Fanny tender, with Commander Ogle, Flag Lieut. Cochrane, &c.

The revision of the French Constitution is again talked off. Serious disturbances had occurred south of Lyons, but they have been suppressed.

DENMARK AND THE DUCHIES.—The Cologne Gazette of the 10th has a telegraphic despatch from Altona of the 9th stating that some skirmishing took place on the previous day on the whole of the outposts. The left wing of the Holsteiners, the 9th and 11th battalions of foot and the first regiment were driven back upon Studarstapel, but being reinforced by another detachment they advanced again and forced the Danes back upon the French. Fifty eight captured Danes were brought to Rendsbourgh, and the wounded of the first regiment of the line in wagons.

GERMANY AND HUNGARY.—A partial ratification of the treaty of peace has been exchanged at Berlin. Seventeen States of Germany approve of it. The Austrian government has issued a record of all those who were put to death by the Hungarians either by sentence of their court marshals or their tribunals in Hungary and Transylvania.

The Bordeaux papers bring an appalling account of the fatal termination of Lieut. Gale's balloon assent, on horseback from the Hippodrome of Vincennes in the neighborhood of the city, on Sunday, Sept. 8. Lieut. Gale had succeeded in reaching the ground with his pony, when the people who came to assist him, misunderstanding his directions, after the pony was released, let go the ropes. The unfortunate aeronaut, hanging on by his hands to a rope, was instantly caught up in the air with the balloon, which continued ascending for upwards of a mile.—The next day a corpse was discovered in the direction which the balloon had taken which was identified as that of Lieutenant Gale.

ENGLISH PAPERS EXCLUDED FROM ROME.—The Roman Post Office has recommenced its rigorous exclusion of such foreign newspapers as express opinions unfavourable to the Papal Court, or to any of the branches of admiration. All the Democratic press of England, France, and Tuscany, has been long since prohibited; but though the *Times*, *Galignani* and the *Journal des Debats* have nominally free entrance, not a day passes but one or other is excluded. Remonstrances are made in vain, and even now the journals addressed to resident diplomatists to whom some courtesy was hitherto shown, are devoted to the same extremity.

IRELAND.

The rent at the meeting of the Repeal Association on Monday was £3 and a few odd shillings.

On Sunday about five hundred men assembled on the lands of Turryskatie within one mile of Armagh, and there cut down eight acres of oats, and carried them away, without any one to obstruct them.

The National Synod at Thurles have decided upon establishing a Roman Catholic University in Ireland, in opposition to the Government and Protestant establishment. Every ecclesiastic in Ireland will be called upon to pay an annual tax of two per cent. on his income for its support; and a committee has been already named for carrying the project into effect. The Archbishop and Dr. Cantwell for Ulster; the Archbishop and Dr. Derry for Connaught; the Archbishop and Dr. Healy for Leinster; the Archbishop and Dr. Foran for Munster. These prelates are to associate with themselves as many priests, and a similar number of laymen are to be associated with both, to form a provisional committee for carrying the project into effect. Dr. Cantwell, it is said, commences by a subscription of £11,000.

SWITZERLAND.—AVALANCH OF ROCKS.—CHUR, Sept. 3.—Great alarm was occasioned last night, at 2½ o'clock, by the falling of the rocks at Felsberg. Nearly the entire population, roused from their beds by the fearful crash of the rocks almost an hour previous to their fall, had quitted the village, and stood on the plain beyond awaiting the awful catastrophe.—The night was tolerably light: suddenly a tremendous crash was succeeded by thick clouds of dust, and large masses of rock were precipitated from the heights, apparently upon the village beneath. So fearful was the noise that all concluded that the village was buried, but on rushing to the spot the inhabitants found a huge wall of rocks piled up at the very extremity of the village. About twenty of the blocks were as large as a small house, and innumerable others were of rather less dimensions. It is possible that these masses may stand for some time; but the danger is imminent, as they are piled immediately beneath the precipice.

WARNING TO SPECULATORS.—In June last, the *Times* warned the public with respect to a California Gold Region Association, which had been advertised in the London papers, with a list of directors whose addresses turned out to be partly if not entirely, fictitious. Nothing more was heard of the scheme for a time. But it now appears that the concocters are still in full activity, and that they must already have raised a considerable sum. The "California Gold Regions Association" has changed its name to the "Anglo-California Gold Mining and Dredging Company," and the Directors have despatched an expedition of Cornish miners under Sir Henry Vere Huntley, R. N., late Governor of Prince Edward Island, to arrive in that country about the end of the present month. Some suspicious-looking reports from a Mr. James Palmer, "an eminent engineer," are being circulated, with the hope of inducing people to apply for shares. The writer of the City articles in the *Times* reminds all credulous folk that every account hitherto received from California, has established the fact, that not a single instance has yet been known where miners have continued to work as a partnership body, even when the total profits were to be fully divided amongst them, so that the prospect of men working that the result of their labour may be transmitted to the shareholders in England may be easily estimated. Moreover, the only known city name in the published prospects is that of Messrs. Spooner, Attwood & Company, who are made to figure as its bankers; and its firm, upon application being made to them, state that the company have no account with them, and have never had authority to use their names!

PROTESTANTISM ADVANCING.—Our readers will remember that a few weeks ago, we published a long account of the wonderful revival in Ireland—about 600 Roman Catholics having at that time joined the Episcopal Church. We thought, then, that the movement was principally confined to the lower classes. It seems, however, not to be so. The following from the Achill Missionary Herald, comprises the latest intelligence which we have received. May God carry on the blessed work!

There is a movement among the Roman Catholic countrymen (the Irish) to an extent of which, perhaps, few are aware. We have been informed that among the students in our Protestant University, there are now converts from the Church of Rome, and we can name sixteen ministers of our Church who have been won to the services of Christ from the same apostate communion. It is also notorious that great numbers of the lower classes have openly come over from the ranks of Romanism, and that there is, generally speaking, among the Roman Catholic population, an unexampled desire to know the points of difference between the two Churches. The authorities of the Romish Church are not slack in their endeavours to arrest the progress of this movement, nor have they failed to avail themselves of the powerful agency of the press for that purpose.—Not satisfied with the many papers which hitherto advocated their cause, they have ordered the Tablet to this country, in order that its able editor might be placed in the most advantageous position for giving his services to the cause of Popery, where the urgency of the case seemed most to call for them.—*Western Episcopalian.*

WISTAR'S BALSAM OF WILD CHERRY.

This medicine, coming from a respectable source, and carefully prepared by an experienced and careful physician, is received by the public with confidence. Its efficacy has been proved in many obdurate cases of disease, and its fame has rapidly extended. It has been extensively used in every part of the country, particularly in the Middle and Northern States; and strong testimony from intelligent and highly respectable persons, has been adduced in favour of its merits as a remedy for Colds and Coughs, Affections of the Chest, diseased Liver and Dyspepsia.

[From the Cincinnati Daily Times.]

We would advise our readers who are labouring under an affection of the Lungs, to make immediate trial of this truly excellent medicine. The most intelligent and respectable families of our city have adopted it as a favourite family medicine; and persons predisposed to Consumption who have used it, speak in the highest terms of its efficacy.

Abraham Skillman, M. D., of Boundbrook, N. J., says it is the BEST MEDICINE for CONSUMPTION, in every stage that he has ever known.—We migh refer you to hundreds of cases, had we room, that would convince all of its great virtue.

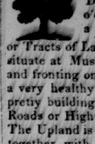
By Public Auction, situated at MUSQUASH, only 16 miles from St. John.



THE Subscriber will sell on THURSDAY, the 17th of October, at 11 o'clock at his Sale-Room, the whole or a portion, of the following FARMS or Tracts of Land, the property of Col. Anderson, situate at Musquash, in the Parish of Lancaster, and fronting on the Musquash River, they are in a very healthy and pleasant situation, and have pretty building sites, &c., on each, with good Roads or Highways running through the same.—The Upland is of very good quality, and the Marsh together with a large portion of interval which will be attached to some of the Lots, is unsurpassed for fertility and richness in this country.

A large part of the Upland has been cleared and under cultivation, and is well enclosed with cedar rail fence, of which wood the Farms have an abundance for any further fence that might be required. The buildings consists of a large 2 story House well built and finished, very warm, contains 13 rooms, (7 with fire places,) Halls, Pantry, frost proof cellar, Dairy with a well in it, 2 large frame Barns, Sheds, &c., a root house (will hold 3000 Bush.) and other out buildings, all new—a saw mill in good repair on a never failing stream with a great fall, containing 2 vertical saws with circular do. and 2 Lath saws, also, 3 small Tenements.

These Properties are accessible at all seasons of the year, either by land or water. A vessel of 200 tons can come up to the property and ships of any tonnage now load within 2 1-2 or 3 miles of it; a daily mail coach passes through it, to and from St. John and St. Andrews; there is abundance of fine limestone on them and a good fishery in front, a good market on the spot, in the midst of extensive Lumbering establishments, the village of Ivanhoe and the Lancaster mills being within a mile of them.

A plan of the properties may be seen at the Subscriber's Auction Room, and all other information touching the Sale.

Lot No. 1 comprises	about 200	acres,	20 of marsh;
