Three Prairie Provinces' Yield of Wheat Valued At a Hundred Millions

Canadian Press Despatch.

WINNIPEG, Sept. 1.—The Manitoba Free Press publishes today its annual estimate of the crop yield of the three prairie provinces, the feature of which is the total wheat yield of 134,500,000 bushels, and a selling value of all grades of $100,000,000. The report is a very encouraging one in view of the many adverse conditions from which the crop has suffered. Drought, frost, black rust, and in some districts cut-worms, have all taken their toll, little or big, of the 1914 crop.

Following are the figures:

	Acres.	Avg. yield bushels.	Total bushels.

Manitoba	3,841,428	13	49,938,564

MONTREAL GRAIN MARKET.

MONTREAL, Sept. 1.—Prices on the local grain market were unchanged, with very little doing. Oats over the cable were unchanged, but no business was reported. Demand for flour from over the cable is good, several enquiries being received for full cargoes for shipment to outside ports, in addition to orders for round lots of all grades from London; but, as millers at present are taxed to their full capacity, no business resulted. The local market is very active and firm. Millfeed is scarce and wanted.

WINNIPEG GRAIN MARKET.

Receipts show a rapid increase. Inspections Monday, 392 cars, including 276 of contract grade.

FARMERS' BARNS GIVE UP WHEAT

Disposition to Release the Hoarded Grain Caused Dip in Quotations.

CHICAGO, Sept. 1.—Reports that farmers were showing a disposition to sell more freely than has recently been the case had considerable to do with a downturn in the price of wheat today. The market closed unsettled, ⅞c to 1¼c under last night. Corn showed a net decline of ¼c to ½c, and oats off ¼c to ⅜c. In provisions, the outcome varied from a drop of 55c to 7½c advance.

Indiana and Ohio millers were referred to as vouching for the assertions in regard to an apparent change in the attitude of farmers, who, of late, had been represented as almost unanimous in holding wheat back for higher prices, expected because of the war. Country offerings to Chicago houses were also reported as having increased, and Kansas City was said to have loaded 350,000 bushels for shipment here, the Kansas City market being on a full shipping basis.

More Timely Rains.

General rains had a bearish effect on corn, and so also did a decided increase of available supplies. Speculation, however, was inactive.

A big trade was on in oats. Heavy deliveries to holders of September contracts depressed the market, but the seaboard became a free buyer on the decline. Shipping sales aggregate 300,000 bushels. Export call showed no let-up.

Provisions averaged lower on account of September deliveries being on a larger scale. Higher prices for hogs were virtually ignored.

In the third convoy were 400 soldier prisoners and a woman spy.

EXCHANGE RATES AGAIN ADVANCED

Adverse Factors in European Situation Were Reflected at New York.

NEW YORK, Sept. 1.—Financial sentiment was again adversely affected today by the extension of the British moratorium and a slight hardening of foreign exchange. Acknowledgement by the chancellor of the exchequer that it would be unwise to attempt to resume specie payments at this time coincided with private advices received here regarding financial conditions in London.

The recurrent rise in exchange was once more attributed to the reported advance of the German army towards the French capital. Anent the exchange market, it was authoritatively declared, that enough exchange had been accumulated by the City of New York to meet its immediate obligations abroad. Demand sterling was quoted at 507 and cables at 508. There were some scattered quotations for exchange on Paris, but these proved to be merely nominal, while German marks remained unquoted.

Railway Earnings.

Several of the important railway systems submitted July reports today. That of the Union Pacific shows a moderate net decrease, but the New York Central reports an increase of $202,000 in net revenue, due to a heavy decrease in expenses. Both roads made a vastly better showing that the Pennsylvania, whose revenues east and west of Pittsburg reflected reduced tonnage.

Routine developments included a statement from the stock exchange clearing house indicating that all but one per cent. of the business contracted on the day the exchange has been cleaned up, another small shipment of gold to Ottawa and a plan proposed by bond brokers to resume business on a restricted scale, subject to the approval of the banking authorities.

RELEASE OF CARGOES WILL BE EXPEDITED

Committee Will Meet Daily in London to Settle Problems.

Canadian Press Despatch.

WASHINGTON, Sept. 1.—The department of commerce announced today that Sir Edward Grey, British secretary for foreign affairs, has informed Ambassador Page of the appointment of a special committee to deal with all cases, on their merits, regarding the release of grain cargoes diverted to England.

"This committee," said a statement from Secretary Redfield, "is communicating with various representatives of American shippers and will be ready to hear any such other representatives as desire to be heard. It will hold daily sessions at the board of trade, London, and all communications should be addressed to the committee's secretary, H. C. Money, harbor department, board of trade. No difficulty is anticipated in regard to the release of cargoes, about which the question of prize does not arise."

SMALL SQUIRREL HAD NARROW ESCAPE

Two Snakes Got Into His Cage and Badly Frightened Him.

A small red squirrel caged in the natural history section of the government building was so frightened yesterday afternoon that it held by its claws to the sides of its wire cage nearly all night. Two riband snakes from the cage next to it some way managed to get into its compartment. One took possession of the water pan, where all the squirrel's food was, and another patroled the bottom of the cage.

The snakes were removed by attendants after being in the cage several hours.
