To the Freeholders of the City and County of St. John.

GENTLEMEN—

I HAVE been solicited by many highly respectable Freeholders, and nominated by an influential Meeting of Gentlemen deeply interested in the welfare of the Province, to be a Candidate for the honor of Representing the City and County of Saint John; and being, previous to such solicitations and nomination, strongly inclined to offer my services again as your Representative, I now beg leave to make known my intention of coming forward at the approaching General Election, as one of the Candidates.

If an opportunity is afforded, I will, previously to the opening of the Poll, make known my opinions and views with regard to the present extraordinary crisis in Provincial affairs, and now only state generally, that the time *has come* when it is absolutely necessary—*First*, greatly to reduce the public expenditure in almost every Department and Branch of the Public Service, *not in words only*, but in *deed, and in fact. Secondly*, to give due encouragement to all branches of Provincial *Enterprise* and *Industry*, by extending our present, and, wherever practicable, by opening new channels of COMMERCE—by extending to the utmost, our AGRICULTURE, (the basis of all prosperity,) MANUFACTURES, and FISHERIES. And *Thirdly*, to effect such changes in our Constitution, as our changed relations with the Mother Country have rendered necessary, and even indispensable. And, *Finally*, as it is now too painfully apparent that we have but a faint chance of Protection from the Imperial Legislature, and no better prospect of a fair reciprocity in Trade with the United States, we ought, as a matter of imperious necessity, to turn our attention *inwards*, and *resolve, one and all*, to protect ourselves.

I have the honor to be,
Gentlemen,
Your obedient servant,
CHARLES SIMONDS.

June 11, 1850.

To the Freeholders of the City and County of St. John.

GENTLEMEN—

THE time has again arrived when you have the privilege of selecting men to represent you in General Assembly. In soliciting a renewal of your confidence, I do so on public grounds. You are the judges of my political conduct during the past four years, and how far it has been in accordance with the principles which I stated should govern me if elected. My principles are unchanged—experience confirms me in the opinion that the one-sided system of Free Trade adopted by the Imperial Parliament is injurious to the great interests of the Empire, and one great cause of the present depression in this Colony, and has caused much ruin among the mercantile and lumbering classes. At the same time, I am of opinion that the local legislation has been equally injurious, by the absence of any policy that would give sufficient encouragement to the Farmer, the Mechanic, and the Fisherman. While I have advocated low duties on articles of necessary consumption, which the Province is not prepared to produce or manufacture itself, I am of opinion that under a wise tariff, the application of the productive labour of the inhabitants to the varied resources which this fine Province contains, would render the people prosperous and contented—and I believe that the interests of the trading classes are much more dependant upon the active and profitable employment of the laboring classes, than upon low duties, which encourage the importation of articles interfering with domestic productions and manufactures, and which would consequently lessen the employment of labour and machinery in the Province—I am at the same time ready to advocate such measures of reciprocity with other countries as would be mutually beneficial.

During the first session that I held a seat in the Legislature, I demonstrated from the Custom House returns, that the course of trade carried on by the Province would, by its effect upon the currency, from the excess of imports, derange the Banking affairs and restrict the circulation of money, and render property from scarcity of money, impossible for the payment of debts, and almost valueless—the results have fully confirmed my calculations.

I have strenuously opposed the imposition of an export duty on sawed lumber, as bearing unjustly upon the individual holders of land.

I have invariably advocated such reductions in the public expenditure as would bring it within the means and reduced circumstances of the Province, and have been opposed to high and extravagant salaries in all cases.

I am desirous that such reforms should be made in the Law as would relieve the country from the great expenses of litigation, often ruinous to the debtor, and of little benefit to the creditor.

I am favorable to give to each County the management of its local affairs, and place at the same time the initiation of money votes in the hands of the Executive.

ROBERT D. WILMOT.

To the Freeholders of the City and County of St. John.

GENTLEMEN,—

I INTEND offering myself again for your suffrages at the approaching Election. I feel that during the last four years I have to the best of my ability endeavoured to serve you faithfully, and should you approve of the course I have pursued, it will gratify me much to be again honored by your confidence. My opinions on the leading topics now agitating the public mind, relating externally to our trade, and internally to the necessity of unqualified local control over local matters, Municipal Institutions, Initiation of Money Grants, Reduction of Salaries, with Retrenchment and Economy in the public Expenditure, and Public Internal Improvements, are so well known and have been so often expressed, that it is unnecessary for me at present to say more than that my views are unchanged; and that I shall endeavour, on the day of Nomination, to assign the reasons that have hitherto governed me, and to shew why I think that the day has arrived when the people must take the management of their own affairs into their own hands to a much greater extent than they have hitherto done, and without which the old system of Recklessness, Extravagance, and the want of any true responsibility will inevitably continue, and the political regeneration and permanent improvement of the Province be retarded.

I am, Gentlemen,
June 11, 1850. W. J. RITCHIE.

To the Freemen and Freeholders of the City of Saint John.

GENTLEMEN,—At the approaching Election for Members to represent you in the General Assemby of this Province, I, induced by the repeated solicitations of a great number of the Electors of this City, shall appear at the hustings, a Candidate for your suffrages. In doing so, I deem it my duty to put before you in plain unmistakeable language the pinciples which, if honored with your confidence, I pledge myself to advocate and support.

I shall advocate a party departmental Government, in opposition to the present or any future coalition Government, believing a coalition Government a species of corruption not to be tolerated.

I shall advocate that the Initiation of Money Grants shall be surrendered to such a Government, based upon the principles of pure responsibility, thereby closing the main flood-gate of corruption in the House.

I shall advocate the full and free introduction of Municipal Institutions among the people, that they may be taught the principles and art of self-Government.

I shall advocate vote by ballot, believing that mode the only sure preservative of the purity of Elections—with a Registration of Voters.

I shall advocate a reduction in the Civil List Bill, consistent with the requirements of the Province—the Governor's salary to be £1000, and the rest in proportion.

I shall advocate the raising a Revenue not to exceed £50,000 per annum, to accomplish which I shall advocate a fair and reasonable protection to the Farmer, the Mechanic, and the Manufacturer.

I shall advocate those measures which will develope the resources of this Province, railroads, &c.

I shall advocate Triennial Elections, and a Tariff of equal duration with the House.

I shall advocate that we have and possess the full controul over our own Provincial affairs; and in reference to our external relations, I shall advocate, that by delegations or petition we make known our wants to Great Britain, and remonstrate against the present ruinous policy pursued by her in reference to this Province; and should that policy not be changed, and no equivalent for our lost trade be granted, then the alternative, separation, must be insisted upon.

At the Hustings I will give my reasons for adopting the above principles, and will then and there, as I do now, pledge myself, if elected, to devote my talents and energies to carry out the same. Until I meet you at the Hustings.

I remain, Gentlemen,
Your obedient Servant,
June 11. W. H. NEEDHAM.
