FIGURES TO SHOW EFFECT OF PACT

Comparison of Representative Canada and U. S. Markets.

GREATLY HELPS FARMER

Maritime Provinces Benefited By Free Entry of Fish.

Ottawa, Aug. 18.—One of the most illuminative contributions to the literature dealing with the economic aspect of the reciprocity agreement has just been issued by the Labor Department and has been mailed to every newspaper office in Canada.

It is the compendium of comparative prices in Canada and the United States for agriculture, fisheries, lumber and mines products covered by the schedules of the agreement, to which reference was made some days ago by Hon. Mackenzie King.

It covers 316 pages and is a veritable mine of wealth for political candidates, campaign speakers, editorial writers and all students of the vital point at issue in the discussion of the agreement—namely, as to the economic effect reciprocity in natural products will have on both producers and consumers in Canada.

Comparative Reports.

The comparative statistics of market prices at representative points on each side of the border, as gathered from reliable daily market reports, cover the past five and a half years, thus giving a true index as to the average prices.

Halifax, St. John and Moncreal prices are compared with those of Boston and New York; Toronto with Buffalo and Detroit, and Winnipeg with Chicago, Minneapolis and Duluth.

The Conclusions.

In general it may be stated that the most significant conclusions to be drawn from the voluminous and comprehensive statistics of the report are that prices received by the producers in Canada affected by the agreement are on the whole considerably below those received by producers in the United States, while in many instances the prices paid by the consumer in Canada are above those paid in the States.

The first conclusion bears out the argument that the farmer and the fisherman will greatly benefit from reciprocity. The second conclusion bears out the argument that the Canadian consumer is in many cases suffering from undue enhancement of prices by the middleman, a condition of affairs which reciprocity would tend to obviate and which explains the opposition of certain interests to the pact.

Comparative prices for fish indicate the immense benefit which free entry for fish into the American market will confer on the Maritime Provinces. Halibut at Halifax averaged during the five and a half years 9.12 cents per pound, as compared with 14.375 cents per pound at Boston; cod at Halifax averaged 3.62 cents per pound as compared with 7 cents at Boston; mackerel at Halifax averaged 14.8 cents per lb., as compared with 33 cents at Boston.

Grains and Dairy.

A few of the most illuminative figures in the report may be cited in this brief summary. In regard to grains the average of yearly prices from 1906 to 1911 shows the following comparisons:

Spring wheat—Winnipeg, average per bushel, 95c; Minneapolis, $1 04. Oats—Toronto, average per bushel, 40c; Buffalo, 46c. Barley—Toronto, average per bushel, 57c; Winnipeg, 47c; Buffalo, 76; Duluth, 61c. Rye—Toronto, average per bushel, 71c; Buffalo, 88c.

In regard to fodder the comparison, covering the average of the five and one-half-year periods, shows the following:

Hay—St. John, per ton, $19 87; Montreal, $12 98; Boston, $19 61. New York, $21 89; Toronto, $12 57; Buffalo, $16 59.

In dairy produce average prices as compared for the various cities show on the whole a fairly stable equilibrium, with market prices sometimes slightly higher on one side of the line and sometimes vice versa, but the general average about the same on both sides.

Cattle Prices.

In regard to live stock the comparison of average prices for the period covered shows the following:

Cattle—Toronto, export steers, per cwt., $5 51; Buffalo, $6 48; Winnipeg, $4 22; Chicago, $7 04. Hogs—Toronto, per cwt., $6 95; Buffalo, $7 35; Winnipeg, $5 60; Chicago, $6 99.

AUTO SKIDDED INTO RIVER

Montreal, Aug. 18. — Two persons were killed and two others badly injured at Rosemere, twenty miles from Montreal, last night, when an auto, carrying four passengers, skidded off the wooden bridge and plunged into the waters of the River Jesu. The dead are Mr. Joseph Gormar, an ex-mayor of the municipality of Outremont, and a woman whose name could not be ascertained last night. The two persons injured were Mr. Joseph Egan, of Montreal, and a woman whose name it was impossible to learn last night.

The accident occurred at 11 o'clock when after a run through the country the auto was being driven back over the bridge from Rosemere to St. Rose on the other side of the river.

A WEALTH OF BEAUTIFUL HAIR

Nothing equals an aureole of beautiful hair as a frame for a pretty face. Without a background of nice hair a really pretty face frequently becomes plain and, with it, unattractive features assume life and beauty.

Every woman can increase her natural charm by using Newbro's Herpicide. Herpicide makes hair beautiful. The dandruff germ saps the vitality of the hair. Herpicide kills this germ and prevents the hair from falling out, giving it a snap and lustre, a soft, silky fluffiness which can be acquired in no other way.

Your druggist will sell you a one-dollar size bottle under an absolute guarantee.

Send 10c in postage for sample and booklet to The Herpicide Co., Dept. R., Detroit, Mich.

Applications may be obtained at the best barber shops and hair dressing parlors.

Anderson & Nelles, 268 Dundas street, and Callard & McLachlan, 390 Richmond street, special agents.

A SIGNAL HONOR FOR MRS. BOOMER

London Lady Will Be Made a Life Patron of Council of Women.

In a letter of sympathy from Mrs. Langford, of Hamilton, treasurer of the International Council of Women, she proposes to honor Mrs. Boomer, president of the London Local Council of Women, by making her at the coming executive meeting of the International Council, to be held shortly at Stockholm, a life patron of the same in succession to Lady Edgar, the former president of the Canadian National Council of Women.

This honor is reserved mainly for those who have been among the earliest workers of any National Council, and the London branch will naturally be grateful to Mrs. Langford for thus honoring its president.

The following is an extract from a letter from Lady Aberdeen to Mrs. Boomer after receiving word from Mrs. Varker that she was gradually recovering from the carriage accident of July 20:

"Thank God you were saved from fatal injuries. This is only a preliminary note, just to say how we are thanking God for your preservation."

TORONTO'S BIG FAIR OPENS MONDAY, AUG 28

Coronation Procession and Coldstream Guards' Band Leading Attractions.

When his Excellency Earl Grey, Governor-General of Canada, on Monday, Aug. 28, touches the button that sets in motion the machinery at the Canadian National Exhibition, it is confidently expected that the greatest fair in the history of the Dominion will be under way. Never before have arrangements been made on such a mammoth scale. The fine exhibition park, with its $2,000,000 worth of exhibition buildings, has been further improved to the extent of $300,000, and it now has paved streets, a new postoffice, a new building for women's work, and a lighting plant of its own, furnishing 20,000 lamps for lighting and decorative purposes.

The attractions, too, are on a more ambitious scale than ever before attempted. The reproduction of the coronation procession is in itself a tremendous undertaking. It was necessary to bring the hundreds of various uniforms from England, and to drill 1,500 of Canada's citizen soldiers in the parts they were to perform, but it has been done and done well, and visitors to Toronto will see the great pageant just as it passed along the streets of London, when King George and Queen Mary were crowned.

The bringing of the Coldstream Guards' Band, King George's household musicians, from London, is another big undertaking, but they were needed to lead the twelve massed military bands in the Festival of Empire music, and they had to come.

Then there are international acht races, motor boat races, eight-oared races, horse races, athletic sports, circus and vaudeville, and a score of other special attractions. The "Ex.," as it is called in Toronto, surely promises two full weeks for all visitors.

WILEY CREATES BIG SENSATION

Doctor Declares Three Cabinet Officers Reversed Government Ruling.

Washington, Aug. 18.—Dr. Harvey W. Wiley, chief of the bureau of chemistry, created a sensation today before the House investigating committee when he charged that three cabinet officers, sitting as a board of review, had reversed the Government's ruling in a corporation case after the corporation had offered money to chemists to indorse its food product. The case was that of the Corn Products Company, whose right to apply the name "corn syrup" to glucose the bureau of chemistry and the board of food and drug inspection had denied.

Dr. Wiley testified that when the bureau and board agreed that the name was a misapplication the corporation offered money to chemists to make affidavits that "corn syrup" was a proper description. Shortly afterward, he declared, a board of three cabinet officers, Secretary of the Treasury Cortelyou, Secretary of Commerce and Labor Straus and Secretary of Agriculture Wilson set aside the decision of the corporation. That ruling, he added, still stands.

The Corn Products Company, said Dr. Wiley, charged that he had been "very busy" in creating sentiment against its products. He acknowledged that he had written to every state chemist whose duty it was to enforce the pure food laws. He said he did not receive one answer favorable to "corn syrup." He will resume the stand tomorrow.

Dr. Wiley said he did not question the honesty of the members of the Remsen board, but he pointed out that they did not make investigations themselves. He said he had not felt free to discuss cases with Secretary Wilson since the board of food and drug inspection was created, but had no doubt of the secretary's honesty and zeal.

"I am not seeking vindication," declared Dr. Wiley. He said he had not asked to be heard before the committee and reiterated his denial of an alleged illegal arrangement with Dr. Rusby, saying he had no knowledge of it and had approved no agreement.

PRINTERS TO BAR CHINESE LAUNDRIES

International Union Passed a Resolution to That Effect.

San Francisco, Cal., Aug. 18. — The International Typographical Union, in convention here, passed a resolution today expressing the sense of the convention that all members should refuse to patronize Chinese laundries, restaurants and other institutions. The resolution was introduced by Delegate G. M. Sheldon, of Lowell, Mass.

It was voted unanimously to cancel the $5,000 note from the Hatters' Union, held by the Typographical Union, and to return the note with the compliments of the Typographical Union.

A proposal by Delegate Maxwell, of Topeka, Kas., to take $100,000 from the old age pension fund, which is now $400,000, and use it for the erection of a permanent administration building, in Indianapolis, was referred to the national executive council to be voted on at the next general election.

The request of the Seattle union for authorization to begin the publication of an eight-page daily paper to offset the attacks which the Seattle delegates said were being made against the union in Seattle, was defeated.

THIEVES CARRY SAFE TO STREET

One Makes a Dog Bark To Drown Noise; Others Remove the Steel Cabinet.

St. Louis, Aug. 18.—A massive iron screen kept the wolves from the door and enabled burgars to remove a 2,000-pound safe from the saloon of Emil Friesz, Forty-second and State streets, East St. Louis, between 1 a.m. and daylight Saturday.

Friesz, who is a brother of Sergt. Joseph Friesz, of the East St. Louis police force, resides in a flat above the saloon. In the backyard he has a private zoo, containing four fighting bulldogs, several wolves and a miscellaneous menagerie of badgers, otters and hybrids.

"The place looks strange," said Friesz when he opened the saloon Saturday morning. "Something seems to be missing."

He observed that the side window and side door were open and that the safe was out in the street. Then he remembered that the bulldogs had barked incessantly and the other animals had yelped and whined for an hour or two during the night.

The robbers had worked with great deliberation. They laid board tracks across the floor to remove the safe and did the job of "cracking" directly under an electric arc light. It is believed one of the robbers threw stones at the bulldogs to make them bark and drown the noise of breaking the safe.

The time and energy required to roll the ton of iron to the street were expended in vain. The robbers knocked the combination off the safe, but could not open the door. They contented themselves with $10 taken from the cash register.

Friesz sold a piece of real estate Friday for $2,850 and put the money into the safe. Later in the day he took the money to a bank, but this fact evidently was unknown to the robbers, who had learned of the sale and where the money was put.

Friesz says if his menagerie had been turned loose the animals would have cleared the neighborhood of robbers within three minutes.

BOLT HIT HOSPITAL

Patients at Gravenhurst Sanatorium Receive Shock.

Gravenhurst, Ont., Aug. 18.—This morning at 11:30 lightning struck the Minnilwaski Sanatorium. The bolt hit the electric lightning wires at the point where they enter the building at one of the bedrooms in the north tower, fusing the wire.

The shock entered the windows of the three bedrooms in the tower, and smashed glasses, plaster, etc., in great pieces from the wall, both in the lower bedrooms and the upstairs hall.

No patients were injured, but two ladies, Mrs. Lees and Mrs. Coulson, both of Toronto, who were in the first floor bedrooms at the tower, received a slight shock. The sheet of flame entered the room, blackening part of the wall, and struck one of the brass posts of the bedposts in which one of the ladies was lying, and ignited one of the lace curtains.

At first it was feared that the building had caught fire, but the smoke was only what was left from the burned insulation.

A WINDSOR MYSTERY

Body of Unknown Man Found Near Sandwich.

Windsor, Ont., Aug. 18.—Considerable mystery surrounds the finding of the body of an unknown man floating in the Detroit River near Sandwich early this morning. The body, which is that of a well-dressed man of about 45 years of age, had apparently not been in the water for more than an hour or two, and was quite warm when taken from the water. There was nothing to indicate who the dead man was, no papers of any kind being found in the pockets.

Coroner Labelle, who was called, decided that an inquest was unnecessary, there being no marks or bruises on the body to indicate foul play. The body was sent to a private morgue, where is it held to await possible identification.

The "floater" was found by Miss Marion Hind, daughter of Rev. D. H. Hind, rector of Sandwich parish.

SEVEN YEARS PAIN FROM ACUTE NEURALGIA

CURED THROUGH THE USE OF DR. WILLIAMS' PINK PILLS.

Neuralgia is not a disease—it is only a symptom. It is the surest sign that your blood is weak, watery and impure, and that your nerves are literally starving. Bad blood is the one cause—good, rich, red blood its only cure. There you have the real reason why Dr. Williams' Pink Pills cure neuralgia. They are the only medicine that contains, in correct proportions, the very elements needed to make new, rich, red blood. This alone reaches the root of the trouble, soothes the jangled nerves, and drives away the nagging, stabbing pain, and braces up your health in other ways. Mr. M. Brennan, an ex-sergeant of the Second Cheshire Regiment, now a resident of Winnipeg, Man., says: "While serving with my regiment in India, on a hill station, I contracted a severe cold which brought on acute neuralgia, at times lasting for three weeks. I was constantly suffering almost every month in the year for over seven years, the pain being sometimes so severe that I wished I was dead. On my return to England I seemed to get no better, though I spent large sums of money for medical advice and medicine. Then I came to Canada, and about a year ago saw the advertisement of Dr. Williams' Pink Pills in a Winnipeg paper. Although I had begun to think my complaint was incurable I told my wife that I intended giving the Pills a fair trial. I was suffering from terrible pains when I began taking the Pills, but before the second box was finished the pain began to disappear, and under a further use of the Pills it disappeared entirely, and I have not had a twinge of it during the past year. Only those who have been afflicted with the terrible pains of neuralgia can [illegible] what a blessing Dr. Williams' [illegible] have been to me, and you [illegible] are I shall constantly recommend them to other sufferers."

These Pills are sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2 50 from The Dr. Williams' Medicine Company, Brockville, Ont.

CROOKED ROULETTE COST HIM $140,000

How a "Steel King" Dropped Huge Sum at One Sitting.

[Canadian Press.]

New York, Aug. 18.—The story of an Atlantic City gambling game, in which an unnamed "steel king" lost $140,000 in one lump is told by Mrs. Anna Betts in connection with her suit against her husband, Louis L. Betts, for a separation and $25,000 a year alimony. The statement is made by friends of Mrs. Betts that the man who lost the $140,000 is assisting the district attorney at Atlantic City in efforts to eliminate gambling from the resort. This man charges that he was robbed of the $140,000 by electrical devices which manipulated a roulette wheel. Mrs. Betts says in her suit that her husband owns property in New York City, Richmond, Va., and Florida. She estimates his income at $100,000 a year.

MILK POISONED

Noxious Weeds Eaten by Cows Cause Death of Wiarton Man.

Wiarton, Aug. 18.—Joseph Roger Forbes, son of William Forbers, a farmer living in Amabel Township, about eight miles from here, died yesterday as a result of milk poisoning from using butter and milk from cows that had been poisoned by eating noxious weeds. His mother and brother are at present lying very ill from the same cause.

USEFUL IDEAS FOR ECONOMY.

Few things can be bought in bulk to advantage. Soap improves with age and is cheaper bought by the box. Bacon is best purchased by the slab, and the dripping should always be saved in a little jar kept for the purpose. Except for baking, it is a good substitute for lard. Always reserve the tails of steaks for hash. This is a very wholesome dish when made of fresh meat. All left-overs should be saved and are better reserved in their original form than mixed with half a dozen ingredients. Lump sugar bought loose is cheaper than cut sugar in boxes, and granulated should be bought by 25 cents' worth. For laundry work, especially flat work, a mangle is indispensable, saving the material and lightening the labor. You would not be without it, once tried. Washing sent out to laundries is more or less expensive, considering the awful wear on material. Dishcloths sprinkled with the following preparation—equal parts of coal oil, vinegar, and sweet oil—will be rendered dustless; that is, no shaking will be necessary. All scraps of soap from bathroom and kitchen should be thrown in the boiler for washdays.

THE WELL-DRESSED MAN inspires confidence. To be well-dressed is not to be over-dressed, but to be attired in suitable clothing.

The Curzon tailoring is something more than ordinary workmanship, just as the Curzon cut is something outside the realm of mere draftsmanship. It means Distinction and Character. That is why well-dressed men, not only in Canada, but all over the World, wear Curzon clothes.

Overcoat to Measure
