. The whole business is a sharp, two-edged sword.

—FIAT JUSTITIA.

The Age of Discovery.

We certainly ought to appreciate the fact that we are living in an age of progress and discovery, this is especically appreciated by all persons that have been afflicted with Rheumatism, as West's World's Wonder or Family Liniment is a positive cure for Rheumatism. It is invaluable for Cuts, Sprains, Bruises, Burns, Scalds and all diseases requiring external application. Sold by Chas. G. Hart, Druggist. Price 25 cents and 50 cents per bottle.

Scott's Emulsion of Pure

Cod Liver Oil, with Hypophosphites,

For Wasting Diseases of Children,

Where the digestive powers are feeble and the ordinary food does not seem to nourish the child, this acts both as food and medicine, giving strength and flesh at once, and is almost as palatable as milk. Take no other.

A Wise Precaution.

During the Summer and Fall people are liable to sudden attacks of bowel complaints, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom, always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a Physician is seldom required.

Off Work.

"I was off work two years suffering from kidney disease, and could get no relief, until desired by a friend to try B. B. B. I was cured by two bottles, and consider it a miraculous cure." The above is the substance of a communication from Wm. Tier, of St. Mary's, Ont.

ADVICE TO MOTHERS.—Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth? If so send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Dysentery and Diarrhœa, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums, reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price twenty-five cents a bottle. Be sure and ask for "MRS. WINSLOW'S SOOTHING SYRUP," and take no other kind.
